

USER MANUAL

JUICER WITH **HANDLE**

SY•EX18

Welcome

Welcome to Sytech! Thank you for purchasing the new Electric Juicer with Handle SY-EX18. Please read this manual carefully before operating your product and pay close attention to the precautions which are mentioned below. Store this user manual in a safe place for future reference.

Parts of the SY-EX18

Important safeguards

When using electrical appliances, basic safety precautions should always be followed, including the following

1. Read all instructions before operating
2. Remove the mains plug from the wall socket outlet,
 - a. If a disturbance occurs
 - b. After use
 - c. If the citrus juicer is out of use for a prolonged period of time
 - d. Before cleaning the citrus juicer
 - e. Before removing and inserting the pressing cones
3. If you apply too much pressure to the cone while juicing the motor may seize
4. Place the juicer on a level surface that will not be harmed by splashes of juice as splashing cannot always be avoided .The surface should be easy to clean
5. DO not place the juicer on hot surfaces, such as hotplates or near naked flames
6. Your citrus juicer is equipped with suction feet .The suction feet will adhere to any smooth surface. For them to adhere well the surface must be flat and also free of dust or grease .The suction feet cannot adhere to a textured surface. Slightly moisten the suction feet before you press them onto the surface
7. Do not fix the suction feet to sensitive surfaces .Some paints or synthetic coating may react adversely with the material of the suction feet and soften them. This could cause them to leave marks
8. Never use abrasive cleaning products, as these might damage the surfaces
9. To protect against electrical shock, do not immerse the cord, plug or the appliance itself in water or other liquids.
10. This appliance is not intended for use by persons (including children) with reduced physical sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety Children should be supervised to ensure that they do not play with the appliance
11. Allow the unit to cool before putting on or taking off parts
12. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment
13. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries
14. Do not store any materials other than manufacturers recommended accessories in this unit when not in use
15. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard

Before First Use

1. Danger: Keep the packaging material away from children. They could suffocate
2. Unpack the citrus juicer and remove all of the packaging
3. Examine the juicer for visible damage and check that all of the parts are present
4. You should clean the appliance before using it for the first time
5. Wipe the motor base with a damp cloth
6. Before using the juicer for the first time, rinse the cones, strainer, juice container and transparent dust lid with warm water and a few drops of washing-up liquid.

Operation

1. Make sure that all the parts of the juicer are well fitted before use.
2. Stand the appliance on an even surface that is easy to clean
3. Unwind the power cord – to the length you require – from the cord storage compartment (underneath the juicer). Make sure that the cord is correctly
4. Connect the mains plug to a AC120V, 50/ 60Hz socket outlet

Juicing

Caution: if you apply too much pressure to the juicing cone, the motor may seize.

1. Remove the transparent dust lid.
2. Juice collection:
 - a) If you wish to collect the juice in the container, press the spout upwards to close it.
 - b) If you want the juice to run straight into a glass, press the spout downwards to open it and place a cup under it.
3. Cut a citrus fruit in half and press the cut end of one fruit half onto the cone. The juicer switches on automatically when you press the fruit down and the cone starts to turn. The juicer automatically switches off as soon as you reduce pressure on the cone. The cone scrapes the pulp out and squeezes the juice from the fruit. The juice flows through the strainer into the juice container from where it can run into a glass (the spout must be open). The strainer keeps back thick pulp and seeds.
4. To maximize the quantity of juice extracted from a fruit, press a fruit onto the cone several times.

After use

1. Remove cone, strainer, juice container and drive shaft from the appliance and clean them.
2. Unplug the appliance.

Juicing advice

1. Citrus fruit juices should be consumed immediately and never stored in a metal container.
2. Citrus juices are ideal for mixing. For example, you can mix orange juice with lemon juice for an extra vitamin C kick.
3. Freshly squeezed juice gives cocktails a particularly tangy twist and better flavour. Lemon juice is also delicious in hot tea and additionally helps you build up your defenses when you have a cold.

Cleaning

Danger:

1. Unplug the citrus juicer before you clean it.
2. The motor base must not be immersed in water or other liquids or held under running water as this could give you an electric shock.
3. The juicing cones, strainer and juice container can go in the dishwasher.
4. Wipe the motor base with a damp cloth.
5. If you use the spout on the juice container frequently, pulp may build up in the spout. Therefore clean the spout after each use.

Specifications

Electric Juicer with lever
Stainless Steel exterior housing
Plastic filter with one juice cone
Plastic spout with anti-drip function
Overheating protector
Non-slip rubber feet
Power: 85W
Voltage: 220-240V – 50Hz

Declaration of Conformity

Manufacturer Name: Satyatrade S. L.
Address: Pol.Ind.La Raya. C/ Guadalquivir, 2.
Camarma de Esteruelas, 28816 Madrid
Tel: 902 430 967
Fax: 91 8864285
NIF: B83254763
Manufacturing country: China
Description: Electric Juicer
Sytech® SY-EX18 complies with the following directives:

EMC Standard: Directive 2004/108/CE

LVD Standard: 2006/95/EC

ROHS Standard: 2011/65/EU Restriction of Hazardous Substances
