Where to buy >>

ONE CLICK "DRAG & DROP" MADE EASY FOR COPING/PASTING BETWEEN TWO COMPUTERS

- File Drag and Drop

- Content Copy and Paste

- Keyboard/Mouse Sharing

- Windows/Android Compatible

The j5 Wormhole provides the latest in mobile computing technology. This simple to use USB to USB Wormhole

cable and software has two main functions. It allows you to copy/share your data, photos, music or other files between two computers instantly. Simply plug in the cable and drag and drop files from one computer to the other. You can use the keyboard and mouse from one computer to work on the second. Why is this important Imagine having the ability to use a full sized PC keyboard and mouse on your small lLaptop or tTablet.

The reasons for going through the Wormhole are endless. Not only is it great for sharing files with family and friends or between your own devices, but it will also improve efficiencies for a variety of uses in business, education, graphics, engineering, healthcare, etc. In our fast paced digital lifestyle where we interact using multiple devices and sharing enormous amounts of data, the Wormhole Switch is another "must have" tool from j5 create that will simplify your digital life.

Functions

- No installation CD is required, Simply Plug-and-Play

Enjoy "coping" large amounts of data betweentwo computers side by side with one clickp "drag & drop". The J5 WORMHOLE SWITCH provideis a smart solution for data transfer; byit createsing a super convenient, multi-task environment which takes advantage of two computers. Save time by moving your cursor across two computer screens, "dragging and dropping" files from one screen to the other, instantly auto-copying when you drop the file – this simple, one-step drag and drop, auto-copy feature is different from the traditional copy and paste procedure, which requires multiple steps. This is a great application for multi-tasking with side-by-side computers. Accomplish all of the following and more:
- Compare lab images and edit and/or copy easily
- Enables tutors to provide interactive training side by side
- Combining graphics and text for designing and engineering is made easy
- When editing a family photo just "Drag and Drop" to easily copy your images to the second computer.
- Provides a simplistic way for parents to edit family photos and copy them to a 2nd computer
- Convenient SOHO Photographers copy/editing in a flash
