Current Pitch	"b" Sign for Half-steps
	Pitch-pipe Note Selector
Octave Up and Down	Pitch Calibration
Pitch-pipe mode On/Off	Volume Level

Usage:

- To hear a specific pitch, press the appropriate button on the *Pitch Selector wheel*
- Change the audible pitch octave by pressing the octave *Up* or *Down Arrow* buttons
- Pressing the *Sound-icon* button or moving the volume slider will engage the Pitch-pipe mode and you will see a Green "P" indicator. Pressing *Sound-icon* again will re-engage the chromatic tuner
- Pressing the *Calibrate* button will allow the adjustment of the tuner's calibration from 420-460 Hz

Various Listing Views

Done - Exit

Add Track to Playlist

Usage:

- Add a tune to the *Audio Play Module* by touching the "+" icon or touching the name of the tune – add multiple tunes by also touching their names or their "+" buttons
- Press the *Done* button to exit the iPod module and play the selected tunes
- Touch any of the viewing listing options on the bottom navigation bar to sort the iPod's music library
- Please note that if a little "play triangle" icon is present on any of the songs listed, it is designating the current song cued in your *iPod* application and has no effect in A.P.S. MusicMaster-Users may not unselect an item once it is selected, to do this -simply cancel out and start-over

Glossaries
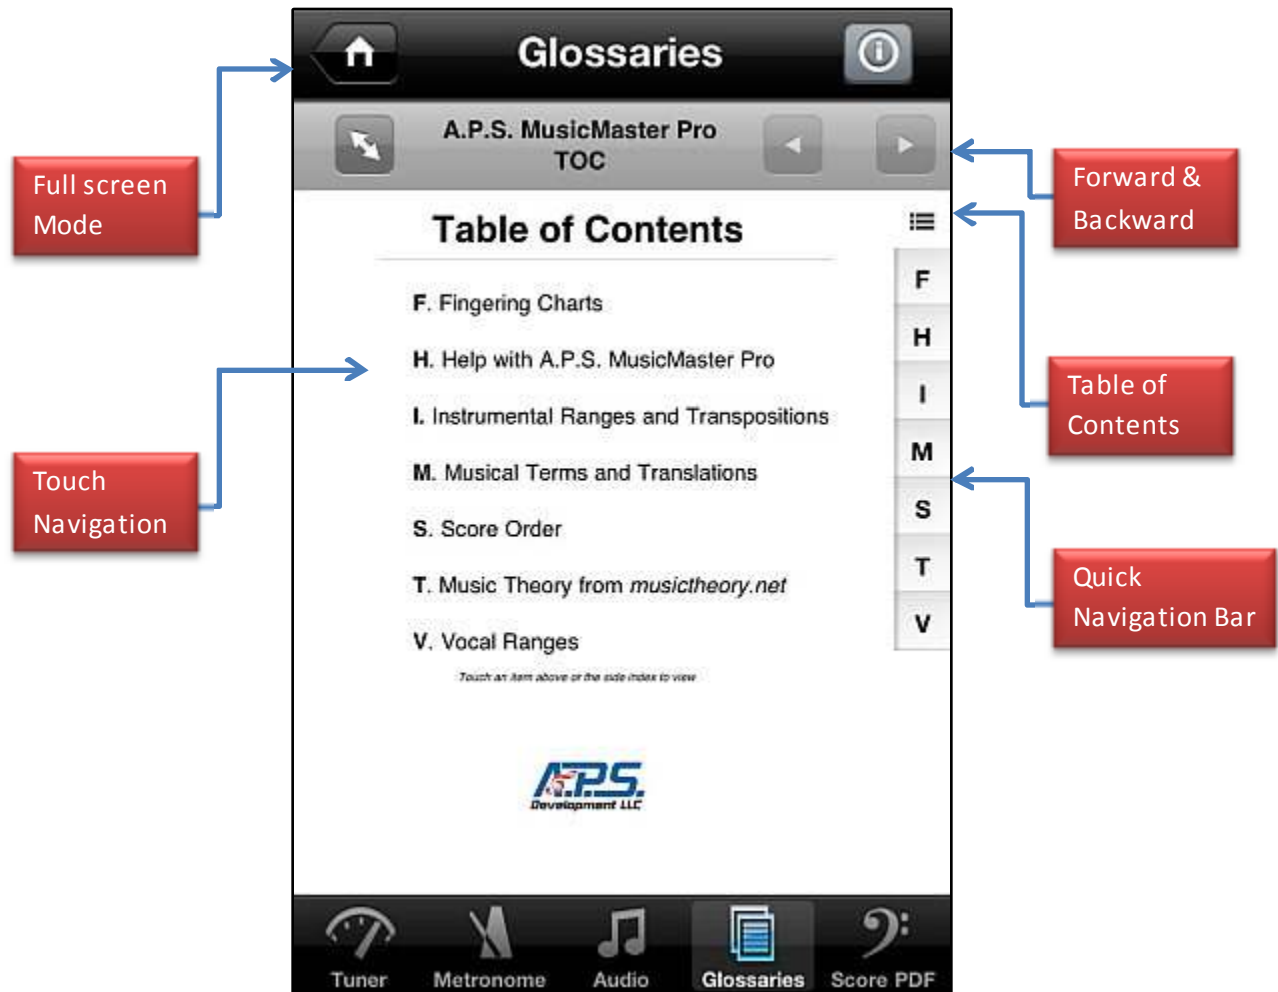

Usage:

- Touch the *Full Screen* button for a larger view
- Touch the actual words on the screen or use the *Quick Navigation Bar* to view the various glossary sections
- Touch the *Forward and Backward* buttons for reviewing recent pages
- Touch the *Table of Contents* button to go back to the TOC
- Zooming of the glossary content is available by using the standard iPad/iPhone zooming gestures

Score PDF (Document Management)

