Terms & Conditions

SALES POLICY

WHOLESALE ONLY. Teledata Express sells wholesale only to qualified installers and other resellers. Possession of price lists or other literature or access to our website does not constitute the right to purchase from Teledata Express.

MINIMUM ORDERS / SMALL ORDERS. Minimum order amount is \$20.00. An additional small order charge of \$5.00 will be added to all orders under \$80.00.

SAMPLE REQUESTS. All samples will be invoiced plus shipping charges.

PRICING POLICY

DELIVERED PRICING. Shipping is included in all catalog prices. Teledata Express will choose the carrier on all orders. Criteria for carrier selection will be fastest service and lowest cost.

FOB TELEDATA (OR LOCAL PICKUP) PRICING. To calculate prices, divide catalog prices by 1.05. FOB shipments will be made freight collect on the carrier of your choice.

VOLUME DISCOUNTS. Most items are subject to dollar volume discounts on a per order basis (See Price List). Items ordered not subject to dollar volume discounts WILL be counted as part of the total to determine the volume discount level.

PRICE CHANGES. Prices are subject to change without notice.

PAYMENT TERMS

(1) 2% Discount is allowed for prepayments; (2) There are no surcharges or discounts allowed on credit card payments; (3) Open credit terms are 2% ten days, Net 30 days; (4) COD shipments - the COD fee charged by the freight carrier will be added to all COD shipments.

CREDIT CARDS. Visa, MasterCard, American Express and Discover will be accepted. Charges to credit cards will be made at the time of shipment.

OPEN CREDIT. An open credit line may be established by submitting a credit application to Teledata Express. All applications must be signed by an authorized person. Credit applications will be approved or denied within 10 days of receipt.

PRODUCT SPECIFICATIONS

Product specifications are subject to change without notice. Please confirm specifications at time of purchase.

SHIPPING POLICY

SAME DAY SHIPPING. Orders received by 3:00 pm Central time will be shipped the same day.

BACK ORDERS. Unshipped merchandise from an original order will be shipped when available within 30 days. Merchandise not shipped within 30 days will be cancelled.

FREIGHT POLICY

DROP SHIPMENTS. Drop shipment service to your customers or job sites is available. However, an authorized person must be available to sign for the delivery at the drop ship location.

FREIGHT DAMAGE. If your shipment arrives damaged in transit, it is generally best to refuse it. If you accept delivery make sure you note the damage on the delivery record signed by the driver. Notify Teledata Express immediately to arrange for carrier inspection and/or pick up of damaged merchandise. If you do not notify Teledata Express within 10 days, any damage claim will not be allowed.

Note: On freight collect shipments the merchandise becomes yours when the carrier picks it up and you will have to file any claims for damage inflicted by the carrier.

RETURNS POLICY

RETURNED GOODS AUTHORIZATION. No shipment will be accepted for credit consideration without our prearranged authorization. Our returned goods authorization (RGA) number MUST accompany all return shipments. All returns must be prepaid freight. For speedy processing, please have the original invoice number when asking for an RGA, and include a copy with the return shipment.

100% SATISFACTION GUARANTEE. Any normally inventoried product purchased from Teledata Express may be returned within 30 days of invoice date for full credit/refund, no questions asked. Simply follow Returned Goods procedures for fast, easy 100% satisfaction. No credit will be allowed for damaged goods.

WARRANTY POLICY

WARRANTY. Products sold by Teledata Express are warranted to be free from defects in material and workmanship under normal use and service to the extent of the manufacturers express warranties or for one year, whichever is greater. Liability to Teledata Express and remedies to the customer are limited solely to repair, replacement or credit at our sole discretion. Alleged defective merchandise must be returned freight paid at buyers expense, following RGA procedures, to Teledata Express for warranty consideration. This warranty extends to the original purchaser only. Extended warranty available - please call for information.

DISCLAIMER. This warranty is exclusive and is in lieu of any other warranty express or implied, including but not limited to, any implied warranty of merchantability or fitness for a particular purpose. Teledata express shall not be liable under any circumstances for consequential or incidental damages, including but not limited to labor costs or loss of profits arising in connection with the use of or inability to use products purchased from Teledata Express.

TELEDATA
EXPRESS

VOICE & DATA CABLE

Our Teledata Express and other brands of LAN cable we carry are clearly "Top of the Line". Simply put, we only sell the best. All our Teledata Express and other cable is listed for **safety and verified for performance** by UL and / or ETL. Plus inspectors regularly visit the ISO9200 rated factories to ensure that the cable you get is the same quality they tested.

Category Cable, UTP

- Solid Copper Conductors
- UTP & STP
- Ultra smooth jacket
- Bright Colors
- Whites Color-Striped
- Remaining Length Printed
- Ripcord Standard
- UL and / or ETL Listed
- UL and/or ETL Verified
- ANSI
- ISO9002
- Exceeds TIA/EIA Standards

Installers love our Teledata Express and the other brands of cable we sell. With outstanding covers and remarkable flexibility, our cable is the easiest pulling cable on the market. Twisted pairs are brightly colored and easily distinguishable at a glance, whites are striped to match corresponding color pairs, and remaining length is printed every two feet. Easy strip ripcord comes standard.

End Users love our cable. Because we put more into it, they get more out of it. Every category of cable we sell exceeds standards. The higher signal to noise ratio results in fewer application errors and greater system reliability.

Everybody loves our prices. No one has ever been able to duplicate our quality and match our price.

CAT 3 CABLE

Standards

- UL Listed • UL and ETL Verified to Category 3 • NEMA WC 63.1

Applications

- Voice/Telephone
- 100 Base-VG
- ATM PMD 155 Mbps
- Fast Ethernet: 10 Base-T, 100 Base-T4, 100 Base-X
- 4/16 Mbps Token Ring
- ANSI X3T9.5 TP-PMD (FDDI)

Riser (PVC), Cat 3

SPEAKER WIRE / CONNECTORS

Premium Speaker Wire

- Sheer Sound brand
- Indoor/Outdoor
- UV Resistant
- Direct Burial Grade
- Made in the USA

Why is strand count important?

A higher strand count means happier customers who will provide you with repeat and referral business. Blow them away with great sound, and they will always come back to you. Plus, you'll be the installer that their friends seek out when they hear your customer's impressive new system.

When a signal travels down a length of speaker wire to your customer's speakers, it is transmitted around the diameters of each strand. A greater number of strands means a greater number of diameters. This allows the transmission of a stronger signal and improves overall sound clarity. Standard speaker wire consists of only 19 strands.

COAXIAL CABLE

Standards:

• UL Listed Applications as marked:

- CATV (Cable Television)
- SATV (Satellite Television - Sweep-tested to 3GHz)
- CCTV (Closed Circuit Television)

We work hard everyday to provide you with the best value in coaxial cable. We don't cut corners by carrying cheap coax that has not been verified to UL standards, and we negotiate hard with our manufacturers to keep prices down.

Plus, we build relationships with a variety of brands to keep the quality and pricing of our coax consistent. That means you won't be faced with surprises when it comes time for installation or billing. More examples of the great VALUE of dealing with Teledata Express.

WALL PLATE MOUNTING

Recessed Indoor In Box

Non-metallic Recessed Box New or Existing Construction.

