

J. ROCKETT AUDIO DESIGNS

The Archer is a versatile overdrive/boost with amazing headroom that is designed to help you cut through the mix. Please experiment with settings and be careful with the output....this dude is loud!

Controls

- **Output:** The volume control is very powerful and drives fairly hard relatively early. This allows you to hit the front end of an amp or pedal to get very aggressive or crystal clear.
- **Treble:** The Treble control is a very effective EQ that goes from dark to a very “chimey”, bright tone. It’s great to create that midrange clarity.
- **Gain:** The gain also acts as a mixer control between the clean boost and the gain. Turn the gain all the way down and your output becomes the volume for all clean boost. Start blending in the gain control and it will simultaneously reduce clean volume & introduce gain.....somewhere in the middle is the sweet spot or mix of the two....experiment!!

NOTE: There is no goop to contend with.....;-)

Power Supply

All J. Rockett Audio Designs pedals operate off of the standard BOSS type 9 volt adapter or a single 9 volt battery. The power input is a 5.5 mm x 2.1 mm jack with the positive voltage on the outer sleeve. Using an external power supply will automatically disconnect the battery. Disconnect the input jack to preserve battery life when not in use or when not used with an appropriate, external power supply.

2.1mm x 5.5 mm tip/negative plug

Warranty

J. Rockett Audio Designs LLC will repair or replace, at its discretion, defective workmanship or materials on all new J. Rockett Audio Designs products directly or through the selling dealer or an authorized service technician for one year from the date of purchase at no cost to the original purchaser. Repair and replacement parts installed will be warranted for the unexpired portion of the original warranty term.

Before sending a product in for repair, please contact us at chris@rockettpedals.com or jay@rockettpedals.com or call us at 760-419-1345.

This warranty does not cover shipping costs, product appearance or damages caused by accident, abuse, misuse or alteration. A dated sales slip or order number (issued by a tech, dealer or J. Rockett Audio Designs) must accompany a product being returned for warranty service. Repairs without a return authorization number will be refused. Please allow four (4) weeks for warranty service. For more information please contact J. Rockett Audio Designs via our website at www.rockettpedals.com or call us at 760-419-1345. No other warranty is expressed or implied.
