This User's Guide contains important instructions regarding the installation of **Juzt-Reboot® SW Lite™** Software. Please read it completely before attempting to install the software.

DISCLAIMER FOR JUZT-REBOOT® PRODUCTS

To ensure completely trouble free installation as well as efficient post installation operation of Juzt-Reboot®, it is most important that installation instructions as detailed herein be strictly followed. Failure to comply may result in loss or corruption of your data.

Although successfully tested on a wide variety of computer systems, the manufacturer assumes no liability and therefore shall in no event be held liable for any direct or consequential damages or loss arising from the purchase and/or use of this product. By purchasing and using this product, you are agreeing to all these conditions.

WARRANTY

In the event of hard disk failure, or change of the hard disk, you may obtain an alternative registration code for a nominal fee.

TRADEMARK NOTICE

Windows is a trademark of Microsoft Corporation. All other product names mentioned are trademarks and service marks of their respective owners.

USER'S GUIDE INFORMATION

The information presented in this User's Guide has been carefully checked for accuracy. However, no responsibility is assumed for any error or omission. Neither is any liability assumed for damages or losses that may result from the use of information contained herein.

Additionally, this User's Guide and all product specifications herein may also be revised from time to time and subject to change without notice.

COMPATIBILITY

Juzt-Reboot® has extensively been tested and successfully used on a wide variety of personal computer systems. However, we do not preclude any possibility of product incompatibility problems arising from the use of Juzt-Reboot® Software.

Should you encounter any problem, kindly contact us on our Internet Website at <http://www.juzt-reboot.com> or e-mail us directly at support@juzt-reboot.com to notify the problem.

1. System Requirements

1.1. Hardware:

- Pentium II and above IBM compatible PC.
- Minimum 500 MB of contiguous free hard disk space
- 64MB of Memory
- CD-ROM
- Color monitor

1.2. Pre-Installed Operating System Support:

- Windows 2000
- Windows XP
- Windows 2003 (supported for Workstation use only)

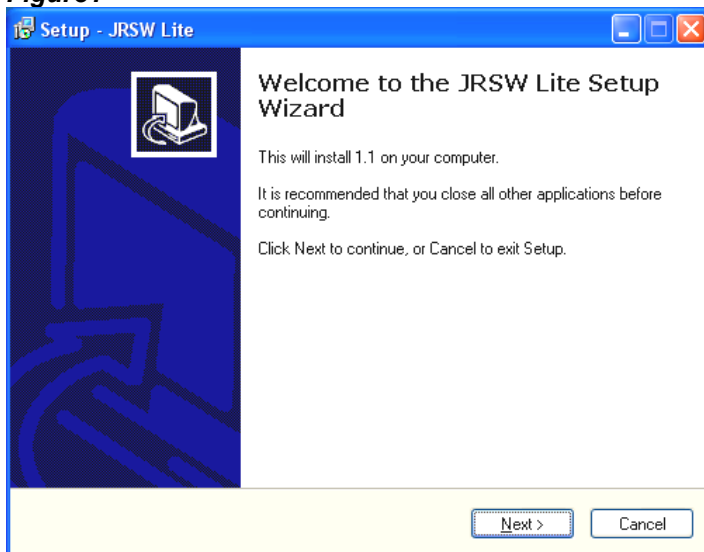

1.3. Before Installation:

- Before installing, please run the SCANDISK and DISK DEFRAGMENTER utilities provided by Windows for best performance. Also disable any anti-virus programs to avoid any possible conflicts.
- If you have once installed a similar System Restore product, either hardware or software, please remove it and all the drivers supplied with it before installing Juzt-Reboot®.
- Before installing new software, or executing backup function, please always make sure it is virus free.
- For more information about our products, please visit our website. <http://www.juzt-reboot.com>

