24p Cinema Smoother

The system analyzes the frames

before and after, and generates and inserts three new frames. By

displaying images with 96 frames compared to the 24-frame original

source, smooth images are produced without the blurring that is typical of movies.

* These images are for a 60Hz input signal.

Wide Viewing Angle

Panasonic TC-L60E55 60" Full HD SMART VIERA LED television (TC-L60E55)

With VIERA's wide 178°* viewing angle, you see clear, vibrant images from every seat in the room. The backlight features a wide transmission aperture that enhances contrast between light and dark and improves response to provide smoother motion images.

* The range at which the contrast ratio is 10:1 or higher.

3D Real Sound

Sound Lifting Driver
Original Panasonic acoustic-field compensation technology produces highly accurate sound imaging. Matched to human auditory characteristics, the frequency for the bandwidth in which the sound is located is adjusted and the optimal compensation is applied.

VIERA remote App Support: Smartphone Remote
VIERA remote App lets you

Panasonic TC-L60E55 60" Full HD SMART VIERA LED television (TC-L60E55)

use a smartphone or tablet device as a remote control. Tap and flick-based commands are intuitive. Text input is easy, too, with familiar keyboard operation. These handy devices also make great gamepads.

More Comfortable Operation

Free Point Operation

More intuitive free-point operation for web browsing, by using the touch screen as a touch pad.

Gamepad Operation*

Gamepad operation for VIERA Connect game applications which can be enjoyed on the large screen.

* Gamepad operations can be used only for games downloaded from the VIERA Connect Market.

Linking Content Enables Greater Enjoyment

Browser Linkage

You can display the same web pages on VIERA and smartphone with easy operation.

Media Flick*

Simply "Swipe Forward" and "Swipe Back" photos, movies and music* to and from VIERA. You can also share content between smartphones.

* Media Flick function for music data is supported only by Android smartphones.

** This application is scheduled to be updated this Autumn.

Learn about the setup instructions, main features, FAQs and more information for the Android, and for the iPhone, iPod touch, and iPad.

Product Support Center

Frequently asked questions

(FAQ) about connecting peripheral devices and operating methods are explained using movies. They are easy for everyone, young or old, to understand. A video guide can be accessed from VIERA Connect.

* Requires the downloading of a free app from VIERA Connect Market.

eHELP

No more need to search through the User's Manual. Now you can find out how to operate and connect devices right on your TV screen. Just select and display the eHELP from VIERA Tools.

VIERA Connect

VIERA Connect is an internet service for TVs based on the use of cloud servers.

It brings you video-on-demand (VOD), catch-up TV,

Panasonic TC-L60E55 60" Full HD SMART VIERA LED television (TC-L60E55)

games, educational content, and lots more, through a wide range of apps. It's a great way to relax in your living room with family and friends.

Find your favorite apps:

Web Browser

The browser supports HTML5 pages, so you can browse the Internet much like you do with a PC. Unlike a PC, though, the large screen allows the whole family or a group of friends to comfortably view a wide variety of content.

WiFi Built-In

It is easy to connect to the internet or a home network by using the WiFi Built-In function. There is no need for cords or cables, so the layout is flexible and the room stays neat and uncluttered. Using a wireless connection for VIERA Connect and employing the DLNA function make it easy to share photos and movies.

* A wireless LAN environment is required to use the WiFi Built-In function.

DLNA

A DLNA-compatible VIERA makes network connection super easy. It makes content easy to share by linking equipment over a home network. Enjoy photos, movies, music and more in the living room, bedroom, or any room in the house.

* Wireless LAN Adaptor is required for home networking.

Panasonic TC-L60E55 60" Full HD SMART VIERA LED television (TC-L60E55)

Game Mode

Games are much more fun when there's no lag in operation. VIERA automatically chooses settings that provide the optimal image, so you get super-fast response and no delays.

Even dark scenes with delicately rendered details are beautiful and easy to see. Game mode makes all of the game apps on VIERA Connect even more fun to play.

Media Player

Simply insert an SD Memory

Card or USB memory stick into the slot to enjoy previously saved photos, video clips and music on VIERA's large screen. You can also add frames and other effects to your photos and videos, and create slide shows complete with background music. A wide variety of formats are supported, so you can listen to PC-based music files and web movies right on your TV.

* Applicable formats vary depending on the model.

VIERA Link™

VIERA Link interlinks the operation of various AV devices, so you can operate them all using only the VIERA remote. Setup is easy, too – simply connect the devices to each other via HDMI cables.

Eco Mode

This mode automatically turns the power off and adjusts the brightness depending on VIERA's operating status. Settings can be configured by selecting Eco mode from VIERA Tools.

No Signal for 10 Minutes or No Activity for 3 Hours

This setting automatically turns the power off when there's no image signal for 10 minutes or more, or when there's no activity for 3 hours or more.

Power Save

This setting adjusts screen brightness to reduce power consumption.

C.A.T.S. [Contrast Automatic Tracking System]

This detects the brightness of the room and automatically adjusts screen brightness accordingly. When the room darkens, it lowers the screen brightness and adjusts the image quality for easier viewing while suppressing power consumption.

Panasonic TC-L60E55 60" Full HD SMART VIERA LED television (TC-L60E55)

Power Saving Functions in VIERA Link™

The power of each connected device is adjusted depending on usage to reduce wasteful usage.

Standby Power Save

When VIERA is turned off, the power consumption of connected devices* is minimized.

* VIERA models for 2009 or above, and video products for 2009 or above compatible with Power Save or Quick Start.

** The power consumption value differs depending on the discs used in connected devices and the usage conditions.

Intelligent Auto Standby

Power consumption is minimized by using VIERA Link™ control for interconnected devices.

* VIERA models for 2009 or above, and video products for 2009 or above compatible with Power Save or Quick Start.

Notice for VIERA Connect

* The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the service.

* Not all features of websites or content of the service may be available.

* Some content may be inappropriate for some viewers.

* Some content may only be available for specific countries and may be presented in specific languages.

* The MLB, FOX Sports, YouTube™, hulu Plus, Netflix, Cinemanow, Amazon Instant Video™, VUDU, iFit, Withings, AP, AccuWeather, BodyMedia, SHOUTcast, Pandora®,
