**NEW!** Improves circulation

Dissolves stress and tension

**Instant massages in the privacy of your own home without the hourly rates**

Instead of paying up to \$200 per hour for a massage, you could enjoy the soothing electronic stimulation of the Massage XPLUS in the comfort of your home or while traveling. This lightweight, portable, FDA-approved device uses bio-electric impulses to increase endorphin production, which are the body's natural pain killers. By stimulating your muscles with tapping, kneading and grabbing sensations, this device melts away your aches, pains and nagging soreness, using 16 massage modes. The kit includes the XPLUS unit, 2 pairs of pads, pad wires, AC adapter and USB cable for the internal rechargeable battery, ear clips, cloth carrying case, pad board and user manual.

HDW111J **Massage XPLUS Kit** \$249.99

No electrodes or cables

Displays ECG waveform

Provides critical heart rate analysis

**Spot check for cardiac arrhythmias on the golf course, while shopping or in front of the TV**

For those uncertain times when you're not quite sure what's going on, this handheld ECG monitor can provide you with fast accurate cardiac measurements in as little as 30 seconds. Whether or not you have a history of heart problems, getting critical information quickly makes every minute count. The auto-evaluation feature provides immediate heart status so risk factors can be recognized early and acted upon. It's small, lightweight and designed to be completely portable. Plus, it's intuitively simple to operate, and results can be easily downloaded to your PC for printing or emailing your doctor's office.

All natural process alleviates lower-back pain

**Get fast relief from lower back pain in 5 to 15 minutes**

Use the VacuPractor at home or wherever you are and in just minutes your back pain will be relieved. With a little water between your skin and the VacuPractor a vacuum effect is created, providing lumbar decompression, helping to increase the clearances between vertebrae, relieving pain and inflammation for lower back pain. Safe, effective and recommended by doctors. Made in the USA.

Number one in Tactile Awakening Technology

**Sleep more peacefully at night knowing that you and your loved ones are protected**

As we grow older our high frequency hearing decreases and seconds count in a fire emergency. When the Notification Device senses a smoke alarm, it instantly activates an intermittent, motor-driven bed shaker which vibrates the bed to wake the sleeping individual. It combines two technologies - the sound reception and intermittent signal generation to the bed shaker for awakening. It is also equipped with a speaker that emits a high-decibel, low-frequency (520 Hz) audible signal, and a flashing indicator light that operate in concert with the bed shaker.

SFA101J **Supplemental Fire-Safety Notification Device** \$299.99
