This is a fast, powerful, efficient, and durable electric pruner design for the more demand-

ing pruning work. The Pro Power Max provides clean and accurate cutting of work up to

38mm/1.5". The ease of operation allows for increased worker productivity over the 8-10

hours operating time. The cutting speed is up to 80 cuts/minute. This tool is ideal for work

in multiple industries, including agriculture, arboriculture, grounds maintenance, and

The easy trigger operation significantly reduce user hand and wrist stress, virtually

The slim light-weight design allows for cutting in restricted spaces. weighing

eliminating Repetitive Motion and Carpal Tunnel injuries. Power pruning is particularly

helpful for the older workers who may deal with joint pain that can restrict their activities.

KOHAM KOHAM

About Koham

The Koham Company name is an acronym of the key goals and aspirations that represent the company culture.

K....King. Working to be the leader in our industry, providing the best electronic pruning shears and customer service.

O....Original. Price competitive, but constantly striving to exceed world standards of quality.

H....Harmony. Contributing positively to our communities and the environment.

A....Advanced Technology. State-of-the-Art facilities and cutting edge technology.

M....Manufacturing. Levels of quality and capacity that meet the needs of any distributor.

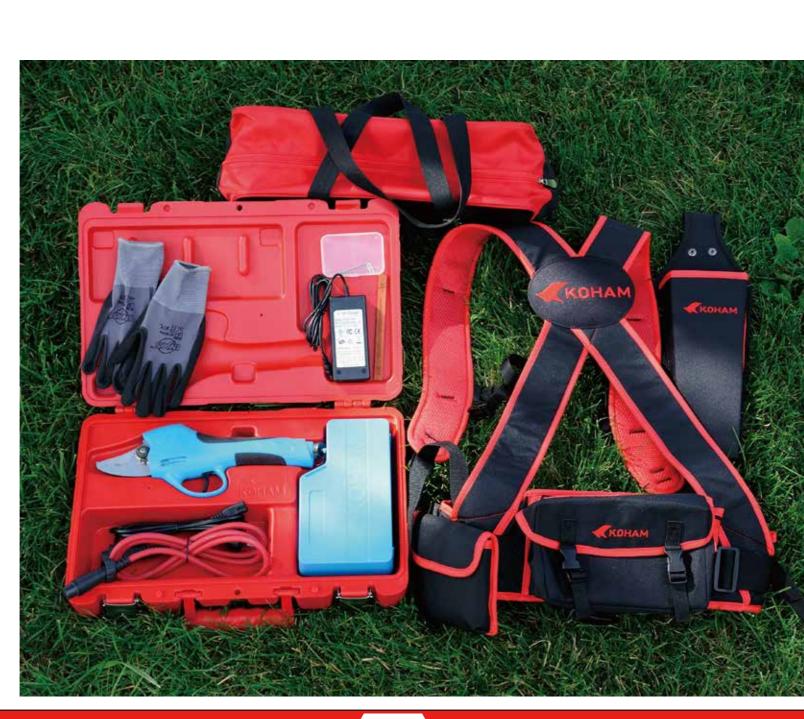

Koham Company, LTD. is a manufacturer of quality battery powered electric pruning shears for commercial use in the professional agricultural industry. Koham Company has designed, engineered, and extensively tested a line of electronic pruners that not only meet, but exceed, worldwide quality standards. We offer a powerful and durable electric pruner that has become a labor-saving addition to the world agriculture industry. Koham based in Dongguan China, has a sales and service office in the USA for North American customers and our network of distributors.