Arlington's recessed indoor IN BOX™ for indoor use, allows flat screen TVs, furniture and countertop items to be mounted or placed flush against the wall.

Made of sturdy, non-metallic materials, these boxes are recessed so plugs and/or connectors stay inside without extending past the wall.

Paintable white trim plate covers edges of cut wall surface.

LOOP HANGERS AND HOOKS

Single Hanger

1. Single LOOP mounted parallel to beam.
2. Single LOOP mounted perpendicular to beam

(TL50 shown)

Multiple Hangers

3. Stacked —perpendicular mounting
4. Stacked — parallel mounting

(TL50 shown)

Holds up to a 5" diameter bundle of Cat 5 or fiber optic cable!

Features and Benefits

- Easy to use... cheaper than trays
- Flexible and non-metallic
- Holds 2" to 5" diameter bundle of CAT 5 or fiber optic cable...without damaging the cable
- Versatile mounting.... rotates to any angle
- TL25 Holds the same amount of cable as the J-hook, at half the cost

PATENTED

Listed for use in environmental air handling spaces per 2005 NEC code requirements 300-22(c).

J-Hook Pulley Kits

- Frees up "second man" on cable pulling
- Accepts up to 20 or 40 Pair cables
- Complies with the TIA standard requirement by minimizing the pull force on the cable
- Maintains proper bend radius and protects cable during the installation
- Includes J-hook, pin, wheel and retainer, link, and beam clamp
- When the job is complete, the pulley and pin assembly can be removed leaving the J-hook as a cable support
- Pulley components can be reused on our other 2" J-hooks

POWER AND SURGE STRIPS

RACK MOUNT POWER STRIPS

260920

20 Outlet 19" Rack Mount Power Strip

Ideal for distributing UPS or generator power in rack enclosures or network closets. Safety cover prevents accidental turn off.

- 20 Receptacles (10 Front - 10 Rear)
- 15 Ft. Rear Exit Cord
- 60 Hz, 15 Amp, 120V
- 5-15 (15A Model Plug & Outlet 120V)

260930

12 Outlet 19" Rack Mount Surge Protected Power Strip

This power strip provides network grade AC surge suppression with EMI/RFI noise filtering.

- 12 Receptacles (2 Front - 10 Rear)
- 15 Ft. Rear Exit Cord
- 60 Hz, 15 Amp, 120V
- 5-15 (15A, 120V) molded plug & outlet

Suppression

AC: 120V RMS Clamping/1800 Joules/60,000 Amps

SURGE PROTECTED POWER STRIPS

8 Outlet Surge Protector with Fax/Modem Protection

AC Protection:

330V Clamping

1140 JOULES DISPLACEMENT

- Fax/Modem Protection
- 400V Clamping
- EMI/RFI Filtering

106 JOULES DISPLACEMENT

UNINTERRUPTIBLE POWER SUPPLY/BATTERY BACKUP

POWERCOM UPS

FEATURES COMMON TO ALL POWERCOM UPS UNITS

- Wave Form - Simulated Sine Wave
- Energy Saving "Sleep" Mode
- Lightning / Surge Protection 480 Joules
- Input Protection
- Telephone / Modem / Net Protection RJ11/ RJ45
- Short Circuit and Overload Protection
- Transfer Time to Battery 2.4 Milsec
- Automatic Testing
- RS232 Smart Communication Port (DB9)
- UPSMON Plus Monitoring Software
- Battery Backup Alarm
- Battery Low Alarm
- Overload Protection Alarm

BLACK KNIGHT PRO

- Line interactive design
- Boost and buck AVR (Auto voltage regulation)
- Fully digitized microprocessor controlled
- Energy saving function (UPS green mode)
- 50/60Hz frequency auto sensing and selection
- Cold start function (DC power on)
- Lightning and surge protection
- Short circuit and overload protection
- Advanced battery management (ABM technology)
- Tel/Modem internet surge suppression
- Smart RS-232 communication port
- Automatically charging when UPS off
- Records history of power failure events
- Back up, on-line, battery status, power status display by software
- Schedule shutdown & reboot

GROUNDING BRIDGE IN ZINC AND BRONZE

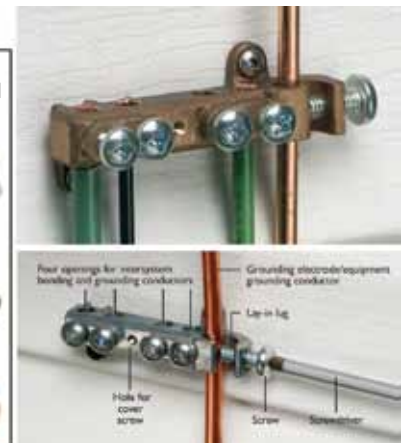

Arlington's heavy-duty Grounding Bridge provides reliable intersystem bonding between power and communication grounding systems. They have four termination points; one more than required by 250.94 of the 2008 NEC.

Available in zinc (260831) and bronze (260832), this new Grounding multiple hookups of communications systems; telephone, CATV or satellite

- For indoor or outdoor use
- Intersystem Bonding and Grounding Conductors: All accommodate #14 to #4 copper or aluminum, solid or stranded Grounding Electro Conductor or Equipment Grounding Conductor: GB5 and GBB5 accept #6 to #2.
- All can be used with copper or aluminum, solid or stranded.
- Fast, simple installation
- Easy access for inspections
- For good looks – textured, paintable plastic cover included

SURGE & GROUNDING

PRIMARY SERIES SURGEGATE AC PROTECTION BASE UNITS

(Formerly Towermax)

AVAYA approved

Common Features & Specifications

- AC Protection for Telecom Systems
- Expandable Protection with SurgeGate Modules
- Eight Foot Power Cord - Right Angle Plug
- Thermal Fusing
- Over-Voltage Shutoff 147V & 87V
- Initial Clamping Level 200V peak

- SurgeGate Plus Circuitry
- Diagnostic Indicator Lights
- Mounting Brackets Included
- Catastrophic Surge Circuit
- Under-Voltage Shutoff 87V & 8V
- Response Time 1-5 Seconds

- Four Switched AC Outlets
- IMI / RFI Noise Filtration -5-dB
- Rated 120V - 15A
- Peak Impulse Current 52,000 A
- Single Pulse Dissipation - 1650 Joules
- UL1449 Rating 330V

Built-in
TELCO
Protection

260404

260408

ULTRALINX 66 Block Surge Protection

Ideal for Retrofit Applications - just remove the bridging clips from the block and replace them with the UltraLinX Protector, add the ground connection and the pair is protected!

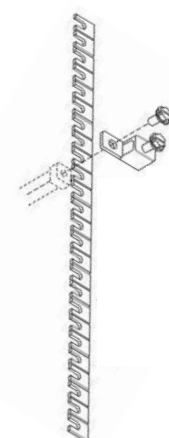

Features & Specifications

- **Dual Indicator Lights**—Protection OK and Ground Connection OK
- **Solid-state Protection**—Provides the fastest response to transient voltage (1–5 nanoseconds) by quickly diverting damaging surges to ground and resetting.
- **Single Pair Protection**—Scale the protection to the system size. Protect only the lines requiring protection.
- **Streamlined Installation**- Eliminate redundant cross-connects by adding protection directly at the 66 Block. Press fit protectors to the block and attach the ground bar to the protectors. A Screw Ground Lug also is required. (MGBSGL-1)
- **Sneak Current Protection** - Protects against fires caused by overloads and power crosses.
- **Cost Savings** - Eliminate expensive five-pin blocks.
- Signal Perfect Circuitry
- Auto-Resettable
- Protects 2-Wire, 1 Pair

PRIMARY BUILDING ENTRANCE TERMINALS

These building entrance terminals are used as a Primary connectivity protector but can be used as secondary protection where low voltage circuits are required. They provide protection for communication equipment and circuits exposed to harmful transient voltage surges and "sneak currents" which are introduced into telecommunication lines by AC induction, direct power crosses or lightning.

