English (EU). 05/2011. Rev. 1.2

- Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- Use your device to call for help. Dial a local emergency number in the case of fire, traffic accident, or medical emergencies.
- Use your device to help others in emergencies. If you see an auto accident, a crime in progress, or a serious emergency where lives are in danger, call a local emergency number.
- Call roadside assistance or a special, non-emergency assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen call roadside assistance or another special, non-emergency

Proper care and use of your mobile device

Keep your device dry

- · Humidity and all types of liquids may damage device parts or electronic circuits
- When wet, remove the battery without turning on your device. Dry your device with a towel and take it to a service centre Liquids will change the colour of the label that indicates wate
- damage inside the device. Water damage to your device can void

Do not use or store your device in dusty, dirty areas Dust can cause your device to malfunction

Do not store your device on slopes If your device falls, it can be damaged.

Do not store your device in hot or cold areas. Use your device

at -20 °C to 50 °C Your device can explode if left inside a closed vehicle, as the

inside temperature can reach up to 80 °C.

Warning: Prevent electric shock, fire, and

Safety precautions

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Do not use your device while charging or touch your device with wet hands

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by the manufacturer

Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is

Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest

Handle and dispose of batteries and chargers with care

- · Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or devices
- Do not expose your device to direct sunlight for extended periods of Store the battery at 0 °C to 40 °C.

Do not store your device with such metal objects as coins, keys

- · Your device may become deformed or malfunction
- . If the battery terminals are in contact with metal objects, it may

Do not store your device near magnetic fields

- Your device may malfunction or the battery may discharge from exposure to magnetic fields.
- Magnetic stripe cards, including credit cards, phone cards. passbooks, and boarding passes, may be damaged by magnetic
- · Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time.

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

- · The battery may leak.
- Your device may overheat and cause a fire.

Do not drop your device or cause impacts to your device

- The screen of your device may be damaged.
- If bent or deformed, your device may be damaged or parts may

Do not use a flash close to the eyes of people or animals Using a flash close to the eyes may cause temporary loss of vision or damage to the eyes

Ensure maximum battery and charger life

 Avoid charging batteries for more than a week, as overcharging may shorten battery life.

Never place batteries or devices on or in heating devices, such as overheated.

 Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit

Protect the device, batteries, and chargers from damage

- Avoid exposing your device and batteries to very cold or very hot temperatures
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and terminals of your batteries and lead to temporary or permanent battery damage
- Never use a damaged charger or battery.

Caution: Follow all safety warnings and regulations when using your device in restricted

Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in

Do not use your device near other electronic devices

Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices.

Avoid using your device within a 15 cm range of a pacemaker if

· Over time, unused batteries will discharge and must be recharged

Use manufacturer-approved batteries, chargers, accessories

· Using generic batteries or chargers may shorten the life of your

accessories or supplies that are not approved by Samsung.

If children use the device, make sure that they use the device.

Hold the device upright, as you would with a traditional phone.

· Avoid contact with your device's internal antenna. Touching the

Hold the device with a relaxed grip, press the keys lightly, use

special features that reduce the number of keys you have to press (such as templates and predictive text), and take frequent breaks.

antenna may reduce the call quality or cause the device to transmit more radio frequency than necessary.

Samsung cannot be responsible for the user's safety when using

· Disconnect chargers from power sources when not in use

· Use batteries only for their intended purposes

device or cause the device to malfunction.

Do not bite or suck on the device or the battery

When speaking on the device:

Speak directly into the mouthpiece.

Internal antenna

Doing so may damage the device or cause explosion

and supplies

possible, as your device can interfere with the pace

- · If you must use your device, keep at least 15 cm away from the
- To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pace

Do not use your device in a hospital or near medical equipment that can be interfered with by radio frequency

If you personally use any medical equipment, contact the nufacturer of the equipment to ensure the safety of your equipment

If you are using a hearing aid, contact the manufacturer for information about radio interference

Some hearing aids may be interfered with by the radio frequency of your device. Contact the manufacturer to ensure the safety of your

Turn off the device in potentially explosive environments

- Turn off your device in potentially explosive environments instead of removing the battery.
- Always comply with regulations, instructions and signs in potentially
- Do not use your device at refuelling points (service stations), near fuels or chemicals, and at blasting areas.
- Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or

Turn off your device when in an aircraft

Using your device in an aircraft is illegal. Your device may interfere with the electronic navigation instruments of the aircraft

Electronic devices in a motor vehicle may malfunction due to the radio frequency of your device

Electronic devices in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more

Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law For your safety and the safety of others, practice good common sense and remember the following tips:

- Use a hands-free device
- Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.
- Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail answer it for you.
- Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue.

