## About this guide

This is a full user guide to My Sage Pay.

If you have any questions about this guide, please email [support@sagepay.com](mailto:support@sagepay.com).

# Getting started

## Online help

There is more information available on our online help centre which can be found at [www.sagepay.com/help](http://www.sagepay.com/help) should you need further assistance on using My Sage Pay.

## Accessing My Sage Pay

You will only be able to log in to My Sage Pay once your Sage Pay account has been set up and you have been sent your log in details. If your account has been set up but you are yet to receive your log in details for My Sage Pay, please email [support@sagepay.com](mailto:support@sagepay.com).

To access your My Sage Pay account, you will need to type the following URL into your browser window:

Test Servers

<https://test.sagepay.com/mysagepay>

Live Servers

<https://live.sagepay.com/mysagepay>

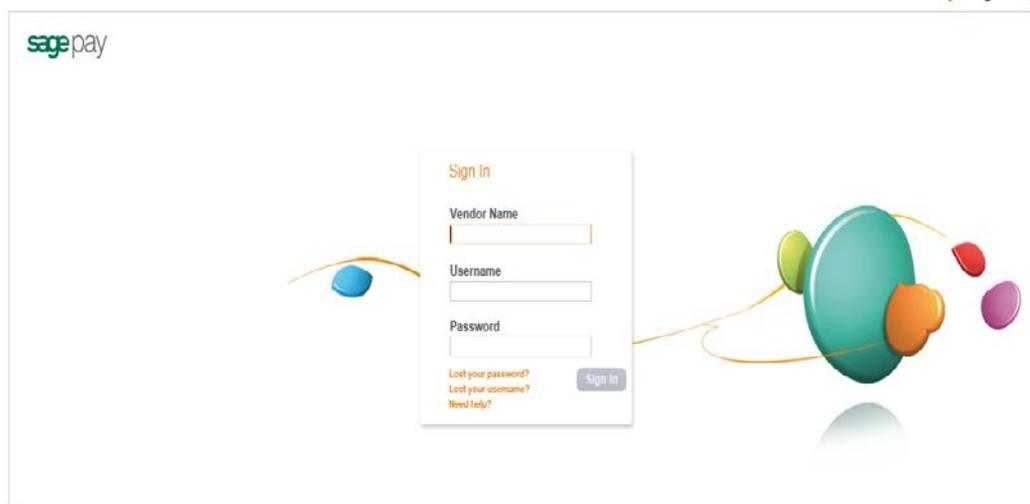

We recommend that you have the latest version of the web browser which you will be accessing the My Sage Pay admin area from

## The Administrator account

When your Sage Pay test account is set up, you will receive an email which outlines how to access your password retrieval link to obtain your Vendor Name and Admin Password. These details will give you access to your Administrator account within the My Sage Pay system. Your Administrator account details always remain the same and you should ensure that you keep this information in a safe place.

Important Note: The Administrator account only allows you to create and administer other user accounts. You will not be able to view any transactions when you are logged in using the Administrator account. You must therefore create your own user account before you are able to access the full My Sage Pay system.

## Creating user accounts

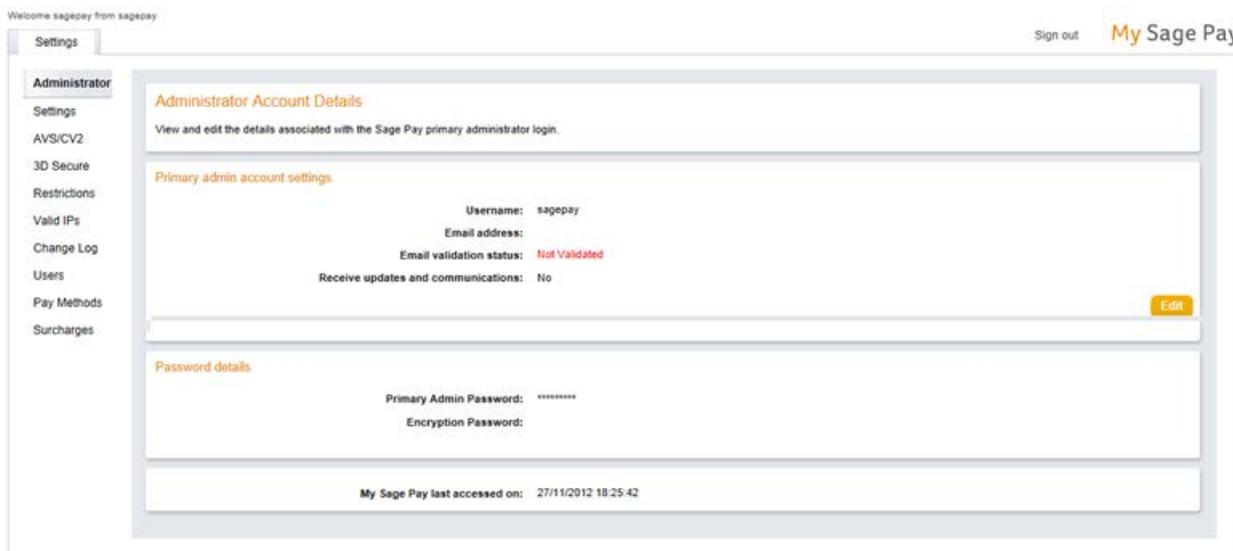

To log in to My Sage Pay with your Administrator account you will need to enter the following information on the My Sage Pay login screen:

**Vendor Name** – Enter your Vendor Name in this field

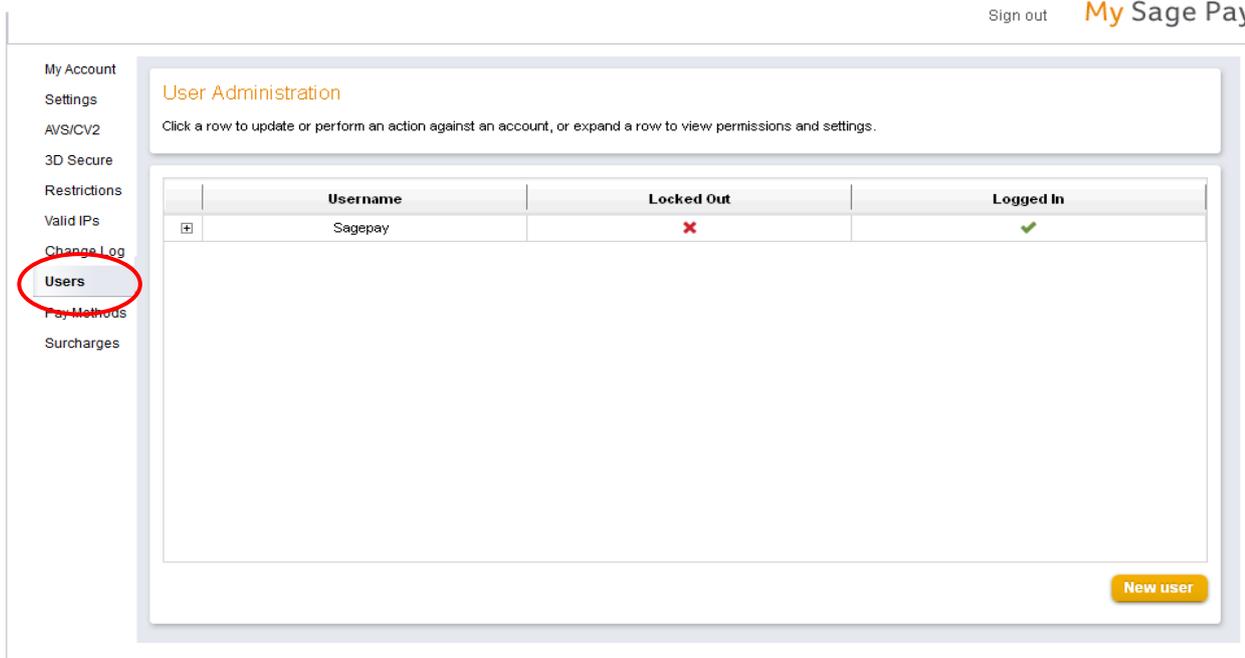

**User Name** – Enter your Vendor Name in this field as well

**Password** – Enter your Admin password in this field

When you have successfully logged in as the Administrator, you will see the following screen:

To create a new user, click on the 'Users' section circled in red:

Click on the **New user** button.

The next screen will ask for a user name and password for the new account. You will also be able to choose what account privileges and My Sage Pay access rights the new user will have. You will also have the option to set the default landing page the user will be presented with when they log in.

### Add new user

Username: \* [new user name]  
First name:   
Last name:   
Email address:   
Confirm email address:   
Receive updates and communications:   
Enter password: \*   
Confirm password: \*   
Password Strength:

The minimum password length required is 8 characters  
To improve security on your account we recommend a strong password that contains at least one uppercase letter (A-Z), one lowercase letter (a-z), one number (0-9) and one special character (\*\$?\*-%\_=-!@#).

**Account Privileges**

View All transactions  REFUND transactions  
 VOID transactions

**My Sage Pay Access**

Search  Transactions  
 Settings (Admin settings)  Terminal

**Default Landing Page**

Search  Transactions  
 Settings  Terminal

Add User

When you have entered the required information, click the **Add User** button to create the new user.