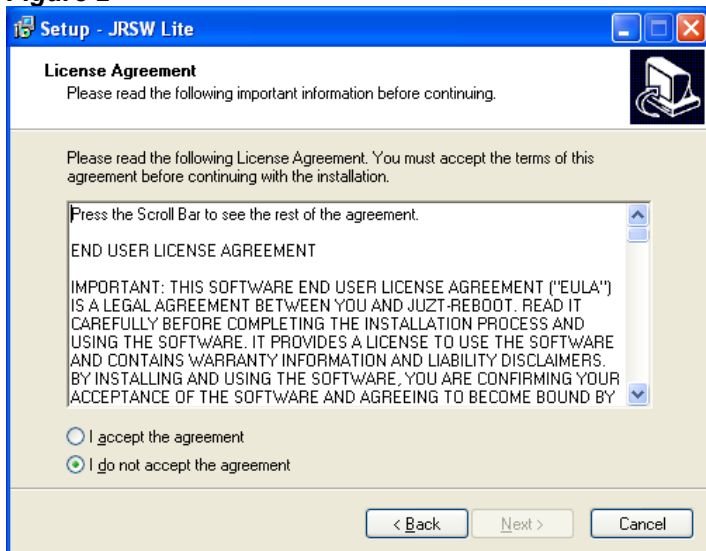

2. Installation

- 2.1. Start Windows. After running scandisk and Windows defrag utility, please insert the Juzt-Reboot® installation CD into the computer's CD-ROM drive, the Setup Wizard should start up. (If Autorun is not enabled, select **Run** from the Start Menu on the Taskbar. Next, type **E:\Setup.exe**, where E: is the designation of the CD-ROM drive). Welcome message of Juzt-Reboot® Setup Wizard will then display. Click on "**Next**" to continue. (Fig.1)

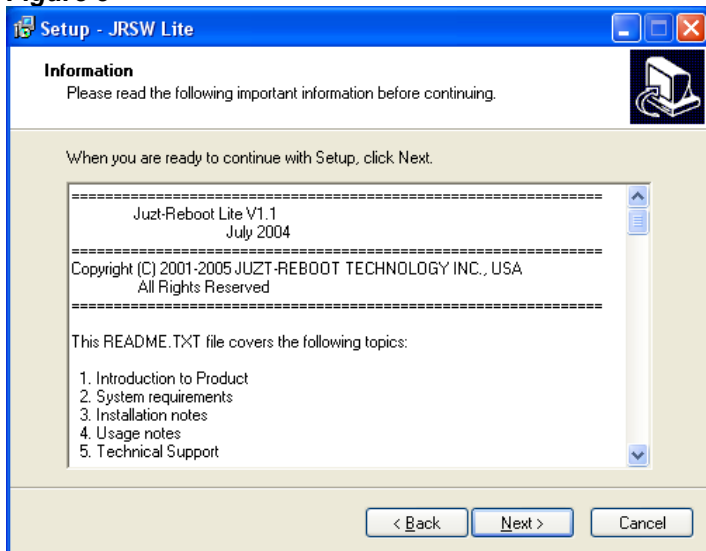

Figure1

- 2.2. Next the License Agreement will show up, please read it carefully. If you agree with the terms of the license, click on "**I accept the agreement**" and click on "**Next**" to continue, or click "**Back**" to return to the previous screen, or "**Cancel**" to exit the installation. (Fig. 2)

