MEDICAM & IKYT ... at a glance:

At MEDICAM, we strive to delight our customers by anticipating their needs and providing them with powerful integrated technology solutions. These solutions will be robust, high-quality and early to market.

Corporate Philosophy

At MEDICAM, we believe that common understanding, excellent communication, forward thinking, and a clear mission are the cornerstones of a successful company. In support of this foundation, we've articulated a Corporate Mission Statement, our Corporate Values, Philosophy of Responsibility, and our Corporate Objectives.

Corporate Mission Statement

We will delight our customers by anticipating their needs and providing them with powerful integrated technology solutions. These solutions will be robust, high-quality, and early to market. We will manage our business to standards and with processes that increase shareholder value, enabling the cycle of reinvestment and growth. We will create an exciting and stimulating work environment where our employees can have access to multiple opportunities for growth and development. We will provide meaningful and challenging assignments and rewards that reflect our mutual success.

Corporate Values

We believe that by participating in quality-oriented, performance-driven partnerships, the people associated with MEDICAM will realize individual, collective, and corporate goals.

We believe in establishing and maintaining strong working partnerships with our customers. The understanding gained through these relationships will provide innovative solutions to changing needs, ensure added value, and contribute to our mutual success.

We believe that profit is a measure of our success in efficiently meeting our customers' needs. Profit is essential for MEDICAM existence and growth, allowing us to invest in people, research, design and technology and to pursue new business opportunities.

Philosophy of Responsibility

Each employee is responsible for his or her own process, independent of other's processes. Each employee is responsible for communicating the need for improvement in the quality of his or her process inputs. Each employee is responsible for satisfying his or her customers' requirements.

Corporate Objectives

Employee Development: We provide coaching, mentoring, and career planning for all full-time continuous employees. We provide the leadership, development opportunities, psychological environment, and physical environment necessary for each employee to grow personally and professionally.

Improved Quality: We will anticipate, understand, and deliver products and services that meet our customer requirements and expectations.

Customer Satisfaction: We will improve the level of satisfaction for our external customers at all levels of interface within MEDICAM.

Process Improvement: We will define, improve, and measure our processes to add value to our customers, increase profit for MEDICAM, and meet industry requirements. As an outcome of this corporate objective, we will reduce the cycle time, increase the efficiency, and improve the productivity of each process

MEDICAM ALSO OFFERS THE OPPORTUNITY TO BECOME A DISTRIBUTOR OF LASER EQUIPMENTS IN MOST LARGE CITIES **WORLDWIDE**

Since 2001 the company has kept its front-runner position in the Laser hair removal and skin treatment field. To satisfy the growing needs of the world market, the company went through a fast, dynamic growth.

In 2004 and 2005, following the constant request from its customers for a professional line of products, MEDICAM decided to create its own Research center by developing and improving the laser technology. Today, Medicam can provide its distributors and customers with very high level of quality standards, very powerful laser systems: diodes, yag, IPL, CO2, Q-Switch lasers. Medicam is a Canadian company and IKYT is an American Company. The diodes that we use are from the USA, IPL lights are from Japan and Germany, Electronic boards are from Asia, Canada and USA, Casing designed in Canada and manufactured in Shanghai in our factory to lower the costs. All electronic boards are insulated and protected individually with a metal grill, the diode modules are internally cooled since the box in which each module is, has an internal and integrated cooling device so that the laser hand piece does not overheat. All IPL have a color touch screen and diode lasers have either a LED screen or a color touch screen for precision and high performance.

MD50 MD-100

TOUCH SCREEN

Hand-Piece MD Series

TOUCH SCREEN

MD-50

Specifications of MD-50 Diode laser system	Characteristic of MD-50 Diode Laser System:
Wave Length: 808nm	High Density of Power (40J/cm²)
Output to Tissue: $\geq 5\text{w}$ (can be adjustable, up and down within 0.1w)	Big Spot Size: 2.8mm
Spot Diameter: 3.4mm	Diode Laser Power Supply from Adjustable Invariance Current
Laser Treatment Frequency: 1-12Hz (can be adjustable)	Diode Laser Adopt the Technology of Diode Cooling to Protect the Diode Laser and Improve the Power Stability.
Laser Pulse Rate of Mark-Space: 1:1	Switch on Hand Piece Controls Laser Output and Convenient to Operate
Max Single Pulse Power: 2.5J	Visible Aiming Beam & Infrared Treatment Beam
Wavelength of Aiming Beam: 650nm	Hand Piece with Knighthood to Control Power Density Beam Size
Power of Aiming Beam: -1mv	Adjustable Output Laser Power & Frequency
Mode of Control: CPU Program	“Protection” Function Of EMERGENCY STOP & READY
Mode of Display: Colorful Touch Screen	Housing & Hand Piece are Designed Using Material with ABS
Mode of Output: Hand piece	Voltage from 110VAC-230VAC
Connecting Mode of Hand piece to System: Permanent Joint	
Input Power: 110 VAC-230VAC □ 50Hz±1Hz 60Hz	
Material of Housing & Hand piece: ABS	

MD-100

Specifications of MD-100 Diode laser system	Characteristic of MD-100 Diode Laser System:
Wave Length: 808nm	High Density of Power (40J/cm²)
Output to Tissue: $\geq 10\text{w}$ (can be adjustable, up and down within 0.1w)	Big Spot Size: 4mm
Spot Diameter: 5mm	Diode Laser Power Supply from Adjustable Invariance Current.
Laser Treatment Frequency: 1-12Hz (can be adjustable)	Diode Laser Adopts the Technology of Diode Cooling to Protect the Diode Laser and Improve the Power Stability
Laser Pulse Rate of Mark-Space: 1:1	Switch on Hand Piece Controls Laser Output and Convenient to Operate
Max Single Pulse Power: 5J	Visible Aiming Beam & Infrared Treatment Beam
Wavelength of Aiming Beam: 650nm	Hand Piece with Knighthood to Control Power Density Beam Size
Power of Aiming Beam: -1mv	Adjustable Output Laser Power & Frequency
Mode of Control: CPU Program	“Protection” Function Of EMERGENCY STOP & READY
Mode of Display: Colorful Touch Screen	Housing & Hand Piece are Designed Using Material with ABS
Mode of Output: Hand piece	Diode Laser integrated in central unit
Connecting Mode of Hand piece to System: Permanent Joint	Voltage from 110VAC-230VAC
Input Power: 110 VAC-230VAC ☐ 50Hz $\pm$ 1Hz 60Hz	
Material of Housing & Hand piece: ABS

PROFESSIONAL I P L HAIR REMOVAL UNITS

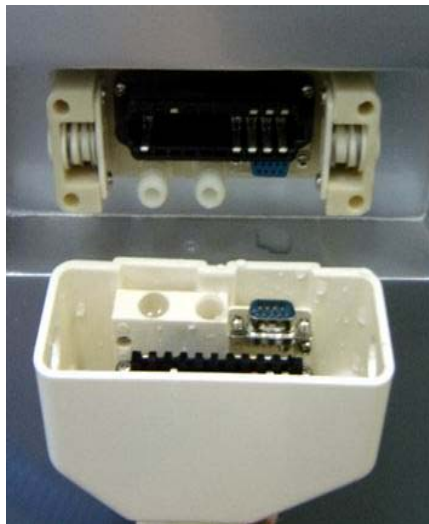

**OUR QUALITY STANDARDS AND TECHNOLOGY BEYOND
YOUR EXPECTATIONS!**

INTENSE PULSE LIGHT (IPL) LASER UNITS: MD Series

Professional Series for:

MD-IPL SP4

PLUG AND PLAY

Light Source	IPL
Integrated skin cooling	3 cooling systems: 2 big fans to cool down electronics and 1 dedicated water tank just for the handpiece
Output Wave Range	560 -1200 nm or 690-1200 nm
Output Light Spot Size	8 × 34 mm ²
Energy Density	20 – 50 j/cm ²
Pulse	20 ~ 149.7ms
Fluency	1P/3S
Integrated skin cooling	0 – 2 celcius
Electrical requirements	220V +- 10%, 3A, 50Htz
Size	47cm X 52cm X 120cm
Net Weight	15kg