The new user account will now be listed on the main user screen. If you ever need to unlock a user account, change the Account Privilege, My Sage Pay access, or delete a user account, you can do so through this area of My Sage Pay as long as you have "Administration" privileges.

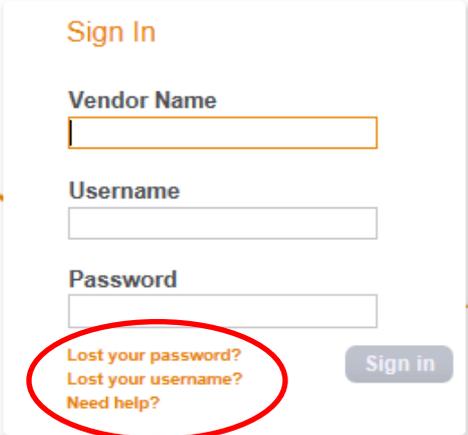

When you have created the new user account, you should then log out and log back in with the new user account details.

**Important Note:** When you login with the new user account, you will need to use your Vendor Name in the Vendor Name field. The user name you created should be entered in the User Name field. You will also need to enter the password you created for this account.

### Forgotten user account details

Should you ever forget your username or password, you can now retrieve this information automatically.

N.B: You will need to ensure that you have added and verified an email address against your username before you can start using this feature. If you have not done so, you will need to contact the account administrator to either reset your password or remind you of your username.

The image shows a 'Sign In' form with three input fields: 'Vendor Name', 'Username', and 'Password'. Below the 'Password' field, there are three links: 'Lost your password?', 'Lost your username?', and 'Need help?'. These links are circled in red. A 'Sign in' button is located to the right of the links.

To do this, simply click on one of the links on the sign in page, and then follow the instructions to either reset your password or have your username sent to you.

## Administering user accounts

Accounts with access to the 'User Administration' area are able to unlock user accounts, delete user accounts, create user accounts or change their settings.

When you log in using the administrator account and select the users section as discussed previously, you will see the list of current user's set up on the vendor account. You will also be able to see which user accounts are logged in or locked out at that point in time.

Sign out My Sage Pay

User Administration

Click a row to update or perform an action against an account, or expand a row to view permissions and settings.

	Username	Locked Out	Logged In
+	newuser	×	×
+	newuser2	×	×
+	sagepay	×	✓

New user

If you ever need to lock, unlock or delete a user's account, select the + symbol next to the user and you will be displayed with the below view. The actions are highlighted in red below.

**Important Note:** If you lock out the Administrator account, you will need to email [support@sagepay.com](mailto:support@sagepay.com) for this account to be unlocked. This request must come from a the Primary/billing contact on the account

# The Transactions area

## What is the Transactions area for?

The Transactions area is used to find the details of a transaction, settlement or invalid request. To access the transactions area, select the “Transactions” tab highlighted below in red.

The screenshot shows the My Sage Pay interface. At the top, there are navigation tabs: Transactions (circled in red), Terminal, Settings, and Search. The main content area is titled 'Transaction Report' and includes filters for 'from' (20/08/2012) and 'to' (21/08/2012). Below this, there are options for 'report range' (Any, Hourly, Daily, Weekly, Monthly, Annually) and 'result' (All, Success, Failure). An 'advanced' button is circled in green. The main table displays transaction details:

All	GBP	EUR	Card Holder	Type	Vendor Tx Code	Amount	Received	CV2	Add	PC	3D	T3M A	Refund	Repeat
			Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:37:26	✓	✗	✗	✓	✓		
			Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:36:54	✗	✗	✗	✗	✗		

At the bottom of the table, it says 'Row 1 to 2 of 2 rows'. There are also buttons for 'show/hide columns', 'Print friendly', and 'Export to CSV'.

You will see that you are presented with 4 different sections down the left hand side

- Transactions
- Summary
- Settlement
- Bulk Actions (Only if you process Deferred/Release and Authenticate/Authorise)
- Invalid

## Transactions

This report will show all of your transactions and provide additional information on all payments.

Sign out My Sage Pay

Transactions

Transaction Report from: 20/08/2012 to: 21/08/2012

report range: Any Hourly Daily Weekly Monthly Annually result: All Success Failure

advanced

All	GBP	EUR	Card Holder	Type	Vendor Tx Code	Amount	Received	CV2	Add	PC	3D	T3M	A	Refund	Repeat
+			Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:37:26	✓	✗	✗	✓	✓			
+			Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:36:54	✗	✗	✗	✓	✓			

## Quick reporting

Located at the top of the transaction page is the quick reporting tool that will allow you to instantly see your transactions by the hour, day, week, month or year at the click of a button. It will also filter your transactions so you can simply see all your successful or failed transactions.

If you accept different currencies, you can quickly separate them using the currency tabs just above the transaction list.

Transaction Report from: 20/08/2012 to: 21/08/2012

report range: Any Hourly Daily Weekly Monthly Annually result: All Success Failure

All GBP EUR

Card Holder	Type	Vendor Tx Code	Amount	Received	CV2	Add
Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:37:26	✓	✗
Sage Pay	Payment	Tsagepay-120820133528-238	1.00 GBP	20/08/2012 13:36:54	✗	✗

## Advanced reporting

If you need to refine the transaction list further using specific filters, you can also do this by selecting the “advanced” button highlighted above.

Refine your report

from: 01/04/2010 to: 27/11/2012

report range: Any Hourly Daily Weekly Monthly Annually

result: All Success Failure

Payment Type: All

Transaction type: All

Account type: All

Vendor tx code:

Amount (inc. Surcharge):

VSP auth code:

Last 4 digits:

Search Clear all

You will then be presented with options to “Refine your report” as displayed above. Simply choose the dates from the calendar to display transactions within that time period. You can also click on the month and year field to display a dropdown menu if you want to change the month/year.

You will have the ability to refine your transactions with the following:

- Payment type
- Transaction Type
- Account type
- Vendor Tx Code
- Amount (Inc. Surcharge)
- VSP auth code
- Last 4 digits of the card

By clicking on the transaction, you will be able to view further details of the transaction. You will be prompted with a new screen that is discussed further in this document under the heading Transaction Detail.

If you select the plus symbol next to the transaction you can view some additional information with regards to addresses as displayed below.

Card Holder	Type	Vendor Tx Code	Amount	Received	CV2	Add	PC	3D	T3M A	R

### Transaction Total Summaries

On each report you create, you will immediately be able to see a totals summary for all the transactions split by each payment type and also separated by success and failed transactions.

N.B: The totals will only be displayed for each individual currency and not on the “All” tab.

Simply click or hover on the link located at the bottom on the transaction screen

Tx Type	Volume	Value
AUTHENTICATE	1	74.17 GBP
AUTHORISE	1	74.17 GBP
DEFERRED	634	32,555.51 GBP
PAYMENT	552	27,431.43 GBP

All totals are based on your currently selected filters

Row 1 to 21 of 3641 rows [show totals](#) [show/hide columns](#) [Print friendly](#) [Export to CSV](#)

## Changing the displayed columns

Select the columns you wish to show in your grid

<input type="checkbox"/> Transaction ID	<input type="checkbox"/> Card Type
<input checked="" type="checkbox"/> Card Holder	<input type="checkbox"/> Last 4 Digits

<input checked="" type="checkbox"/> Repeat	<input type="checkbox"/> Delivery Name
<input type="checkbox"/> Success	<input type="checkbox"/> Delivery Address
<input type="checkbox"/> System	<input type="checkbox"/> Card Name
<input type="checkbox"/> Account Type	<input type="checkbox"/> Card Address

[Select All](#) [Deselect All](#)

You are able to select which columns you want to display in the Transaction Report by selecting the  symbol or click on the link show/hide columns at the bottom. You will then be prompted with this window.

- **Transaction ID** – Sage Pay’s unique transaction reference (VPSTxID)
- **Card Holder** – Card holder name entered on payment pages
- **Type** – Payment types such as payment, deferred, refund, void etc
- **Vendor Tx Code** – Your unique transaction identifier
- **Amount** – The amount of the transaction
- **Received** – Date of the transaction
- **CV2** – Card security code result
- **Add** – Address verification result
- **PC** – Post Code verification result
- **3D** – 3D Secure authentication result
- **T3M Action** – This is the result of the addition fraud checks by the 3rd Man
- **Refund** – Displays if the transaction has been refunded
- **Repeat** – Displays if the transaction has been repeated
- **Success** – If the transaction was successful
- **System** – Displays how the transaction was processed (Form, Server or Direct)
- **Account Type** – Displays if the transaction was Ecommerce, Moto or Continuous Authority
- **Payment Type** – The type of card that was used
- **Last 4 digits**
- **VPS Authcode** – Sage Pay’s authorisation reference
- **Bank Authcode** – The bank’s authorisation code
- **Batch ID** – The settlement batch ID
- **Abort** – Indicates whether a deferred transaction has been aborted and not sent for settlement
- **Release** – Indicates whether a deferred transaction has been sent for settlement
- **Username** – Displays the user who has performed the payment if processed within the My Sage Pay area
- **T3M Score** – The 3rd man fraud result score
- **T3M ID** – The 3rd man transaction reference
- **Billing Name**
- **Billing Address**
- **Delivery Name**
- **Delivery Address**
- **Card Name**
- **Card Address**

## Export

You can use this option to print your transaction list, view in Excel or export to a CSV format. This is particularly useful if you need to use or access transaction information outside the My Sage Pay admin area.

