Hybrid Battery System Analyzer

MIDTRONICS
Advancing Battery Management

The HYB provides technicians with the capability to safely perform battery service maintenance testing on several leading Hybrid vehicles. Simply connect the wireless convergence communication module to the vehicles on-board diagnostics port and follow the menu instructions on the HYB. The drive test is an interactive, menu-driven test that uses live vehicle sensor information while performing an accelerated drive test. The technician can see live results on the tester while performing the test, and print the results to an IR printer.

Test Functions: 12V Auxiliary Battery Test, DTC Code Reading, DTC Code Reset, Live Data Run Chart & Drive Test.

Fuel Injection Service

EGR Port Cleaning Kit

Drill thru clogged EGR ports without removing the intake manifold. Solves emission problems and improves engine performance. More effective than methods involving use of speedometer cables or coat hangers. Includes: 12" spring steel drill bit for easy routing, 2-sided steel pick, steel wire brush, and transparent storage tube. 9" & 21" bits available separately.

EGR312 **\$51.49** Additional Delivery Charges May Apply

Stinger Basic Fuel Injection Service Kit

Performs running, residual, rail and flow rate pressure tests. Kit includes adapters, hoses and fittings to test fuel injection systems plus (2) popular adapters for import vehicles as well as the GM TBI adapter, 0-100 PSI and 0-700 kPa gauge with relief valve, fuel discharge hose, rubber boot & molded carrying case.

4480 **\$111.99**

Deluxe Fuel Injection Pressure Tester Kit

Accurately test pressure and flow on virtually all vehicles with this 30-piece kit. Includes S.U.R.&R.- exclusive, universal Quick- Connect adapters featuring thumb release, push button convenience, 9 ft. hose for use inside the vehicle cabin, and suction cup back for attaching to window during driveability testing.

FPT22 **\$298.00**

Pro Master Fuel Injection Service Kit

Perform fuel pressure testing, diagnose weak fuel pumps or restricted filters, test for fuel flow and perform leak-down tests. Use to clean injectors and intake systems. Kit includes: 0 - 100 PSI fuel pressure gauge, 47 OTC fuel injection system adapters each with a quick-connect Schrader valve, 1997 - 2008 Fuel Injection Service Application Manual & replacement seal kit.

6550PRO **\$358.99**

Upgrade Your 6550 Kit to a 6550PRO Kit

6550UPD **\$158.99**

Vacuum/Pressure & Compression Test Kits

Vacuum/Pressure Test Kit

Performs engine performance diagnostics, brake bleeding, fluid transfer, evacuation, sampling, windshield repair and more. Includes components needed to perform hundreds of diagnostic & mechanical tests.

MV8500 **\$72.99**

Manual Compression Test Kit

Designed for full coverage of most automotive, industrial, marine, and small engines. Can perform both wet and dry compression test. Comes complete with 2-1/2" gauge, 10" whip hose, quick coupler, and adapters.

MV5530 **\$74.99**

Relay Circuit Quick Test Kit

Fast & Easy Visual Confirmation of Relay Inputs & Outputs Including Wiring & Components

Glowing Relay Simulators provide instant visual confirmation of inputs. Remote test switch allows for output integrity testing. Works on most popular foreign and domestic electronic relay applications. Great for operating fuel pumps, cooling fans, windshield wipers, power windows, blower motors, A/C clutches, starters, rear defoggers and much more!

77465 **\$149.00**

Toll Free Tech Support: 800-342-5080

Non-Contact Thermometers

MiniTemp™ is pocket-sized and easy to use. Powered by a 9 Volt battery. Great for checking painted finishes. Range: 0 to 750° F.

MT4UVB **\$47.99** Additional Delivery Charges May Apply

The MiniTemp™ MT6
Features: single dot laser sighting system and large display. Temperature range: -20° to 932° F. 10:1 distance to spot ratio.

MT6UVB **\$64.99** Additional Delivery Charges May Apply

MIDTRONICS Battery Testers

PBT-300 Automotive Battery & Electrical System Analyzer

Tests 12V automotive batteries from 100 - 1400 CCA. Displays voltage, measured CCA, and color LED for battery condition. Bad cell detection. Voltmeter mode plus color LED for starter/alternator condition.

PBT-300 **\$269.00**

MDX Series Battery Conductance and Electrical System Analyzers

MDX-P300 features an integrated printer. Customizable header on printout. Tests 12V batteries and systems for cars and light trucks. Tests starting and charging system voltage and displays results. Tests batteries from 100 to 1400 CCA. Bad cell detection. Reverse polarity protection. Tests discharged batteries down to 1V. Multiple rating system compatible (CCA, SAE, DIN, EN, IEC, JIS#). Tests AGM, and GEL batteries. Multi-language support.

MDX-P300 **\$479.00**

MDX-650 tests regular flooded, AGM flat plate & Spiral, and GEL 6V and 12V batteries. Compatible with multiple rating systems (CCA, CA, MCA, JIS, SAE, EN, DIN, IEC). Offers 12V and 24V charging system and quick starter analysis without disabling the ignition. View/Print last test from memory (650P). 4-ft. or 10-ft. replaceable cable set. QC Mode. Multiple language support.

MDX-650 **\$699.00**

Battery Service > Workbenches

OTC Battery Testers

Digital Battery Tester

Tests 12V batteries (125-1400 CCAs) and analyzes by measuring multiple parameters within the battery to deliver accurate results. A live Voltmeter allows easy starting/charging system testing. Its bright, 4 digit LED display indicates the battery's good/bad status, voltage, & available CCAs. (Does not include printer).

3183 **\$168.99** (Printer not included).

SABRE HP - Battery diagnostic and vehicle starting/charging system tester. Digital circuitry precisely controls battery test loads to accurately determine battery conditions. Tests FLA and AGM batteries accurately down to 1V state of charge. Built-in Voltmeter. Auto-sensing 3' leads.

3167 **\$518.99**

Printer not included.

SABRE HP - Battery & Electrical System Diagnostic Tester with Printer

Battery diagnostic and vehicle starting/charging system tester. Digital circuitry precisely controls battery test loads to accurately determine battery conditions. Tests FLA & AGM batteries accurately down to 1V state of charge. Built-in Voltmeter. Removable auto-sensing 3' leads.

3168 **\$778.99**

NEW! Digital Battery & System Tester with Integrated Printer

Complete testing solution for 6V and 12V batteries, 12V and 24V systems. 1.5-30V operating range, 40-2000 CCA testing capacity, extra-long 10' leads, multi-lingual operation, backlit display and easy operation. Compatible with many battery types, including Conventional, Maintenance Free, AGM, Gel Cell and Spiral Wound batteries. Integrated printer for easy service documentation.

BA327 **\$532.62**

Bosch BAT 151 Electrical System Diagnostic Analyzer and Battery Tester Kit

Advanced digital signal processing with enhanced starter and alternator testing functions. Voltage drop testing using state-of-the-art Dynamic Conductance Technology. Advanced algorithms identify if a battery is nearing end-of-life.

**BE COOL
THINK
GREEN.**

Port-A-Cool® Portable Evaporative Cooling Units utilize an all natural cooling method and have implemented state-of-the-art technology to perfect the process. No harmful greenhouse gases are emitted from the units during the cooling process. Only tap water and 115V or 230V of electricity are needed. The 36 inch model produces cool air for eight hours for \$1.52.

*Lease payments will vary with every lease transaction, based on prevailing rates, your credit history and other factors.