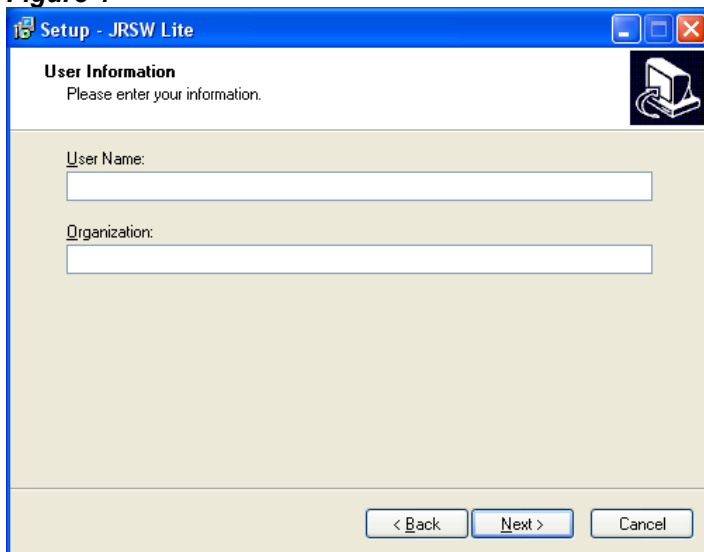

Figure 2

2.3. Next the **README** file will be displayed. Please read it carefully, and click on **"Next"** to continue. (Fig. 3)

Figure 3

- 2.4. Enter the **User Name** and **Organization** information, and click on “**Next**” to continue. (Fig. 4)

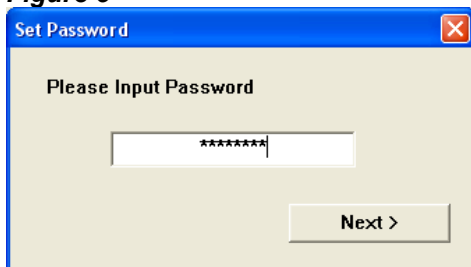

Figure 4

- 2.5. Next, the Set Password screen will show up. Please key in the preferred password and click on “Next” to continue. (Fig. 5)
The setting of a password is to ensure access security of Juzt-Reboot® from unauthorized changes. The password can be 10 characters long and may consist of any combination of alphanumeric characters.

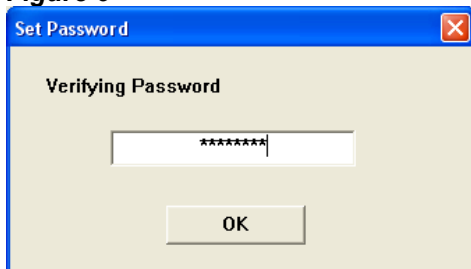

Note: Please keep a copy of your password in a safe place and do not lose or forget it.

Figure 5

- 2.6. Please key in the password again to confirm the setup. Click on “OK” to continue. (Fig. 6)

Figure 6

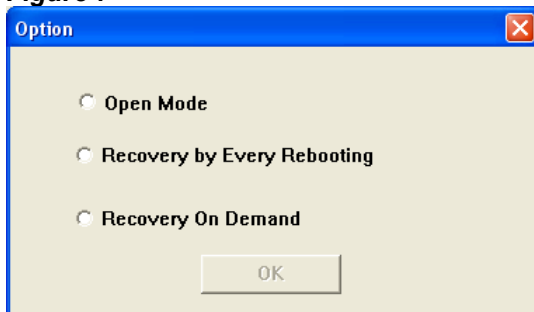

- 2.7. Next, the **Option** menu appears as shown in the following page (Fig 4). Select a Mode type and click on “OK”. The recovery options can be setup during installation, and can also be accessed anytime by right clicking the Juzt-Reboot® icon on the Windows Taskbar.

Open Mode: Open Mode is non-protection mode. It allows full Read/Write access on the hard drive. Select this mode when you would like to install new application program or when you would like to uninstall Juzt-Reboot® from the system. Changes will be permanently saved under this mode.

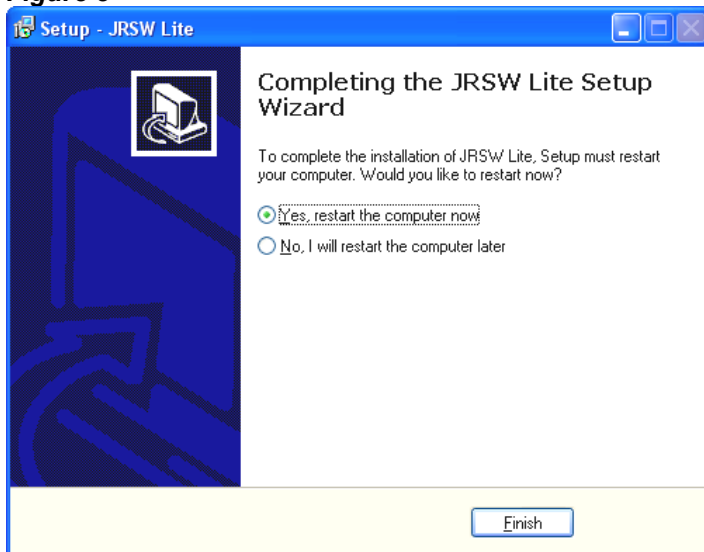

Recovery by Every Rebooting: This mode is protection mode. The system will be instantly restored to its original state or last backup state on every reboot.

