### 1. Hardware Installation

To install the PCI Video Capture Card series into your computer, please follow the steps as below:

1.1 Turn off all your computer power sources and remove the cover of your PC

1.2 Plug the PCI Video Capture Card firmly into any free PCI slot.

1.3 Connect the SVHS/camera/RCA Composite/ Video/TV Antenna/Cable/Antenna/audio-out/remote Sensor etc. devices to the TV card

## 2. Software Installation

After rebooting, Windows 2000/XP automatically detects the presence of a new hardware component in the system and tells you so in an "Add new Hardware Wizard" window.

Don't care about this window. After the software installation it will be closed itself.

Place the Installation CD into your CD-ROM drive. the CD will automatically start and show you the Installation Screen

## Click "INSTALL SOFTWARE" begin to installing.

Install S	AA713x TV Card Driver 🛛 🔣
?	Do you want to install SAA713x TV Card driver to your computer?
	<u>ves</u>
