► Installation guide

1. Insert the **microphone jack** into the control box per Figure 1.
2. Place the **microphone** in the visor as in Figure 1. Hide the microphone cable through A Pillar.

Note: Make sure microphone and cable do not interfere with safety of the vehicle operation. It is highly recommended to place front of the microphone directly facing the operator for the best result.

3. Connect the **Speaker cable jack** into the main control box. Place the speaker in the desirable place in the front passenger compartment. Strongly recommend placing the speaker under the passenger side dashboard.

Note : Professional installer should permanently mount the speaker to the safe area with the screws.

4. Connect the **Remote controller jack** into the main control box. Secure the Remote controller near by the driver side or center console with the Velcro pads where user can easily reach the remote controller without compromising safety while operating the vehicle.
5. Place the **Main control box** under the driver or the passenger seat.

Note: Professional installers should secure the main control box to under the driver's seat by installing four screws (Included)

6. Connect the **Power jack** into the cigarette jack in the car.

Note: For using the utility cable, Professional installers should connect the Handsfree battery cable directly to the battery and ignition of the car. Professional installer can connect the red wire to the power source, black wire to the ground and white cable (Radio mute) to the radio.

Pairing your mobile phone with the SJ401A

Follow the pairing instruction for the first use, after that the unit will pair automatically.

► Pairing as the Handsfree mode

When power is on (confirmed by blue LED light), press the VOL+ button for 5 seconds on the Remote controller. You will hear a beep tone. The Handsfree device is ready to be paired with the mobile phone.

► Mobile phone manual pairing

1. Browse the mobile phone menu and find connectivity and/or Bluetooth connection section.

2. Select the search for a new Handsfree device and allow the mobile phone to find the **SJ401A**.

Note: Each mobile phone has a different phone menu so you may need to refer to your manufacturers instruction to find how to connect a new Bluetooth device.

3. The Bluetooth code for the **SJ401A** should appear on your mobile phone screen.

4. Press the connect button with the Handsfree option on your mobile phone.

Note: Please return to the pairing instructions if the Bluetooth code does not appear on the mobile phone screen. The green LED light should flash during pairing.

5. The mobile phone should prompt for the pin code, insert the SJ401A pin code 1234 by using the mobile phone pin code.

6. The mobile phone should confirm that it is establishing new connection.

7. Close the menu. The pairing is now completed.

Note: The green LED light illuminated after successful pairing. Please adjust the volume to your preference by using the volume keys.

The SJ401A Bluetooth device pin code is : 1234

** Sometimes, there could be a bug in the mobile phone that requires to be eliminated before pairing.*

- ▶ **Each mobile phone has a different function button so it could be different operated with your mobile phone according to mobile phones of various kinds.**
- ▶ **Too loud?**
Please adjust the volume to your preferred sound level by pressing the volume switches.
- ▶ **People are complaining about hearing noise?**
Please check if the mike is secured in place not creating vibration and noise.
Also check and adjust front of the mike facing toward to the user's face.

Safety precautions

- ▶ Do not expose this unit under humid environment.
- ▶ Do not drop this unit.
- ▶ Do not disassemble this unit.
- ▶ Do not press two buttons at once. This action might cause sudden Bluetooth disconnection.
- ▶ Do not clean the unit with any chemical or water.
- ▶ Keep this unit away from fire and dust.
- ▶ Please secure the install type control box and the speaker in the safe place by screws.
- ▶ For safety reasons, please keep your phone conversation short, do not make any notes or read documents. It is highly recommended to park the vehicle in the safe place before continuing the conversation. Using mobile phone while driving creates a distraction to the drive which may increase the likelihood of an accident.

Warranty

SungJin Techwin Ltd. Co(SJ Tech) warrants to purchaser that for a period of one (1) year after the date of purchase (the "Warranty Period") of any SJ Tech Product by Purchaser, the product will substantially conform to SJ Tech published specifications for the product on the date of purchaser's purchase of the product, subject to the terms herein. Purchaser shall notify SJ Tech of any nonconformance during the warranty period and obtain a written return material authorization ("RMA") from SJ Tech for the non-conforming product and return the nonconforming product to SJ Tech, freight prepaid with a statement describing the nonconformity. SJ Tech exclusive obligation with respect to nonconforming product shall be, at SJ Tech's option and expense, to repair or replace such returned item. The foregoing is purchaser's sole and exclusive remedy for breach of warranty by SJ Tech's with respect to the product. The warranty set forth above shall not apply to any product which has not been properly used or handled in accordance with the instructions supplied by SJ Tech. In addition, SJ Tech's warranty is void if the product has been repaired, altered, damaged by the faulty installation, misuse, abuse, or which the product defect is attributable to any failure or damage which is beyond the reasonable control of SJ Tech. This warranty applies only to new SJ Tech products purchased from authorized retail sellers only. The foregoing warranties are the sole warranties, express or implied, given by SJ Tech in connection with the product, and SJ Tech disclaims all other warranties, including warranties of merchantability, fitness for a particular purpose and no infringement of third party rights. SJ Tech shall not be liable for any special, incidental or consequential damages in connection with the product, even if SJ Tech has been advised of the possibility of such damages. The liability of SJ Tech hereunder for all claims shall not exceed the amount paid by purchaser to SJ Tech for the product giving rise to SJ Tech's liability.