Recovery On Demand: When this mode is selected, every access writes to the hard disk will be kept temporarily. The system will be restored to its original status when the “**Restore**” function is selected in by right-clicking the Juzt-Reboot® icon on the Windows taskbar. The changes will be saved permanently when the “**Backup**” function is selected by right-clicking the Juzt-Reboot® icon on the Windows taskbar.

Click on “OK” to continue after a selection has been made.

Figure 7

- 2.8. When prompted if you want to restart your PC, click on “**Yes**” to finish the installation and restart your computer to activate the program. You can also click on “**No**” to restart later. (Fig.8)

Figure 8

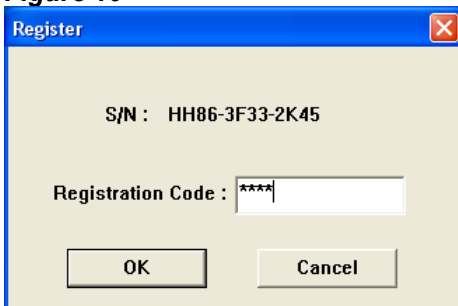

- 2.9. After a restart, a **30-day Trail** window (Fig 9) will pop up, click on “**Yes**” to Register now (will require that you have already obtained the **Registration Code** beforehand), or on “**No**” to try the software for 30 days.

Figure 9

- 2.10. After a restart, a **30-day Trail** window (Fig 9) will pop up, click on **“Yes”** to Register now (will require that you have already obtained the **Registration Code** beforehand), or on **“No”** to try the software for 30 days.

When you click on **“Yes”**, the **“Register”** window will pop up. Enter the **Registration Code** to register the product (Fig. 10).

To obtain a registration code, please write down the displayed serial number and e-mail to the distributor or dealer in your region. If you do not have the contact information, you can request for it by sending your request to support@Juzt-Reboot.com.

3. System Tray Notification

Juzt-Reboot® uses three different colored icons to represent its Restore mode.

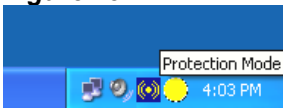

Move the mouse to the Juzt-Reboot® icon and the protection status will be displayed. (Fig. 12)

Figure 12

When Juzt-Reboot® icon is Red, it is in Open mode. Move the mouse to Juzt-Reboot® icon; you will see the Mode status. (Fig. 12)

Figure 13

When Juzt-Reboot® icon is Yellow, it is in Protection mode. Move the mouse to Juzt-Reboot® icon; you will see the Mode status. (Fig. 13)