Select the relevant button in the bottom left hand corner of the screen.

Selecting the **Print friendly** button will open up a print preview and the option to print out your transactions

Selecting the **Export to CSV** button will open a window to open the transactions in Excel or save it as a CSV format.

## Detailed transaction information

When you click on the transaction row within the transaction report, you will see further information about the transaction, from the authorisation details to fraud results. This display shows you everything we know about the selected transaction.

This information will help you address any customer queries you receive, make decisions about delivery, and allow you to release, authorise, abort, cancel, void, refund or repeat transactions against this card (if you have permissions to do so).

This display has 5 different sections to it that you can navigate to using the tabs on the left - highlighted in red below.

- Summary
- Additional Details

## Transaction Summary

The transaction summary provides an overview of the transaction, when the transaction took place, a description of the transaction, along with the contact details for the customer.

The screenshot shows a window titled "Successful Payment - Tsagepay-120821121949-714". On the left is a navigation menu with "Summary" selected. The main content area is titled "Transaction Summary" and contains the following information:

Successfully authorised transaction.

Customer name: Sage Pay  
Customer email: (not provided)  
Completed: 21/08/2012 12:21:04.827  
Amount(Incl. Surcharge): 1.00 - GBP  
Surcharge: 0.00 - GBP  
Description: Terminal Payment taken by moe  
Sage Pay unique ID: D6875718-6551-781E-68CD-A049A3F43E8B

Billing Address	Delivery Address	Cardholder Address
88 london 412 United Kingdom	Sage Pay 88 london 412 United Kingdom	88 london 412 United Kingdom

Billing phone: (not provided)  
Delivery phone: (not provided)

At the bottom right of the window are three buttons: "Print", "Refund", and "Repeat".

- **Customer name** – The customer’s name for the transaction
- **Customer email** – The customer’s email address provided
- **Completed** - This is the date/time the transaction completed
- **Amount (Inc. Surcharge)** – The full amount of the transaction including the surcharges
- **Surcharge** – The additional charge added to the transaction
- **Description** – This will show a description of the transaction
- **Sage Pay unique ID** – This is the unique identifier for Sage pay
- **Billing Address** – The billing address entered and sent to Sage Pay
- **Deliver Address** - The delivery address entered and sent to Sage Pay
- **Cardholder Address** – The address entered/captured on the payment page\*

\*Only available for transactions using the Form & Server integrated method

## Additional Details

The additional details section provides further information on the transaction, start and completions times, the System used, whether the transaction has been refunded or repeated, and the URLs to which customers were sent. You will also be able to see the shopping basket if this has been passed onto Sage Pay.

The screenshot shows a web interface for a Sage Pay transaction. At the top, a green banner displays a checkmark and the text "Successful Payment - Tsagepay-120820133528-238". Below this is a sidebar with navigation links: "Summary", "Additional Details" (highlighted), "Authorisation Details", "Fraud Results", and "Related Transactions". The main content area is titled "Additional Details" and contains the following information:

<b>Refunded:</b>	No	<b>Repeated:</b>	No
<b>Client IP:</b>	212.169.042.036	<b>User:</b>	moe
<b>Started:</b>	20/08/2012 13:37:26.760	<b>Completed:</b>	20/08/2012 13:37:28.213
<b>Gift Aid:</b>	No - The customer did not check the gift aid box	<b>System used:</b>	Direct
<b>Callback URL:</b>	None		
<b>Client location:</b>	Country: UNITED KINGDOM, Region: Unknown, City: Unknown, ISP: WORLDWIDE WEB SERVICES LTD, Domain: CLARANET.CO.UK		

Below the details, there is a section titled "Shopping basket" which states "No shopping basket provided".

- **Released** - This field shows if the transaction has been released \*
- **Aborted** - This field shows if the transaction has been aborted \*
- **Refunded** - This field shows if the transaction has been refunded
- **Repeated** - This field shows if the transaction has been repeated
- **Callback URL** - This is the URL in which the shopper has been redirected to\*\*
- **User** - This is the Sage Pay username that has processed the action
- **Started** - This is the date/time the transaction started
- **Completed** - This is the date/time the transaction completed
- **Gift Aid** - This indicates that GiftAid was applied to the transaction
- **System Used** - This is the Sage Pay method used to process the transaction
- **Client IP** - The IP Address of the computer used to place this transaction
- **Client Location** - This shows the geographical location of that IP Address if available
- **Shopping Basket** – Details of the shopping basket and the goods ordered if provided

\*Only displayed on deferred transactions

\*\*Only available for transactions using the Server integration method

## Authorisation Details

The Authorisation Details section shows the card and cardholder details and the authorisation details obtained during the transaction. You will also be able to see the merchant account details for the transaction.

From this list, you will be able to access further information about each transaction that has been sent for settlement. Simply click on the transaction to open up the Transaction details.

## Bulk Actions

This report displays your deferred transactions that are awaiting release. If you do not have the deferred payment type on your account, you will not see any information in this section.

If you have any transactions that have not been released you will be presented with a list of transactions that you can bulk release or bulk abort.

The screenshot shows the 'Bulk Actions' page in the My Sage Pay interface. The page title is 'Bulk Actions' and the subtitle is 'Perform Aborts and Releases on more than one transaction at a time.' Below the subtitle is a table with the following columns: Received, Vendor Tx Code, Card Name, Amount, CV2, Add, PC, 3D, and T3M. The table contains one row of data: Received: 20/08/2012 17:03:27, Vendor Tx Code: Tsagepay-120820170250-961, Card Name: Sage Pay, Amount: 10.00 GBP, CV2: [green checkmark], Add: [green checkmark], PC: [green checkmark], 3D: [green checkmark], and T3M: [checkbox]. The checkbox in the T3M column is circled in red. Below the table, there is a footer with 'Row 1 to 1 of 1 rows' and buttons for 'Deselect All', 'Select All', 'Bulk Abort', and 'Bulk Release'.

In order to bulk release or abort your transactions tick the checkbox next to each transaction.

Select the **Bulk Release** button to release the selected payments.

Select the **Bulk Abort** button to abort the selected transactions.

## Gift Aid

This report displays any transactions where the customer has agreed to allow Gift Aid relief to be claimed.

**N.B:** If you do not have the Gift Aid functionality enabled on your account, you will not see this option.

# The Virtual Terminal

## What is the Virtual Terminal for?

The Virtual Terminal is used to process any Mail Order or Telephone Order transactions and is our online equivalent of a PDQ machine in a shop. To access the Terminal area, click the Terminal tab highlighted in red below.

You can use this terminal as back up if your web site is out of action, and for those customers who prefer to pay by phone. You can only use our Terminal screens if you have a Mail Order/Telephone Order (MOTO) merchant number associated with your account. If you only have an E-Commerce merchant number on your account, the Virtual Terminal will not be available to you.

Please contact your acquiring bank to request a MOTO merchant number. Some banks may allow you to use the same merchant account; others may require you to set up a new one. Once you have an account, send the details to [support@sagepay.com](mailto:support@sagepay.com), along with your Vendor name, and they will set up the account for you.

The screenshot shows the Sage Pay Virtual Terminal interface. At the top, there are navigation tabs: Transactions, Terminal (highlighted in red), Settings, and Search. On the right, there are links for 'Sign out' and 'My Sage Pay'. The main content area is titled 'Terminal' and includes the instruction: 'Use the Terminal to process mail order/telephone order (MOTO) payments.' Below this, there are three tabs: 'Billing Address', 'Delivery Address', and 'Advanced'. The 'Billing Address' tab is active and contains the following fields: First name, Last name, Phone number, Email address, Address line 1, Address line 2, Town/City, Post/zip code, and Country (set to 'United Kingdom'). A checkbox labeled 'Make Delivery Address same as Billing Address' is checked. The right-hand side of the form contains payment details: logos for VISA, VISA e-commerce, VISA Signature, MasterCard, Maestro, American Express, and JCB; Amount and Currency (set to GBP) fields; Card number field; Payment Type (set to --); Expiry date (mmyy); CV2 field with a note '(3 or 4 digit security code on back of card)'; Name on card field; Cardtype Surcharge (Default selected); Total Amount; and Description (set to 'Terminal Payment taken by moe'). A 'Make Payment' button is located at the bottom right.

## Vendors in Merchant Category 6012 – Financial Institutions

**Important Note:** Vendors classified by their Merchant Acquirer in Merchant Category 6012 – Financial Institutions will notice additional, optional, fields when processing Terminal transactions.

The Merchant Category Code (MCC) 6012 Financial Institution is used for variety of payments initiated by financial institutions. MCC 6012 is the most fraudulent MCC in the UK market. As advised by UK numbers, the majority of fraud perpetrated on the MCC 6012 is on compromised VISA debit card details that are used to pay of transfer balances to other cards. Members are therefore unable to confirm whether a payment is genuine, despite matching of full CVV2 with AVS.

