QOSMIO F50

The 15.4" smartest entertainer

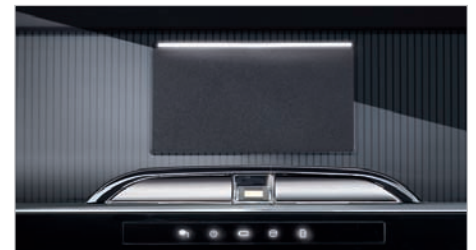

Toshiba recommends
Windows Vista® Home Premium.

Harman Kardon® stereo speakers with subwoofer and Dolby® Sound Room™ generate a compelling soundscape for movies, music and games.

Toshiba's elegant 'Horizon' interior design and durable glossy 'Fusion' finish create a laptop that truly stands out from the crowd.

Integrated Touch Pad and stylish new Multimedia Bar with feather-touch illuminated keys provide intuitive access and control.

The Qosmio F50 brings you Toshiba's most exciting mobile entertainment technology, wrapped up in a serious style statement. The world's first laptop with cell-based media processing, its Toshiba Quad Core HD Processor* upconverts standard DVD movies into High Definition. Top-in-class NVIDIA® graphics thrill with vivid realism. Premium-quality sound technology delivers immersive audio for music and films. Toshiba EasyMedia features make your digital lifestyle a simple reality. The design is just as cool with an eye-catching curvy exterior, black-and-chrome contrasts and innovative LED illumination. Qosmio F50 – designed for pure entertainment. Discover the magic of Qosmio!

FROM SD TO HD

The huge power of Toshiba's new Quad Core HD Processor* makes the Qosmio F50 the world's first laptop to offer real-time HD upconversion for ultimate user enjoyment.

DON'T MISS A THING

Watch TV on the move thanks to integrated digital and analogue tuners* – or record what-ever you want to the massive HDD for later viewing.

HIGH SPEED VIDEO EDITING

Professional results in a fraction of the time – edit your videos up to 5x faster** thanks to Toshiba's innovative hardware transcoding technology.

* on selected models

** compared to a standard Toshiba laptop

Toshiba recommends Windows Vista® Home Premium.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. • Up to 5x faster claim is based on comparison between a Toshiba notebook with and without Toshiba Quad Core HD Processor. Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