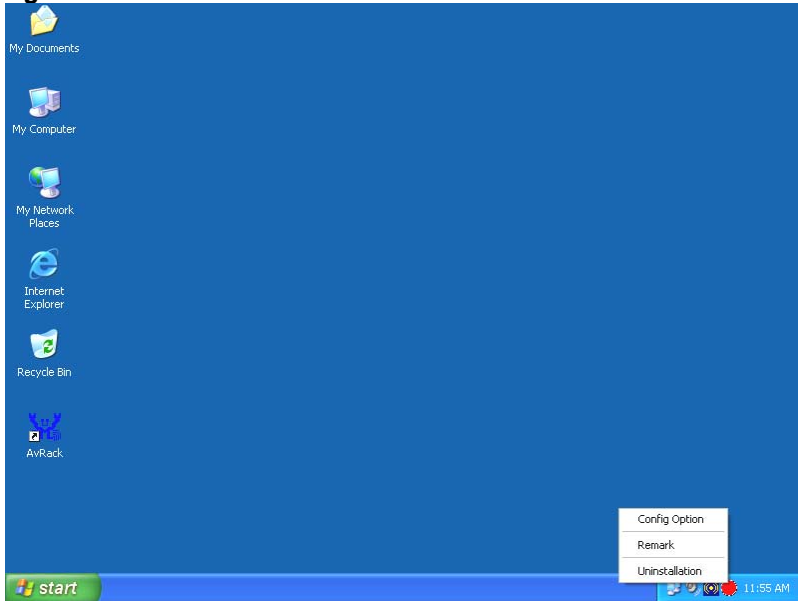

Figure 14

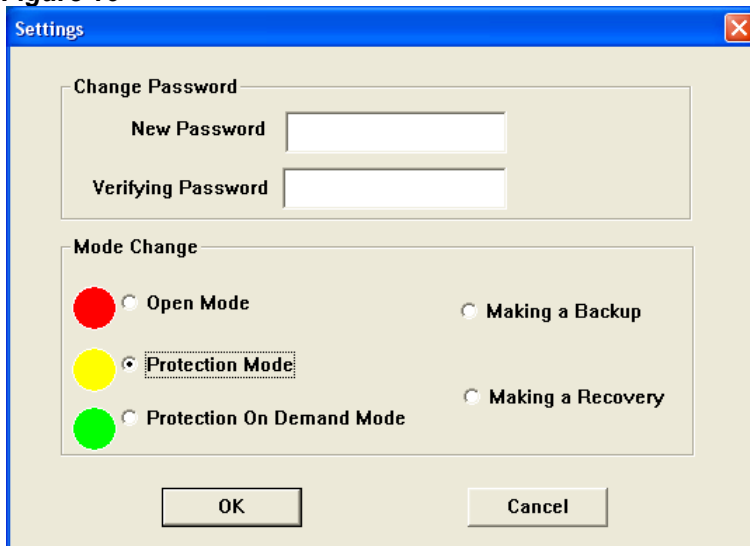

When Juzt-Reboot® icon is Green, it is in Protection on Demand mode. Move the mouse to Juzt-Reboot® icon; you will see the Mode status. (Fig. 14)

4. Option Menu

Options can be accessed anytime by right clicking the Juzt-Reboot® icon on the Windows Taskbar. (Fig. 15)

Figure 15

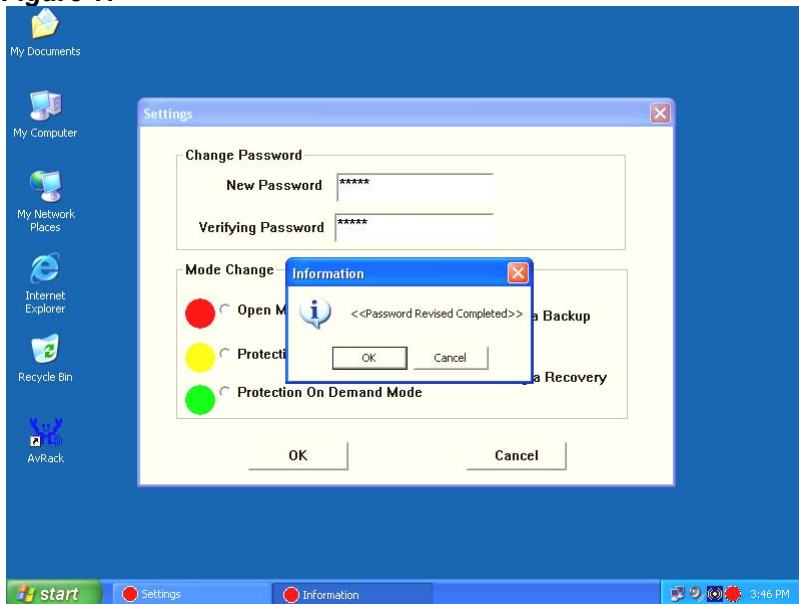

Click on **Config Option** and enter password in the dialog box that displays, then click on **OK**. The **Settings** menu appears as shown in the following figure (Fig. 16). All the settings in this menu go into effect after saving. Some settings activate only after the computer restarts. The **Settings** menu allows Password and Mode change. Backup and Recovery features can also be accessed in this dialog box.

