

IN-LINE FANS

*better AIRFLOW
by DESIGN™*

**AIB
BELT DRIVE
TUBEAXIALS**

- Spark resistant, cast aluminum airfoil axial impeller
- Aerodynamically efficient performance
- Factory set adjustable pitch blades
- Heavy duty welded steel construction
- TEFC industrial duty motor
- Mountable in ductwork in any position
- Sizes range from 12" to 60"
- Belt drive capacities to 54,000 cfm

AIB BELT DRIVE TUBEAXIAL FANS

STANDARD FEATURES & BENEFITS

- Spark resistant, cast aluminum airfoil axial impeller
- Factory set adjustable pitch blades
- Aerodynamically efficient performance
- Heavy duty welded steel and angle ring construction
- Air dried enamel paint finish
- Mountable in ductwork in any position
- TEFC industrial duty motor
- Motor located outside of air stream
- Self-aligning pillow block ball bearings
- V-belt drives for low speed operation
- Completely sealed belt tube protects sheaves and belts from air stream
- Maximum 225 F operation
- Extended lube lines
- Shaft seal & water slinger

APPLICATIONS

- Process ventilation
- In-line duct booster
- Moisture laden air
- General ventilation
- Fumes, dust or smoke removal
- Contaminated air streams

ACCESSORIES / OPTIONS

- Epoxy or Eisenheiss coatings
- Horizontal mounting brackets
- Vertical mounting brackets
- Mounting legs
- Reverse flow construction
- Propeller side guard
- Motor side guard
- Inspection door
- Companion flanges
- Variable pitch sheaves
- 304 or 316 stainless steel construction
- Maximum 375 F construction
- Explosion proof & special duty motors
- Motor cover and/or belt guard
- AMCA spark resistant construction

AIB BELT DRIVE TUBEAXIAL FANS

PRODUCT SPECIFICATION GUIDE

1.0 GENERAL

- A. Fans shall be model AIB Belt Drive Tubeaxial Fans, as manufactured by Continental Fan Manufacturing Inc., of Buffalo, NY, and of the size and capacity as indicated on the drawings and fan schedule.
- B. Fans shall be rated and tested in accordance with ANSI/AMCA Standard 210-99.
- C. All motors and electrical components shall conform to NEMA standards.

2.0 FAN HOUSING

- A. Fan housing shall be constructed of heavy gauge steel and welded angle ring flanges.
- B. Fan motor base shall be adjustable, and be located on the exterior of the fan housing.
- C. Fan belt tube shall be completely sealed, and shall isolate the bearings from ambient and/or contaminated airstreams.
- D. Fan housing and motor base shall be coated with an air dried gray enamel finish.

3.0 FAN IMPELLER

- A. Axial impeller shall be constructed of spark resistant, die cast aluminum airfoil shaped blades secured to a die cast aluminum hub assembly.
- B. Axial impeller blades shall be of adjustable pitch construction with multiple hub-to-blade arrangements to maximize air performance. Blade pitch angles shall be factory set.
- C. Axial impeller hub shall be designed to incorporate a split taper bushing, and be keyed directly to motor shaft.

4.0 FAN MOTOR AND DRIVE

- A. Motor shall be TEFC industrial duty and conform to NEMA standards.
- B. Motor shall be of voltage, horsepower, RPM and enclosure as indicated on the fan schedule.
- C. Fan sheaves shall be cast iron and appropriately sized and aligned.
- D. Fan belts shall be static conducting, plus oil and heat resistant.
- E. Fan shaft shall be steel, turned, ground and polished.
- F. Fan shaft bearings shall be lubricated, self-aligning ball type in cast iron pillow block mounts with external grease fittings.

5.0 OPTIONAL FAN ACCESSORIES

- A. Where indicated, fan shall be provided with the following optional accessories:
 - Guards
 - Propeller side
 - Motor side
 - Mounting brackets
 - Horizontal
 - Vertical
 - Mounting legs
 - Inspection door
 - Companion flanges
 - Motor cover and/or belt guard
 - Protective coatings for fan housing
 - Epoxy
 - Eisenheiss
 - Motors
 - Explosion proof
 - Special duty
 - 304 stainless steel construction
 - 316 stainless steel construction
 - AMCA spark resistant construction
 - Variable pitch sheaves

6.0 FAN TESTING

- A. Axial impeller shall be balanced and mounted in fan assembly.
- B. Fan assembly shall be run and tested prior to shipment.
- C. A test report shall be maintained on file for each individual fan.

Industrial Fan Division

The Industrial Fan Division offers superbly crafted industrial fans and ventilators, expertly supported by a network of independent manufacturers' representatives.

Panel Fans

Centrifugal Fans

Flange Fans

In-line Fans

Roof Ventilators

Iris Dampers

OEM Fan Division

The OEM Fan Division works closely with original equipment manufacturers to meet their design requirements, offering in-stock fan components, 3D models and custom fan solutions.

Cabinet Cooling Fans

Motorized Axials

Motorized Impellers

Centrifugal Fans

Axial Impellers

Centrifugal Impellers

Wholesale Products Division

The Wholesale Products Division offers a superior line of in-stock commercial and residential ventilation products, available from wholesalers and distributors across North America.

Bathroom Fans

Air Purification Systems

In-Line Duct Fans

External Mount Fans

Radial Blade Blowers

Exhaust Fans