To address this situation, additional data for MCC 6012 is to be captured and submitted, unchanged, to the card issuer for Visa transactions to assist in authorisation decisions. The additional information required is:

- **Recipient Date of Birth**
- **Recipient Account Number**
- **Recipient Post Code**
- **Recipient Last Name**

The screenshot shows the Sage Pay Terminal interface. The top navigation bar includes 'Transactions', 'Terminal', 'Card Machine Transactions', 'Settings', and 'Search'. The main content area is titled 'Terminal' and contains a form for processing payments. The form is divided into two main sections: 'Billing Address' and 'Payment Details'. The 'Billing Address' section includes fields for 'First name', 'Last name', 'Phone number', 'Email address', 'Address line 1', 'Address line 2', 'Town/City', 'Post/zip code', and 'Country'. A checkbox labeled 'Make Delivery Address same as Billing Address' is checked. Below these fields, a red box highlights four additional fields: 'Recipient Date of Birth (yyyymmdd)', 'Recipient Account Number', 'Recipient Post Code', and 'Recipient Last Name'. The 'Payment Details' section includes logos for VISA, VISA Electron, VISA Debit, MasterCard, and Maestro. It contains fields for 'Amount', 'Currency' (set to GBP), 'Card number', 'Payment Type', 'Expiry date (mm/yy)', 'CV2', 'Name on card', 'Cardtype surcharge' (Default or Other), 'Total Amount', and 'Description' (set to 'Terminal Payment taken by paul'). A 'Make Payment' button is located at the bottom right of the form.

## Processing a transaction through the Virtual Terminal

The Virtual Terminal screen is split into two sections with the first section having additional tabs:

Section 1 includes:

- Billing Address
- Delivery Address
- Advanced

The screenshot shows the 'Billing Address\*' tab selected. It contains the following fields: First name: \* (text input), Last name: \* (text input), Phone number: (text input), Email address: (text input), Address line 1: \* (text input), Address line 2: (text input), Town/City: \* (text input), Post/zip code: \* (text input), and Country: United Kingdom (dropdown menu). At the bottom, there is a checkbox labeled 'Make Delivery Address same as Billing Address' which is checked.

The screenshot shows the 'Delivery Address' tab selected. It contains the following fields: First name: \* (text input), Last name: \* (text input), Phone number: (text input), Address line 1: \* (text input), Address line 2: (text input), Town/city: \* (text input), Post/zip code: \* (text input), and Country: United Kingdom (dropdown menu). At the bottom, there is a checkbox labeled 'Delivery Address is same as Billing Address' which is checked.

You will need to enter information in the fields above. The fields marked with \* are mandatory fields and must contain data.

- **First Name** – Customers first name
- **Last Name** - Customers last name
- **Phone Number** – Telephone number
- **Email Address** – Email address
- **Address Line 1** – 1st line of the customers address
- **Address Line 2** - 2nd line of the customers address
- **Town/City** – Town/City of customers address
- **Post/Zip Code** – Customers Post/Zip code
- **Country** – Drop Down list of country
- **State Code** – Only applicable when United States is selected as billing country
- **Make Delivery Address Same as Billing Address** – Checking this field will auto populate the billing address details into the delivery address details

The "Advance" section contains all the setting to change how you process a transaction through the Virtual Terminal.

The screenshot shows the 'Advanced' tab of a payment interface. It includes the following fields and options:

- Unique Tx code: Tsagepay-121107173209-622
- Transaction type: PAYMENT (dropdown menu)
- Reference: (empty text box)
- Gift aid?:
- Section header: Apply AVS/CV2 checks?
- Options:
  - Perform checks if enabled on account. Apply Rules if they exist
  - Force AVS/CV2 checks regardless of account settings. Apply Rules if they exist
  - Disable AVS/CV2 checks and Rules for this transaction only
  - Force AVS/CV2 checks but disable Rules for this transaction

- **Unique Tx Code** – This is the vendor tx code that is auto generated, you can amend this reference if you wish. If you are amending this, you will need to enter a unique reference that has not been used before.
- **Transaction Type** – If you have other transaction types apart from the default PAYMENT, you can select them here.
- **Reference** – You can enter your own payment reference here for your records
- **Gift Aid** – Select this box if you wish to claim gift aid on the payment
- **Apply AVS/CV2 Checks?** – This check box allows you to choose how you wish to apply your AVS/CV2 rules

## Section 2 includes:

- The Card Details

The screenshot shows the 'Card Details' section of a payment interface. It includes the following fields and options:

- Amount: (text box) \* Currency: GBP (dropdown menu)
- Card number: (text box) \*
- Payment Type: --
- Expiry date (mmyy): (text box) \*
- CV2: (text box) \* (3 or 4 digit security code on back of card)
- Name on card: (text box) \*
- Cardtype Surcharge: Default  (text box) : Other
- Total Amount: (text box)
- Description: Terminal Payment taken by moe
- Make Payment (button)

The fields marked with \* are mandatory fields and must contain data.

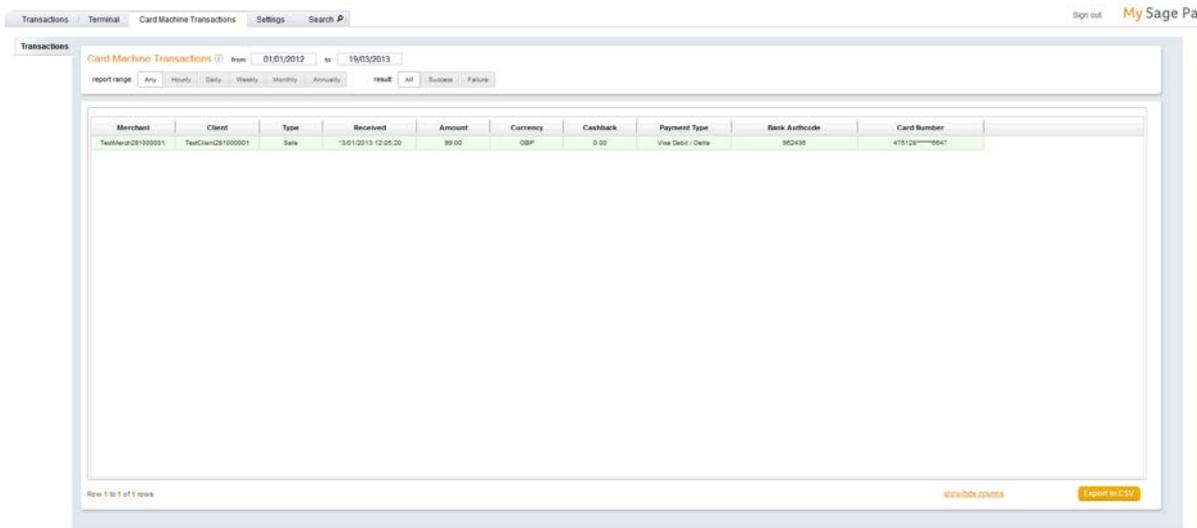

- **Amount** – The amount of transaction
- **Currency** – Select the currency of the transaction
- **Card Number** – The card number printed on the front of the card with no spaces
- **Payment Type** – The type of card (e.g. Visa, MasterCard) which is automatically populated based on the card number entered
- **Expiry Date** - Expiry date of the card being used
- **CV2** - The security code, usually the last three digits, printed on the signature strip on the reverse of the card (For Amex cards the security code is 4 digits found on the front of the card).
- **Name on Card** – Name printed on the card
- **Cardtype Surcharge** – This field will only become active if you have set up the surcharge feature on your account. This will allow you to add the default surcharge to the payment or specify a specific amount. For more information on how to set this up, please see page 41.
- **Description** – Free text field to enter additional details

**Important Note:** The Virtual Terminal does not send an email to your customer on completion of the transaction. To do this, you will need to send your own invoice/receipt on completion of the transaction.

# Card Machine Transactions Tab

## What is this tab for?

The Card Machine Transactions tab presents transactions placed through your Sage Pay Card Machine.

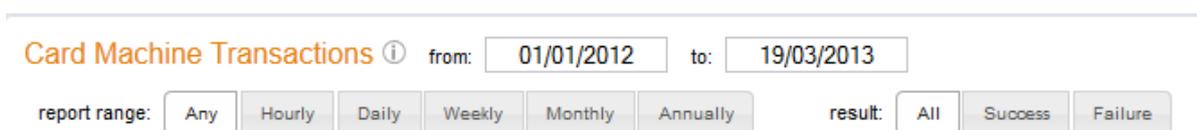

If you do not currently have any Sage Pay Card Machine transactions to be displayed the following message will be shown;

“You don’t currently have any card machine transactions to display here. If you would like to find out more information about Sage Pay’s card machine terminals, please call 0845 111 4466 or email [cardterminals@sagepay.com](mailto:cardterminals@sagepay.com).”

Sage Pay is able to offer Card Machines to vendors based in the UK and Republic of Ireland.

## Quick Reporting

Located at the top of the transaction page is the quick reporting tool that will allow you to instantly see your transactions by the hour, day, week, month or year at the click of a button. It will also filter your transactions so you can simply see all your successful or failed transactions.

