I. Introduction

This guide is written for Test Centre Administrators.

As a Test Centre Administrator, you will use the ATS Online to:

- Manage test centre users
- Manage candidates and candidate groups
- Manage skills cards for the candidates
- Manage test sessions and tests
- Generate reports for candidates and tests details.

ATS Online: General Information

ATS Online allows the evaluation and certification of a Candidate's knowledge of popular PC applications (such as Microsoft Word and Excel). The candidate can take the tests online. The software fully supports internationally recognised qualifications, such as the European Computer Driving License (ECDL) and the International Computer Driving License (ICDL). The software assesses the candidate's proficiency of using PC applications by testing using the real applications.

The people who use the software are divided into several types of users: Licensee, Organisation, Test Centre and Candidates. The tests can be assigned by the Licensee, Organisation and Test Centres to the candidates. The candidate can then login to the ATS software to take the online test. The tests in the software present the candidate with a series of modular tests, which they complete using the actual software for the testing environment. For example, a candidate sitting a test to assess their competence in Microsoft Word will take the test using the real Microsoft Word product, not a simulation. The software provides the candidate with full instructions when they sit the test, and allows them to perform the skills required for the test using ANY method available in the application being tested. It does not matter whether they use menu options, shortcuts keys, toolbars or menus; so long as they produce an accurate, complete result within the time allowed.

II. System Requirements

ATS Online System is compatible with the following:

- Windows 2000/Windows XP
- Microsoft Office: 2000/XP/2003
- Internet Explorer 6/7 with ActiveX Enabled.

III. Access Information

To access ATS Online, visit the URL <http://www.litmuslink.com/litmushome.htm>. Click on the ECDL / ICDL ATS Online and choose your region. Select the language that you want to use from the Language drop-down. Upon selecting the language, the system will appear in the language selected. You can change this later if you wish.

Enter your Username and the Password and click on the Login button. If you have forgotten or lost your password, click on the [“Forgot username and password?”](#) link.

Figure 1 - Login Screen

When you login, you will see your Dashboard. The Dashboard contains an Inbox, where you can check the mails/messages from the Licensee. You can also check the latest news, quick information about the status of the test centre, and many other items.

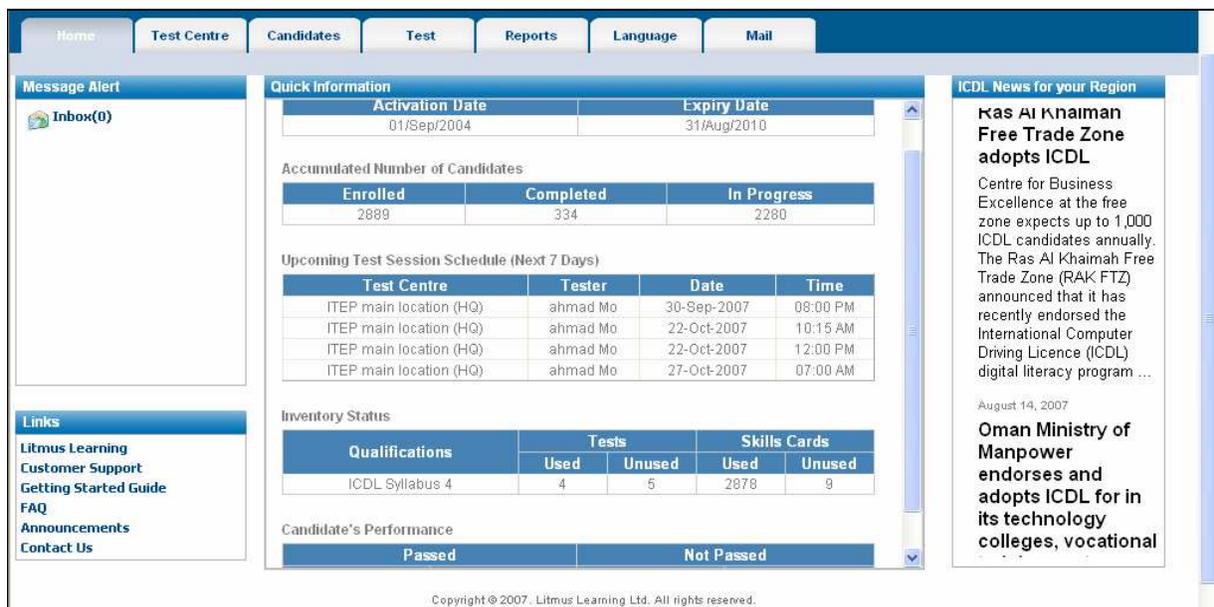

Figure 2 - Dashboard

1. Test Centre Tab:

The test centre tab provides the test centre administrator the ability to view detailed information related to their own centre as well as manage the test centre users and candidates.

