TOSHIBA NB100

The 8.9" netbook from a brand you can trust

Stay unique: choose one of three different glossy finishes in Champagne Gold, Cosmic Black or Brighter Silver.*

Rich audio experience: built-in high-quality stereo speakers maximise your enjoyment of movies and music.

Everything you need for ultra-mobile computing while enjoying an eye-catching netbook design.

The 8.9" little wonder from Toshiba is the essence of decades of experience in building quality laptops and opens new horizons for your online lifestyle. At just 1,050 g, this netbook is small and light enough to take everywhere. And within its robust stylish case, it's built to be your companion for all your mobile digital activities: surfing the web wirelessly, sending and receiving emails, working on documents, and enjoying music, photos, and movies and sharing them with others. Physically small it may be but we've packed it with all our expertise and with the latest innovative technology like the Toshiba's TruBrite® Backlight Display and the Toshiba USB Sleep-and-Charge function. And of course we went for a proper HDD of up to 120 GB*. And because it's from Toshiba you can trust it to deliver. The new Toshiba NB100 – a netbook from a brand you can trust.

USB SLEEP-AND-CHARGE

Charge a mobile phone, PDA, MP3 player or other device via 3 USB ports – even when the netbook is turned off.

COMMUNICATION ON THE GO

Powerful WiFi connectivity and integrated web camera and mic allow instant video chats with friends and family, plus voice calls over IP.

DISPLAY BRILLIANCE

8.9" widescreen display with LED Backlight to offer you utmost display contrast and colour intensity even in low light environments.

*depending on country offering and model configuration.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. • Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