Units consist of a rugged epoxy powder coated housing, a protection field and incoming / outgoing cross connect field. A grounding system line protection is provided through industry standard 5-pin protection modules.

NOTE: 5 Pin modules are sold separately.

STANDARD 5-PIN SURGE PROTECTION MODULES

Gas Modules

The balanced gas tube 5-pin modules are designed to be "always on" protecting the infrastructure but at the same time allowing the telecom network to operate at maximum without signal degradation. They provide excellent transient and power fault protection for standard analog telephone lines. They are well suited to applications requiring heavy duty current handling. Gas modules are available with or without 150 mA resetting technology (PTC).

Digital Modules

The asymmetrical operation of the 5-pin solid state module is designed to be always on-protecting the telecom infrastructure. It is suitable for high speed networks particularly ADSL applications that utilize a high voltage differential between two sides of a circuit in normal operation. Digital / solid state modules are superior to gas in speed of response due to repeated tripping within rated limits. An internal fail-safe mechanism permanently grounds the module under sustained high current conditions to protect personnel and equipment.

What is PTC (Positive Temperature Coefficient)?

PTC refers to materials that have an increase in electrical resistance as their temperature rises. As their temperature rises in a "surge", the resistance increases and allows less current to flow thereby protecting equipment. When the surge passes the temperature falls and the PTC "fuse" automatically resets allowing normal operation.

We have many Fiber Optic Cables available in stock and Mfg. dropship

Fast Ethernet Media Converters

- Complies with 802.3u 10/100 Base - TX 100 Base - FX Standards.
- Provide Switch Configuration of Half-Duplex / Full Duplex transfer mode for FX Port.
- Converts 100 Base - FX Fiber to 100 Base TX Copper or Vice Versa
- Power supply included

251000

BRANDS MAY VARY

Gigabit Media Converters

251022

- Works at 1000Mbps in Full-Duplex mode for both TX port and FX port
- Supports auto MID/MID-X for TX port
- Provides switch configuration of Force/Auto transfer mode for FX port
- Extends fiber distance up to 550m Multimode-15KM Singlemode
- Easy-to-view LED indicators provide status to monitor network activity easily
- SC Fiber Port
- External power supply included

SFP-MiniGBIC Port 251020

BRANDS MAY VARY

- Converts 1000 Base-T (Gigabit Ethernet) to SFP (MiniGBIC) Fiber Slot and vice versa
- Requires MiniGBIC Transceiver to convert to Fiber
- Designed for use with Multi-mode or Single Mode Fiber depending on which MiniGBIC is used
- Power supply included

Fiber Optic Tools

167897X

Fiber Optic Long Range Continuity Tester

The 167897X pocket light source uses a krypton bulb to provide a brilliant, pre-focused white light that is easily detected up to 2,000 meters (6,560 feet). Distinct in any operational network, you can never confuse this light source with operational LED circuit tags or active lasers.

The 167897X is also ideal for checking the continuity of cable that is still on the reel. Since most fiber reels are 1,000 meters or less, this could easily be the only tool you need to check spooled or pulled cable. The unique ferrule grip design will center and securely hold any ST/SC/FC connector style as well as bare fiber with no special adapters or beam focusing required.

167891

Fiber Optic Inspection Scope (100x)

Standard flat plate 100 power fiber optic inspection scope for ST/SC/FC connector styles designed by fiber experts from TrueView Products. The flat head adapter allows user to view both the core and cladding as separate distinct layers with a straight on view down the fiber. With the appropriate adapter, this microscope is capable of viewing nearly every connector in existence today, including all small form factor connectors styles. As a bonus feature, this scope has a retractable 8 power loupe

built in for epoxy crown inspections. Value, versatility and durable design has made this one of the fastest selling microscopes in the industry for the past five years.

Test-Um Testing Tools

Validator-NT NT955

The new Validator-NT™ Ethernet System All-in-One Network Management Tool puts the power of network test and configuration in your hand at an affordable price. Validator-NT's patented method of uploading and downloading information about cable tests and network configuration will help you gather the necessary information to manage your network easily, while documenting changes, upgrades or new configurations. Validator-NT measures and presents fast and clear **SPEED** and **PERFORMANCE CERTIFICATION** results up to 1 gigabit. Speed certification assures the cabling will do the job it is rated to do. Network components such as switches, hubs, routers and systems will then operate at maximum efficiency. Wire maps up to 8 locations with the network remote identifiers.

The included powerful Plan-Um™ software ties together all the different cable criteria that are found in complex voice/data/video installations and presents concise information in printed reports, while storing data for future use. Simply layout your customer's requirements in a matter of minutes, then define cable types and runs. Test/certify each cable run. Print the results and attach them to your invoice. Completing and billing a cable installation job has never been easier.

109002

NT955 Package Contents

- Validator NT™ Main Unit and Smart Remote
- 2 lithium ion rechargeable long-life batteries
- 2 AC adapter/charger units
- Test Connectors
 - 8-position shielded modular jack (data)
 - 6-position modular jack (telephone)
 - F-coax (video),
 - Dual banana jack (security, speaker, etc.)
- USB cable assembly
- 64MB Compact flash card
- Plan-Um™ design layout software
- Cable Certification Labels (roll of 100)
- Set of 8 network remote identifiers
- 2 Sacrificial Cable modules (RJ 45)
- Deluxe carrying case with cushioned sides

- Supports IEEE 802.3 data speed carrying specifications to 1 gigabit Measures cable length and distances to opens and shorts using advanced TDR technology Tests telephone, coax, security/alarm, cables for continuity, proper termination and polarity Tests shielded or unshielded Cat3, 5, 5E, 6 Wiremaps individual runs to locate and identify cable routes
- Tests interconnect specifications per TIA 568/570, including opens, shorts, miswires, split pairs, etc.
- Active network capabilities for test, link and identification
 - Port Services
 - Ping Testing
 - Hub Flash
- Cable Quality Tests
 - SKEW NEXT—All combinations on all pairs (12) Channel Response Echo Testing (Return Loss) impedance mismatches Signal to Noise Ratio Attenuation Amplitude Return Loss
 - Bit Error Rate (BERT)
- Measures signal quality in actual link environments that could account for cable inadequacies, such as physical installation problems, kinks, loops, physical terminations, dry shorts, or miswires. Store data on either a laptop/PC or in flash card memory up to 2 GB. Use archived info when upgrading or changing previously installed systems.

Validator™ Main Unit Carrying Case

It can be hung by its carrying strap across the shoulders or from the neck to use it with both hands in front of the body. Using the front position the unit can be "propped" against the body and this allows the hands to be free to connect, disconnect cables or any other task.

