4 GETTING STARTED

Charge the device

☆ It is not recommended to use the device while charging.

Plug the power adapter into an electrical outlet, and then connect to the device to fully charge the battery before use (A full charge takes about 6 hours in the off status).

Turn the device on

Press the power button briefly.

5

Wi-Fi Network Setup

Since many features require a Wi-Fi connection, we recommend you set up your Wi-Fi network before exploring your device.

1. Tap on ▦ → Settings.

2. Slide Wi-Fi switch to turn on.

The device automatically scans and lists all available local Wi-Fi Networks found. A lock sign indicates a secured Wi-Fi network that requires a password to connect.

3. Tap on the desired network to which you want to connect to → enter the Network Password if applicable → tap Connect.

4. Tap on ⬒ to return to the Desktop screen.

☆ If your Wi-Fi network is set as "Hidden", it won't be found by the auto scan. Tap on Add Wi-Fi network option and follow the prompts to add your desired network.

HDMI video play

This feature is supported through a Mini HDMI cable which connects and synchronizes your device to a TV, for using this feature, insert the Mini HDMI cable into the HDMI slot located on the right side of the device and connect the other end to your TV.

5 POWER BUTTON USAGE

Turn On: Press the power button and hold for 2 seconds.

Turn Off: Press the power button and hold for 2 seconds →tap Power off→tap OK.

Reboot: Press the power button and hold for 2 seconds →Tap reboot.

Quickly Hibernate/wake-up: Press the power button and hold for 2 seconds → tap Hibernate enable the device to hibernate，or press the power button briefly again to make the hibernated device to wake-up.

Force Off: If device does not respond, press and hold the power button for 5 seconds.

(Warning: Force off could lead to unpredictable system errors!)

Reset: Press the reset button could be reset the device. It's will clear the all data, Please careful with the function. (Note: After the current reset function can't restart, can only be turned off, so you need to press the power button restart the device after reset.)

9 DESKTOP

12

12 FILE BROWSER

Tap on the ⬜ File Browser application icon, to view the files on all
storage devices (Internal memory, SD card, USB device), or install Android
application on your axpad.

The icons across the top of the screen:

ROM Internal Flash (ROM) **USB** USB Storage **SD** SD Card

Paste Back to the previous folder Menu

Switch folder display mode.

Copy Media between Computer and Tablet

You can use the File Browser to copy files between external storage devices
and your computer. You can first copy the desired files onto a SD card or a
USB device.

☆ *The internal device storage is titled "ROM", a memory card "SD", and a USB
storage device is titled "USB".*

☆ *The instructions below are about copying files from a SD card or a USB
storage device into your device. You can use the same method to copy from
your device to a SD card or a USB storage device, and then connect the
storage device to your computer to transfer the files into the desired folder on
your computer.*

13

1.Tap on GoTo, select SD or USB to display the contents of your storage device.

2.Tap and hold a folder/file and enter into the multi-select mode, select the desired folder/file → tap on Copy.

3.Tap on GoTo, select ROM Internal Memory → tap on the folder into which you want to copy the file → tap on 📋 .

Connected to the local area network shared folders

You can view all of the LAN shared folders.

1.Connect to LAN.

2.Tap on ⋮ Net share →Add new sharing point →Choose the mode used of sharing → Editor of network folder sharing.

3.After you are connected successfully enter the network sharing settings and open the list of shared folder directly.

Delete files

Tap and hold a folder/file and enter into the multi-select mode, select the folder/file you wish to delete → tap on Delete → OK to confirm the deletion. → tap on Delete → Tap OK to confirm the deletion.

13 WI-FI

Tap on Settings → Wi-Fi to enter into the Wi-Fi Settings.

1.Slide the Wi-Fi switch to turn on Wi-Fi.

2.All the available AP within the vicinity will be listed, select the desired network

3.If the AP is not encrypted, select Connect to start. Once you are connected successfully the AP information will be saved on your device. You may choose "Forget" to remove the AP's information;

14

4.If the AP is encrypted, you must enter the network's password in the pop-up window, and click "Connect" Start Connection;

5.Once you are successfully connected, the wireless connection icon will appear on the bottom status bar.

14 3G NETWORK

This only for 3G model

you need to purchase a 3G dongle which is compatible to your country of residence in order to be able to use the 3G network.

15 BATTERY MANAGEMENT

It is highly recommended that you charge the battery for at least 6 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by following the suggestions below:

● Use your Tablet at least once a week.

● Charge the battery regularly and fully.

● Never leave the battery fully discharged for a long period of time.

● Always keep the device and the battery away from heat.

Charge battery

Plug the power adapter into an electrical outlet, and connect it to the device to fully charge the battery before use (A full charge takes about 6 hours in the off status).

☆ You cannot charge the battery using the USB cable.

When fully charged, the battery icon will be displayed on the status bar

15

32 IMPORTANT SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

●Do not expose this product to rain or moisture.

●Keep the device out of direct sunlight and heat sources.

●Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.

●Only use the AC adapter included with the device. Using any other power adapter voids your warranty.

●Do not remove the back cover.

Cleaning your device

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend to using supplied cleaning cloth or a soft, non-abrasive cloth such as a camera lens cloth.

33 Trouble Shooting

Android

Q: What Android OS version is on my Device?

A: 4.1
