

PJ-600 Series helping you every day, on the move...

Mobile printers are a necessity for many workers out on the road (including sales, delivery and service staff, as well as emergency service officials), helping them to increase productivity, customer confidence and professionalism.

PJ-600 Series is one of the compact portable printing solutions on the market – it's also affordable, lightweight, yet durable. And it's quick and easy to print from as PJ-600 can be connected to your smartphone, Apple device, PDA, tablet PC or laptop using its wireless, Bluetooth, USB or IrDA connections*. Now your workforce can print high quality business reports, invoices, receipts, maps, diagrams and other A4 documents, when and where they need them on the move.

Field Service

Engineers out on the road can use PJ-600 to print service reports for customers they are visiting, increasing customer confidence and minimising future queries.

Logistics/deliveries

Busy delivery drivers can print out updated delivery notes and order sheets with PJ, helping to keep them on the move and in the right place at the right time.

Field sales

PJ-600 can print out quotations, contracts, financial plans and invoices, increasing the opportunity for your sales people to close the deal while a customer's interest is still high.

Public safety/emergency services

PJ-600 can increase the accuracy of recording important information out in the field, avoiding unnecessary, time-consuming paperwork back in the office/station.

Compact A4 Mobile Printing Solution

Tough enough to take out on the road

PJ-600 series

Why PJ-600?

PJ-600 offers a rugged, durable, yet compact portable printing solution. Fitting neatly in a computer bag or easily mounted in a vehicle*, it provides a tailored 'in the field' solution. Its direct thermal printing technology ensures reliable quality, whatever the conditions or environment. PJ-600 uses no ink or toner so there's no mess, risk of spillage or 'running out of ink' whilst on the road. And it has flexible/multiple power options, from rechargeable batteries to AC adapter or vehicle power kits.

PJ-600 series
Quality A4 printing on the move

Accessible
Bluetooth, USB and IRDA interfaces for seamless connectivity (WLAN only available for the PJ-673)

Durable
Designed to withstand even the harshest conditions

Software support and integration

Brother can provide the necessary tools required for software developers to integrate the print function into their mobile application free of charge. Printer drivers are available for Windows PCs. Downloadable apps are available to add printing into Android, iOS and Windows Mobile.

For further information go to - www.brother.eu/developer

In vehicle printing

Thermal printing is ideal for in-vehicle use because it is less susceptible to fluctuating seasonal temperatures and humidity extremes than other technologies.

Further features include*:

- Bluetooth Imaging Protocol support for downloading and printing jpeg files
- The ability to store document overlays in the printer to minimise data transfers
- Fully featured design software for creating and downloading document overlays
- Brother ESC/P printer emulation offer compatibility with a variety of embedded systems