## Changing the displayed columns

You are able to select which columns you want to display in the Transaction Report by clicking the link show/hide columns at the bottom. You will then be prompted with this window;

Select the columns you wish to show in your grid

<input type="checkbox"/> Account Type	<input checked="" type="checkbox"/> Payment Type
<input checked="" type="checkbox"/> Amount	<input type="checkbox"/> PIN Bypassed?
<input type="checkbox"/> Auth Message	<input checked="" type="checkbox"/> Received
<input checked="" type="checkbox"/> Bank Authcode	<input type="checkbox"/> Sale
<input checked="" type="checkbox"/> Card Number	<input type="checkbox"/> Success
<input checked="" type="checkbox"/> Cashback	<input type="checkbox"/> Terminal ID
<input checked="" type="checkbox"/> Client	<input type="checkbox"/> Time Batched
<input checked="" type="checkbox"/> Currency	<input type="checkbox"/> Tx Fallback
<input type="checkbox"/> DCC Amount	<input type="checkbox"/> Tx Reference
<input type="checkbox"/> DCC Currency	<input checked="" type="checkbox"/> Type
<input type="checkbox"/> Exchange Rate	<input type="checkbox"/> User Reference 1
<input type="checkbox"/> Gratuity	<input type="checkbox"/> User Reference 2
<input checked="" type="checkbox"/> Merchant	<input type="checkbox"/> User Reference 3
<input type="checkbox"/> Merchant Number	<input type="checkbox"/> User Reference 4
<input type="checkbox"/> Method	

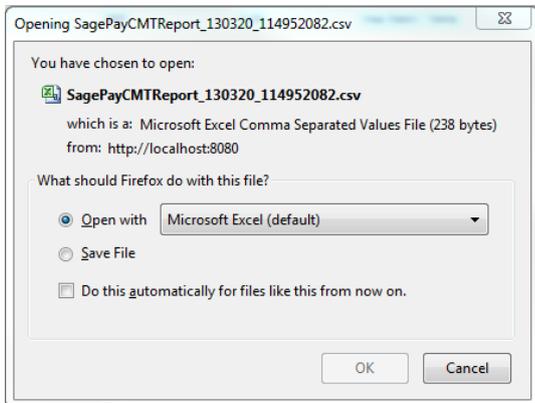

Select All Deselect All

- **Account Type** – Displays Card Holder Present to indicate transaction was placed on a Sage Pay Card Machine, can also display
- **Amount** –The amount of the transaction, is the totals of Sale, Cashback and Gratuity
- **Auth Message** – Authorisation response for the transaction
- **Bank Authcode** – The bank’s authorisation code
- **Card Number** – Displays the first six and last four digits of the card used in the transaction
- **Cashback** – The amount of cashback provided with the transaction
- **Client** – Terminal Identifier
- **Currency** - The currency of the transaction
- **DCC Amount** – The amount of the transaction where Dynamic Currency Conversion has been applied
- **DCC Currency** – The currency used in the Dynamic Currency Conversion
- **Exchange Rate** – The exchange rate used in the Dynamic Currency Conversion
- **Gratuity** – Displays the amount of gratuity applied to the transaction
- **Merchant** – Identifies the site for the Card Terminal used in the transaction
- **Merchant Number** – Displays the Merchant Number that was used to process the transaction
- **Method** – Displays whether the card used in the transaction was Dipped, Keyed, Swiped or Contactless
- **Payment Type** – The type of card that was used
- **PIN Bypassed?** – Displays whether PIN entry was bypassed in the transaction
- **Received** – Date of the transaction
- **Sale** – The amount of the transaction minus any gratuity
- **Success** – If the transaction was successful
- **Terminal ID** – The Terminal ID from the Card Machine used to process the transaction
- **Time Batched** – When the transaction was batched for settlement
- **Tx Fallback** – The Floor Limit for the transaction
- **Tx Reference** – Sequence Number issued by the Card Machine as an identifier for the transaction
- **Type** – Payment types such as Sale, Refund, Sale with Cash, Cancelled Sale, Cancelled Sale with Cash, Cancelled Refund
- **User Reference 1** – Customisable field to contain additional information
- **User Reference 2** – Customisable field to contain additional information
- **User Reference 3** – Customisable field to contain additional information
- **User Reference 4** – Customisable field to contain additional information

## Export

You can use this option to view your transactions in Excel or export to a CSV format. This is particularly useful if you need to use or access transaction information outside the My Sage Pay admin area, and also allows you to filter transactions by currency or other values contained within this file.

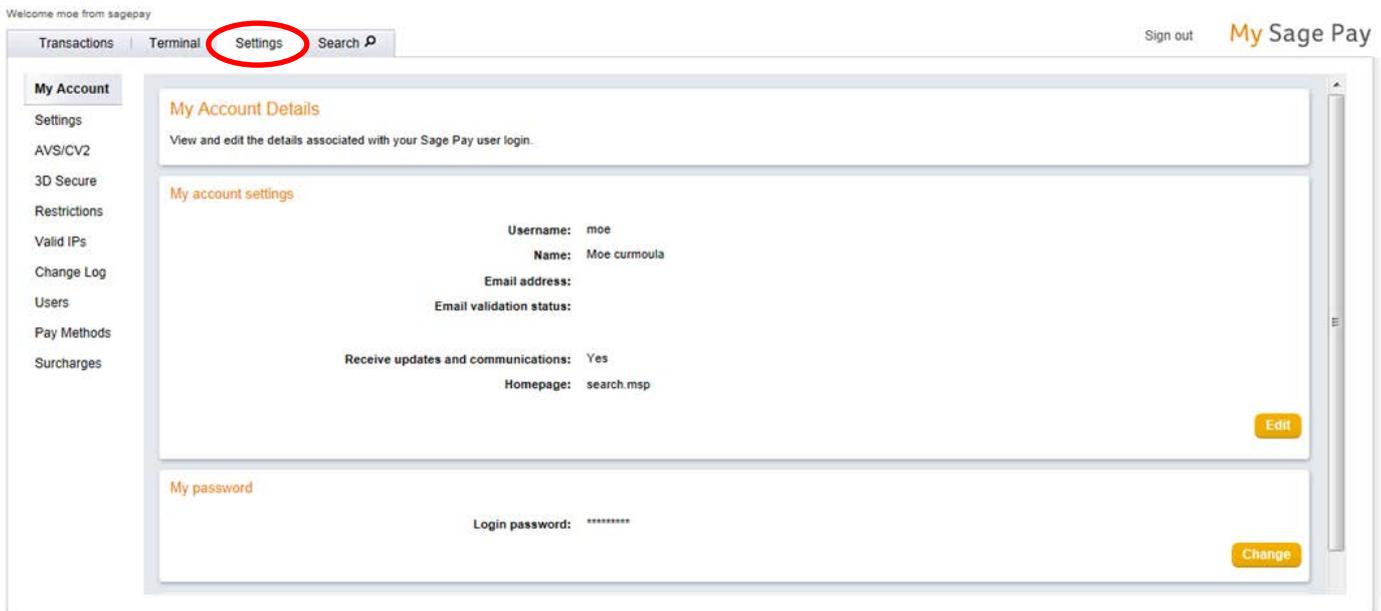

Select the **Export to CSV** button in the bottom left hand corner of the screen. Then use the following option to view the transaction information in an Excel format.

# Settings

## What is the Settings area for?

The Settings section is used to manage your Sage Pay account or administer your user accounts. To access the Settings area select the Settings tab highlighted below in red.

You will see that you are presented with 7 different sections down the left hand side

- My Account
- Settings
- AVS/CV2
- 3D Secure
- Restrictions
- Valid IP's
- Change Log
- Users
- Pay Methods
- Surcharges

**Important Note:** Not all user accounts will have access to this screen. Only users that have been given administrative access will have this tab.

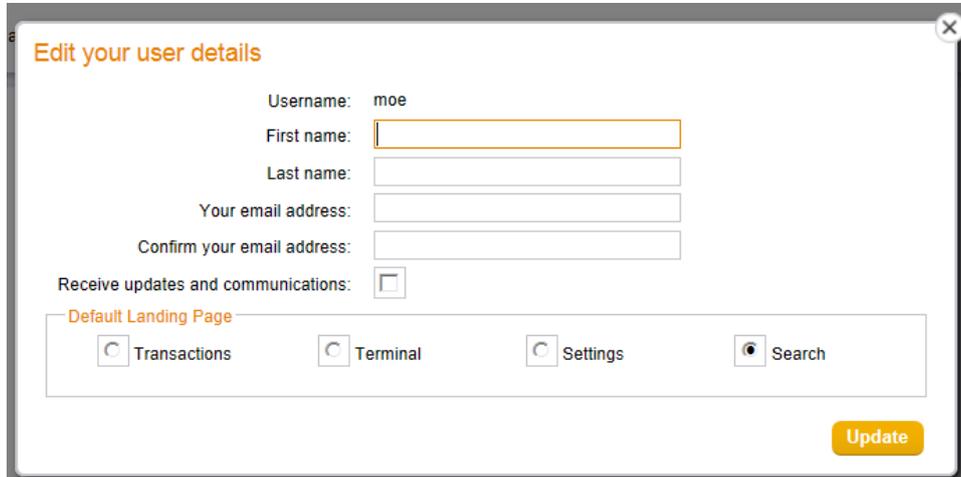

**PLEASE EXERCISE CAUTION** when modifying these settings because they will immediately affect your Sage Pay account, possibly modifying the user experience or affecting your authorisation rates.