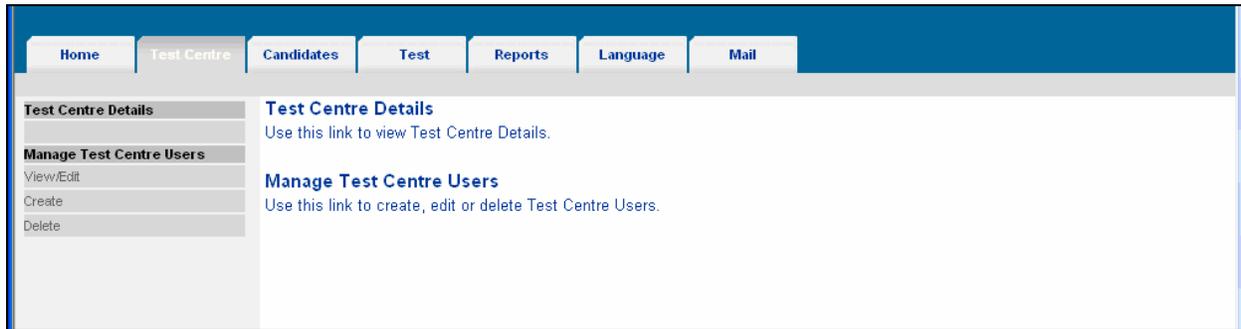

Figure 3 - Test Centre Tab

1.1 Test Centre Details: This section provides information about the test centre such as the centre ID, name, address etc. The details are read-only and can be updated by contacting the ICDL Licensee.

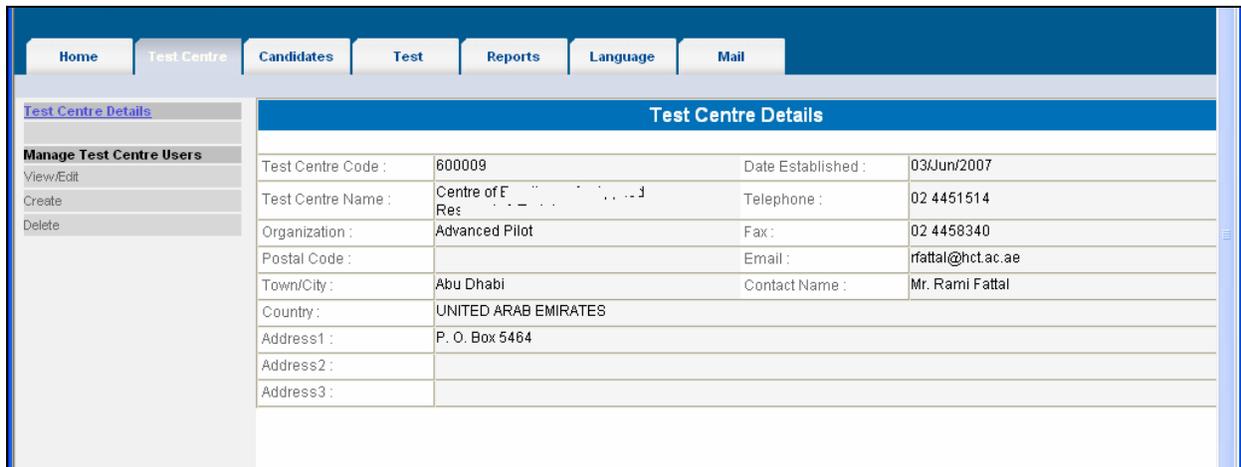

Figure 4 - Test Centre Details

1.2 Managing Test Centre Users: The test centre administrator has the authority to create, edit and delete test centre users such as administrators and testers.

- **View/Edit** – The test centre administrator can view and edit a test centre user.

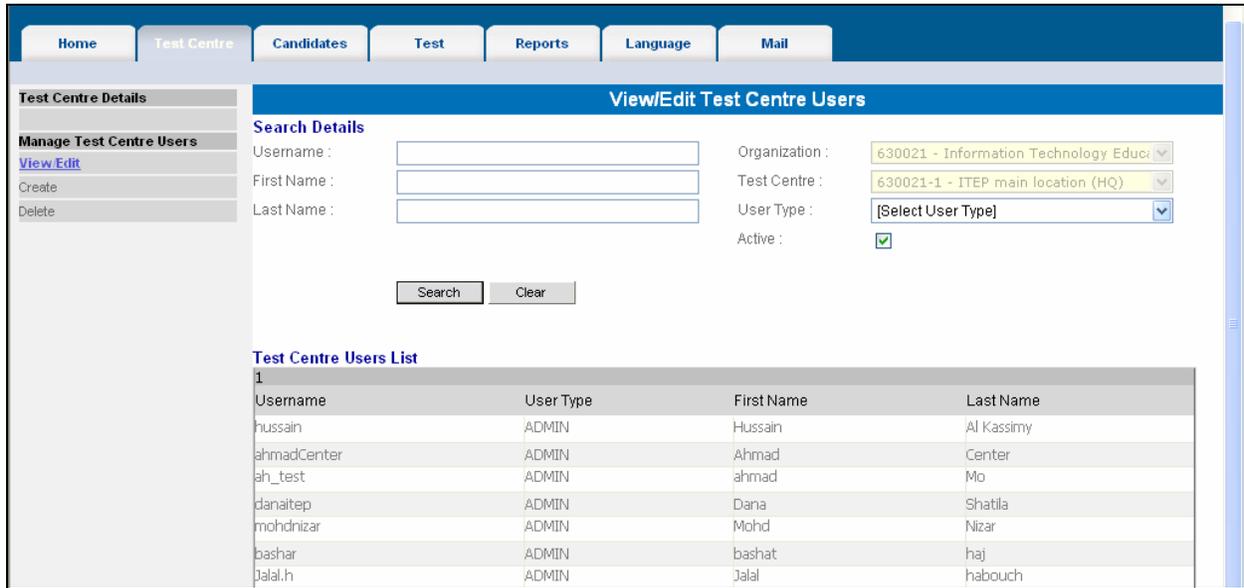

Figure 5 - View/Edit Test Centre Users

- **Create** – The administrator can create a test centre user by clicking on this link and filling all the details required.