Protect your hearing

- · Excessive exposure to loud sounds can cause hearing damage
- Exposure to loud sounds while driving may distract your attention and cause an accident.
- Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your conversation or music

Use caution when using the device while walking or moving Always be aware of your surroundings to avoid injury to yourself or

Do not carry your device in your back pockets or around your You can be injured or damage the device if you fall.

Do not disassemble, modify, or repair your device

- · Any changes or modifications to your device can void your anufacturer's warranty. For service, take your device to a Samsung Service Centre.
- Do not disassemble or puncture the battery, as this can cause explosion or fire.

Do not paint or put stickers on your device

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the product and consult your physician.

When cleaning your device:

- Wipe your device or charger with a towel or a rubber.
- Clean the terminals of the battery with a cotton ball or a tower · Do not use chemicals or detergents.

Do not use the device if the screen is cracked or broker

Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired

Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public

Do not allow children to use your device Your device is not a toy. Do not allow children to play with it as they

could hurt themselves and others, damage the device, or make calls that increase your charges.

Install mobile devices and equipment with caution · Ensure that any mobile devices or related equipment installed in

- your vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag
- deployment area. Improperly installed wireless equipment car cause serious injury when air bags inflate rapidly.

Allow only qualified personnel to service your device Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty.

Handle SIM cards or memory cards with care Do not remove a card while the device is transferring or accessing

information, as this could result in loss of data and/or damage to the card or device.

 Protect cards from strong shocks, static electricity, and electrical noise from other devices. • Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services

Be sure to back up important data

Icon Description

Samsung is not responsible for data loss.

Do not distribute copyright-protected material

Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted material

Specific Absorption Rate (SAR) certification information

Your device conforms to European Union (EU) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure leve (known as the Specific Absorption Rate, or SAR) of 2.0 W/kg. During testing, the maximum SAR recorded for this model was 0.660 W/kg. In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy.

The Declaration of Conformity statement at the back of this manual

demonstrates your device's compliance with the European Radio & Terminal Telecommunications Equipment (R&TTE) directive. For

more information about the SAR and related EU standards, visit the

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems) This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items fro other types of waste and recycle them responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they

purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for

This EEE is compliant with RoHS.

C€0168

recycling.

Correct disposal of batteries in this product

(Applicable in the European Union and other European countries with separate battery return systems) This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb

indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health of To protect natural resources and to promote material reuse, please

separate batteries from other types of waste and recycle them through your local, free battery return system.

Square brackets: phone keys; for example: [To] (represents the Power/End key) Angled brackets: softkeys that control different

functions at each screen; for example: <OK> (represents the **OK** softkey)

Turn your phone on or off

To turn your phone on.

- 1. Press and hold []
- 2. Enter your PIN and press < OK > (if necessary).
- 3. When the setup wizard opens, customise your phone as desired following the screen.

To turn your phone off, repeat step 1 above.

Access menus

To access your phone's menus,

1. In Idle mode, press < Menu> to access Menu mode

You may need to press the Confirm key to access Menu mode depending on your region or service provide

- 2. Use the Navigation key to scroll to a menu or option.
- 3. Press < Select>. < OK>. or the Confirm key to confirm the highlighted option.
- 4. Press <Back> to move up one level; Press [--] to return to Idle mode.

- When you access a menu requiring the PIN2, you must enter the PIN2 supplied by the SIM card. For details. contact your service provider
- · Samsung is not responsible for any loss of passwords or private information or other damages caused by illegal software.

Make a call

- 1. In Idle mode, enter an area code and a phone number
- 2. Press [-] to dial the number.
- 3. To end the call, press [].

The volume through mono earphones is very low or virtually inaudible. Use stereo earphones only

Answer a call

- 1. When a call comes in, press [-].
- 2. To end the call, press [].

Use the shortcut toolbar

You can use the shortcut toolbar to access your favourite menus.

To add menus on the shortcut toolbar

- 1. In Menu mode, select **Settings** → **Display** → Shortcuts toolbar
- 2. Press $\langle Options \rangle \rightarrow Edit$.
- 3. Select your favourite menus.

- 4. Press < Options> → Open to select submenus (if necessary)
- 5. Press <Save>, or press <Options> → Save.

To access a menu from the shortcut toolbar

In Idle mode, scroll left or right to the menu you want and press the Confirm key.

When the shortcut toolbar is activated, the Navigation key does not work as shortcuts depending on you

Adjust the volume

To adjust the volume of the ringtone

- 1. In Menu mode, select **Settings** → **Profiles**.
- 2. Scroll to the phone profile you are using.

If you are using the silent profile, you are not allowed to adjust the volume of the ringtone.

- 3 Press <Options> → Edit
- 4 Select Volume and scroll to Call alert
- 5 Scroll left or right to adjust the volume level
- 6. Press <Save> → <Back>.

To adjust the volume of voice during a call

While a call is in progress, press the Navigation key up or down to adjust the volume.