Use the clever built in stand design that allows the Validator to sit upright on a desk or any flat surface. Allows for easy access to enter or obtain data without having to hold the unit.

109002P

What is the difference between the Validator and the Validator-NT?

The Validator-NT has all the same cable testing and certifying capabilities as the Validator, but also includes the following Active Network Tests that are designed to report cable performance and verify connectivity to network devices. In addition, the Validator-NT kit includes a set of 8 wiremap remotes.

Active Network Tests

- **Port Discovery** – Identifies telephone, Ethernet connections, or network devices (such as Hubs, NIC or Auto_MDI/MDI-X) connected to the other end of the jack or cable and displays information about what is detected. If neither voltages nor Ethernet is detected, Validator-NT searches for a remote and runs a cable test like the regular Validator.
- **Ping Test** – Verifies connectivity to IP addresses by pinging up to seven different IP addresses simultaneously. Can be run in DHCP or manual mode.
- **Hub Flash** – Sends an intermittent signal to flash the status light on Ethernet equipment.

Lil' Buttie Ranger Lightweight Telephone Butt Set Kit

The most powerful test set Test-Um builds, it incorporates a built-in amplified speaker, as well as new, advanced features unavailable on any other test set in the market

- DigiView™ DTMF Decode that allows you to see the digits as a dial-out is in progress and capture those digits.
- ADLITM Auto Dial Line Identification - Inbound and outbound line identification with caller ID testing.
- Trafixguard™ Senses digital lines and identifies under- and over-voltage conditions. Totally DSL safe!
- Insta-Talk™ Amplified Speaker with simultaneous intercom capability for talking while testing.
- Amplified Speaker with three volume levels
- Enhanced Memory Dialing - alpha and numeric capability
- Eight Number Memory
- Tone and Pulse Dialing
- Microphone Mute
- Last Number Redial - 24 Digits
- Electronic Ringer
- Amplified Line Monitor for volume levels comparable to "off hook" operation
- Modular cord set attachment
- Headset for hands-free use
- Auto power off eliminates dead batteries
- Kit includes Lil' Buttie Ranger, Headset, Cable with Bed of Nails Clips, and Belt Pack with D-Ring and Belt Loop

Testifier™ Cable Tester

The Testifier™ cable tester provides full cable test and tone generation in one unit for telecom, datacom, and cable installers and technicians. The easy-to-use Testifier features one-button operation to initiate telco, network, and coax modes for diagnostic tests and results. The main unit includes built-in RJ11 and RJ45 jacks for testing 6-wire and 8-wire twisted pair and F-connector for testing coax.

An integrated remote bay houses a detachable test remote with built-in RJ11 and RJ45 jacks and F-connector for coax.

The field-proven Testifier cable tester detects shorts, opens, miswires, reversals, and split pair conditions and displays in

wiremap format. The MAP ID function identifies multiple cables by displaying ID numbers of map-only remotes. Testifier displays PASS icon for correctly wired T568A/B and 6-pin telco cable. Tone generator mode sends any of four user-selectable tones on all pin and pair combinations.

FEATURES:

- LCD Display
- Easy Read Results
- Built-in Remote
- Auto OFF
- Unbreakable Case

TESTS:

- Networks Cable
- Coax
- Telephone
- Speaker Wire
- Security

INCLUDES:

- Data/Network Wire Mapper
- Coax Cable Wire Mapper
- Telephone Wire Mapper
- Unterminated Speaker Wire Mapper
- 9 Volt Battery

109018

LAN Roamer

- Cable test results displayed on main unit and remote unit, in less than 2 seconds after plugging in the cable
- Auto-on and auto-off when testing cables, just plug both ends into tester!
- Snap-together case for easy storage and convenient patch cable testing
- Tone generator mode for use with tone tracers, auto off
- Debug mode with from/to and failures for each pair
- Test for shorts, opens, miswires, reversals and split pairs
- Battery low indicator

109050

Satellite Meter

This signal strength meter is a simple mechanical device used to maximize a satellite signal between the LNB amplifier and the receiver

- Perfect for installing and setting up direct satellite systems
- Rugged ABS body
- Easy-to-read analog display
- Frequency Range: 950MHz - 2,050MHz
- Variable Attenuator for ultra-fine tuning capability
- Powered by satellite receiver, no batteries required

Wi-Net Window Tool

The Wi-Net Window tool will help installers and owners of wireless networks identify, clarify, and configure all the wireless transmission equipment on a site. It will help prevent conflicts of internet access over wireless points and give a clear picture of the range and availability of each wireless access point. No other product in this class offers more information so clearly and easily displayed.

- Signal strength shown as both a percentage on the LCD and a light bar up to 100%
- Equipment name and channel of transmission identified
- Identifies and communicates with IEEE 802.11 wireless access points types b and g
- Lists and logs all received wireless transmissions in the area for review with constant scanning
- Displays encryption condition on each wireless component
- Lists signal as either an access point or an ad-hoc or Twin network type.
- Ping function accesses IP addresses and determines an internet link condition
- Negotiates with network DHCP for component identification and IP/MAC addresses

109033

High Power Tone and Trace Kit KP105

109035 and 109030 in a Cordura pouch.

Tone and Probe Kit KP101

A tough Cordura™ kit pouch houses the Tone Tracer and the Tone Generator for convenience in the field. A closure flap protects the instruments and has both a belt loop on the back as well as a metal clip ring for multiple mounting options. The kit includes one cord set with alligator clips.

109032

The Tone Tracer sets a new standard for field service professionals. Due to its slim, ergonomic design, as well as balanced weighting, this tone tracer is the most comfortable tracer available. It can be used with either a wearable headset or a standard cell phone set. Quick-change tips make for easier in-field use.

Test-Um's innovative and unique Multi-Function Tone Generator gives the user a multitude of features not available on any other tone generator. Auto-off, multiple tone capabilities, full talk battery, low battery indicator, and other great features make this tone generator the choice for professionals when tracing lines and finding the right signal path for data and voice installations. Its compact size, only 4 inches in length, allows this tone generator to fit into any existing belt pouch.

109031

109035

109030

109034

109037

109038

Alligator Clip TG-10 Replacement Cord Set

109045

Tone Generator TG101

Test-Um's most popular tone generator, with advanced features

- Three built-in tones, one steady and two warbles, for multiple lines testing
- Constant tone amplitude over life of the battery means accurate and traceable tones, even at the end of battery life
- Two tone amplitude levels, normal and half, let the user extend the tone reach
- Auto-off protects the battery life
- Tone may be added to any mode for using phone sets without monitor mode
- Power-saver feature in continuity mode to preserve battery life
- Separate Talk Battery mode for increased voltage and power for test sets
- Modular jack allows multiple cord sets to be used for different applications

Turbo-Tone Generator TG201

The most powerful tone generator you can put in your pocket. The Turbo-Tone™ generates as much as 700% more power than standard tone generators!