Figure 16

4.1. Change Password

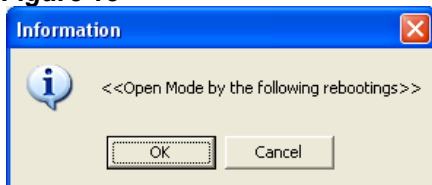

Password can be changed through this option menu. Passwords can be a maximum of 10 characters. (Fig. 17)

Note: The setting of a password is to ensure access security of Juzt-Reboot® from unauthorized changes. Password can be used for all functions of Juzt-Reboot®. Please remember to write the password down and never lose it or you will need to reinstall everything!

Figure 17

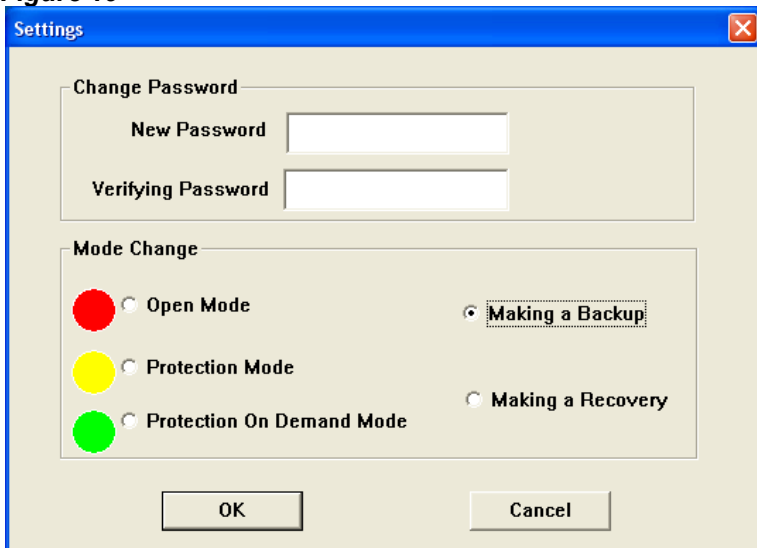

4.2. Change Mode

Mode can be changed through this option menu. Mode will be changed on the next system startup.

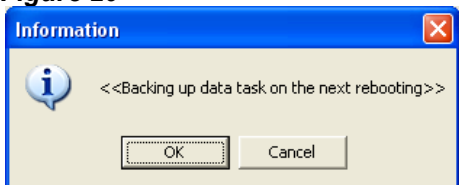

Figure 18

4.3. Making a Backup

Mode can be changed through this option menu. Mode will be changed on the next system startup.

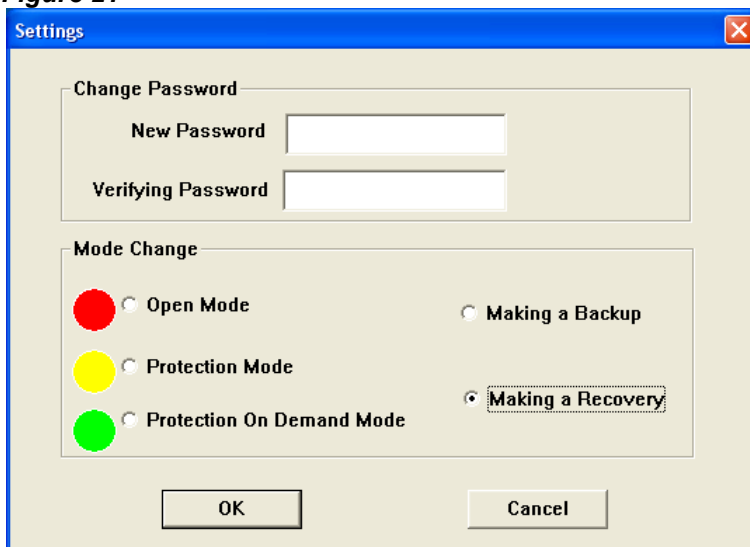

Figure 19

Backup task will be processed on the next system startup.