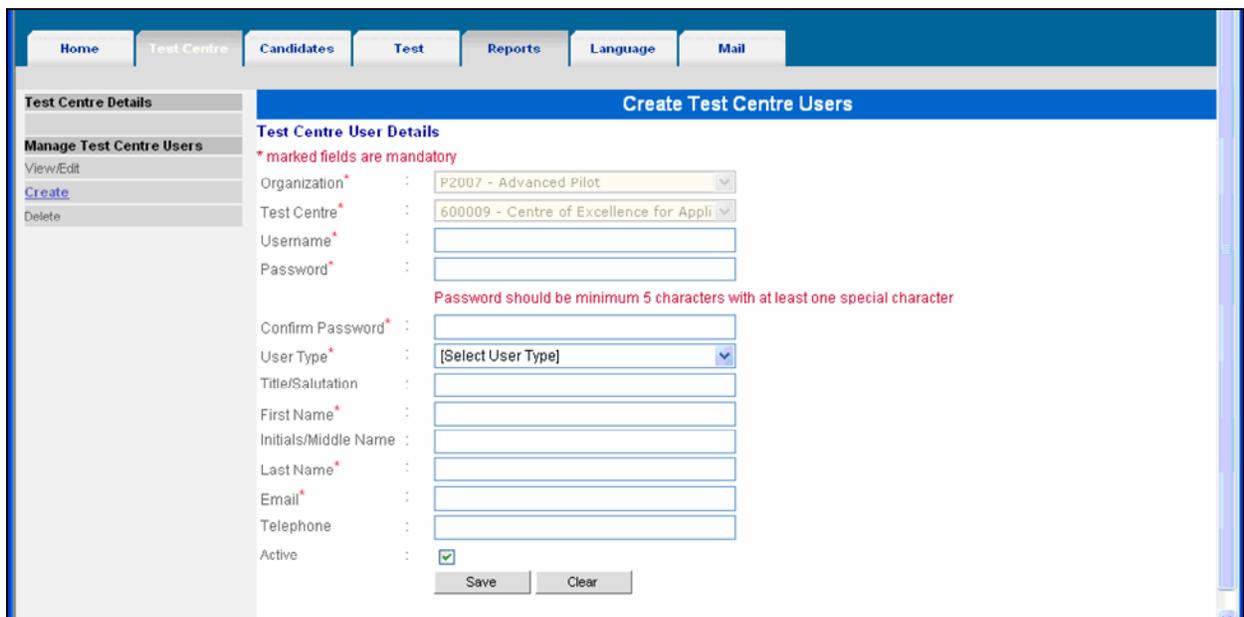

Figure 6 - Creating Test Centre User

- Delete** – The administrator can remove any test centre user from the list by clicking on this link and following the directions given. Once a test centre user has assigned a test to a user; the administrator may not delete that user.

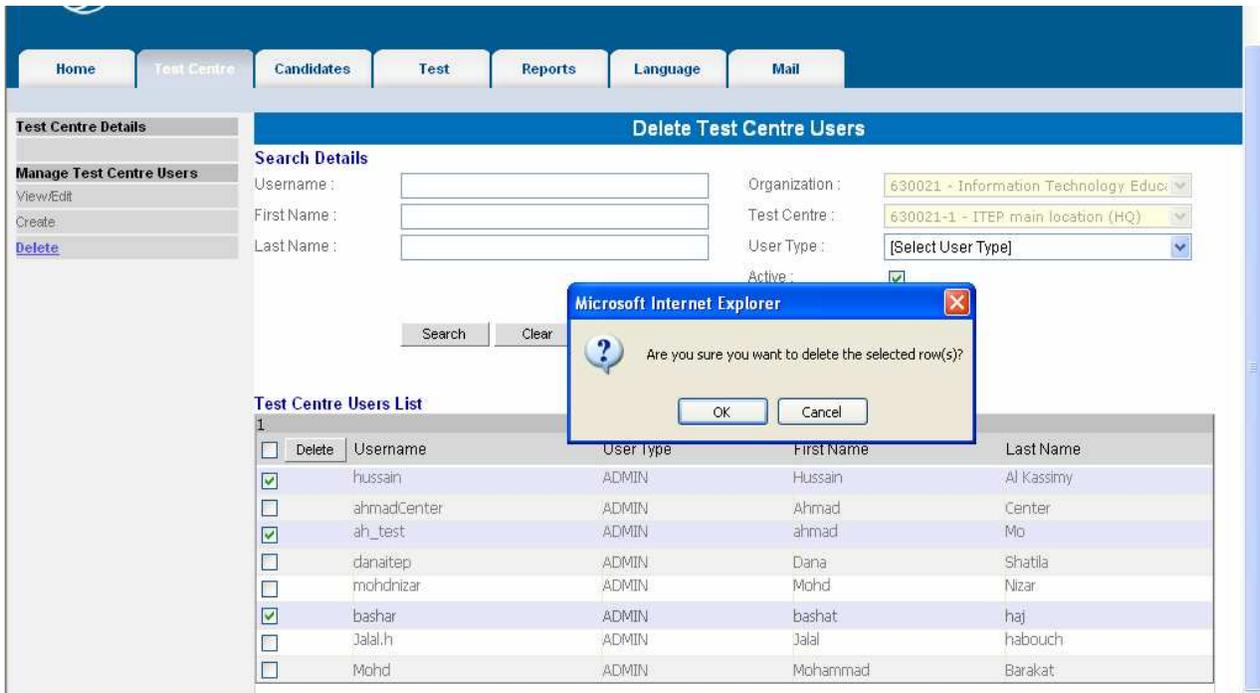

Figure 7 - Deleting Test Centre User

2. Candidates Tab:

The Candidate tab allows the test centre administrator to manage candidate groups, candidates and skills cards.