Show Folder Menu
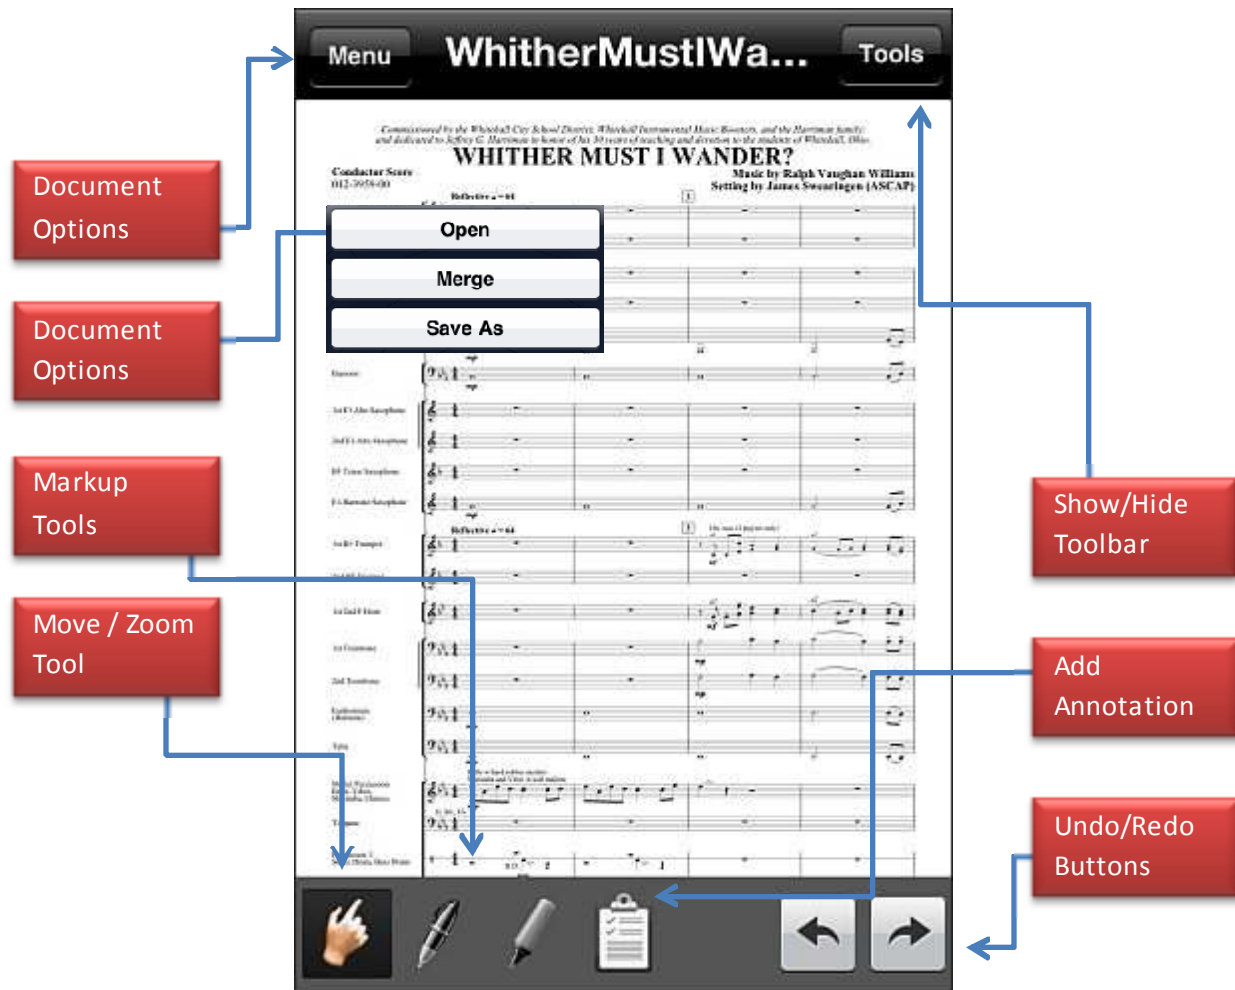