[Check also our before and after Photo gallery](#)

- PERMANENT HAIR REMOVAL - SKIN REJUVENATION**
- PIGMENTATION - STRETCH MARKS - WRINKLE REDUCTION**
- VARICOSE VEINS- SKIN RESURFACING - ETC...**

MD-IPL6

Handpiece

MD-IPL6 LED SCREEN

Light Source	professional xenon lamp
Output Wave Range	430-1200 nm
Output Light Spot Size	8 × 40 mm ²
Energy Density	0 – 50 j/cm ²
Repeat frequency	1/2/3Hz
Integrated skin cooling	0 – 2
Electrical requirements	220V or 110V, 15a or 16a
Power	600 W
Net Weight	16.5kg

- Laser Hair Removal MD-IPL8

Q SWITCH YAG LASERS

OUR QUALITY STANDARDS AND TECHNOLOGY BEYOND YOUR EXPECTATIONS!

FOR:

- TATTOO REMOVAL- BIRTHMARKS - AGE SPOTS - FRECKLE**
- SOLAR – NEVUS - ETC...**

2 NEW professional models

MD-TT45

Laser type: Q-switch nd-yag laser
Wavelength: 1064 and 532nm
Energy density: 0-400mj
Facular diameter: 1-8mm
Pulse rate: 1/2/3Hz
Weight: 6.5kg
Electrical requirement: 220V 50Hz,
110V 60Hz

MD-TT8

PROFESSIONAL SERIES.

Handpiece input water level

NEW!---Special made Handpiece: Can still shot 1000 times without water.

Laser type: gem Q-switched YAG laser treatment

Wavelength: 1064nm and 532nm Width of pulse: 6ns

Facular diameter: 1-6mm could be adjusted

Weight : 8kg

Dimension : 40*22*22cm

Energy density: 0-680mj

Pulse Rate: 1/2/3/4/5Hz

Electrical requirements: 220V/50Hz, 110V/60Hz

or \$896.00 per Month for 24 Months including an extra year Warranty.

THAT'S ALL AND THE UNIT IS YOURS.

Usage Recommendations

Choosing the right Laser system is the most important step in the entire process of laser epilation. The following guide will help you match the correct system with the general criteria necessary for successful usage and for each specific purpose.

What Is Your Skill Level?

If you are new to laser hair removal, tattoo removal, skin rejuvenation etc... it is advisable that you consider one of the Low-end systems. These systems are very easy to operate and give excellent results. Adjusting 'pulse duration' or 'pulse frequency' to the desired levels will be very easy. You will only need to set the power output at a level which is comfortable and effective.

Should you discover in the future that your preference is for a more powerful system, we will gladly exchange your previous machine for a new one. We offer a lifetime trade-in for any system in our line. At Medicam, we genuinely want to match each and every customer with the perfect system for their individual requirements. Please inquire for upgrade conditions.

How Fast Do You Want To Treat?

You will want to go with a larger beam size if you are working on large areas (to increase efficiency). The [MD-50](#) or [MD-100](#) Diode laser systems are perfectly suited for rapid and efficient permanent laser hair removal and can clear a woman's leg or a man's back in just about 2 hours. If you are looking for more than Permanent hair removal treatments, you should look for an [IPL](#) system. Please inquire or call us and we will gladly help you.

The DM-15 and DM-20 require a little more time into the treatment to clear large areas but are best suited for limited areas such as the bikini line or face, half legs.

How Much Power Do You Need?

The general rule of thumb is 40jcm² *maximum* for a real efficient level.

In general, people are not informed regarding the power needed to perform an efficient laser hair removal. Some will ask how many watts does a machine develop when the right question and the only one should be what the wavelength and the beam size are. Working at 808nm will do the job but an output beam under 1.5mm will be too small. Beware of sellers saying that their machine gives you a 1cm treatment output beam! these machines have a 1cm laser head with 1-2 or 3 pin point output beam. The reality is that it remains a "hair by hair" treatment with very low efficiency and that requires a lot of patience. Just think that a Lumenis Lightsheer, a machine over USD\$70,000.00 has a 9mm output beam, that an F1 at USD\$60,000.00 has a 5mm output beam and both are considered to be two of the best and most powerful machines on the market. Serious companies offer only one output with a wider beam. We offer: 1.5mm, 1.8mm, 2.8mm and 4mm real output beams. Our IPL systems give you a 1cm X 4cm output beam. Each professional unit should include an EMERGENCY STOP. Most sellers will give you the specification of their laser units but will never provide you with the real output power of the beam once it reaches your skin.

Some will also tell you that a certain unit will do multiple jobs but you know for a fact that no unit can do a perfect job for multiple types of treatments. Each laser is engineered for a specific purpose, therefore to do tattoo removal, inquire for a tattoo removal Yag laser, for laser hair removal, ask either for an IPL or a diode laser, for skin rejuvenation and other skin applications as well as laser hair removal, get an IPL since IPL systems have a user replaceable crystal which works at different wavelengths (nm) for each specific application.

If you are not sure as to which model to purchase, please contact us or call us. We will gladly inform you. A happy and satisfied customer means references. That is how we built our company name.

How Fast Do These Systems Clear Large Areas?

Laser Hair Removal with Diode laser : MD SERIES

and

Permanent Hair Removal and Skin Treatments with IPL

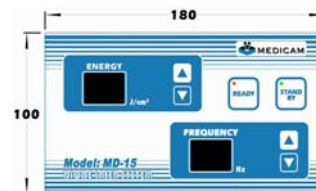

For the sake of general comparison, we will look at a 120 square inch treatment area. This is the equivalent of the average man's chest or abdomen, or women's upper and lower leg.

MD-50 & MD -100

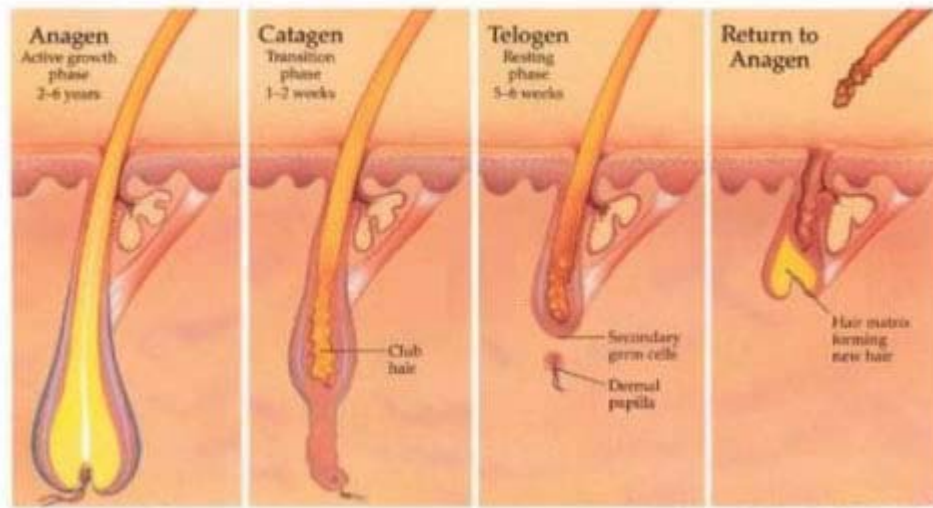

Color touch Screen

- [MD-15](#) 4 hours per treatment
- [MD-20](#) 3 hours per treatment
- [MD-50](#) 2 1/2 hours per treatment
- [MD-100](#) 1 1/2 hour per treatment

MD-15 & MD-20

Theory of hair removal

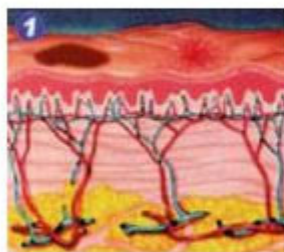

Permanent Hair Removal with IPL

- [MD-IPL6](#) 3/4 hour to 1 hour per treatment
- [MD-IPL12](#) 30 minutes to 3/4 hour per treatment
- [MD-IPL12+](#) 20 minutes to 30 minutes per treatment
- The MD-15 is best suited for larger (but also limited) areas.
- The MD-20 is ideal for large (unlimited) areas such as chest, back, legs etc.
- The MD-50 and MD-100 are best suited for professionals who treat multiple clients per day.
- All 3 IPL units are best suited for professionals who treat multiple clients per day.