## My Account Settings

The My Account section allows you to manage your user details, contact preferences and passwords.

N.B: To set up automatic password retrievals, you need to ensure that you have added and verified your email address within this section.

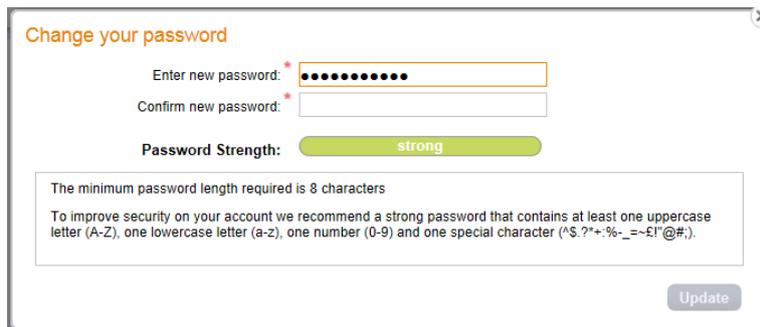

To edit any details, simply click on the **Edit** button. Here you can also opt-in to any updates and communications from Sage Pay as well as determine the landing page when you log in.

The screenshot shows a modal window titled "Edit your user details" with a close button in the top right corner. The form contains the following fields and options:

- Username:** moe
- First name:** [text input field]
- Last name:** [text input field]
- Your email address:** [text input field]
- Confirm your email address:** [text input field]
- Receive updates and communications:**
- Default Landing Page:** A row of four radio buttons: Transactions, Terminal, Settings, and Search (which is selected).
- Update:** A yellow button at the bottom right.

To change your password, simply click on the **Change** button within the 'My password' section. A pop up window will appear that will request your new password and will also indicate how strong the password is.

The screenshot shows a modal window titled "Change your password" with a close button in the top right corner. The form contains the following fields and elements:

- Enter new password:** [password input field with 8 dots]
- Confirm new password:** [password input field]
- Password Strength:** A green bar labeled "strong".
- Instructions:** A text box stating: "The minimum password length required is 8 characters. To improve security on your account we recommend a strong password that contains at least one uppercase letter (A-Z), one lowercase letter (a-z), one number (0-9) and one special character (\*\$.%\*%\_-!@#.)."
- Update:** A grey button at the bottom right.

You can also see when the last time you accessed My Sage Pay at the bottom of this screen

## Display & General Settings

### Display & General Settings

View and edit your current Sage Pay account settings, view your payment pages logo.

#### Restricted domains

You currently have no restricted domains.

If you have a list of restricted domains then users may only change their email addresses to ones with domains from this list.

**Add**

#### Language Settings

Current Language Selected is: **EN - English**

To change the language displayed on your payment pages please press edit.

**Edit**

#### Account settings

Company display name: SagePay

Full homepage URL: <http://sagepay.co.uk>

Support email address: [support@sagepay.com](mailto:support@sagepay.com)

Send HTML emails: Yes

Default Terminal currency: GBP

Payment page templates: default

**Edit**

#### Your payment pages logo

To change the logo displayed on your payment pages please e-mail the new logo in GIF format to [support@sagepay.com](mailto:support@sagepay.com).

Maximum size is 200 pixels wide by 100 pixels high.

**Edit**

## Restricted domains

You can restrict the email domain of the email address which users wish to add and verify against their account. For example, by limiting it only to your company email address. To do this, simply add the email domain in the blow box.

### Add a restricted domain

Add a domain to your list of restricted domains below, e.g. [sagepay.com](http://sagepay.com)

If you have a list of restricted domains then users may only change their email addresses to ones with domains from this list.

Restricted domain : \*

**Add**

## Language settings (Protocol 3.0 feature)

If you have integrated our hosted payment page (Form & Server integration) using the latest protocol (version 3), then you will be able to select the language which the payment page will be displayed in from within My Sage Pay. To do this, select the **Edit** button and select the language from the drop down menu.

## Account Settings

If you select the **Edit** button in the Account Settings section you will be prompted with the below display.

You can use this section to change the display and confirmation email (Form only) settings on your account.

- **Company Display Name** – This is the name displayed on the payment pages and in the confirmation emails (Form only).
- **Your Full Home Page URL** – This is the main URL for your website. This can be displayed in your confirmation emails (Form only) and some Sage Pay error pages.
- **Your support e-mail address** – This is your main support email address, used in your confirmation emails (Form only) and some Sage Pay error pages. We will also use this as the 'reply to' address for your confirmation emails.
- **Send HTML e-mails** – By default, Sage Pay Form integration will send HTML emails for all order confirmations. You can switch off HTML emails by un-checking this box, so Sage Pay will then send text emails only.
- **Default Currency in Terminal** – By default, the Terminal will select GBP as the transaction currency. If you have multi-currency set up on your Sage Pay account you can use this option to choose which currency is selected by default.
- **Payment Page Templates** - You can use this section to change the payment pages which are displayed to your customers during the payment process. The payment pages are the pages where your customers enter their credit card details. You will only be able to change these if you are using Server or Form to process your transactions.

**Important Note:** If you change these settings you will change the look of your payment pages, and may stop them from working altogether if you have not created your own customised pages correctly. For information about customising the payment pages, please visit the online help centre on the website: [www.sagepay.com/help](http://www.sagepay.com/help)

## Your Payment Page Logo

This section will display your company logo that you have sent into Sage Pay. This is the logo customers will see on the Sage Pay payment pages if you are using the Form or Server redirect integration method.

If you have not sent in a logo to Sage Pay it provides you with the details on how to do this.

---

Your payment pages logo

To change the logo displayed on your payment pages please e-mail the new logo in GIF format to [support@sagepay.com](mailto:support@sagepay.com).

Maximum size is 200 pixels wide by 100 pixels high.

---

## AVS/CV2

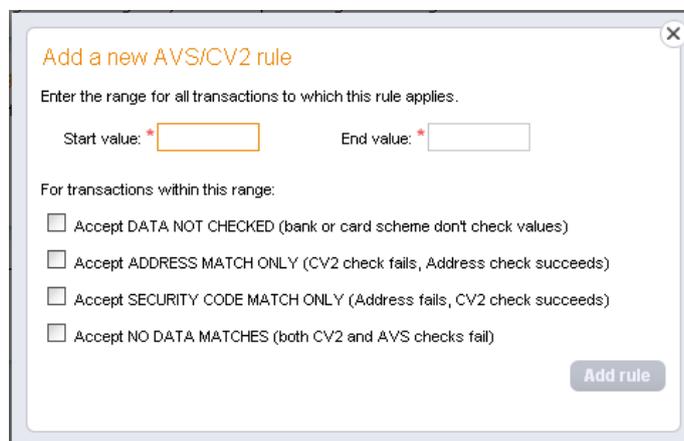

You can use these options to change the AVS/CV2 Fraud settings on your account.

AVS CV2 Checking is ON – Click the **Turn off** button to switch off AVS/CV2 and any associated rules on your account. If you turn off AVS/CV2 checks your transactions will not receive an AVS/CV2 response from the bank, the AVS/CV2 rules will not be applied and you will not need to enter CV2 information on any payment screens (however, it will be down to the bank's discretion whether they will authorise a transaction without a CV2 value).

Select the **Add rule** button to be prompted with the below display.

### Add a New AVS/CV2 Rule

You can add AVS/CV2 rules to your account by entering your rule criteria and then clicking the add rule button. You can set up multiple rules on your account. For more information about AVS/CV2 rules, please refer to the AVS/CV2 and 3D Secure Rule Base Guide, which can be downloaded from the Sage Pay website:

<http://www.sagepay.com/help/downloads>

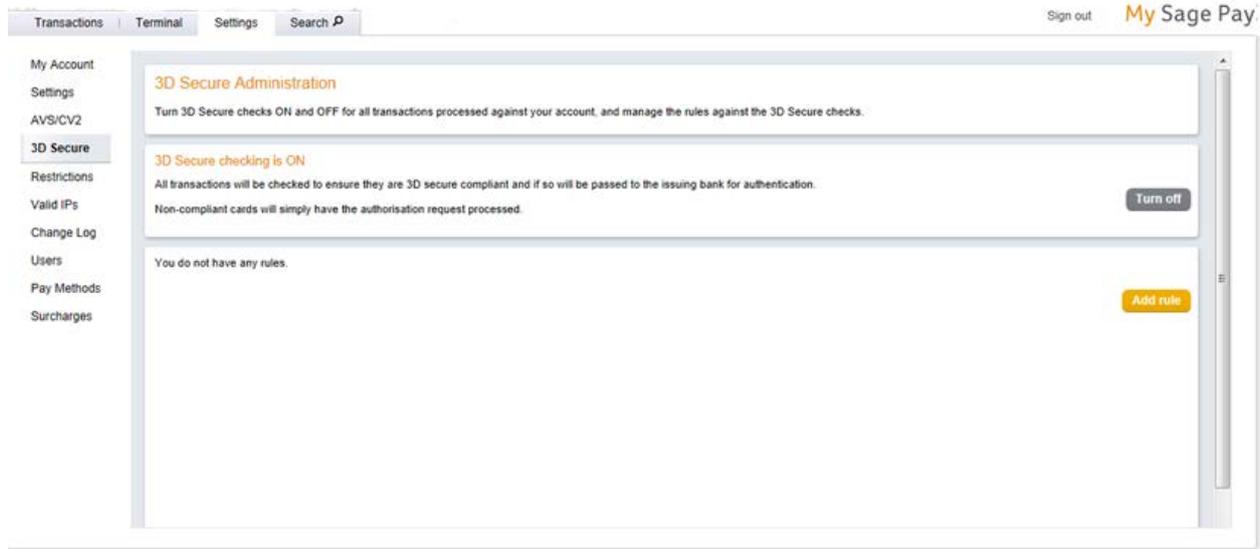

**Important Note:** Adding AVS/CV2 rules to your account will mean that transactions which do not pass your AVS/CV2 rules will be automatically declined. An online reversal will be sent to the bank to cancel the transaction.