- Extra-long-distance capability. Detect tone up to 20 miles away
- Constant amplitude output for 100% signal strength all the time, no signal decrease as battery discharges
- Easily hear signal through walls and enclosures
- Multiple tones and power levels for all applications - CAT 5/6, signal wire, coax, telephone cable
- Unbalanced tone mode for longer distances on CAT 5/6 cables
- Auto-off for battery conservation
- Full talk battery and constant polarity check included
- Includes adapter cables with alligator clips and carrying case

Tone Tracer, Round and Paddle Tip TT100

The Tone Tracer sets a new standard for field service professionals. Due to its slim, ergonomic design, as well as balanced weighting, the TT100 is the most comfortable tracer available. It can be used with either a wearable headset or a standard cell phone headset. Quick-change tips make for easier in-field use. Includes low battery indicator

Trace-Rite Trace & Tone Detector Set TT250

Find cable in ceilings and behind walls.

- Traces all kinds of cable - telephone, coax, CAT5e and CAT6.
- Replaceable tone tips
- Built-in tone generator with 2 tones and audio off feature

Resi-Tracer TT300

Resi-Tracer combines unique new features for tracing telephone, network, coax, and audio cable with special functions for finding and phasing speakers and testing telephone systems

- Traces all types of cable: CAT5/6, telephone, coax
- Audible and visual tone location indication
- Senses Speaker Phasing when used with Resi-Toner™
- Traces coax cable on active systems to eliminate shutdowns
- POTS testing with monitor mode and off-hook listening mode

Resi-Toner TG400

Test-Um Inc.'s Resi-Toner™ is a full function tone generator with unique features designed to further test connections on telephone systems and speaker installations. Find your outlets and assure your connections with the Resi-Toner™

- "Powers-up" the installed telephone lines under actual load conditions with a simulated dial tone to check connectivity and proper wiring configurations without a service connection
- Full-feature tone generator with 3 different tone sounds and continuity test
- Generates a unique tone sequence for testing speaker installations by "popping" speakers---will work with either AC or DC coupled speaker types
- Requires 9V battery (not included)

Test-Um Testing Tools

Deluxe LanScaper Network Testing Kit

The new LanScaper™ Network Tester is the first in a new line of Physical Layer Network Management Devices. The LanScaper™ combines the functions of a high-end cable tester and length measurement device with the capability to monitor and correct network problems connected with the physical layer and link conditions of the network.

- Identifies port services like Ethernet, ISDN, POTS and Token-Ring while reporting such crucial information as network speed, capability and location of switches and other network devices.
- Pinging function verifies connectivity to network devices and queries PC/NIC's.
- Detects legacy "Phantom Power", reports current and voltage capability of analog telephone lines, identifies (maps) remotes while cable testing
- Conducts link tests to ID speed
- Verifies functional speed capability of terminated unconnected cable runs by sampling data packets between two LanScaper units, which exercises the run and reports the result
- Automatically accesses DHCP host and obtains network information
- Tests cabling configuration and verifies connectivity and length of run while conducting tests for opens, shorts, miswires, split pairs, and reversals
- Identifies HUBs, NIC, or auto MDI/MDI-X devices
- Blinks HUBs to ascertain connected configuration
- Displays advertised network speed/duplex
- Measures and reports any voltage on lines
- Wiremaps network connections with remote identifiers
- Generates multiple tone levels for signal tracing and cable identification

109010

LAN Rover Pro

This high-performance length measurement CAT 5/6 tester identifies multiple faults clearly without interpretation for fast results; clear wiremapping form displayed on 2-line, 16-character LCD display; and measures cable length.

- Measures cable length as a stand-alone function
- Test for shorts, opens, miswires, reversals and split pairs
- Identifies multiple faults clearly without interpretation
- Clear wiremapping form displayed in 2-line, 16-character LCD display
- Auto-off/Auto-on. Up to 10 times better battery life than other testers
- One-ended testing with Pre-test mode for fast results
- Built-in tone generator with selectable tones and pair capability

Wire Finder/Mini Locator

Model 508S Wire Finder/Mini Locator is for technicians who occasionally need to locate buried or in-wall wiring but don't require all the bells and whistles of a high priced cable locator. Its compact design doesn't take up valuable truck space while easy-to-understand operations help avoid constantly referring to manuals. The 508S Wire Finder provides reliable results on buried cables to depths of 3 feet and lengths up to 1000 feet. The unit can even be used to determine the approximate depth of a wire or cable before you dig. Fully adjustable transmitter output and receiver gain improve system performance and locating accuracy. The 508S Wire Finder comes housed in a durable, molded carrying case with a quick reference operation guide on the inside of the lid.

- Quick-change test leads for use in any industry, even international power outlets
- Voltage protection allows use on live AC circuits
- Automatic shutoff prevents accidental battery discharge

CLASSIC 77 SERIES TONE GENERATORS

Permits technicians to identify the conductor within a bundle, at a cross-connect point or at the remote end. Can be used on twisted-pair wiring (telecom, datacom, etc.), single conductors, coaxial cables, de-energized AC wiring and most other wiring.

FEATURES / SPECIFICATIONS

- 24" test leads (clips)
- Constant/warble tone
- Continuity testing
- Polarity testing
- Talk battery supply
- Line 1 modular test lead (RJ-11)
- 3-color LED (identifies AC ring voltage)
- Weather resistant design
- Bent nose clips with "bed-of-nails" penetrator (77HP/6A)
- Battery Operated (9V not included)

TOOLS**GREENLEE - TEMPO TOOLS****C200 SERIES INDUCTIVE AMPLIFIERS****Model 200EP / 200FP Tone Probe**

Like our tone generators, Tempo's inductive amplifiers are recognized as "Industry Standards" by field service professionals. Used in conjunction with any of their tone generators, their inductive amplifiers permit wire and cable identification without having to make direct metallic contact with the conductor. Powerful receiver gain permits accurate identification in even the most congested cable bundles and equipment rooms. Includes one each spare duckbill and metal tip.

200EP & 200FP

- Powerful 2" speaker
- One-button Operation
- Adjustable Volume Control
- LED for visual signal strength indication
- Recessed on/off push button control to conserve battery life
- Battery Operated (9V not included)

TOOLS

Pole Wire Pulling Tools

109155

Datapole Telescoping Wire Puller

- Telescoping design fully extends to 14'
- Only 17.5" long when retracted
- Unique tip design will both pull and push the wire & cable
- Glow tip for working in dark areas

The Datapole is a high quality wire pulling/pushing tool designed for the professional installer. Light-weight and compact, easily travels to the job site and allows you to move wire through the smallest access holes quickly and efficiently. Retracts to 17.5" making it easy to go up & down a ladder and reach into tight places. Fiberglass material provides insulation protecting from live circuits and potential shorts. Super light weight & balanced.

109160

Gopher Pole

- Telescopes from 4' to 22' in a matter of seconds
- Easy to handle in tight spots
- No loose parts to fit together
- Can push/pull wires over long spans, in suspended ceilings, sub-floors, crawl spaces, and attics
- Constructed of durable, non-conductive fiberglass
- Sturdy and lightweight
- Highly visible color (white)
- Positive lock system (won't inadvertently collapse)

The Gopher Pole weighs only four (4) pounds and collapses to 52". It is also equipped with a hook/skid tip that is used to tie a wire into and push/pull wire over long spans and ceiling grids. The o-ring on the end cap can also push/pull wire.