Touch/Hold for Options
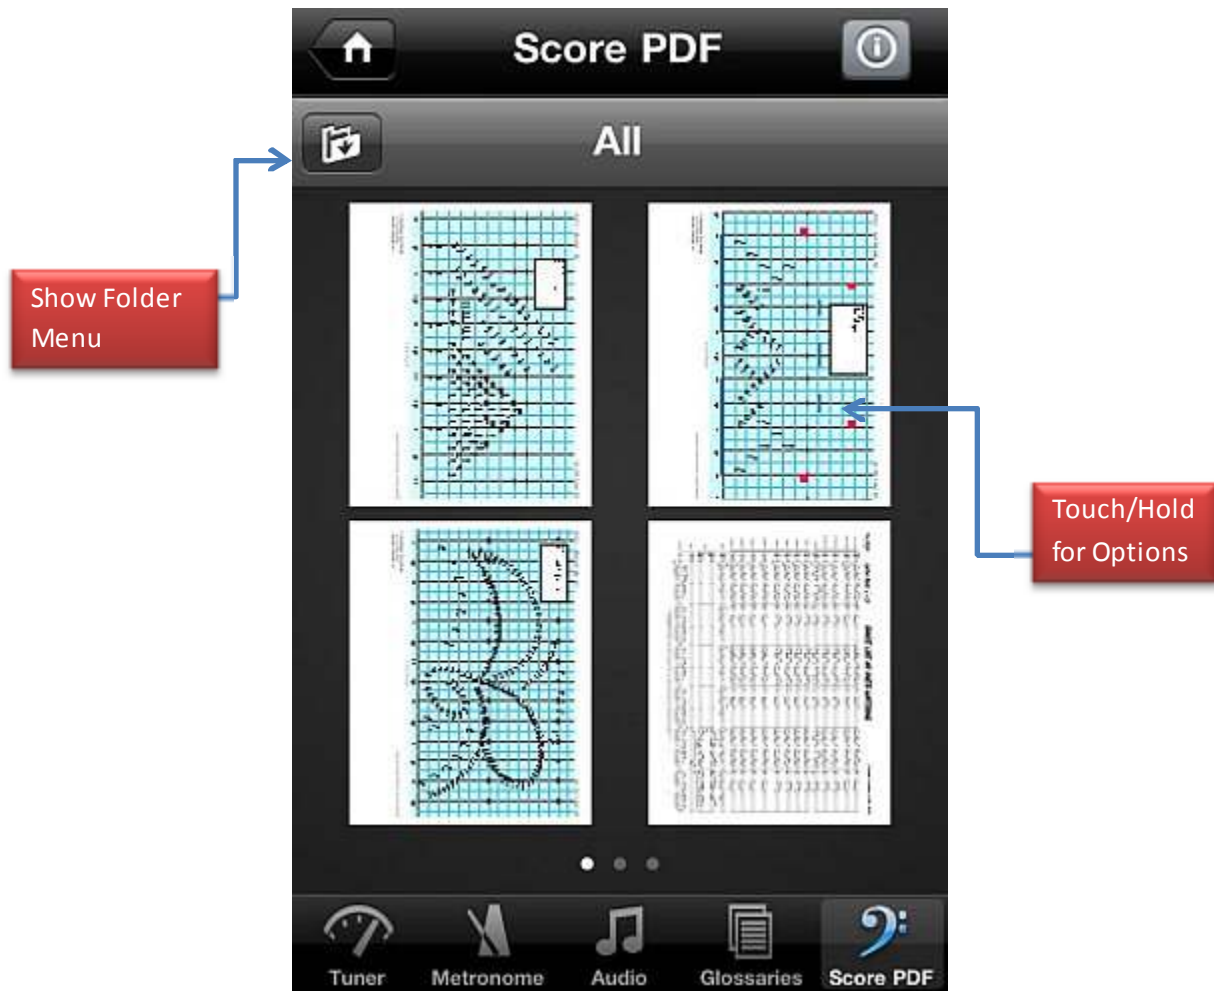

Usage:

- Show the document *Folders* by touching the *Document* icon
- Show only documents that are in the sub-folders by touching the corresponding named folder –touch *New* to create a new folder
- Touch and hold a document to view the document options, tap a document top open it for editing/viewing
- If you have more than nine documents, finger swipe left or right across the screen to view the next set
- *Delete, Move*, or *E-mail* a document by touching the corresponding option in the *Document Option Dialog* box
- To delete a folder (only user-created folders may be deleted), swipe your finger across the folder's named-row and then press the newly appeared *Delete* button
    - *~The easiest way to get a PDF into this module is currently through the integrated e-mail or dropbox.com "open in" integrations*

- *Music Pass Through enabled* – Open/Play a file from the audio module and then go to the PDF module to hear it and work with PDFs

# Exporting/Importing via File Sharing

Some Documents may be exported and imported via A.P.S. MusicMaster by utilizing the *iTunes File Sharing* options within the iTunes desktop/laptop software. To access the *File Sharing* options please implement the following steps:

1. Open the iTunes software that the iPad/iPhone is synced to and authorized with and then connect then iPad/iPhone device
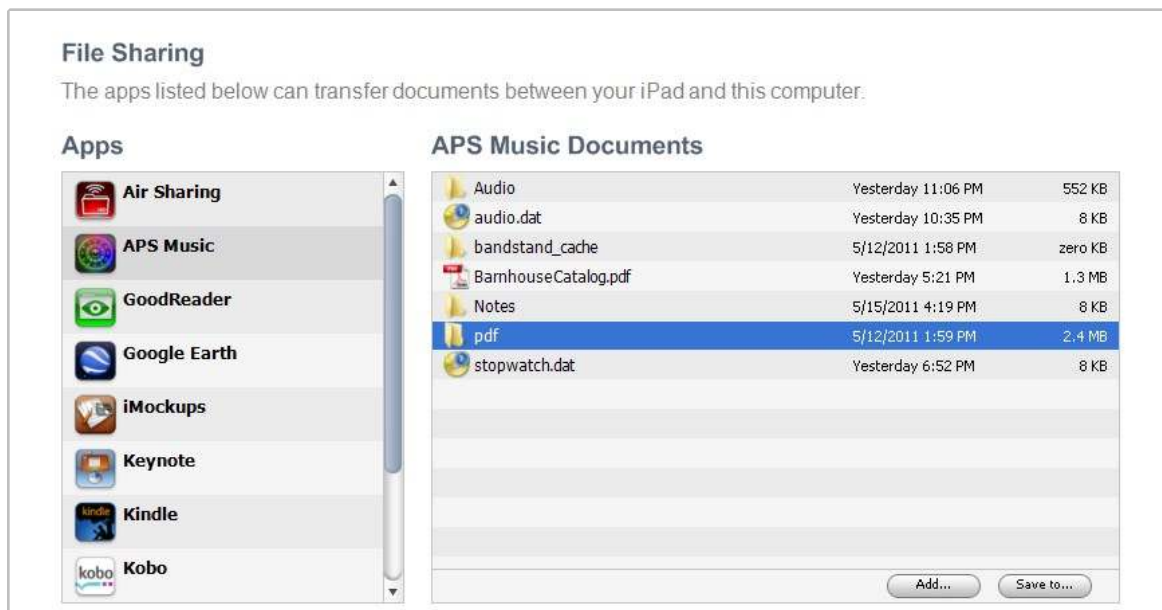

2. Navigate to the "DEVICES" menu in the sidebar and click on your iPad/iPhone Device

3. Now, click on the "Apps" button on device menu:
4. Scroll down to the "File Sharing" portion of the "Apps" screen:

5. Click on the "APS Music" icon in the left window

6. Choose "Add" to import PDFs into the application (or use the integrated browser) or choose "Save to" to export the A.P.S. MusicMaster collection of Notes, Audio Files, or PDFs –Choose "Save to" to Export iPad/iPhone files…

Importing PDFs via e-mail

Import a PDF directly from the iPhone's/iPad's built-in e-mail program or directly from the dropbox.com application. These abilities further reduces the need to tether the device to a traditional desktop or laptop computer and have maximum functionality with *A.P.S. MusicMaster.*

<u>To import a PDF directly from an e-mail,</u> touch and hold the link or picture of the PDF contained within the e-mail (see picture below).