Figure 20

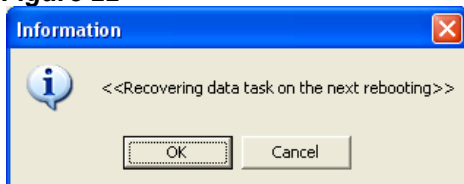

4.4. Making a Recovery

Figure 21

Recovery task will be done on the next system startup.

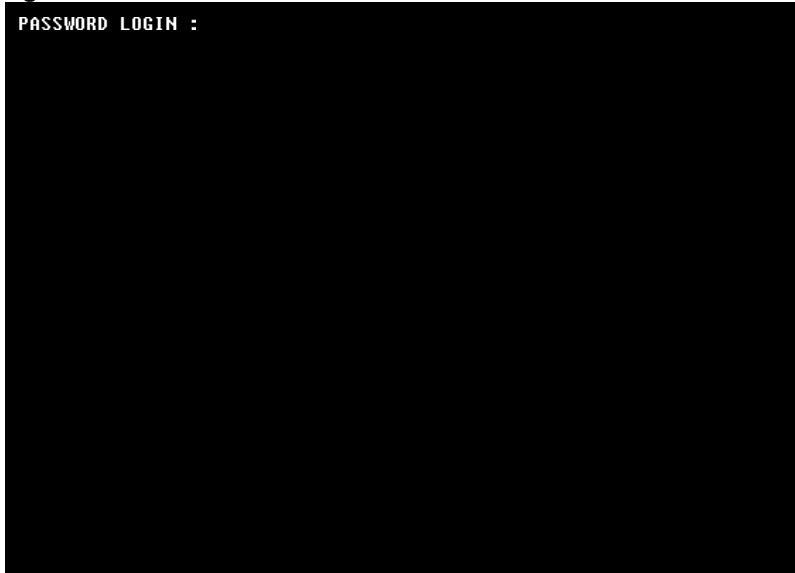

Figure 22

5. Hotkey

Hold down the **ALT** + **HOME** keys when booting. System will request for the password to login. (Fig. 23)

Pressing **CTRL** + **R** will do the system restoration. The function is typically used when Windows is no longer accessible.

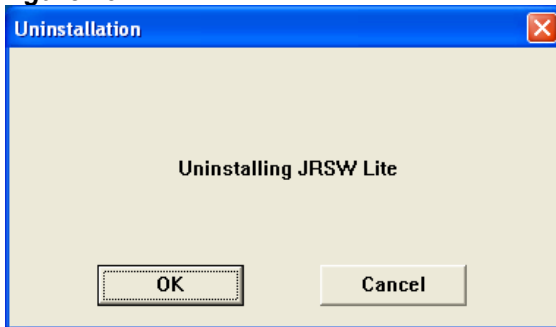

Figure 23**Figure 24**

6. Uninstall

To uninstall Juzt-Reboot® from your computer will not cause any damages on your hard disk data. All data and partitions will be restored to their original state when Juzt-Reboot® was installed or when data was last backed-up.

- 6.1. Right-click on the Juzt-Reboot® icon and select "**Config Options**". Enter the password when prompted.
- 6.2. Click on "**Open Mode**". Then click on the "**OK**" button.
- 6.3. After rebooting back to Windows, the Juzt-Reboot® icon is now red in color.
- 6.4. Right-click on the Juzt-Reboot® icon, and select "**Uninstallation**".
- 6.5. You will be prompted whether you are sure of the uninstall. Click on "**OK**" to confirm. It will then prompt for a reboot.
- 6.6. After rebooting, the Juzt-Reboot® SW Lite™ program will be completely removed.