The Gopher Pole is a six (6) section tool with the #3 section being the smallest and the #8 section being the base (outside) section. The diameter of the #3 section is 11/16" and the diameter of the #8 base section is 1 5/8"

109156

Telepole Telescoping Wire Puller 20'

- Telescopes to full length in seconds
- Easy to handle in tight spots
- Push or pull wires over long spans, suspended ceilings, crawl spaces & attics
- Works great in factories and warehouses, work a 25' ceiling without a ladder
- Made of non-conductive Fiberglass for safety
- Innovative lever lock system locks sections at any length
- Sturdy, durable, and lightweight at 5 lb.

Fiberfish II Kit

- Non-conductive
- Easy to handle in tight spots
- Rods can be screwed together to make longer lengths for fishing wire in existing walls and attics or across drop ceilings

Fiberfish Four Pack with Pouch

- 4 - 3' fiberglass rods
- 1 removable pulling tip
- 1 fish hook
- Packed in a handy vinyl pouch.

Instructions for use printed on the back of the pouch. Perfect for small install jobs or beginners. Portable and convenient for professionals.

Glowfish

The same quality construction and durability you've come to expect from the Fiberfish in a new Glow in the Dark version! These rods actually glow, unlike some competitors, whose rods need an outside light source to "glo". The clear carry case means the rods are always "charged" and ready to go.

Fish Hook Tip

Use to retrieve or snag wire & cable

Pull Ring Tip

Used to attach multiple wires for larger pulls.

Wisp Head Tip

Use over suspended ceilings, won't catch on T-bars.

Replacement Tips

Tips for the end of the 3' and 6' FiberFish II rods

Magnet Head

Magnetic pick-up tool

Wire Carrying Tools

Folding Reel Holder

The Cable Reel Holder takes the hassle out of installing bulk cable. Pull cable conveniently and safely from a sturdy lightweight frame. Handles multiple spools on the 26" wide crossbar. 14" clearance from floor to crossbar. When not in use, the Cable Reel Holder folds flat for easy storage.

Cable Caddy

Folding Reel Holder

Increases ease and efficiency of installing cables.

- Holds up to 1000' cable reels
- Lightweight, Durable Steel Construction
- Folds neatly for storage and transport
- 20" (W) x 12" (H) x 18 1/2" (D)

Clear Lube

- Designed for use within electrical or datacom cable pulls.
- Clear and colorless for quick, easy clean-up.
- Excellent lubricity for fast pulls (.27-.29 COF).
- Environmentally safe, non-hazardous, non-toxic and non-corrosive.
- Easy to apply either by hand, brush or pump.
- Temperature Range Remains stable over a wide range of temperatures, 20° F to 190° F (-6° C to 88° C)
- Polymer base with no silicon additives.
- Average coefficient of friction (IEEE, 375-2 test procedure), .27 in PVC and .29 in EMT.
- Three-year shelf life with no deterioration in lubricant.

Cable-Gel™ Cable Pulling Lubricant

- Polymer based lubricant offers lower friction and easier pulling
- Compatible with all cable insulation types
- Higher lubricity than competitive products
- Will not cement itself to the pipe
- Will not breakdown or separate after exposure to heat or cold.
- Environmentally safe/non-hazardous.
- Easy to apply either by hand, brush or pump.
- Cleans up quickly
- Non-staining
- Dries slowly
- Viscosity: 8,000 - 12,000 CPS PH
- PH Range: 7.0 - 8.0

TOP HAT FOR 8" SPEAKER COMBINATIONS

The stackable top hat is heavy gauge steel constructed, which protects rear side of speakers from dirt, debris, or other disturbances. It can be used for a back box in ceilings and walls. It has an undercoating that eliminates any mechanical or acoustical resonance caused by vibration. It has rust preventative finish four combination knockouts. It includes 4 J-clips for screw mounting of baffles and perforated mounting straps for 8 inch speaker combinations.

246648

CEILING SUPPORT FOR 8" SPEAKER

23 3/4" x 14 3/8"

The Speco Technologies TS8 is a steel, rust-resistant load bearing support for a loudspeaker assembly, specifically the Speco Technologies G86 series of speakers and the optional STH8 backcan, or other products of similar dimensions. The TS8 is intended to be used parallel to the floor plane in a suspended ceiling structure.

246698

6" WEATHERPROOF AMPLIFIED PA SPEAKER 20 WATT WITH BRACKET, W/O TRANSFORMER

- Dimensions: 6" (Dia) x 6" (L)
- Frequency Response: 500-5,000 Hz.
- Input Impedance: 3 - 16 ohm
- Max Power: 20 Watts
- Speaker Impedance: 8 ohm
- Supply Voltage: 10 - 16V DC required

3/8" RECESSED CONTACTS

• CLOSED LOOP

STB-10 (244010)

- GAP .7"
- Contact 3/8" x 3/4"
- Magnet 3/8" x 3/4"

The "Stubby" recess is ideal for those who do not need to spend extra money on the Mini Recess.

STB-10 DM (244011)

- GAP 1/2"
- Contact: 3/8" x 3/4"
- Magnet: 3/8" x 1/8"

Ideal for tight fitting window frames where you can not drill a hole for magnet. Convex hole on magnet fits flat head screws flush!

MINI-10 (244020)

- GAP 1/2"
- Contact 3/8" x 9/16"
- Magnet 3/8" x 9/16"

Shorter than all stubby contacts. Ideal for tight fit windows, thin door frames & excellent for security screens.

3/4" RECESSED CONTACTS • CLOSED LOOP

SD-70 (244080)

- GAP 1/2"
- Contact 3/4"x.84"
- Magnet 3/4"x.84"
- Steel Door

Stubby Style - Rugged one piece construction. For standard and tighter fitting applications. Long leads bent to keep solder off the glass of the reed. Two Solder points on 22 AWG 7 stranded UL Wire

Tane - 3/4 TC (244082)

- GAP 1"
- Contact 3/4" x .85"
- Magnet 3/4" x .85"
- Steel Door

For fast and easy installations. No soldering needed.

PB52 (244070)

PB52TC (244071)

- Contact 3/4"
- Magnet 3/4"

PB-52 contact 3/4" x 1.34", 18" leads
PB-52 TC contact 3/4" x 1.34, terminal Connects. Ideal for replacing old mechanical contact, good for door jambs

SURFACE MOUNT CONTACTS

POWER OVER ETHERNET

UNIVERSAL MIDSPAN POE SPLITTER

This may be the only POE Splitter model you ever need!

Just flip the switch to select usage with 802.3af standard power input device or with a non-standard device. Then choose the voltage you need for your camera or access point. It's simple, it's easy, it's inexpensive.

FEATURES / SPECIFICATIONS

- 802.3af compliant mode selection for use with all compliant auto sensing power source devices. (POE embedded switches - POE Injectors etc.)
- Select Non-Standard mode for use with non standard power input devices.
- Input voltage (48V, 802.3af compliant) - (18V to 55V noncompliant.)
- Switchable voltage choose 12V / 1 Amp, 9V / 1.2 Amp or 5V / 1.5 Amp
- Includes Cat 5E patch cable and 2.5mm x 5.5mm DC power Cable

259010

POE POWER INJECTOR 802.3af COMPLIANT

- 802.3af Compliant power supply equipment (PSE)
- Injects 48V, 16W DC Power
- Auto sensing power cutoff on open ports or non 802.3af end devices
- Built-in 110V AC to DC power supply connector with over current & over voltage protection

NOTE: 802.3af standard compliant power input devices will not supply power to non standard power splitters.