FAQ IPL

IPL : WHAT IS INTENSE PULSED LIGHT HAIR REMOVAL?

Intense pulsed light hair removal is a new and advanced, long-term hair removal method. A client sits or lies in a comfortable position, and then a technician glides a wand-like tool, or handpiece, over his or her skin. The handpiece emits a beam of specially filtered light, which is absorbed by the hair and converted to heat. This heat disintegrates the hair and disables the hair follicle.

What is Intense Pulsed Light Hair Removal?

Intense pulsed light hair removal is a new and advanced, long-term hair removal method. A client sits or lies in a comfortable position, and then a technician glides a wand-like tool, or handpiece, over his or her skin. The handpiece emits a beam of specially filtered light, which is absorbed by the hair and converted to heat. This heat disintegrates the hair and disables the hair follicle.

Is the treatment safe?

Yes, it is very safe. Some people may experience mild reddening of the treatment area for a day or so after treatment, but other complications are rare. The Intense Pulsed Light system delivers energy to the skin very gently. Plus, the handpiece extracts heat from the skin during each pulse of light for maximum protection.

How long does it take?

Treatments are extremely fast, over twice as fast as waxing. A pair of legs or a man's back can be treated in less than ten to twenty minutes. Smaller areas, such as the face or back of the neck, can be done in less than a minute.

Does it hurt?

No. The light is selectively absorbed by the hair and hair follicles. The skin itself is exposed to little heat. Plus, no irritating chemicals are used, and the hairs aren't pulled on in any way.

How long does the hair stay gone?

Hair may never return at all. The exact amount of time that the hair stays gone depends on the area being treated, the settings selected by the technician, and individual hair and skin factors. Depending on the settings used by the technician in accordance with the patient request, hair removal may either be permanent or for a certain period of time (4-5-6 months)

What body areas can be treated?

Almost any area of the body can be treated: the legs, back, upper lip, chin, underarms, back of the neck, bikini line, etc.

Do I have to let my hair grow out to a certain length before I can get treated?

Not at all! With intense pulsed light treatments there's no need to let hair grow out before you remove it. Light penetrates beneath the skin to reach the hair follicles. If you wish, you can get treated at regular intervals so that your skin remains virtually hair free all the time.

How does Intense Pulsed Light Hair Removal compare with waxing?

Intense pulsed light hair removal is faster, more comfortable, produces longer-lasting results, and can treat hair before it becomes visible. Additionally, hair grows back more slowly after intense pulsed light treatments and is thinner and lighter in color.

How does it compare with Laser hair removal?

Laser hair removal has many of the same benefits as intense pulsed light hair removal. Operating a laser, however, often requires more expertise than operating an intense pulsed light system. Treatments are faster with an IPL system and a lot safer.

Who is the Medicam Research Center, and why did they develop the MD-IPL series?

Medicam Group is an innovative provider / manufacturer of medical high technology products. Since its foundation in 2001, Medicam has built a strong reputation as a supplier of equipment for both Medical Equipments and for treatment of cosmetic disorders, including hair removal and skin / photo rejuvenation.

The product portfolio is centered around 5 core systems - MD-IPL, MD Diode Lasers, YAG Lasers, Q Switched Lasers and CO2 lasers Series offering easy to use, yet safe and effective treatments, for Hair Removal and Skin Rejuvenation (treatment of sun-damaged skin), Tattoo removal etc.... MD series are used by many leading professional beauty therapists. MD has been developed for the medically qualified user, and offers greater flexibility in treatment, and the ability to handle a wider range of medical conditions. As well as hair removal and Photo Rejuvenation. MD series can be used against vascular and pigmented lesions.

I have thick coarse hair on my chin that I want to get rid off....How?

Nothing is more embarrassing than facial hair, but unfortunately it is a very common problem. The quickest and most effective method to get rid of hair is to use Intense Pulsed Light. This involves a hand-piece placed on the skin and a bright flash of broad-spectrum light is emitted. The wavelengths chosen are easily absorbed by melanin, which is the color in the hair. The light is transmitted through skin tissue, and is absorbed by the root of the hair within the skin. Heat is produced which radiates out into the follicle wall destroying the cells so hair re-growth is impeded. Only a few treatments, at monthly intervals usually are needed to obtain stunning results. It is very quick, virtually painless and no redness or skin reaction to worry about.

I have some unsightly sunspots on my hands. What can I do about them?

This is where Intense Pulsed Light systems are superior to lasers, as they can offer more than one type of treatment. Intense Pulsed Light utilizes a range of wave lengths [laser has only a single wavelength], which enables it to respond to hair color, small red blood vessels and pigmentation irregularities in the skin due to sun damage. The hand piece is placed on the skin over the sunspots or other pigmentation and a bright flash of light is released. This light is absorbed by the pigmented area, which will go even darker over the next few hours. The area will look a bit “dirty” or dark for about a week, then it will slough off leaving clear fresh new skin. Often only one treatment is necessary to create a stunning difference. This treatment is not only very effective for those aging, unsightly-looking sunspots on hands, but is excellent for irregular pigmentation on face, neck, etc...

I have been shaving my underarms every few days for years. The hairs are thick, coarse and constantly growing back. What other alternatives do I have?

There are various other temporary alternatives, like waxing, plucking and depilatory creams, but they are not the answer if you want some sort of permanency. The modern answer for hair removal is Intense Pulsed Light. Precise doses of light within specific wavelengths are emitted from a hand piece placed on the skin and moved along after every pulse. The light travels through skin and is absorbed by melanin. When the light is absorbed, heat is produced which destroys the hair follicles. Usually only 4 – 6 treatments are required. Underarms respond particularly well so stop wasting your time regularly shaving or waxing.

I’m confused, what is the difference between Laser and Intense Pulsed Light?

Laser is a single color of light: Red light for Diode Lasers, which means all the rays are the same wavelength. There are a number of different lasers used for hair removal. Their effectiveness varies with what the wavelength is. Some lasers are very effective, others are not so good, which is why one hears a lot of variation in results.

Intense Pulsed Light is broad spectrum light, made up of a range of wavelengths and colors. This range means one can treat more hair types effectively, with more consistent results. Besides removing hair from face and all body areas, Intense Pulsed Light has other uses. It can treat sun damage, pigmentation on face, hands and chests, small blood vessels and diffuse redness found on the face and chest.

Medicam Research Center and Medicam incorporated pride themselves on having the latest technology with proven success. Our MD-Pulsed Light systems are the best in the world. North American design backed by medical research and clinically proven results give us the edge.

I continually get ingrown hairs on my bikini line from waxing. What can I do about them?

Obviously you feel you need to remove hair from the bikini area or you would not have put up with painful and unsightly ingrown hairs, but why continue with waxing if it is causing such problems, especially as it is only a temporary method of hair removal? Ingrown hairs are a very common problem but they can be eradicated if you remove the hair by other means. Intense Pulsed Light is the answer. This is a beam of light emitted from a hand piece moved across the skin. It is attracted to the melanin in the hair and as the hair absorbs the light, heat is produced which destroys the surrounding cells that cause growth. This treatment causes no skin reactions minimal discomfort, maximum results within 4 to 6 treatments, and no more ingrown hairs! People get so excited by the results that they tend to want more and more removed...not a problem, as we can remove virtually all the pubic area.

