

TPC7030 Portable Data Collector

Quick Start Guide

<http://www.posline.com.mx>

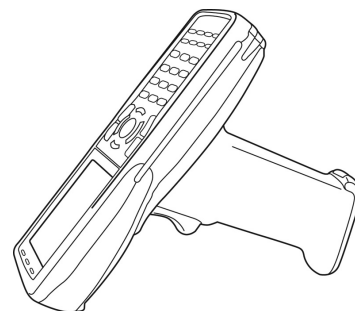

See User Manual for more information

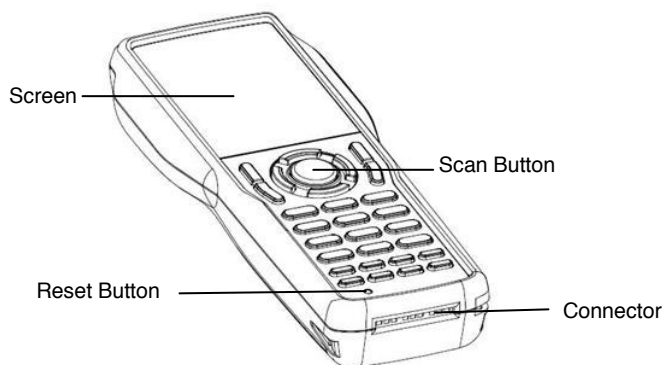

Charging the Main Batteries at least 16 hours for the first time

It may take up to 2 hours to fully charge the empty backup battery. **The first time charge should be for at least 16 hours to insure a proper charge**

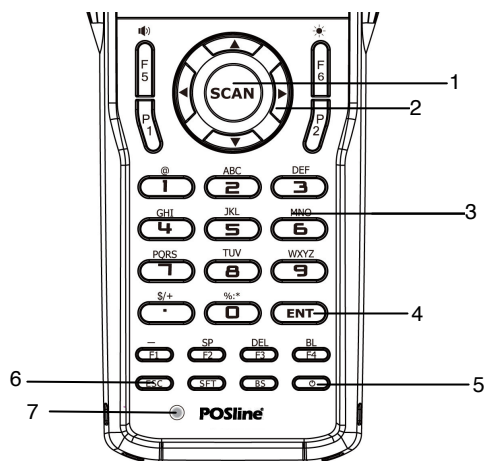

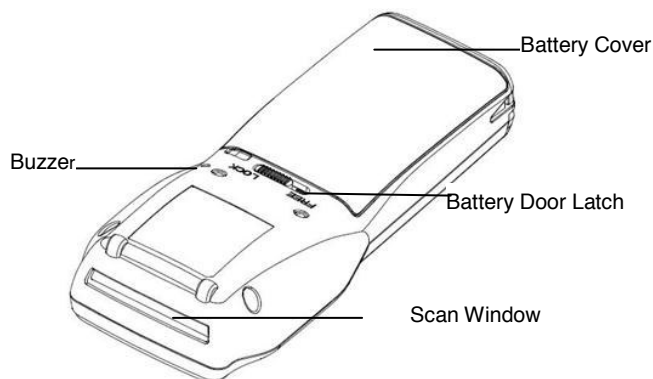

After you have initially charged your device for about 8 hours, the device is ready to be used.

Front View

Back View

- 1. Scan key
- 2. Cursor key