Figure 8 - Candidates Tab

2.1 Manage Candidate Group: The test centre administrator has the authority to create a candidate group within that centre.

- **View/Edit** – The administrator can view and edit any candidate group with this option

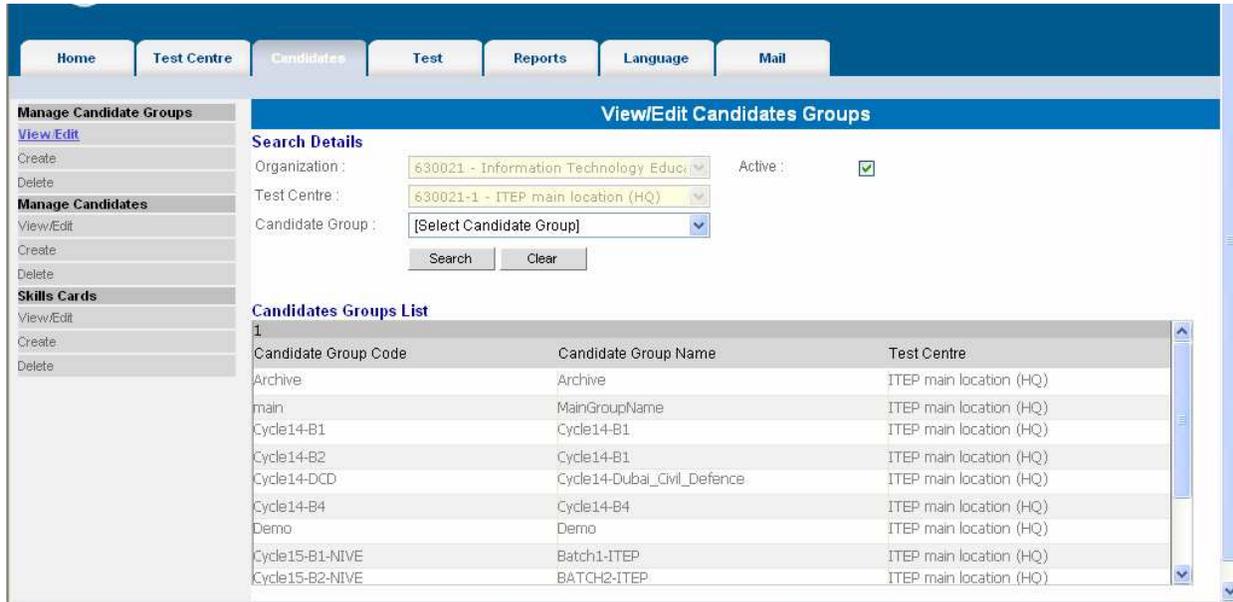

Figure 9 - View/ Edit Candidate Groups

- **Create** – The administrator can create a candidate group by clicking on this link and filling the details as shown below:

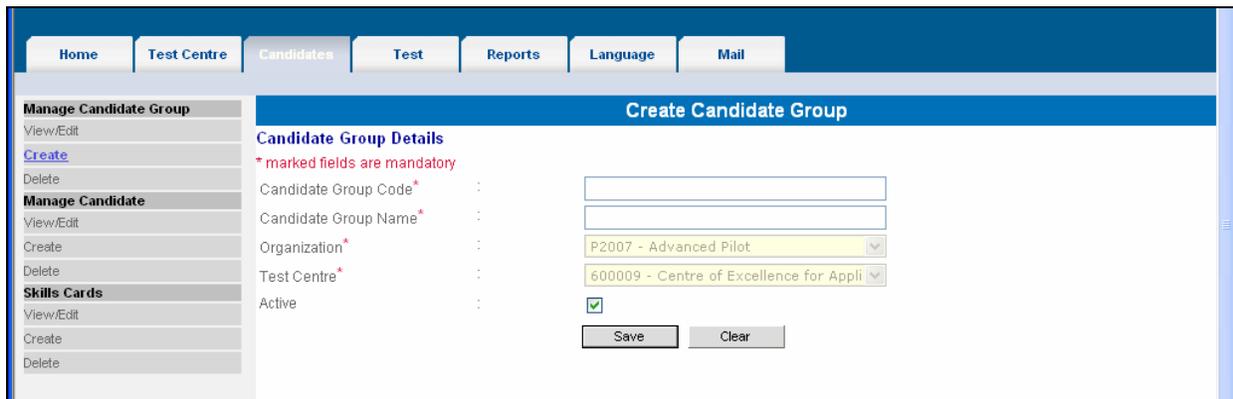

Figure 10 - Creating Candidate Group

- **Delete** – The administrator can remove any candidate group from the list by clicking on this link and doing the appropriate action. However the administrator cannot delete or edit (only name can be modified) the 'Main' candidate group as it is created by default.

2.2 Manage Candidate: Under Manage Candidate, the test centre administrator can view/edit candidates, create candidates and delete candidates.

- **View/Edit** – The administrator can view and edit any candidate with this option.

Figure 11 - View/Edit Candidates

- **Create** – The administrator can create a candidate by clicking on this link and filling all the details.

Figure 12 - Create Candidate

- **Delete** – The administrator can remove any candidate the list by clicking on this link and doing the appropriate action. However the administrator cannot delete a candidate from the list if a skills card is already assigned to the candidate.