What is Laser Skin Resurfacing

Using state-of-the-art laser technology, It gently removes sun-damaged, scarred, aging skin or performs light laser rejuvenating peels. The laser uses a beam of light to vaporize scarred, lined, wrinkled, or otherwise imperfect skin. Laser light penetrates to a very precise controlled depth, making the procedure safe and predictable, while minimizing the risk of scarring or pigmentation problems.

"Experience & Expertise in Laser Skin Resurfacing"

Laser skin resurfacing is bloodless, and is saving patients of the costs and risks of hospitalization or general anesthesia.

What is IPL Photorejuvenation

Both the pleasure and stresses of life, along with the simple passage of time, tend to cause our skin to appear older. IPL Photorejuvenation is a non-invasive treatment that erases skin damage without disruption of the skin's surface, hence, no "downtime".

Using Intense Pulsed Light (IPL), It can simultaneously treat a wide range of facial concerns safely and effectively, such as broken capillaries, skin discoloration, age spots, freckles, mottled pigmentation and the symptoms of rosacea.

*"I no longer need to worry about my blemishes.
I can't believe my eyes!"*

Photorejuvenation provides long-term improvement of complexion and skin texture, with only the slightest interruption in your busy lifestyle.

FAQ DIODE LASER

How Does Diode Laser Hair Removal Works

A laser produces a beam of highly concentrated light. The pigment located in the hair follicles absorbs the light emitted by the laser. The laser pulses for a fraction of a second, which is just long enough to vaporize the pigment. This disables several follicles at a time to eliminate or significantly impede the hair's regrowth. However, inactive hair follicles and those containing minimal or no pigment are not adequately affected by laser treatment.

This technique is referred to as laser electrolysis. It was invented by a team of laser dermatologists at the Wellman Laboratories of Photomedicine at the Massachusetts General Hospital.

The laser pulses for a fraction of a second, which is just long enough to vaporize the pigment. This disables several follicles at a time to eliminate or significantly impede the hair's regrowth. However, inactive hair follicles and those containing minimal or no pigment are not adequately affected by laser treatment.

This technique is referred to as laser electrolysis. It was invented by a team of laser dermatologists at the Wellman Laboratories of Photomedicine at the Massachusetts General Hospital.

Is Laser Hair Removal Painful?

All effective hair removal techniques have some level of discomfort. Our expertise in skin anesthesia allows us to provide you with maximal hair removal results from the Diode laser [MD-100™](#) Diode Laser with the best pain control available.

The [MD-100™](#) system is fast, which reduces treatment time. It provides long-lasting hair removal, which reduces the need for repeated treatment. The [MD-100™](#) system contains the patented diode cooling module integrated in the main unit.

Appearance of the Skin Following Treatment

Immediately following treatment, the site will be somewhat swollen, appear slightly red in color, and may feel like a mild sunburn. This reaction subsides over a few hours and then the treated areas usually return to their normal appearance. The amount of discomfort following a treatment is usually minimal and does not limit most physical activities.

Length of Procedure

Each pulse of laser energy will treat a round area of skin approximately 4-5mm. For this reason, the amount of time required depends on the size of the area to be treated. For example, the upper lip and bikini line may require only five to fifteen minutes of treatment, while a longer period of time will be required to treat the back or legs.

Number of Treatments Required

Since each person has a different amount of hair follicles and different types of hair, the amount of treatments needed per area varies. Typically, three to five treatments are needed to achieve a satisfactory result.

Also, laser hair removal works only on those hair follicles that are in a growth stage. Typically, 80 – 85% of a person's hair follicles are in a growth stage at any given time. After initial treatment of an area, hairs that grow back are usually in the early stages of growth, which makes them most vulnerable to laser treatment. For this reason, any necessary follow-up treatments should be performed as soon as possible after the hairs begin to regrow.

Is Diode Laser Hair Removal Safe?

As with any medical treatment, use of a laser for hair removal can have some side effects. However, side effects have been minor and manageable. The precise laser parameters used have been carefully defined by the study of hair follicle anatomy and the precise matching of pulse duration to the size, depth, and location of the follicle.

Is Laser Hair Removal Right for Me?

Although laser hair removal is an option for almost everyone, there are some conditions that might make such treatment undesirable. For example, laser hair removal is ineffective for white or very light blonde hairs. Therefore, each patient is required to schedule a consultation so that their skin and medical history can be examined for any conditions that could be worsened by laser hair removal treatment.

During the initial consultation, photos will be taken of the area to be treated. Also, several small "test patches" will be done to gauge the patient's reaction to laser hair removal treatment. This will allow for the selection of a treatment program that will ensure optimal results for each patient

Outstanding opportunity for professional sales associates and distributors.

Join the 6 billion dollar a year cosmetology industry. Our line of quality laser systems is the most impressive in the world. For a distributor packet to be sent to you outlining wholesale pricing, credit terms and buyer contract details, please fill out the following form.

This is one of the best opportunities you will ever find. The Medicam - IKYT MD Series Line of Professional Laser Hair Removal Equipment is a great addition to any wholesale and retail product display at tanning salons, health clubs, beauty salons, day spas, supplement stores and cosmetic counters.

Our internet affiliate program earns our resellers an impressive 15% commission for each sale. This means for every customer referred to us by your web site you will be paid anywhere from \$150.00 to \$750.00! Our shopping cart carefully tracks each customer and will credit your account for each customer referred. Simply paste a link into your web site and the rest is fully automated.

Many of our internet affiliates earn 5 figure commissions every month. Whether you are interested in a full scale distributorship or you simply want to promote the line through your web site, your profits will be outstanding.

Our Privacy Policy

This Website is owned and operated by **Medicam - IKYT Inc.**

We recognize that visitors to our site may be concerned about the information they provide to us, and how we treat that information. This privacy policy is designated to address those concerns.

Medicam - IKYT uses its best efforts to respect the privacy of its online visitors.

All information that you provide to **Medicam - IKYT** is used solely by **Medicam - IKYT** or other entities who are involved in the direct operation of this site for internal purposes only. Our customer lists are never sold to third parties.

What This Privacy Policy Covers

This policy covers how **Medicam - IKYT** treats personal information that we collect and receive, including information related to your past use of the **Medicam - IKYT** site, products and services. Personal information is information about you that is personally identifiable like

your name, address, email address, or phone number, and that is not otherwise publicly available.

Information Collection and General Use

Medicam - IKYT collects personal information when you register with the **Medicam - IKYT** site, when you use **Medicam - IKYT** products, services or when you visit **Medicam - IKYT** pages. When you register we ask for information such as your name, email address, birth date, gender, zip code, occupation, industry, and personal interests. Once you register with **Medicam - IKYT** and sign in to our services, you are not anonymous to us. **Medicam - IKYT** collects information about your transactions with us and with some of our business partners, including information about your use of products and services that we offer. **Medicam - IKYT** automatically receives and records information on our server logs from your browser, including your IP address, shopping cart cookie information, and the page you request. **Medicam - IKYT** uses information for the following general purposes: to customize the advertising and content you see, fulfill your requests for products and services, improve our services, contact you, conduct research, and provide anonymous reporting for internal and external clients.

Children

Minors are prohibited from purchasing from this site, but may enter and review information therein for educational use only. No aggregate information is kept on file for minors and all registration information submitted by those under the age of 18 is deleted from our files.

Medicam - IKYT does not rent, sell, or share personal information about you with other people or nonaffiliated companies except to provide products or services you've requested, when we have your permission, or under the following circumstances:

We provide the information to trusted partners who work on behalf of or with **Medicam - IKYT** under confidentiality agreements. These companies may use your personal information to help **Medicam - IKYT** communicate with you about offers from **Medicam - IKYT** and our marketing partners. However, these companies do not have any independent right to share this information.