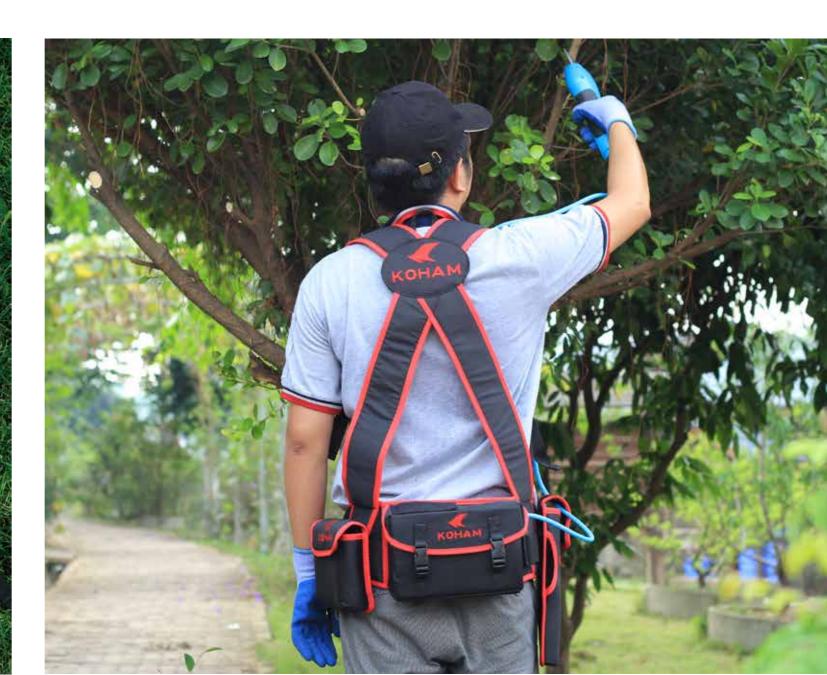

KOHAM is looking for electric pruner distributors worldwide. If you are interested in joining us, we would welcome the opportunity to discuss our product line with you. Contact us at: cs@dgkoham.com, globalsales@dgkoham.com

Why Go Electric?

- 1. Virtually eliminate lost time and medical expenses related to Repetitive Motion and Carpal Tunnel injuries.
- 2. Reduced hand fatigue increases workday productivity by up to 40%.
- 3. Reduce labor cost up to 30%.
- 4. A cleaner pruning cut allowing for faster healing.
- 5. Works efficiently in tight and restricted spaces. 6. Less cumbersome system, fewer tools to carry.
- 7. Less environmental disturbance with quick quiet cutting.
- 8. No environmental emissions.
- 9. As little as 1 YEAR return on investment.
- 10. A better working environment, workers appreciate less pain and stress.

PRODUCT SPECIFICATIONS:

Maximum Cutting Diameter: 38mm/1.5" Blade Material: SK5 Steel Blade Type: Bypass Drive Mode: Ball Screw Cutting Mode: Progressive Power: 550 W Cutting Force: 240 Nm Motor Speed: 14000 RPM Shear Dimension: L338*W115*H44mm/101*4.5*1.3" Motor:Brushless DC Motor (BLDC) Motor

Model: Red Max/KH-HI-LV

parks & forestry upkeep.

only1002g/2.2 lbs.

Battery Runtime: 6-10 Hours (For longer use, additional batteries are available) Charge Time: 3-4 Hours Battery Weight: 1430g/2.16 lbs Rated Current: 45 A Battery Voltage: DC 36V

Tool box, electric pruning shears, lithium battery pack, charger, cable, battery harness and holster, user manual, warranty card, hex wrench, slip stone, SK5 replacement blade.

KOHAM

Model: Blue Pro/ KH-HI

The Blue Pro pruner is specifically engineered to meet the demands of the commercial agricultural industry. This tool is invaluable to anyone involved in the vineyard, orchard, landscape, tree service, forestry, and park maintenance industries. This powerful, electric pruner allows workers to virtually eliminate the hand and wrist pain associated with large pruning operations while increasing speed and efficiency. Power pruning is particularly helpful for the older growers and workers who may deal with joint pain that can restrict their activities. It is the most powerful 36V electric pruner in the industry.

Why Our Blue Pro?

- Precise cutting, cuts both older wood and newer shoots effortlessly.
- Cutting is powerful (up to 28mm/1.1" diameter and quick (80-100 cuts/minute).
- Pruning shears that are very easy to handle, weighing only 935g/2 lbs
- Adaptable for right-handed or left-handed use.

for a better and quieter environment.

- Good for at least a full day's work.
- Zero compressor-generated emissions,

PRODUCT SPECIFICATIONS

Maximum Cutting Diameter: 28mm/1.1" Blade Material: SK5 Steel Blade Type: Bypass Drive Mode: Gear Drive Power: 450 W Cutting Force: 200 Nm Motor Speed: 13000 RPM Shear Dimension: L300*W115*H50mm/11.8*4.5*2" Motor: Brushless DC Motor (BLDC) Motor

BATTERY:

Battery Runtime: 6-10 Hours (For longer use, additional batteries are available) Charge Time: 3-4 Hours Battery Weight: 1430g/2.16 lbs Rated Current: 40 A Battery Voltage: DC 36V

SET INCLUDES:

Tool box, electric pruning shears, lithium battery pack, charger, cable, battery harness and holster, user manual, warranty card, hex wrench, slip stone.

Model: Red Wizard/ KH-MA

The Koham Red Wizard Electric Pruning Shear offers a quality and durable pruning tool at an affordable price.

It also offers an attractive, pain free, alternative to hand pruning.

The Red Wizard model electric pruner is virtually the same as the Blue Pro electric pruner. The difference is a lighter battery which generates less cutting force and maintains power for a shorter operating time.

Precise cutting, cuts both older wood and newer shoots effortlessly. Cutting is powerful (up to 25mm/1" diameter and quick (80-100 cuts/minute). Pruning shears that are very easy to handle, weighing only 935g/2 lbs Adaptable for right-handed or left-handed use. Zero compressor-generated emissions, for a better and quieter environment.
