WARNING DECAL PLACEMENT

This drawing shows the location(s) of the warning decal(s). **If a decal is missing or illegible, see the back cover of this manual and request a free replacement decal. Apply the decal in the location shown.** Warning decals in other languages are included. Apply the warning decals on top of the English warnings in the indicated location(s) if desired. Note: The decal(s) may not be shown at actual size.

⚠ WARNING

- Misuse of this machine may result in serious injury.
- Read user's manual prior to use and follow all warnings and instructions.
- Do not allow children on or around machine.
- Pedals continue to spin when you stop pedaling.
- Spinning pedals can cause injury.
- Reduce pedal speed in a controlled manner.
- This bike does not freewheel.
- User weight must not exceed 350 lbs / 159 kgs.
- This product should always be used on a level surface.
- This product is not intended for therapeutic use.
- Replace label if damaged, illegible, or removed.

IMPORTANT PRECAUTIONS

⚠️ WARNING: To reduce the risk of serious injury, read all important precautions and instructions in this manual and all warnings on your exercise bike before using your exercise bike. FreeMotion Fitness assumes no responsibility for personal injury or property damage sustained by or through the use of this product.

1. Before beginning any exercise program, consult your physician. This is especially important for persons over age 35 or persons with pre-existing health problems.
2. Use the exercise bike only as described in this manual.
3. It is the responsibility of the owner to ensure that all users of the exercise bike are adequately informed of all precautions.
4. The exercise bike is intended for use in a supervised environment only.
5. Keep the exercise bike indoors, away from moisture and dust. Do not put the exercise bike in a garage or covered patio, or near water.
6. Place the exercise bike on a level surface, with a mat beneath it to protect the floor or carpet. Make sure that there is at least 2 ft. (0.6 m) of clearance around the exercise bike.
7. Inspect and properly tighten all parts regularly. Replace any worn parts immediately.
8. Keep children under age 12 and pets away from the exercise bike at all times.
9. Wear appropriate clothes while exercising; do not wear loose clothes that could become caught on the exercise bike. Always wear athletic shoes for foot protection.
10. The exercise bike should not be used by persons weighing more than 350 lbs. (159 kg).
11. Always keep your back straight while using the exercise bike; do not arch your back.
12. The exercise bike does not have a freewheel; the pedals will continue to move until the flywheel stops. Reduce your pedaling speed in a controlled way.
13. To stop the flywheel quickly, press the resistance knob downward.
14. When the exercise bike is not in use, tighten the resistance knob completely to prevent the flywheel from moving.
15. Over exercising may result in serious injury or death. If you feel faint or if you experience pain while exercising, stop immediately and cool down.

BEFORE YOU BEGIN

Thank you for selecting the new FREEMOTION® S11.8 exercise bike. Cycling is an effective exercise for increasing cardiovascular fitness, building endurance, and toning the body. The S11.8 exercise bike provides a selection of features designed to make your workouts more effective and enjoyable.

For your benefit, read this manual carefully before you use the exercise bike. If you have questions after

reading this manual, please see the back cover of this manual. To help us assist you, note the product model number and serial number before contacting us. The model number and the location of the serial number decal are shown on the front cover of this manual.

Before reading further, please familiarize yourself with the parts that are labeled in the drawing below.

ASSEMBLY

- Assembly requires two persons.
- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing materials until you complete all assembly steps.
- If a part is not in the hardware kit, check to see if it has been preassembled. To avoid damaging parts, do not use power tools for assembly.

- Assembly requires the following tools (not included):

one adjustable wrench

one 6 mm hex key

Assembly may be easier if you have a socket set or a set of ratchet wrenches. To avoid damaging parts, do not use power tools.

1. Attach the Front Stabilizer (8) to the Frame (1) with two M10 x 50mm Button Patch Bolts (73), four M10 Washers (67), and two M10 Locknuts (74).

2. Attach the Rear Stabilizer (7) to the Frame (1) with two M10 x 50mm Button Patch Bolts (73), four M10 Washers (67), and two M10 Locknuts (74).

3. Orient the Handlebar Post (2) as shown.

Loosen the Post Knob (32) on the front of the Frame (1) and pull it outward. Then, insert the Handlebar Post (2) into the Frame.