We respond to subpoenas, court orders, legal process, or to establish or exercise our legal rights or defend against legal claims;

We believe it is necessary to share information in order to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the physical safety of any person, violations of **Medicam - IKYT** terms of use, or as otherwise required by law.

Medicam - IKYT displays targeted advertisements based on personal information. Advertisers (including ad serving companies) may assume that people who interact with, view, or click on targeted ads meet the targeting criteria - for example, women ages 18-24 from a particular geographic area.

Medicam - IKYT does not provide any personal information to the advertiser when you interact with or view a targeted ad. However, by interacting with or viewing an ad you are consenting to the possibility that the advertiser will make the assumption that you meet the targeting criteria used to display the ad.

Cookies

Medicam - IKYT may set and access cookies on your computer for the sole purpose of tracking items which have been placed in your shopping cart.

General Preferences

You can edit your **Medicam - IKYT** Account Information at any time. We reserve the right to send you certain communications relating to the **Medicam - IKYT** service, such as service announcements, administrative messages and the **Medicam - IKYT** Newsletter, that are considered part of your **Medicam - IKYT** account, without offering you the opportunity to opt-out of receiving them. You can delete your **Medicam - IKYT** account by visiting our Account Deletion page.

Confidentiality and Security

We limit access to personal information about you to employees who we believe reasonably need to come into contact with that information to provide products or services to you or in order to do their jobs.

We have physical, electronic, and procedural safeguards that comply with federal regulations to protect personal information about you.

Your Credit Card and Personal Information is Secure

We care about the safety and security of your transaction. We use high-grade encryption and the 'https security protocol' to communicate with your browser software. This method is the industry standard SSL protocol, which makes it extremely difficult for anyone else to intercept the credit card information you send to us.

Changes to this Privacy Policy

Medicam - IKYT may update this policy. We will notify you about significant changes in the way we treat personal information by sending a notice to the primary email address specified in your **Medicam - IKYT** account or by placing a prominent notice on our site.

If you have any questions about our privacy policy, you can e-mail us at admin@medicam.ca. We'll be happy to answer your questions or hear your concerns.

IMPORTANT NOTE

If upon inspection of a defective unit returned to us, it is determined with certainty (at Medicam's, its distributors' or any subsidiaries' discretion) that the problem was not related to the unit itself or any of its accessories but due to improper following of the guidelines, misuse or abuse, warranty will NOT be honored. Customer will be charged for all shipping fees and for labor.

All units and accessories are tested before shipping and are sent to the customer in perfect working order. However, please note that the machines are sent without water. Any water in the unit is leftover water from testing.

FOLLOW STEP 6.1 BEFORE OPERATING UNIT.

If a machine is received defective, damaged or broken, please contact the shipping company for insurance purposes, then call Medicam with the transport company's report number, and fax all related documents to (514) 737-0931 and ask for an RMA (Return Authorization Material). See warranty terms below.

PLEASE SEE SERVICE WARRANTY APPLICATION AND LIABILITY BELOW

SERVICE WARRANTY APPLICATION AND LIABILITY.

Medicam Inc. offers a 12 months warranty parts and labor. Warranty will be void for any misuse, abuse or damage done to the unit or any of its components. Consumables are not guaranteed and have a limited life. Any client and/or distributor over using the consumables and not respecting the replacement time of such devices will see its warranty cancelled. Water has to be added or changed to any unit on a regular basis. Not doing so will also void the warranty. Handpieces or crystals are NEVER under warranty.

Extended warranty (2nd and 3rd year) for clients and/or distributors who have acquired such additional coverage will be limited only to major parts: Light source, power supply and water tank. Screen control panel, hand piece, switches, water caps, etc...may have to be replaced after a period of time due to the permanent use. Customer should be sending the unit back to Medicam (at the customer's expenses and shipping back pre-paid by the customer insured, by express delivery and with a tracking number) for a period of 1 week (7 OPEN DAYS) for full cleaning and check up once in the 1st year and twice any subsequent year.

Any extended warranty has to be purchased before the 1st day of the 10th month following the acquisition of the unit. An invoice will be sent to all customers for service renewal at the 9th month. All customers HAVE TO send by fax a meter reading of their unit each last day of the month to keep the warranty active.

Any overused unit should be upgraded to a higher model to avoid cancellation of the warranty.

To arrange for the return of your equipment, simply request a Return Materials Authorization number by faxing a copy of your invoice to 1-514-737-0931 or emailing at service@medicam.ca. Failure to submit the invoice may result in unnecessary delays. Please include a fax number so we may fax your approved return number, packaging instructions, and return address. If a fax number is not available, please supply us with your email address. Exchanges (EX-RMA's) and Warranty Repair (WR-RMA's) may be applied for by email at service@medicam.ca or by fax at 514-737-0931. For the protection of Medicam Inc, subsidiaries or affiliates, as well as the customer, full packaging instructions and correct RMA procedures must be provided and complied with to avoid damage to merchandise by improper packing. At no time and under no circumstances, a customer will be eligible for a full or partial refund. Any unit has to be sent back in its original packaging for repair.

1. Customer is required to apply for a RMA number (Returned Material Authorization), which will be issued at Medicam's sole discretion. 2. For any defective unit delivered, all items must be accompanied by the original invoice and a clear description of the problem. 3. Claims must be made maximum 5 days following delivery. 4. Restocking fees up to 50% may apply to items, which are used, abused, missing, damaged, or otherwise incomplete. If returned products are claimed to be defective, a complete written description of the nature of the defect must accompany all returned products. Items not eligible for return or sent back by the customer without an RMA number will be returned to customer, transportation collect and not accepted by Medicam at the sole risk of the customer. Shipping is not refundable. Exceptions to RMA program such as Opened/Used Hand Pieces, Crystals, etc...: may not be returned, by law. Items will be repaired or replaced in accordance to manufacturer's warranties. Before connecting the hand piece, activating the unit, adding water, unwrapping the crystals, etc..., we suggest that you check the shipping container and packing list to verify that you have received exactly what you ordered. Special Order Items: may not be returned (includes items that were modified, customized, or changed while in the custody of the customer). Textbooks/Instruction Literature, Operation Manual: may also be returned. Expired/Discontinued Items: may not be returned (articles which cannot be returned to the manufacturer).

All units have to be protected with a proper power surge device and a spike suppressor and never be plugged directly in the wall outlet in order to protect the electronic components from electrical intensity variations. All requirements from Medicam Inc or any of its distributors or subsidiaries have to be respected. Please check all requirements in the user manual. Non respect of any clause of the requirements will void the warranty at the sole responsibility of the client.

Medicam Inc warrants the customer that products purchased hereunder will conform to the applicable manufacturer's specifications for such products.

The Client or Distributor shall comply with all Applicable Laws existing in the Territory from time to time concerning the Products and shall keep Supplier informed of any relevant changes therein. In particular but without limitation Distributor / Customer (i) shall at its own expense obtain all necessary permissions, consents and licenses to enable client or Distributor to market, sell, buy or use the Products in the Territory; (ii) shall obtain any other governmental or other permission, consent or license or make any registration necessary for the full and legal operation and performance of this Contract; (iii) shall be responsible for the management of the importation of the Products into the Territory in compliance with Applicable Laws and the payment of all applicable import duties, taxes and other charges, and shall promptly upon Supplier's request provide to Supplier copies of all documents evidencing the same. Client or Distributor acknowledges

and confirms they have verified that the Products acquired comply with all Applicable Laws existing in its Territory or in any territory the client or distributor shall sell, rent or use the equipments. The Distributor / Customer confirms that all applicable laws and regulations, including specific custom requirements or taxes in his country and including any other additional expenses, fees or any documentation have been checked prior to purchase.

