

## **Micro VideoCam Recorder**

**User Manual**  
SW241-SD4

# Introduction

Thank you for purchasing the Micro VideoCam by Swann. The Spy-Stick is ideal for use as a hidden camera or voice recorder. Its small size makes the Micro VideoCam ideal for situations that require a small portable video camera or discreet positioning.

# Package Contents

- Micro VideoCam
- USB Cable

## **FCC WARNING STATEMENT**

This device complies with Part 15 of FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation

# Micro VideoCam Overview

1. Power on/off
2. Record/Stop Button
3. HOLD
4. Micro SD card slot
5. MIC

6. Recharge Light
7. Power Light
8. Record Light
9. USB Port

## Installing a Memory Card

The Micro VideoCam Recorder accepts Micro SD memory cards from 128MB up to 2GB. You must install a memory card before recording options become available.

- This product supports Micro SD cards up to 2GB.
- Insert the Micro SD card as shown. Damage can occur if inserted improperly.
- Push the memory card until it clicks into place. It will not protrude when inserted correctly.

# Recording Video

## **Step 1:**

Turn the HOLD switch off

## **Step 2:**

Press and hold the Power Button until the power indicator stops flashing and remains blue

## **Step 3:**

Press the Record/Stop button to begin recording. The flashing yellow light indicates the Micro VideoCam is recording. If no light appears ensure the unit is powered on and a Micro SD card is inserted correctly

## **Step 4:**

Press the Record/Stop to stop the recording

## **Warning:**

Do not turn the power off when the unit is recording. Footage will not be saved if the Micro VideoCam is turned off while recording

## Connect to PC with USB cable

- Connect the USB Cable from the Micro VideoCam to a USB port on your PC. When connected the blue Power Light will appear on the Micro VideoCam. It will also go into charge mode indicated by the blinking red Charger Light. Charge the Micro VideoCam a minimum of 3 hours to maintain long battery life.
- When connected via USB the Micro VideoCam acts as a removable disk. You can copy or delete video files from the Micro VideoCam or view video footage by clicking on a video. QuickTime is recommended for viewing recordings and is available free at [www.apple.com](http://www.apple.com)
- When you are finished charging or viewing videos simply remove the USB Cable from the Micro VideoCam.

## Features