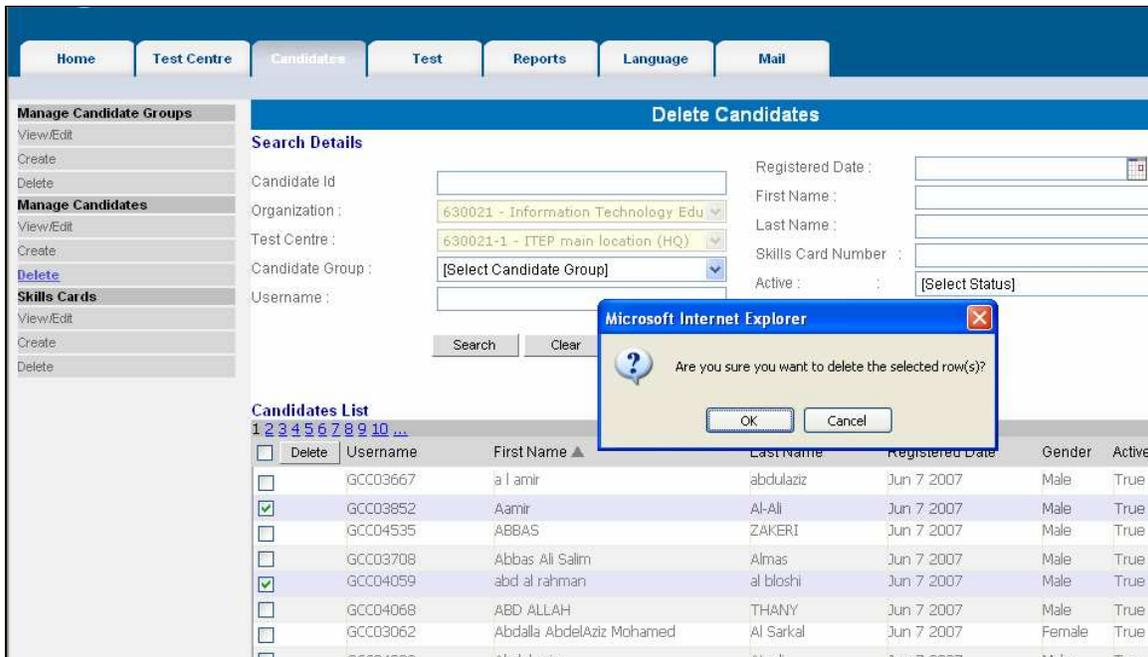

Figure 13 - Delete Candidate

2.3 Skills Cards: The test centre administrator can manage skills cards for candidates. Skills cards are created by the Licensee and assigned to the particular test centre. The test centre administrator can then allocate those skills cards to the candidates.

- **View/Edit** – The administrator can view the skills cards assigned to a particular candidate. The test centre administrator can edit the skills cards. However, those skill cards assigned to candidates who have not taken the test can alone be edited. To edit, select the particular skills card and only the skills card number and Course can be edited as shown below:

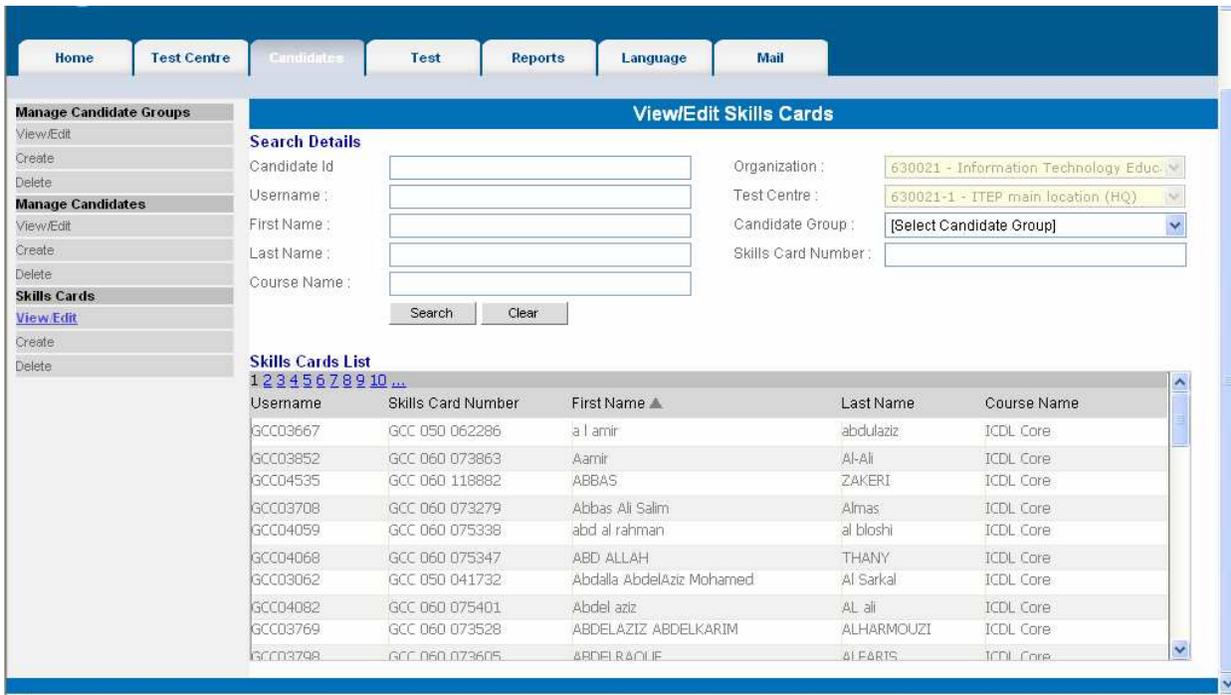

Figure 14 - View Skills Cards

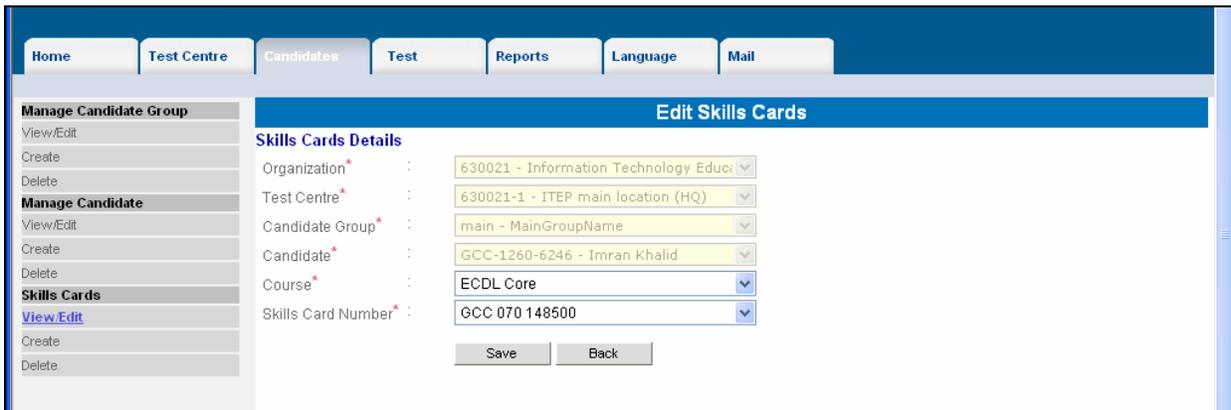

Figure 15 - Edit Skills Card

- **Create** – The administrator can assign skills cards to a candidate. The skills cards are already created and assigned by the Licensee to the test centre.

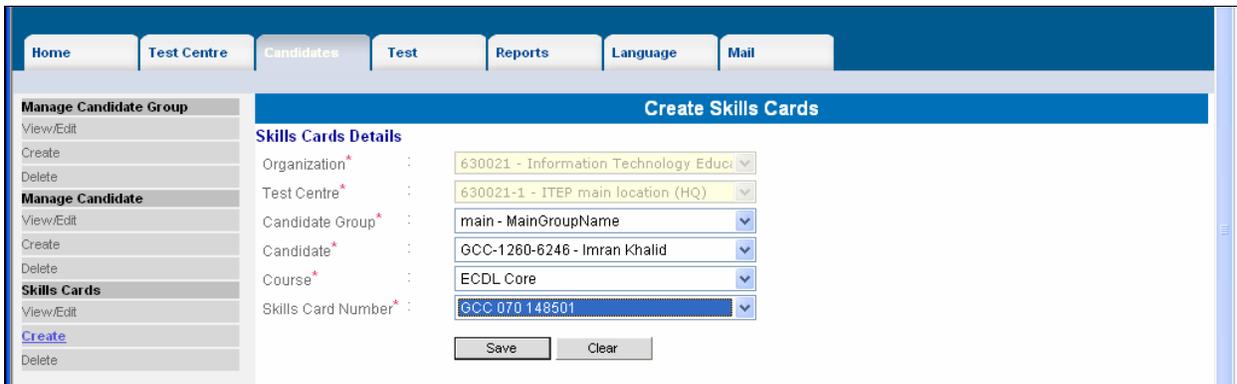

Figure 16 - Create Skills Card

- **Delete** – The administrator can delete a skills card by clicking on the delete link, selecting the particular card and then delete. However note that when a candidate is assigned a test, the skills card for that candidate cannot be deleted.

3. Test Tab:

The test centre administrator can create, edit and delete test sessions (test sessions are those time periods in which the candidates takes the test under a tester’s invigilation).

3.1 Manage Test Sessions:

- **View/Edit** – The administrator can view and edit all the test sessions for that test centre. Editing does not allow changing the status of the Current Test Session. Only the Tester of the current test session can change the status from Not started to Active or Complete.