Any value-added performed by Medicam Inc. on its products will conform to applicable customer's specifications relation to such work. Medicam Inc. offers no other warranty, express or implied, with respect to the product. In particular, Medicam Inc. offers no warranty respecting the merchantability of the product or their suitability or fitness for any particular purpose or use or respecting infringement. However, Medicam Inc. will transfer to customer whatever transferable warranties and indemnities. Medicam Inc receives from the manufacturer of the product. With respect to value-added work by Medicam Inc. which does not meet customer's specifications. Medicam Inc. liability is limited (at Medicam Inc. election) to (1) refund of customer's purchase price for such products without interest less transportation fees, (2) repair of such products, or (3) replacement of such product; provided, however, that such product must be returned to Medicam Inc. (at Medicam Inc. election), along with acceptable evidence of purchase, within ten (10) days from date of delivery, all transportation charges prepaid by Customer. Customer shall not in any event be entitled to, and Medicam Inc. shall not be liable for indirect, special, incidental or consequential damages of any nature including, without being limited to, loss of profit, promotional or manufacturing expenses, overhead, injury to reputation or loss of customers. Customer's recovery from Medicam Inc. for any claim shall not exceed customer's purchase price for the products irrespective of the nature of the claim whether in contract, tort, warranty, or otherwise.

Customer's Satisfaction, Warranty and Liability for Customers and Distributors

It is the express wish of the Customer and Medicam Inc. that this Agreement and any related documents are drawn up in the English language. Le Client et Medicam Inc. confirment qu'il est de leur volonté expresse et réciproque que ce contrat et tout contrat qui s'y rattache soient rédigés en anglais. If you have tried a product and it is defective, we will offer you an exchange in the first 10 days. If you are willing to upgrade your equipment in the first 60 days following delivery of your equipment, we will charge you only for the difference in price between your equipment and the new one at the suggested retail price plus shipping and handling fees. We will give you the opportunity to upgrade your equipment between 61 and 180 days after delivery of the equipment by giving you a credit corresponding to 50% of your original purchase price less delivery fees for a brand new equipment at the suggested retail price. Medicam Inc. offers a 12 months warranty parts and labor. Warranty will be void for any misuse, abuse or damage done to the unit or any of its components. Consumables are not guaranteed and have a limited life. Any client and/or distributor over using the consumables and not respecting the replacement time of such devices will see its warranty cancelled. Water has to be added or changed to any unit on a regular basis. Not doing so will also void the warranty. Handpieces or crystals are NEVER under warranty.

Extended warranty (2nd and 3rd year) for clients and/or distributors who have acquired such additional coverage will be limited only to major parts: Light source, power supply and water tank. Screen control panel, hand piece, switches, water caps, etc... may have to be replaced after a period of time due to the permanent use. Customer should be sending the unit back to Medicam (at the customer's expenses and shipping back pre-paid by the customer insured, by express delivery and with a tracking number) for a period of 1 week (7 OPEN DAYS) for full cleaning and check up once in the 1st year and twice any subsequent year.

Any extended warranty has to be purchased before the 1st day of the 10th month following the acquisition of the unit. An invoice will be sent to all customers for service renewal at the 9th month. All customers HAVE TO send by fax a meter reading of their unit each last day of the month to keep the warranty active.

Any overused unit should be upgraded to a higher model to avoid cancellation of the warranty.

To arrange for the return of your equipment, simply request a Return Materials Authorization number by faxing a copy of your invoice to 1-514-737-0931 or emailing at service@medicam.ca. Failure to submit the invoice may result in unnecessary delays. Please include a fax number so we may fax your approved return number, packaging instructions, and return address. If a fax number is not available, please supply us with your email address. Exchanges (EX-RMA's) and Warranty Repair (WR-RMA's) may be applied for by email at service@medicam.ca or by fax at 514-737-0931. For the protection of Medicam Inc, subsidiaries or affiliates, as well as the customer, full packaging instructions and correct RMA procedures must be provided and complied with to avoid damage to merchandise by improper packing. At no time and under no circumstances, a customer will be eligible for a full or partial refund. Any unit has to be sent back in its original packaging for repair.

1. Customer is required to apply for a RMA number (Returned Material Authorization), which will be issued at Medicam's sole discretion. 2. For any defective unit delivered, all items must be accompanied by the original invoice and a clear description of the problem. 3. Claims must be made maximum 5 days following delivery. 4. Restocking fees up to 50% may apply to items, which are used, abused, missing, damaged, or otherwise incomplete. If returned products are claimed to be defective, a complete written description of the nature of the defect must accompany all returned products. Items not eligible for return or sent back by the customer without an RMA number will be returned to customer, transportation collect and not accepted by Medicam at the sole risk of the customer. Shipping is not refundable. Exceptions to RMA program such as Opened/Used Hand Pieces, Crystals, etc...: may not be returned, by law. Items will be repaired or replaced in accordance to manufacturer's warranties. Before connecting the hand piece, activating the unit, adding water, unwrapping the crystals, etc..., we suggest that you check the shipping container and packing list to verify that you have received exactly what you ordered. Special Order Items: may not be returned (includes items that were modified, customized, or changed while in the custody of the customer). Textbooks/Instruction Literature, Operation Manual: may also be returned. Expired/Discontinued Items: may not be returned (articles which cannot be returned to the manufacturer).

All units have to be protected with a proper power surge device and a spike suppressor and never be plugged directly in the wall outlet in order to protect the electronic components from electrical intensity variations. All requirements from Medicam Inc or any of its distributors or subsidiaries have to be respected. Please check all requirements in the user manual. Non respect of any clause of the requirements will void the warranty at the sole responsibility of the client.

Medicam Inc warrants the customer that products purchased hereunder will conform to the applicable manufacturer's specifications for such products.

The Client or Distributor shall comply with all Applicable Laws existing in the Territory from time to time concerning the Products and shall keep Supplier informed of any relevant changes therein. In particular but without limitation Distributor / Customer (i) shall at its own expense obtain all necessary permissions, consents and licenses to enable client or Distributor to market, sell, buy or use the Products in the Territory; (ii) shall obtain any other governmental or other permission, consent or license or make any registration necessary for the full and legal operation and performance of this Contract; (iii) shall be responsible for the management of the importation of the Products into the Territory in compliance with Applicable Laws and the payment of all applicable import duties, taxes and other charges, and shall promptly upon Supplier's request provide to Supplier copies of all documents evidencing the same. Client or Distributor acknowledges and confirms they have verified that the Products acquired comply with all Applicable Laws existing in its Territory or in any territory the client or distributor shall sell, rent or use the equipments. The Distributor / Customer confirms that all applicable laws and regulations, including specific custom requirements or taxes in his country and including any other additional expenses, fees or any documentation have been checked prior to purchase.

Any value-added performed by Medicam Inc. on its products will conform to applicable customer's specifications relation to such work. Medicam Inc. offers no other warranty, express or implied, with respect to the product. In particular, Medicam Inc. offers no warranty respecting the merchantability of the product or their suitability or fitness for any particular purpose or use or respecting infringement. However, Medicam Inc. will transfer to customer whatever transferable warranties and indemnities. Medicam Inc receives from the manufacturer of the product. With respect to value-added work by Medicam Inc. which does not meet customer's specifications. Medicam Inc. liability is limited (at Medicam Inc. election) to (1) refund of customer's purchase price for such products without interest less transportation fees, (2) repair of such products, or (3) replacement of such product; provided, however, that such product must be returned to Medicam Inc. (at Medicam Inc. election), along with acceptable evidence of purchase, within ten (10) days from date of delivery, all transportation charges prepaid by Customer. Customer shall not in any event be entitled to, and Medicam Inc. shall not be liable for indirect, special, incidental or consequential damages of any nature including, without being limited to, loss of profit, promotional or manufacturing expenses, overhead, injury to reputation or loss of customers. Customer's recovery from Medicam Inc. for any claim shall not exceed customer's purchase price for the products irrespective of the nature of the claim whether in contract, tort, warranty, or otherwise.

