1. Headband
2. Headband Adjustment
3. Previous Track
4. USB Charging Port
5. Multi-Function Button
6. Next Track
7. Microphone
8. Padded Earpiece
9. Power Switch
10. Volume Down (—)
11. Volume Up (+)
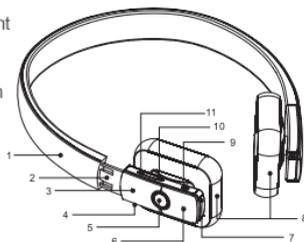

Charging the headset
Your CoolStream Bluetooth Stereo Headphones use a rechargeable battery. You must charge the battery fully before using the BTH-301 for the first time. Please make sure to turn off the BTH-301 before charging by sliding the power button until it shows red.

1. Plug the mini USB connector into the USB charging port on the BTH-301. Plug the standard USB connector into your computer or USB power adapter (not included).
2. The indicator light will be red while charging.
3. The usual charging time is between 2-3 hours.
4. The indicator light will turn blue when the battery is fully charged.

Powering on/off
Turn the headphones **on** by sliding the Power Switch (9) until a beep sounds and the indicator light flashes blue.

Turn the headphones **off** by sliding the Power Switch (9) until a beep sounds and the indicator light flashes blue twice and then will switch off.

Pairing your phone via Bluetooth
1. Ensure that the BTS-301 is on by sliding the power switch to the on position showing green. Pairing is best when your phone or mobile device is within a few feet from your headphones.
2. Press and hold the Multi-function button (5) until the indicator light remains a steady blue.
3. Ensure that your phone's Bluetooth function is turned on (go to your settings), and then select the CoolStream BTH-301 from your phone's Bluetooth devices.
4. Most smart phones and tablets will automatically pair with the BTH-301. But if your device requires a pairing code, enter four zeros (0000), and then press "yes" or "ok".

IMPORTANT:
- *If pairing is successful, the indicator light will flash in blue 10 times rapidly before going to flashing every 3 seconds,*
- *If pairing is unsuccessful, the indicator light will remains on.*
- *If the pairing time takes more than 60 seconds, the indicator light will go out and pairing will need to be done again.*

Disconnecting the BTH-301 from your mobile phone
To disconnect the BTH-301 from your phone, do one of the following:
- Turn the BTH-301 off, by sliding the power switch until it shows red.
- Under Bluetooth devices on your phone, disconnect the BTH-301.
- Move the headphones 33ft or more away from your phone.

Reconnect the paired BTH-301 with the mobile phone
To reconnect the paired BTH-301 with your phone, do one of the following.
- Turn the BTH-301 on by sliding the power switch until it shows green and set up the connection with the Bluetooth list on your mobile phone.
- Press the Multi-Function button (5) once. (Your phone must have already been paired with the BTH-301 for automatic connection.)

Answering a call
When a ringtone sounds, press the Muliti-Function Button (5) once to answer. Music will be suspended during your call.

Ending a call
Press and release the Muliti-Function Button (5) to end a call or end the call from your phone. Music will resume when the call has ended.

Placing a call while listening to music

Press Multi-Function button (5) for about 2 seconds until you hear a beep. Say the number you desire such as "Call Mom". (This feature is not supported by all mobile phones). When call is completed music will resume.

Answering / rejecting a call when listening to music

If an incoming call is made while listening to music with the BTH-301, press the Multi-Function button (5) to answer the call or press and hold the Multi-Function button (5) for about 2 seconds to reject the call.

Placing a call on hold

During the phone call, press and hold the Multi-function button (5) for 2 seconds to place the call on hold. To resume the call, press and hold the Multi-function button (5) again for 2 seconds. (This feature is not supported by all mobile phones.)

Redialing previous number

Press and hold the Multi-function button (5) for 2 seconds until you hear a long beep sound.

Playing music

Press the Multi-function button (5) to play or pause music. Press the Next Track button (6) to skip to the next track and the Previous Track button (3) to skip to the previous track.
