

The Leading Global Supplier of Portable Solutions

DEFCON 1

Notebook Computer Security System

FEATURES

- Stainless Steel Cable Lock System - cut- resistant, vinyl coated, self-retracting
- Electronic Alarm System - 110 dB alarm, instantly arms whenever lock is engaged
- Various Siren Activations
- User-Activated Motion Sensor
- Resettable 3 Digit Combination
- LED Indicator Light
- Audible Indicators
- Conventional 9 volt battery

Now you can prevent notebook theft, the fastest growing fear among mobile professionals today. With the Targus DEFCON 1 on guard, you can relax in airports, restaurants, and other public places. This revolutionary anti-theft system guards your notebook in more locations and situations than any other device you can buy. In fact, it's the only system that combines stainless steel cable with motion sensor technology to create a combination locking system that easily attaches to your notebook or carrying case in any setting.

DEFCON 1 is compact, lightweight and easy to use. You just attach it to your case or notebook and turn it on. If someone tries to steal your case or cuts the cable, a 110 decibel alarm will sound to let you and everyone else know that DEFCON 1 is on alert.

Part # PA400U

- Versatile, Pocket-Sized Combination Lock and Security Cable
- Simple To Use, Difficult For Thieves to Disarm
- Easily Attaches to Your Carrying Case or Any Notebook With a Security Lock Slot
- Motion Detector Triggers High-Pitch Alarm
- Flashing LED Lets You Know DEFCON 1 is On Guard
- Audible "Chirps" Warn of Movement Before Alarm Sounds