Payment and Delivery Terms.

We accept payment by certified checks, Bank money order, International postal money order, and wire transfer. If Payment is made from a foreign country, customer may inquire for the applicable rate to convert currency in Dollars. Exchange may not be daily rate since Medicam Inc. is not manufacturing its inventory at the time of the current order. Total amount to be paid in full unless agreed and mentioned on the terms of the contract. A \$35.00 return check fee applies to all non-collectible checks. Medicam Inc. reserves the right to electronically retrieve NSF, Stop Pays, and other non-collectible funds from your account. Shortages surcharge apply, except when special services are requested. Puerto Rico imposes a 6.6% excise tax, which is not collected by Medicam Inc. Alaska; Hawaii & Pacific Islands customers are responsible for any applicable taxes. International customers are responsible for applicable duties and/or taxes in their country.

Delivery and Title

Medicam Inc. will make reasonable efforts to initiate shipment and schedule delivery as close as possible to customer's request delivery date(s). Customer acknowledges that delivery dates provided by Medicam are estimates only and that Medicam Inc will not be liable for failure to deliver on such dates and time. We may make selection of the carrier and delivery route unless specifically designated in writing by the customer. The customer in addition to the purchase of the product shall pay all transportation charges from Medicam Inc Shipping premises. Subject to our right of stoppage in transit, delivery to a carrier will constitute delivery to customer, and risk of loss will thereupon pass to the customer; however, title shall remain in Medicam Inc until the customer makes payment in full for the product. Products invoiced and held by Medicam at customer's request will be held at customer's risk and expense. Delivery of any installment of product within sixty (60) days after the date requested and order confirmed will constitute a timely delivery. Delivery of a quantity which does not vary by more than ten percent (10%) from the ordered quantity will constitute full performance of such delivery. Delay in delivery of one installment will not entitle customer to cancel that installment. Customer is responsible for all imports taxes, tariffs, levies, or fees.

Statements and Advice

If statements or advice, technical or otherwise, is offered or given to customer, such statement or advice will be deemed to be given as an accommodation to customer and without charge and Medicam Inc. will have no responsibilities or liabilities whatsoever for the content or use of such statements or advice.

Force Majeure

Medicam Inc. will not be liable for delays in delivery or for failure to perform its obligation due to causes beyond its reasonable control, including, but not limited to, product allocations, material shortages, labor disputes, transportation delays, unforeseen circumstances, acts of God, acts or omissions of other parties, acts or omissions of civil or military authorities, government priorities, fire, strikes, floods, epidemics, quarantines restrictions, riots, or war. Medicam Inc. time for delivery or performance will be extended by the period of such delay or Medicam Inc. may, at its option, cancel any order or remaining part thereof without liability by giving notice to customer. Discounted equipment or on sale usually generates a very high volume of sales and may cause a delivery delay. A delivery within Sixty (60) days after payment will constitute a timely delivery.

General

The terms and conditions may not be modified or cancelled without Medicam Inc. written agreement. The sale of products hereunder will be governed by the terms and conditions, notwithstanding contrary or additional terms and conditions in any purchase, planning schedule, acknowledgement, confirmation or any other form or document issued by either party effecting the purchase and/or sale of products.

WEBSITE GENERAL AGREEMENT

Web Site Terms of Use Agreement and General Conditions.

The customer approves and fully understands this contract in English. Le client accepte que ces conditions soient en langue Anglaise, les comprend et les approuve.

You must read and agree to these terms and conditions before you may access or view this site. By visiting this site, you are agreeing to all of the terms of this agreement. This agreement is subject to change at any time, and changes are effective upon posting. Refer to this page for any amendments/changes to the original agreement. By using and/or viewing this site you hereby swear and affirm (represent and warrant) under penalty of perjury the following:

Eligibility Requirements: By using and/or viewing this Site, you represent and warrant that you have the right, authority, and capacity to enter into this Agreement and to abide by all of the terms and conditions of this Agreement.

That you represent and warrant that you have not and will not use and/or view this site in a restricted location - namely a place, country, or location in which doing so would, or could be deemed a violation of any law, regulation, rule, ordinance, edict or custom.

Price Policy: We make every effort to maintain prices for the duration of a catalog, but reserve the right to make adjustments in response to manufacturers' increases. Manufacturers reserve the right to make changes in design, specifications or fabrication in the interest of providing superior equipment without notice or obligation.

Customer's Satisfaction, Warranty and Liability for Customers and Distributors

It is the express wish of the Customer and Medicam Inc. that this Agreement and any related documents are drawn up in the English language. Le Client et Medicam Inc. confirment qu'il est de leur volonté expresse et réciproque que ce contrat et tout contrat qui s'y rattache soient rédigés en anglais. If you have tried a product and it is defective, we will offer you an exchange in the first 10 days. If you are willing to upgrade your equipment in the first 60 days following delivery of your equipment, we will charge you only for the difference in price between your equipment and the new one at the suggested retail price plus shipping and handling fees. We will give you the opportunity to upgrade your equipment between 61 and 180 days after delivery of the equipment by giving you a credit corresponding to 50% of your original purchase price less delivery fees for a brand new equipment at the suggested retail price. Medicam Inc. offers a 12 months warranty parts and labor. Warranty will be void for any misuse, abuse or damage done to the unit or any of its components. Consumables are not guaranteed and have a limited life. Any client and/or distributor over using the consumables and not respecting the replacement time of such devices will see its warranty cancelled. Water has to be repaired or changed to any unit on a regular basis. Not doing so will also void the warranty. Handpieces or crystals are NEVER under warranty.

Extended warranty (2nd and 3rd year) for clients and/or distributors who have acquired such additional coverage will be limited only to major parts: Light source, power supply and water tank. Screen control panel, hand piece, switches, water caps, etc...may have to be replaced after a period of time due to the permanent use. Customer should be sending the unit back to Medicam (at the customer's expenses and shipping back pre-paid by the customer insured, by express delivery and with a tracking number) for a period of 1 week (7 OPEN DAYS) for full cleaning and check up once in the 1st year and twice any subsequent year.

Any extended warranty has to be purchased before the 1st day of the 10th month following the acquisition of the unit. An invoice will be sent to all customers for service renewal at the 9th month. All customers HAVE TO send by fax a meter reading of their unit each last day of the month to keep the warranty active.

Any overused unit should be upgraded to a higher model to avoid cancellation of the warranty.

To arrange for the return of your equipment, simply request a Return Materials Authorization number by faxing a copy of your invoice to 1-514-737-0931 or emailing at service@medicam.ca. Failure to submit the invoice may result in unnecessary delays. Please include a fax number so we may fax your approved return number, packaging instructions, and return address. If a fax number is not available, please supply us with your email address. Exchanges (EX-RMA's) and Warranty Repair (WR-RMA's) may be applied for by email at service@medicam.ca or by fax at 514-737-0931. For the protection of Medicam Inc, subsidiaries or affiliates, as well as the customer, full packaging instructions and correct RMA procedures must be provided and complied with to avoid damage to merchandise by improper packing. At no time and under no circumstances, a customer will be eligible for a full or partial refund. Any unit has to be sent back in its original packaging for repair.

1. Customer is required to apply for a RMA number (Returned Material Authorization), which will be issued at Medicam's sole discretion. 2. For any defective unit delivered, all items must be accompanied by the original invoice and a clear description of the problem. 3. Claims must be made maximum 5 days following delivery. 4. Restocking fees up to 50% may apply to items, which are used, abused, missing, damaged, or otherwise incomplete. If returned products are claimed to be defective, a complete written description of the nature of the defect must accompany all returned products. Items not eligible for return or sent back by the customer without an RMA number will be returned to customer, transportation collect and not accepted by Medicam at the sole risk of the customer. Shipping is not refundable. Exceptions to RMA program such as Opened/Used Hand Pieces, Crystals, etc...: may not be returned, by law. Items will be repaired or replaced in accordance to manufacturer's warranties. Before connecting the hand piece, activating the unit, adding water, unwrapping the crystals, etc..., we suggest that you check the shipping container and packing list to verify that you have received exactly what you ordered. Special Order Items: may not be returned (includes items that were modified, customized, or changed while in the custody of the customer). Textbooks/Instruction Literature, Operation Manual: may also be returned. Expired/Discontinued Items: may not be returned (articles which cannot be returned to the manufacturer).