259030

NON 802.3af COMPLIANT POWER INJECTOR

- Injects 24V DC into Ethernet Cable
- Use with 259010 Universal Splitter in non standard mode to provide 12V/1A, 9V/1.2A or 5V/1.5A
- Includes Built-in 110V-AC to 24V - DC power supply converter with over current and over voltage protection

259035

POE INJECTOR SPLITTER KIT

Everything you need to economically supply DC power to remote access points, cameras or any other DC powered device when power outlets are not available.

- Non 802.3af compliant 24 volt DC injector output with output choice per model DC 5V, 9V or 12V.
- Includes - Switching power supply with cord, power injection module, power splitter module, power jumper cord (2.5mm x 5.5mm plug) CAT5e patch cord.
- Both modules are wall mountable.

CCTV TESTER

Main Features:

- Test Video - The video signal and quality can be tested
- PTZ Controls - has basic operating test of PTZ products.

Functions include pan/tilt, zoom, present setting and operation, speed adjustment.

Communication via RS-232, RS-422 simplex and RS485 port.

RS485 protocol includes: Pelco D and P, Samsung, Panasonic, Molyx.

- UTP Cable testing: Can detect shorts and display on screen.
- Video Signal Generating: Can output green, white, black and blue screens to test monitors or DVR's.
- RS485 Data Test: Test data sent from controlling device by displaying hexadecimal data content on the screen.

Tester Kit Includes:
CCTV Tester
3.6 Battery
UTP Cable Tester
Power Adapter
RS485 Connector
BNC Connect Cable

AUDIO / VIDEO ACCESSORIES

HDMI ACCESSORIES

HDMI REPEATER - EXTENDER

301010

- Self-power active circuitry for fast & easy installations
- HDCP compliant
- Supports HD video up to 1080p
- HDMI amplifier bandwidth : 1.65GHz
- Input video signal: 1.2V p-p
- HDMI input/output connector: Type A 19-pin
- Input DDC signal: 5V p-p (TTL)
- Power supply External 5V DC (sold separately part #249444)

Extend HDMI, 50 Ft. w/o External Power
Extend HDMI, 140 Ft. with External Power

HDMI EXTENDERS OVER CAT5e/6

301024 - Up to 100'
301026 - Up to 180'

- Resolution: 480i to 1080p
- HDCP compliant
- Video color format: Deep color 36 bit
- Audio format: LPCM. Dolby-AC3/DTS7.1/DSD
- Data transfer speed: 10.2 Gbps
- Auto adjustment
- Use 2 Cat.5e or Cat.6 cable (not included)
- HDMI output cable length: max 15m (45ft.)
- Optional power supply included
- 301024 - Up to 100'
- 301026 - Up to 180'

HDMI SWITCH / SELECTOR

301035 - 3 Port
301037 - 5 Port

- Built-in amplifier
- HDCP compliant
- Supports deep color 36bit and signal retiming
- Manual or remote selection (remote control included)
- Power: DC5V (power supply included)
- Metal case
- HDMI cables not included
- 3 in, 1 out (301035)
- 5 in, 1 out (301037)

HDMI SPLITTERS

301040 - 2 PORT
301042 - 4 PORT

- Resolution: 480i to 1080p
- Video color format: 24bit/36bit
- Audio format: LPCM. Dolby-AC3/DTS7.1/DSD
- Data transfer speed: 10.2 Gbps
- Input video signal: 5.0 V P-P
- Full HD chain: 1080p cascade above 8 layers
- Power: DC5V included
- HDMI cables not included
- 1 in, 2 out (301040) • 1 in, 4 out (301042)

HDMI MATRIX SWITCH - 4 X 2

301050

- Support HDMI 1.3b
- HDCP Compliant
- Supports Resolutions up to 1080p
- 4 input, 2 output
- The 2 HDMI output ports can be from the same or different sources
- Manual or remote select source input signal to different sink
- HDMI Repeater with Equalizer
- Remote Control included
- DC 5V power supply included

HDMI CONVERTER (VGA & STEREO TO HDMI)

301075

- HDCP compliant
- HDMI 1.3 compliant
- Max single link range: 1600 x 1200, 1080P
- DTV /HDTV up to 1600 x 1200, 60Hz up to 1080P
- Operating frequency: up to 165MHz
- Video Amplifier Bandwidth: 1.65Gbps/165MHz
- Resolutions (HDTV): 480i to 1080p
- Installs in seconds, no need of setting

HDMI CONVERTER

(Component Video/RGB & Digital Audio to HDMI)

Allows you to convert YPBPR HDTV sources to an HDMI display
 Encodes digital audio onto the video signal for HDMI video and audio

301076

- Supports HDTV / YPBPR
- Supports HDTV and resolutions up to 1080p
- HDMI & HDCP compliant
- Input: YPbPr + SPDIF Digital Audio (RCA Coax)
- Output: HDMI
- HDMI Amplifier Bandwidth: 1.65Gbps/165MHz
- Power Supply: 5V DC included

HDMI TO VGA / COMPONENT CONVERTER & SWITCH

This device accepts both digital RGB and Component (YCBCr) video over HDMI. With this converter & switch you can hook up two HDMI devices (bluray, PS3, Xbox 360, etc.) and convert them to either a VGA or Component signal and display them on your TV or Projector that doesn't have an HDMI connection. You won't miss out on the high quality digital sound either as this unit also comes equipped with a digital audio output. You can switch back and forth between HDMI devices with a simple push of a button.

301080

- INPUTS: Two HDMI 1.3 Ports
- OUTPUTS: VGA (unit comes with a VGA to Component Cable), 3.5mm (suitable for stereo or digital fiber optic mini toslink audio)
- User can choose RGBHV or Component (YpbPr/ YCbCr) output with a switch
- Compatible with both Non HDCP and HDCP devices
- Connects to a display's VGA or Component Input.

REPLACEMENT POWER SUPPLIES: 5v (3.5 or 5.5mm)

249444 - 3.5mm
249445 - 5.5mm

249444

- Input: 100-240V - 50/60Hz
- Output: DC 5V (1A)
- Connector (Diameter): 3.5mm (outside) x 1.35mm (inside)

249445

- Input: 100-240V - 50/60Hz
- Output: DC 5.6V 2000mA (2A)
- Connector (Diameter): 5.5mm (outside) x 2.1mm (inside)

AUDIO / VIDEO ACCESSORIES

VGA ACCESSORIES

VGA EXTENDER OVER CAT5e/6

The VGA Extender allows VGA video signals to be transmitted up to 980 Ft.