In noisy environments, you may have difficulty hearing the calls while using the speakerphone feature. For better audio performance, use the normal phone mode

Change your ringtone

- 1. In Menu mode, select **Settings** → **Profiles**.
- 2. Scroll to the profile you are using.
- 3. Press **Options** \rightarrow **Edit**.
- 4. Select Call ringtone.
- 5. Select a ringtone.

To switch to another profile, select it from the list.

Call a recently dialled number

- 1. In Idle mode, press [-]
- 2. Scroll left or right to a call type.
- 3. Scroll up or down to a number or name.
- 4. Press the Confirm key to view details of the call or [] to dial the number.

Enter text

To change the text input mode

- · Press and hold [#] to switch between T9 and ABC modes. Depending on your country, you may be able to access an input mode for your specific language
- Press [#] to change case or switch to Number mode
- · Press [*] to switch to Symbol mode.
- Press and hold [*] to select an input mode or change the input language.

T9 mode

- 1. Press the appropriate alphanumeric keys to enter an entire word.
- 2. When the word displays correctly, press [0] to insert a space. If the correct word does not display, press the Navigation key up or down to select an alternate word.

ABC mode

Press the appropriate alphanumeric key until the character you want appears on the display.

Number mode

Press the appropriate alphanumeric key to enter a

Press the appropriate alphanumeric key to enter a symbol

To use other feature for text input

- · To move the cursor, press the Navigation key.
- To delete characters one by one, press < Clear >.
- To insert a space between characters, press [0].
- To enter punctuation marks, press [1].

Add a new contact

Your phone is preset to save contact to the phone memory. To change the memory location, in Menu mode, select Settings → Application → Contacts → Save new contacts to → a memory location

- 1. In Idle mode, enter a phone number and press <Options>
- 2. Select Create contact.
- 3. Select a number type (if necessary).
- 4. Enter contact information
- 5. Press the Confirm key to add the contact to

Send and view messages To send a text message

1. In Menu mode, select Messages → Create

- 2. Enter a destination number and scroll down.
- 3. Enter the message text. ▶ Enter text
- 4. Press the Confirm key to send the message.

To view text messages

- 1. In Menu mode, select **Messages** → **Inbox**.
- 2. Select a text message

To make a fake call.

- · Press and hold the Navigation key down in Idle
- · Press the Navigation key down four times when the keys are locked.

Activate the mobile tracker This feature helps track your phone when it is stolen

or when someone tries to use your phone using other SIM card, the phone will automatically send the preset tracking message to family or friends. This feature may be unavailable due to certain features supported by your service provider.

- 1. In Menu mode, select **Settings** → **Security** → Mobile tracker. 2. Enter your password and press <OK>.
- The first time you access Mobile tracker, you will be prompted to create and confirm a password
- 3. Scroll left or right to **On**.
- 4. Scroll down and press the Confirm key to open the recipient list. 5. Press the Confirm key to open your contact list.
- 6. Select a contact.
- 7. Select a number (if necessary).
- 8. Press $\langle Options \rangle \rightarrow Save$ to save the recipients.
- 9. Scroll down and enter the sender's name 10.Press the Confirm key → <Accept>.

Activate and send an SOS message

In an emergency, you can send SOS messages to your family or friends for help.

To activate the SOS message

- 1. In Menu mode, select Messages \rightarrow Settings \rightarrow $\textbf{SOS messages} \rightarrow \textbf{Sending options}.$ 2. Scroll left or right to On. 3. Scroll down and press the Confirm key to open
- the recipient list 4. Press the Confirm key to open your contact list.
- 5. Select a contact
- 6. Select a number (if necessary).
- 7. When you are finished selecting contacts, press <Options $> \rightarrow$ Save to save the recipients
- 8. Scroll down and set the number of times to repeat the SOS message
- 9. Press **<Save>** → **<Yes>**. To send an SOS message
- 1. With the keys locked, press [-] four times to send an SOS message to preset numbers. The phone switches to SOS mode and sends the preset SOS message.
- 2. To exit SOS mode, press [].

Set and use alarms

To set a new alarm

- 1. In Menu mode, select Alarms
- 2. Select an empty alarm location.
- 3. Set alarm details.
- 4. Press <Save>, or press <Options> → Save.

To stop an alarm

When the alarm sounds

- Press <OK> or the Confirm key to stop the alarm without snooze
- Press <OK> or the Confirm key to stop the alarm with snooze, or press < Snooze > to silence the alarm for the snooze period.

To deactivate an alarm

- 1. In Menu mode, select Alarms
- 2. Select the alarm you want to deactivate. 3. Scroll left or right to Off.
- 4 Press <Save>
 - If the battery has been removed, the scheduled alarm may not sound

Activate the torch light The torch light feature helps you see in dark places

To activate the torch light, press and hold the Navigation key up in Idle mode.

To deactivate the torch light, press < Back>.