All units have to be protected with a proper power surge device and a spike suppressor and never be plugged directly in the wall outlet in order to protect the electronic components from electrical intensity variations. All requirements from Medicam Inc or any of its distributors or subsidiaries have to be respected. Please check all requirements in the user manual. Non respect of any clause of the requirements will void the warranty at the sole responsibility of the client.

Medicam Inc warrants the customer that products purchased hereunder will conform to the applicable manufacturer's specifications for such products.

The Client or Distributor shall comply with all Applicable Laws existing in the Territory from time to time concerning the Products and shall keep Supplier informed of any relevant changes therein. In particular but without limitation Distributor / Customer (i) shall at its own expense obtain all necessary permissions, consents and licenses to enable client or Distributor to market, sell, buy or use the Products in the Territory; (ii) shall obtain any other governmental or other permission, consent or license or make any registration necessary for the full and legal operation and performance of this Contract; (iii) shall be responsible for the management of the importation of the Products into the Territory in compliance with Applicable Laws and the payment of all applicable import duties, taxes and other charges, and shall promptly upon Supplier's request provide to Supplier copies of all documents evidencing the same. Disclaimers. Medicam Inc. is not responsible for any incorrect or inaccurate Content posted on the site. Medicam Inc. assumes no responsibility for any error, omission, interruption, deletion, defect with the site (or information available on this site).

The Site and the products available on the site are provided 'as is' and Medicam Inc. expressly disclaims any warranty of fitness (including both information and products) for a particular purpose or non-infringement. Medicam Inc. cannot guarantee and does not promise any specific results from use of the site or products.

You agree to fully indemnify and hold Medicam Inc., its subsidiaries, affiliates, officers, agents, and other partners and employees, harmless from any loss, liability, claim, or demand, including reasonable attorney's fees, made by any third party due to or arising out of your use of the information or products available on this site in violation of this Agreement and/or arising from a breach of these Terms of Use and/or any breach of your representations and warranties set forth herein.

Limitation on Liability. Except in jurisdictions where such provisions are restricted (and in that event Liability is disclaimed to the fullest extent permitted by law), in no event will Medicam Inc. be liable to you or any third person for any indirect, consequential, exemplary, incidental, special or punitive damages, including also lost profits arising from your use of information or products on this site, even if Medicam Inc. has been advised of the possibility of such damages. Notwithstanding anything to the contrary contained herein, Medicam Inc. Liability to you for any cause whatsoever, and regardless of the form of the action, will at all times be limited to the amount paid, if any, by you to Medicam Inc. for information or products available on this site.

Disclaimer 1: International Marketplace Multi-Jurisdiction Distance Selling Parameters. The information provided on this site is for information purposes only, and is not intended as medical advice. Some information available on this site may be experimental (or medically unproven) in some countries, but fully validated and proven in others. Being a global supplier, it is impossible to know all of the parameters (of laws etc.) regarding medical devices (i.e. liability, restrictions, labeling, registration requirements, pre-market approval or general medical/product claims etc.) in every jurisdiction on Earth. Customer is hereby notified that they are solely responsible for adhering to all local regulations regarding the use or possession of medical devices and agrees to fully indemnify and hold harmless Medicam Inc., its owners, employees and affiliates for any and all damages arising from information or products available on this site.

Disclaimer 2: Medicam Inc. does not have an official position regarding 'permanency or efficiency' for any products available on this site (or provided by way of this site: including but not limited to printed material sent by fax, e-mail, regular mail or private courier). Although we publish empirical evidence, clinical testing trial results, and/or medical/scientific data which may be conclusive (and/or suggestive) for 'permanency' of hair removal, tattoo removal, breast augmentation, etc.. Medicam Inc. hereby disavows any and all claims (specific or implied) to the overall efficacy or performance of any and all products appearing on this web site. It is our company mission to fill the demands of the cosmetology industry (hair removal, tattoo removal, breast augmentation, etc. equipments and supplies) with quality, affordable products which are user friendly. We choose our products and inventory based strictly upon popular demand (requests by our customers/potential customers). Medicam Inc. publishes what is believed to be viable scientific and medical data supporting specific hair removal procedures, tattoo removal and breast augmentation procedures, etc... (involving the following spectrum of medical claims: permanent, progressively permanent, non-permanent, etc...). These tutorial information pages outline specific procedures and/or techniques but Medicam Inc. does not extend that data/information into any specific medical claims for the products available on this web site. Medicam Inc. presents this data 'as is' and does not represent or warrant that information on this web site is accurate or current.

By using and/or viewing this site you represent and warrant under penalty of perjury the following: You are not directly or indirectly associated with the USFTC, USPS, USFDA, USFCC, or other governing agency. You will not use information available on this site (or provided by way of this site: including but not limited to printed material sent by fax, e-mail, regular mail or private courier) in any tort or malicious manner towards the owners, affiliates or employees of Medicam Inc. Tort shall be described as: Damage, injury, or a wrongful act done willfully, negligently, or in circumstances involving strict liability, but not involving breach of contract, for which a civil suit can be brought. This term of use shall specifically include: defamation, libel and/or slander towards Medicam Inc., their affiliates or employees. If information on this site appears through message boards, on web sites, discussion forums, e-mail or any other public forum which is defamatory, malicious, or negative in nature, Medicam Inc. reserves the right to forcefully remove (from the publisher/host company) any and all information which was taken from the this web site (or provided by way of this site: including but not limited to printed material sent by fax, e-mail, regular mail or private courier) in direct (or indirect) violation of the terms set herein. This shall include third parties and all forms of public media. Failure to abide by this term shall constitute a full acceptance of liability (involving tortious interference, inciting mal-content/fear, and/or manipulating/altering the purchasing decision of potential/existing customers of Medicam Inc.). By accessing this site, you represent and warrant (under penalty of perjury) that you are in full agreement with these terms without limit of parameter, jurisdiction or duration.

Non-Commercial Use by Viewers. The Medicam Inc. site is for the personal use of individual customers/potential customers only and may not be used in connection with any commercial (organizations, companies, and/or businesses) endeavors. Those who may not become customers (including private or public research, investigators and all other non-commerce related persons/firms/agencies) of Medicam Inc. are hereby prohibited from the use of site. Illegal and/or unauthorized uses of the Site, including unauthorized framing of or linking to the site be held liable for civil penalties hereby disclosed at \$1,000,000 USD per infraction (at the sole discretion of Medicam Inc.). Appropriate legal action will be taken, including without limitation, civil, criminal, and injunctive redress. Violator will be responsible for court/investigational/attorney fees. By accessing this site, you represent and warrant (under penalty of perjury) that you are in full agreement with these terms without limit of parameter, jurisdiction or duration.

Limitation on Liability. Except in jurisdictions where such provisions are restricted (and in that event Liability is disclaimed to the fullest extent permitted by law), in no event will Medicam Inc. be liable to you or any third person for any indirect, consequential, exemplary, incidental, special or punitive damages, including also lost profits arising from your use of information or products on this site, even if Medicam Inc. has been advised of the possibility of such damages. Notwithstanding anything to the contrary contained herein, Medicam Inc. Liability to you for any cause whatsoever, and regardless of the form of the action, will at all times be limited to the amount paid, if any, by you to Medicam Inc. for information or products available on this site. If any provision of this Agreement is held invalid or is unenforceable in any jurisdiction, the customers purchase/transaction shall be immediately (and retro-actively) voided.