302013

- Extend VGA video and stereo signal up to 300m (980ft) over one UTP cat5e/6
- Adjust GAIN and PEAK to adapt for the different length of UTP cable (Phillips Screwdriver Required):
GAIN: Brightness Adjustment
PEAK: Skew Adjustment
- Supports Resolutions from 640x480 up to 1920x1200
- Dual output at local unit: 1 x VGA output for local site, plus 1 x UTP output for remote site
- Works with monitors, projectors, HDTVs, etc.
- Input: VGA (female), Stereo Audio
- Output: VGA (female), Stereo Audio, RJ45

• Package Contains: (1) Sender, (2) Receiver, (2) 5V DC Power Supply, (1) User's Manual

VGA SPLITTERS: 2, 4, or 8 Port Available

302019 - 2 PORT

302020 - 4 PORT

302022 - 8 PORT

- Supports 450 MHz video (-3dB) bandwidth
- Enhances video signals for distance up to 65M
- The video splitter can be daisy chain
- All metal casing
- Supports 2048 x 1536 at 60Hz
- Ideal for video broadcasting: remote monitoring, presentations, educational facilities.
- The video splitter has locking connector for cables. Allows one computer to provide simultaneous display
- 1 in, 2 out (302019)
- 1 in, 4 out (302020)
- 1 in, 8 out (302022)

VGA CONVERTER (BNC to VGA)

302025

- Convert BNC Video Output to VGA Display Monitor
- Up to 1280x1024 Res.
- Power Adapter Included

FLAT SCREEN CLEANING WIPES

109220

- Suited for use on LCD or Plasma TVs, phones, keyboards, MP3 players, etc.
- Contains anti-static liquid which also disinfects the surface
- Easy-to-use dispenser prevents them from drying
- 100 sheets / Can
- Sheet Size: 5.5" x 7"

VOLUME CONTROLS

ROTARY VOLUME CONTROL

301513

- Removable right angle solderless speaker terminals (Accepts up to 14 AWG wire)
- Impedance Matching
- 100 watts maximum peak power
- 60 watts continuous power
- 11-position
- 39 dB attenuation
- 1x, 2x, 4x and 8x settings
- Non-shorting design utilizes a "make before break" switch which protects your amplifier from receiving a damaging dead-short
- Screws, color coded knob, included
- Decora cover plate included
- Color: White or Ivory available

WEATHER PROOF VOLUME CONTROL

301515

- Weather-resistant box for outdoor use
- Removable right angle solderless speaker terminals (Accepts up to 14 AWG wire)
- Impedance Matching
- 100 watts maximum peak power
- 60 watts continuous power
- 11-position
- 39 dB attenuation
- 1x, 2x, 4x and 8x settings
- Non-shorting design utilizes a "make before break" switch which protects your amplifier from receiving a damaging dead-short
- Screws, color coded knob, included
- Decora cover plate included
- Color: White

SLIDING VOLUME CONTROL

301514

- Impedance Matching
- 100 watts maximum peak power
- 50 watts continuous power
- 11-position
- 39 dB attenuation
- 1x, 2x, 4x and 8x settings
- Removable right angle solderless speaker terminals
- Non-shorting design utilizes a "make before break" switch which protects your amplifier from receiving a damaging dead-short
- Decora cover plate included
- Color: White or Ivory available

IN-WALL VOLUME CONTROL WITH IR RECEIVER

Features:

- Stylish design; white color
- Dual color LED. Green for system status and blue for talk back
- Mounts easily in any J-box or P-ring
- Rotary type control of volume level and speaker on/off
- Impedance matching
- Receives IR from many types of remotes
- Large detachable speaker connections

Specifications

- Volume Control Component
- Power Handling (/ch): 300 watts max; 1-- watts RMS continuous
- Input Impedance: Config. to 1x, 2x, 4x or 8x impedance matching
- Quick Connect Terminals: Accepts up to 12-gauge wire
- Attenuation: 12 steps including off; total attenuation 54 dB
- Frequency Response: 20 Hz ~ 20 kHz, +/- 2 dB at rated power
- Mounting: fits most single-gang junction boxes
- Dimensions: 70W x 114H x 103D (mm)
- Weight: 475g (including infrared component)

Infrared Component

- Receiver Frequency: 34 kHz to 40 kHz
- Transmit Frequency: 38 kHz
- Range: On-Axis: 50 ft. 30 degree Off-Axis: 40 ft.
- Main Power: 12VDC, 30mA max.
- Status Power: 12VDC, 3mA max.
- Wire Requirements: 2 twisted pairs, with or without shield

INFRARED REMOTE CONTROL

INFRARED REMOTE CONTROL KITS

301500 Kit Includes:
 1 - IR Connecting Block - 301501
 1 - Single IR Emitter - 301502
 1 - Double IR Emitter - 301503
 1 - IR In-Wall Receiver - 301504
 2 - Power Adapters

Features

- Six emitter output connections
- Convenient IR confirmation LED
- Status power receptacle w/ LED indicator
- Power receptacle with LED indicator
- 3 conductor 1/8" receptacle to interface w/ different brands of freestanding IR receivers
- Large detachable IR receiver connection
- Compact size for mounting near audio equipment
- Includes AC adapter

In-Wall IR Receiver (301501) Specifications

Features

- Stylish design
- Dual color LED lights. Green for system status and blue for talk back
- Ultra thin design. Mounts easily in any J-box or P-ring
- Receives IR from many types of remotes

Single IR Emitter (301502) Specifications

- Cable Length: 10 feet
- Connect plug: 3.5mm Mono mini-plug
- Connections: Tip-Signal, Ring- Gnd
- Wavelength: 940nm

Double IR Emitter (301503) Specifications

- Cable Length: 10 feet
- Connect plug: 2 x 3.5mm Mono mini-plug
- Connections: Tip-Signal, Ring- Gnd

IN-WALL VOLUME CONTROL WITH IR RECEIVER

301507

Features:

- Stylish design; white color
- Dual color LED. Green for system status and blue for talk back
- Mounts easily in any J-box or P-ring
- Rotary type control of volume level and speaker on/off
- Impedance matching
- Receives IR from many types of remotes
- Large detachable speaker connections

Specifications

- Volume Control Component
- Power Handling (/ch): 300 watts max; 1-- watts RMS continuous
- Input Impedance: Config. to 1x, 2x, 4x or 8x impedance matching
- Quick Connect Terminals: Accepts up to 12-gauge wire
- Attenuation: 12 steps including off; total attenuation 54 dB
- Frequency Response: 20 Hz ~ 20 kHz, +/- 2 dB at rated power
- Mounting: fits most single-gang junction boxes
- Dimensions: 70W x 114H x 103D (mm)

TELEDATA EXPRESS

Communication, Networking, Security and Home Theatre Components

● PERSONAL SERVICE

There is no voice mail run-around at Teledata Express. Every call is answered by a real live friendly person whose only goal is to make you a satisfied customer.

● OUTSTANDING PRODUCTS

Every product is manufactured to the highest level to meet or exceed applicable standards. Most products are independently verified and certified for both performance and safety.

● SAME DAY SHIPPING

Right Now! Most items are in stock for same day shipping. Orders received by 3 p.m. CST are shipped the same day.

● UNMATCHED FILL RATE

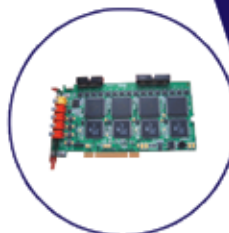

Not only do we ship same day - on the average we will ship 99% of everything you order the same day. Match That!

● DELIVERY TO YOUR DOOR

Why waste time and money running all over town when our price includes delivery to your door? There is no guessing about what your final total cost will be.

● COMPETITIVE PRICES

Some suppliers offer great low prices but their products are inferior, others offer low price then gouge you with freight charges. No one matches our quality and our low prices.