## 3D Secure

You can use these options to change the 3D Secure Fraud Checking options on your account.

You will first need to request that 3D Secure is activated on your account by sending an email to [3dsecure@sagepay.com](mailto:3dsecure@sagepay.com)

Please note that 3D Secure checking will only work if your account with Sage Pay has been enabled for 3D Secure.

**3D Secure Checking is On** - Click the **Turn off** button to switch off 3D Secure and any associated rules on your account.

When you have activated 3D Secure on your account, all ecommerce transactions will be checked to ensure they are 3D Secure compliant and if so will be passed to the issuing bank for authentication. Non-compliant cards will simply have an authorisation request processed.

Select the 'Add Rule' button to be prompted with the below display.

A dialog box titled 'Add a new 3D secure rule' with a close button (X) in the top right corner. It contains two input fields: 'Start Value: \*' and 'End Value: \*'. Below these fields is the text 'For transactions within this range:'. There are five checkboxes with the following labels: 

- Perform the 3D secure authentication
- Accept non-3D secure cards to be authorised
- Accept authorisations when MPI errors occur
- Accept cards from non-3D secure issuers to be authorised
- Accept 3D secure failures to continue for authorisation

An 'Add rule' button is located at the bottom right of the dialog box.

**Add a 3D Secure Rule** - You can add 3D Secure rules to your account by entering your rule criteria and then clicking the  button. For information about how to set up a 3D Secure rule base, please refer to the AVS/CV2 and 3D Secure Rule Base Guide, which can be downloaded from the Sage Pay website:

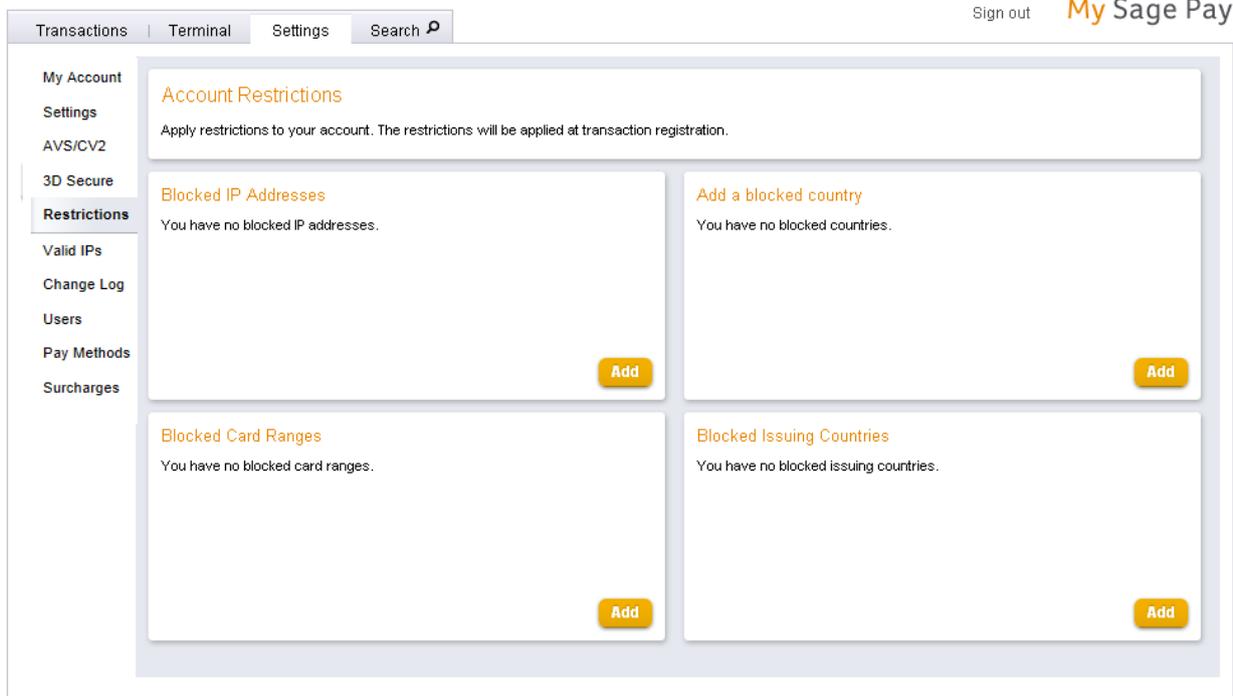

<http://www.sagepay.com/help/downloads>

**Important Note:** Adding 3D Secure rules to your account will mean that transactions which do not pass your 3D Secure rules will not be passed for authorisation. You will only receive a liability shift for 3D Secure transactions if the result returns a green flag. Only vendors using Protocol 2.22 or above will be able to use 3D Secure on their account.

## Restrictions

You can use these options to add restrictions to your account. You can see from the screenshot below that this is split up into 4 sections

- Blocked IP Addresses
- Add a Blocked Country
- Blocked Card Ranges
- Blocked Issuing Countries

## Blocked IP Addresses

Select the **Add** button to be prompted with the below display.

The modal dialog is titled 'Add a blocked IP' and features a close button (X) in the top right corner. It contains two input fields: 'IP address: \*' and 'Subnet mask: \*', both with red asterisks indicating they are required. An 'Add' button is positioned at the bottom right of the dialog.

You can use this section to add a specific IP address that you want to block from being able to process a transaction through your Sage Pay account.

## Add a Blocked Country

Select the **Add** button to be prompted with the below display.

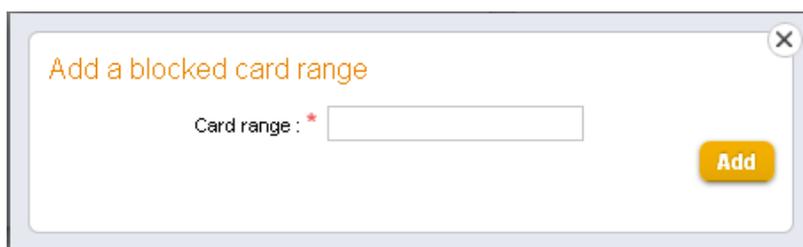

The screenshot shows a dialog box titled "Add a blocked country" with a close button (X) in the top right corner. Inside the dialog, there is a dropdown menu with the text "Select.." and a small downward arrow on the right. To the right of the dropdown is a yellow "Add" button.

You can use this section to add a country that you want to block from being able to process a transaction through your Sage Pay account. Every customer with an IP address located in this country will be blocked from ordering.

## Blocked Card Ranges

Select the **Add** button to be prompted with the below display.

You can use this section to add a specific card range that you want to block from ordering through your Sage Pay account.

The screenshot shows a dialog box titled "Add a blocked card range" with a close button (X) in the top right corner. Inside the dialog, there is a text input field labeled "Card range : \*". To the right of the input field is a yellow "Add" button.

## Blocked Issuing Countries

Select the **Add** button to be prompted with the below display.

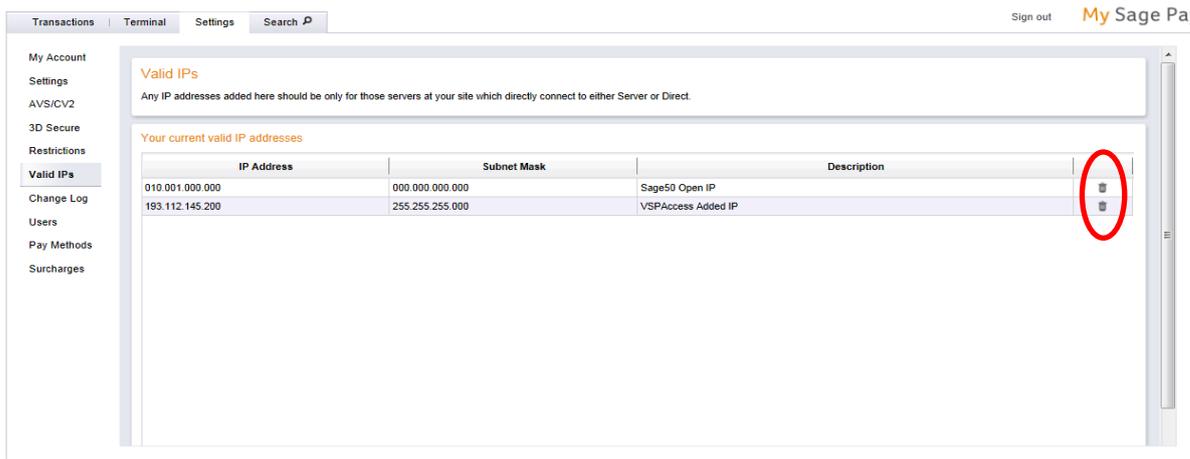

The screenshot shows a dialog box titled "Add a blocked issuing country" with a close button (X) in the top right corner. Inside the dialog, there is a dropdown menu with the text "Select.." and a small downward arrow on the right. To the right of the dropdown is a yellow "Add" button.