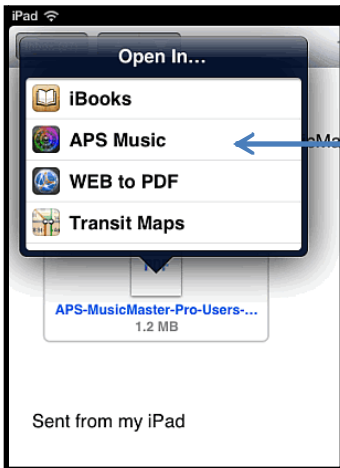

After a moment, a new dialog/menu will "pop up". If you do not see "Open In APS Music" as an option, touch "Open In"…
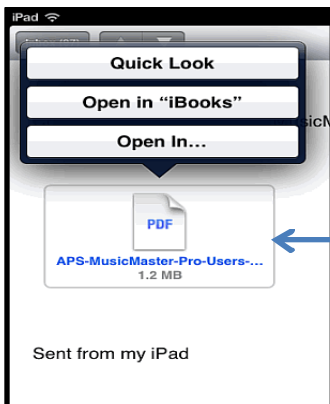

If you choose "Open In", you will now be presented with a number of choices (depending upon what programs are installed on your device), choose "APS Music" to have the PDF sent to *A.P.S. MusicMaster* (you may have to scroll the window to find it).

Touch/Select
"APS Music"

When you do this, A.P.S. MusicMaster will open up and you will be presented with a message similar to the following:

Your PDF has been successfully sent to "Incoming" directory of the PDF Module. This is the same directory where PDFs are stored when using iTunes to import PDFs into *A.P.S. MusicMaster* (see page 12).

PDFs Imported via e-mail will be Sent to the "Incoming" Folder of the Score PDF Module

Importing PDFs via DropBox

<u>To import a PDF directly from the Dropbox.com application (http://dropbox.com),</u> open the Dropbox application.

Then open a PDF that you would like to transfer to the *APS MusicMaster* app and then touch the *export button* in the bottom toolbar. Finally, choose "APS Music" from the available options.
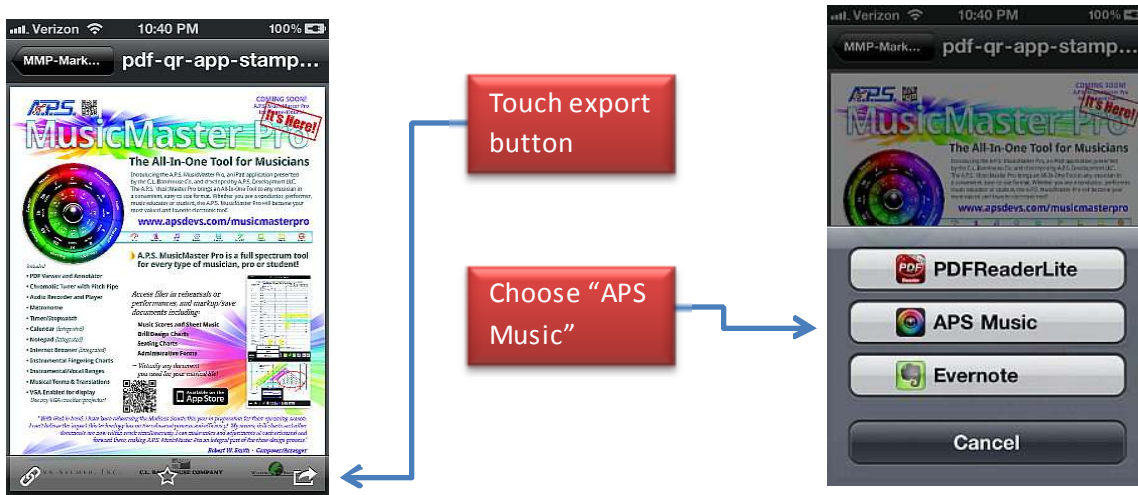

You will see the confirmation from *APS MusicMaster* that your PDF was imported into the "incoming" directory.

Press "OK".

END