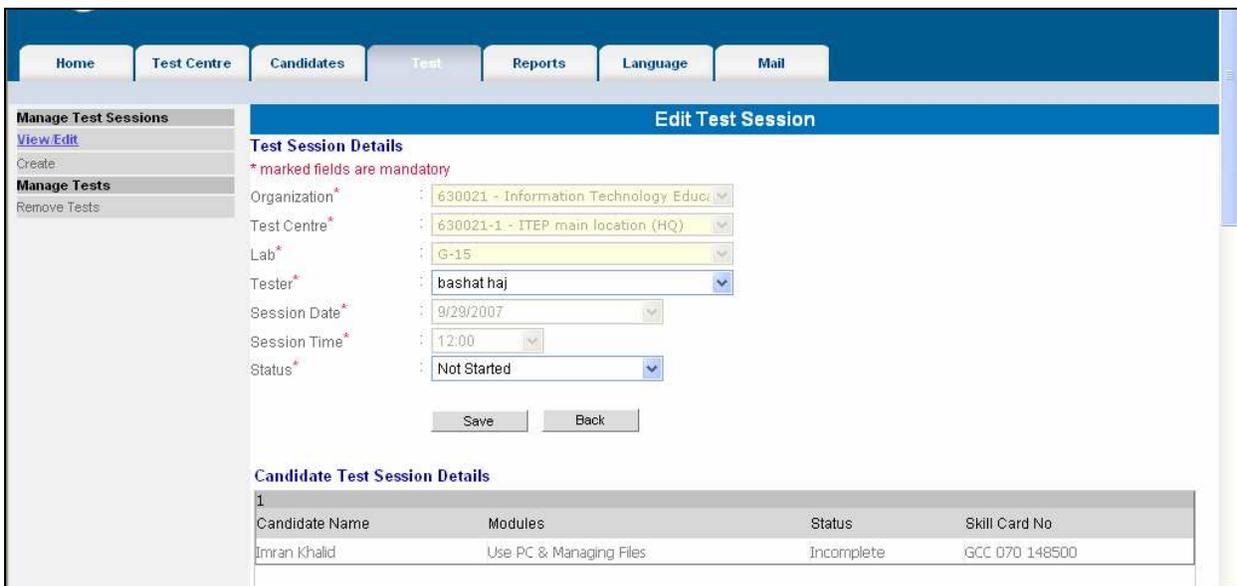

Figure 17 - Editing Test Session

- **Create** – The administrator can create a test session for candidates in that particular test centre and assign test sessions to a test centre administrator or tester. Before a candidate can take the test, the session should be made 'Active'. This can be done only by the tester of that session. After creating the test session, in the same page, tests can be added to it by clicking on Add Test and filling all the relevant information.

Note: Test sessions can be created only if the particular lab has free sessions on that day. To find out if there are available free test sessions, select a date from the calendar and click on "Get Free Sessions". The scheduling system, will find out the time at which the labs are free. The scheduling system is maintained by the Licensee. Enabling Quick Schedule and clicking on Get Free Sessions, will give you a list of available free test sessions based on the start and end date selected. To repeat the test sessions, select the days from the Repeat Every drop-down field.

Also note that, test sessions should be created 5 days prior to the actual test date. If the test session needs a supervisor, then the test session should be created 10 days prior.

Test Session Details
* marked fields are mandatory

Organization* : 630021 - Information Technology Educati
 Test Centre* : 630021-1 - ITEP main location (HQ)
 Lab* : demo
 Tester* : ahmad Mo
 Quick Schedule :
 Session Date* : 04/Oct/2007
 Till : 31/Oct/2007
 Session Time* : 09:00
 Repeat Every : 4 Days
 Status* : Not Started

Get Free Sessions

Save Clear

04/Oct/2007 09:00 :
 Session is Not Approved , submitted less than 10 days

 10/20/2007 09:00 :

Figure 18 - Create Test Session

After creating the test sessions, select the particular test session, to add the candidates and the tests. Click on Add Test, select the course and the candidate group. A list of candidates will appear. Select the test, which the candidate should take and click on Save.

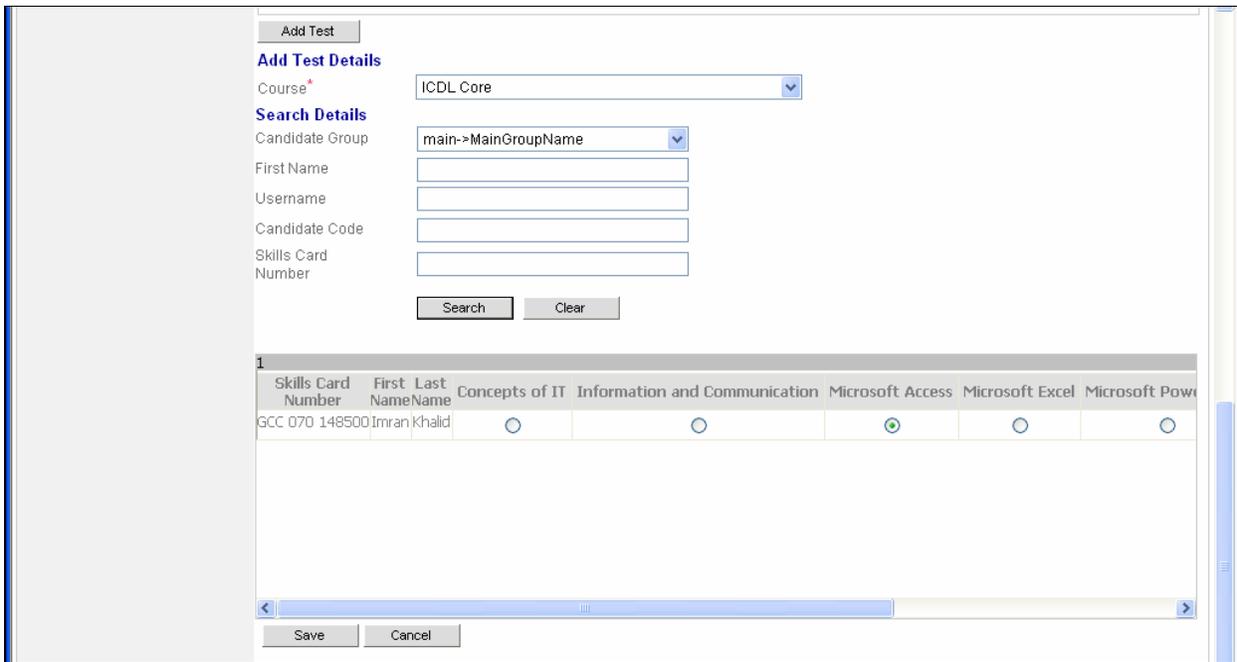

Figure 19 - Add Tests to Test Session

- **Delete** – This section contains options for the administrator to delete the test sessions. Deletion is possible only when the status of the test session is 'Not Started'.