You can use this section to add a blocked issuing country that you want to block from ordering through your Sage Pay account. Every customer with a card issued in this country will be blocked from ordering.

## Valid IP Addresses

You can use this section to add or remove IP Addresses on your account. This should be the external IP Address of your server.

Select the **Add** button to be prompted with the below display.

The dialog box titled 'Add a valid IP address' contains the following fields and button:

- IP address: \*
- Subnet mask: \*
- Add** button

You need to enter the IP address and the subnet mask of your server and select **Add** to add the IP address to the list of valid IP address.

To remove an IP address select symbol highlighted in red in the above screenshot.

**Important Note:** You only need to add IP Addresses to your account if you are integrating with Direct or Server. If you change your web server you will need to change the IP Address on your account. It is not necessary to add IP Addresses to your account if you are integrating with Form or using the Terminal.

## Account Change Log

This section displays changes made through the setting options. This will allow you to track changes you and other administrative users have made to your account.

## Pay methods

This section provides information on how your Sage Pay account is set up to accept payments. You will also be able to set up and manage the PayPal payment option.

You will be able to see the following information about the payment methods on your account:

- The card types your account is set up to accept .
- Local European payment method your account has been set up for (only if you have applied for the Local European Payments service from Sage Pay).
- Any other payment methods such as PayPal.

In addition to the above, you will also see which currencies your account has been set up for.

### Use PayPal Express Checkout with Sage Pay

If you select **Set a PayPal account** button in the Use PayPal Express Checkout with Sage Pay section you will be prompted with the below display.

If you would like your customers to have the option of using their PayPal account to pay for goods on your site, you will need to apply for and configure your PayPal business account to accept payments via Sage Pay, and enter the PayPal Primary log in email address to connect your account.

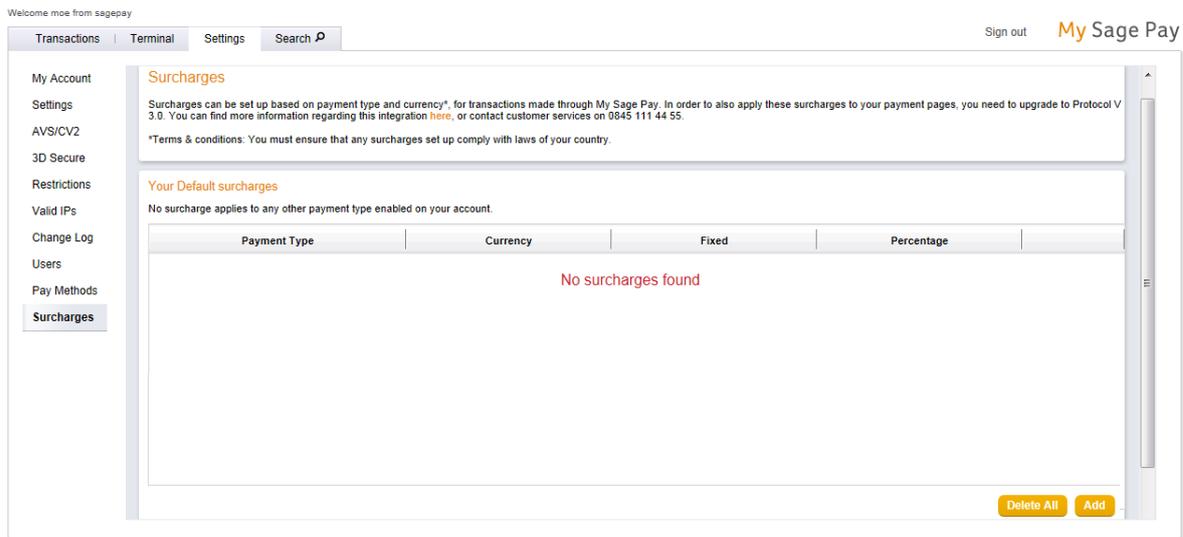

For further information on setting up PayPal with Sage Pay, please view the below link.

[http://www.sagepay.com/help/faq/how\\_do\\_i\\_set\\_up\\_paypal\\_on\\_my\\_sage\\_pay\\_account](http://www.sagepay.com/help/faq/how_do_i_set_up_paypal_on_my_sage_pay_account)

## Surcharges (Protocol 3.0 feature)

Surcharges are only available to use if you have integrated your e-commerce payments using the latest protocol (Version 3.0) or processing payments through the Virtual Terminal.

Within this section, you will be able to manage any surcharges you wish to add to your transactions.

*Please note that surcharges should only be used to cover your costs, and not as a revenue generator. Sage Pay cannot be held responsible for any surcharges that are applied to your account.*

### Adding a default Surcharge

You can add a default surcharge to a particular payment type so an additional amount is automatically added each time a payment is accepted using that Payment type. To do this, click the **Add** button for the below screen to pop up.

Select the payment type you wish to apply the surcharge to. If you can accept different currencies through that payment type, you can then specify the currency which you would like the surcharge to apply to.

Select whether you wish to apply a fixed value or a percentage and enter the value. You don't need to add the special characters such as £ or %.

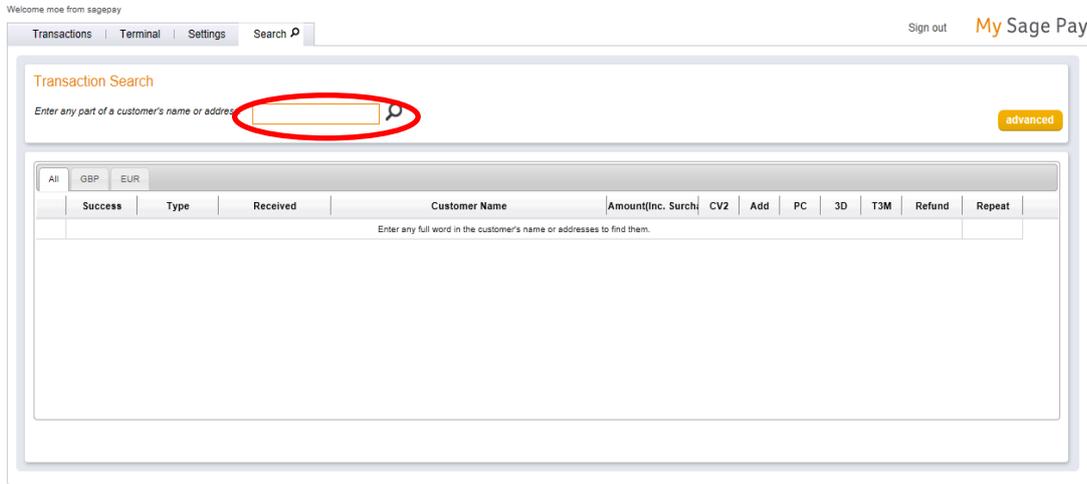

Once you have finished, click the **Add** button to save. Continue the process if you wish to add surcharges to other payment types.

# Search

## What can I search for?

Search can be used if you want to locate a particular transaction. In the search box highlighted in red below, you can enter any part of the customer's name or address to return transactions matching any of the criteria you have entered.

You must enter data into the search field and select the  to return the results.

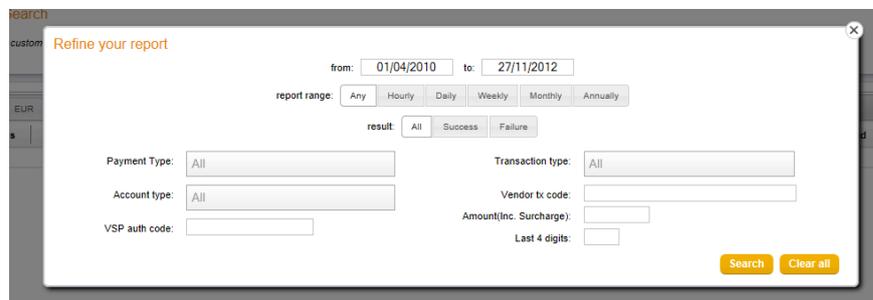

You can refine your search by selecting the  button.

You will then be displayed with Refine your report options as displayed below. Simply set criteria from the calendar to display transaction within a time period, you can select the month and year field to display a dropdown menu if you want to change the month/year.

You also have the ability to search for:

- Payment Type
- Transaction Type
- Account Type
- Vendor Tx Code
- Amount (inc.Surcharge)
- VPS Auth code
- Last 4 digits

**Important Note:** You must enter data into the search box in order to return transactions in the list
