2. Unscrambler[®] X Prediction Engine 10.3

This section covers following topics:

- About Unscrambler[®]X Prediction Engine 10.3
- Prerequisites
- Support
- Installing Unscrambler[®] X Prediction Engine 10.3

2.1. About Unscrambler[®]X Prediction Engine 10.3

The Unscrambler X Prediction Engine allows running predictive models directly on a spectrometer or control system, using models generated off-line with The Unscrambler[®] X. The software can be interfaced into an existing software platform to provide users all of the predictive and diagnostic tools found in The Unscrambler[®] X, configured in a way that allows real-time quality control.

2.2. Prerequisites

The prerequisites for installing Unscrambler® X Prediction Engine 10.3 are as follows:

 Unscrambler[®] X Prediction Engine 10.3 installer archives, containing the installer (in .msi as well as .exe format) as well as this installation manual.

2.3. Support

You may want to explore these other sources of support for The Unscrambler® X:

- Learning Multivariate Data Analysis (MVA)
- Benefits to the use of MVA
- Web Workshops & Training Programs
- Suggested Reading
- Ask our Experts

2.4. Installing Unscrambler[®] X Prediction Engine 10.3

Note

The installation process for installing Unscrambler®X Prediction Engine 10.3 plugin for 32 bit and 64 bit operating system is the same.

To install:

1 Extract the contents from the UnscXPredEngine10.3 zip file as shown below.