Move the Handlebar Post (2) upward or downward to the desired position, release the Post Knob (32) into an adjustment hole in the Handlebar Post, and then tighten the Post Knob. **Make sure that the Post Knob is firmly engaged in an adjustment hole.**

4. Identify the Right Pedal (15), which is marked with an "R."

Using an adjustable wrench, **firmly tighten** the Right Pedal (15) **clockwise** into the Right Crank Arm (14).

Tighten the Left Pedal (not shown) **counter-clockwise** into the Left Crank Arm (not shown).

5. Place the exercise bike in the location where it will be used. **Tip: Place a mat beneath the exercise bike to protect the floor.**

Make sure that all four Leveling Feet (29) are in contact with the floor.

If the Leveling Feet (29) are not in contact with the floor, loosen or tighten the Leveling Feet on the Rear and Front Stabilizers (7, 8) until all four Leveling Feet contact the floor.

6. **Make sure that all parts are properly tightened before you use the exercise bike.** Note: After assembly is completed, some extra parts may be left over.

HOW TO USE THE EXERCISE BIKE

HOW TO ADJUST THE SEAT

You can adjust the angle of the seat to the position that is most comfortable. You can also slide your seat forward or backward to increase your comfort or to adjust the distance to the handlebar.

To adjust the seat, first loosen the hex nuts on the seat clamp a few turns. Next, tilt the seat upward or downward or slide the seat forward or backward to the desired position. Then, retighten the hex nuts.

HOW TO ADJUST THE SEAT CARRIAGE

To adjust the position of the seat carriage, loosen the slider knob, move the seat carriage forward or backward to the desired position, and then firmly tighten the slider knob.

HOW TO ADJUST THE SEAT POST

For effective exercise, the seat should be at the proper height. As you pedal, there should be a slight bend in your knees when the pedals are in the lowest position.

To adjust the seat post, first loosen the post knob and pull it outward. Then, move the seat post upward or downward, release the post knob into an adjustment hole in the seat post, and firmly tighten the post

knob. Make sure that the post knob is engaged in an adjustment hole. IMPORTANT: Do not adjust the seat post beyond the stop mark on the seat post.

HOW TO ADJUST THE HANDLEBAR

To adjust the position of the handlebar, loosen the slider knob, move the handlebar forward or backward to the desired position, and then firmly tighten the slider knob.

HOW TO ADJUST THE HANDLEBAR POST

To adjust the handlebar post, first loosen the post knob and pull it outward. Then, move the handlebar post upward or downward, release the post knob into an adjustment hole in the handlebar post, and firmly tighten the post knob.

Make sure that the post knob is engaged in an adjustment hole. IMPORTANT: Do not adjust the handlebar post beyond the stop mark on the handlebar post.

HOW TO USE THE PEDALS

To use the toe cage side of the pedals (see the drawing on page 4), insert your shoes into the toe cages and pull the ends of the toe straps. To adjust the toe straps, press and hold the tabs on the buckles, adjust the toe straps to the desired position, and then release the tabs.

To use the clip-in side of the pedals, you must wear cycling shoes. To clip into the pedals, press the cleats on your cycling shoes firmly into the slots in the pedals until they snap into place. To unclip from the pedals, twist your cycling shoes outward from the pedals.

HOW TO ADJUST THE PEDALING RESISTANCE

To increase the resistance of the pedals, turn the resistance knob clockwise; to decrease the resistance, turn the resistance knob counterclockwise.

To stop the flywheel, push the resistance knob downward. The flywheel should quickly come to a complete stop.

IMPORTANT: When the exercise bike is not in use, tighten the resistance knob completely.

HOW TO LEVEL THE EXERCISE BIKE

If the exercise bike rocks slightly on your floor during use, turn one or both of the leveling feet on the front or rear stabilizer (see the drawing on page 4) until the rocking motion is eliminated.

HOW TO MAINTAIN THE EXERCISE BIKE

Inspect and tighten all parts of the exercise bike regularly. Replace any worn parts immediately.

To clean the exercise bike, use a damp cloth and a small amount of mild detergent.

For maximum performance and safety, replace the pedals every year. **To purchase pedals, see the back cover of this manual.**

IMPORTANT: To avoid damage to the exercise bike and to prevent injury to the user, use only manufacturer-supplied pedals. Other pedals may not be designed for use in fitness clubs or indoor cycling studios and may be dangerous.

PART LIST

Model No. FMEX81110.0 R0311A

Key No.	Qty.	Description	Key No.	Qty.	Description