3.2 Manage Tests - Remove Tests: This will allow the test centre administrator to remove the tests assigned for any candidate. However if the test session status is Active or Complete, the tests within that session would not be displayed.

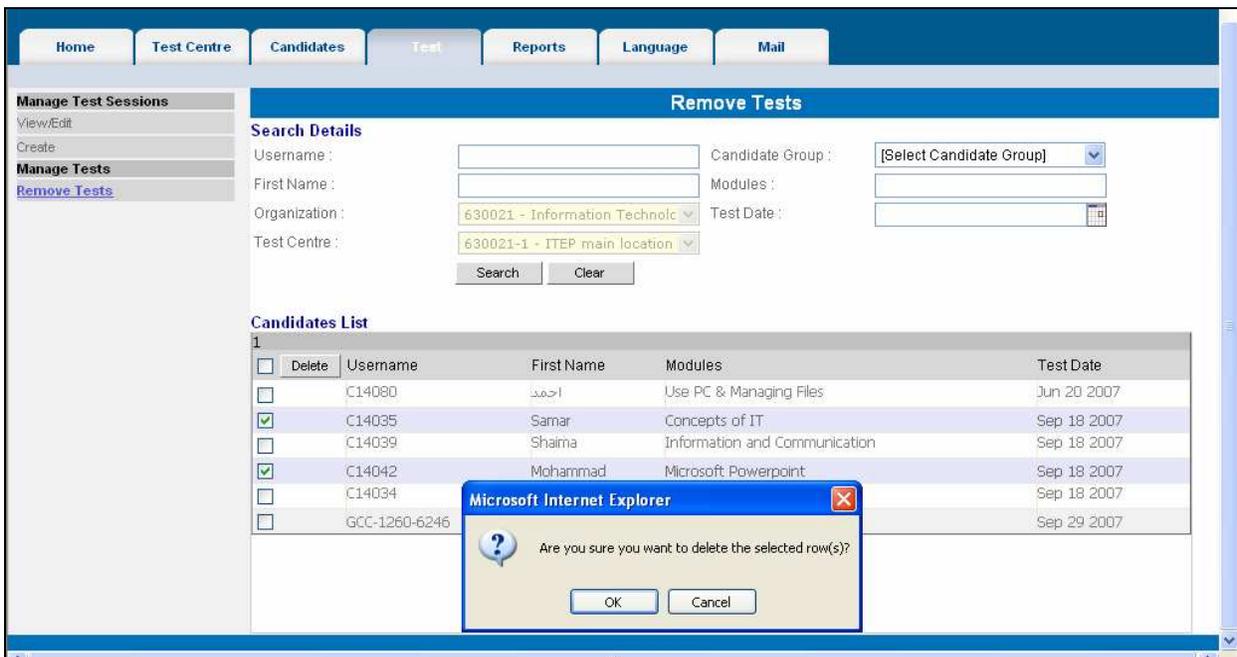

Figure 20 - Remove Tests

4. Reports Tab:

This section will provide all the details about the tests and the candidates in that test centre in a report format. To view the reports, click on any link on the Left hand side of the report and click on 'View Report'. The reports can also be saved in CSV format. The following are the various types of reports:

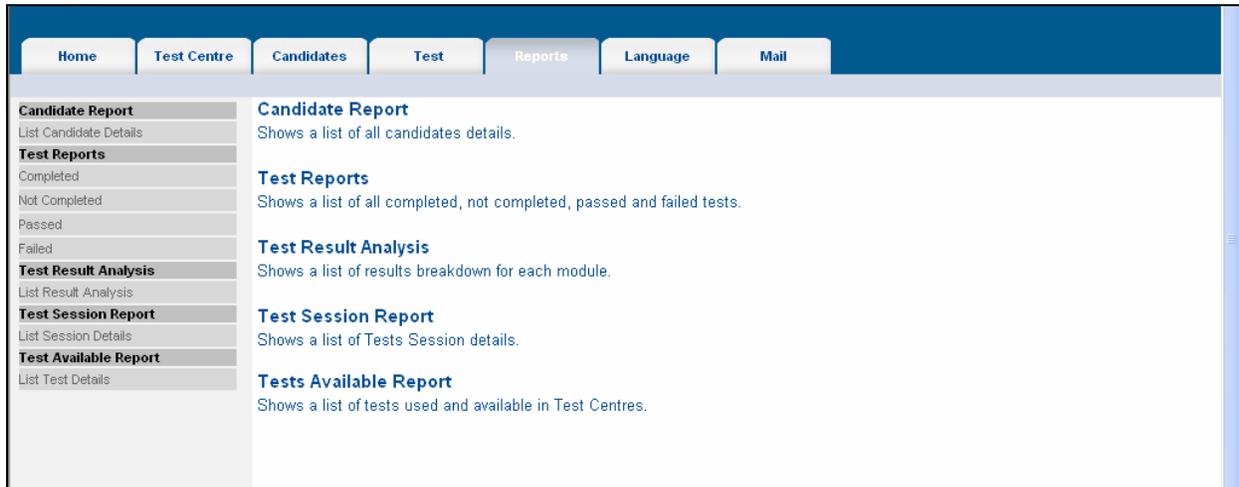

Figure 21 - Reports Tab

4.1 Candidate Report:

List Candidate Details - This report will provide the candidate details like the skills card, group, product, test taken etc.
