OWNER'S MANUAL

Please Read the Manual First before Operation

5.1 Channel 420 Watts Built-In AM/FM Radio/ HDMI KARAOKE Receiver

Important Safety Information

For Customers

Thank you for purchasing the HDMI receiver. We strongly recommend that you carefully study the operating instructions before attempting to operate the unit and that you note the listed safety information.

Caution

You are cautioned that changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

- To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- To prevent fire, do not cover the ventilation of the apparatus with newspapers, table-cloths, curtains and etc. Do not place lighted candles on the apparatus.
- To prevent fire or shock hazard, do not place objects filled with liquid, such as vases, on the apparatus.
- · Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.
- Install this system so that the power cord can be unplugged from the wall socket immediately in the event of trouble

Batteries or batteries installed apparatus shall not be exposed to excessive heat such as sunlight or fire.

System Features

- 5.1 Channel Amplifier.
- 4 HDMI Input Port and 1 HDMI Output Port for HDMI Receiver and HDMI Switcher.
- One Key Switch Function Between HDMI Receiver and HDMI Switcher.
- Built-In AM/FM Radio.
- B+T input.
- 2 MIC Input, Treble and Bass of MIC Adjustable, Independent MIC Volume Control.
- Over Current Protection, Short Circuit Protection And Over Voltage Protection.
- 12 Preset Radio Station.
- Full Remote Control
- VFD Display
- Power Input: AC 115V 60Hz/230V 50Hz;
- Power Output: 300 Watts LR Channel (4 Ohm) 50W for Center, Surround L and Surround R(4 Ohm). ٠
- Inout Selector: 4 in 1 out HDMI Selector, 3 Stereo RCA Selector, 1AM/FM Radio, 1 B+T input, 3 Microphone Input.
- Output: 5 Channel Speaker Output Terminal for L, R, Center, SL, SR, And 1 line Out for Subwoofer and 2 PRE out.
- Total Power Consumption: 350W.

Front Panel Function

- 1. PRO selector.
- 2. Tuner band adjustment selector.

5. Tuner MO/ST audio output selector

- 3.FM/AM input selector. 4. HDMI audio switch selector.
- 11.VFD display window.
- 12.Bass Volume selector.
- 13.DSP control selector.

10.Treb Volume selector.

- 14.Channel source output selector.
- 15.Mute control selector.
- 16.Master volume adjustment knob.
- 17.Power on/off selector.
- 18.B+T Pairing selector.
- 19.Mic1 volume adjustment knob. 20.Delay selector.
- 21.Mic2 volume adjustment knob.
- 22.Mic input socket.
- 23.Mic treble adjustment knob.
- 24.Mic echo adjustment knob. 25.Mic bass adjustment knob.

7. AUX input selector. 9.B+T input selector.

6. HDMI input selector.

- 8. FM/AM input selector.

Using the Remote Control

Howto Pair the bluetooth receiver

The Amplifier have built in a bluetooth receiver. If you need to pair with a bluetooth sender(mobile phone), first open the subwoofer, and press the "Pairing" key on the remote control, the VFD will show " pairing " and flicker. Then search the bluetooth receiver(Device ID:HDKA-2100) by your own bluetooth sender and connect themby the password:0000. After that, you can enjoy the music by the bluetooth receiver. The system will turn to the normal working statue if no paring in 10 minutes.

Battery Installation

1.On the back of the remote control, push the tab and lift off the battery cover.

- 2.Obtain two (2) fully-charged AAA batteries. Match the "+" and "-" marks on the batteries to the "+" and "-" marks in the battery case, then insert the new batteries.
- 3.Align the cover keys with the case holes and press the cover back into place. The tab should click when the cover is locked.
- 4.Test the unit by pressing POWER or any mode key. If the batteries are inserted correctly, the selected mode key will blink once.

Note

- Do not leave the remote control in an extremely hot or humid place.
- · Do not use a new battery with old ones.
- · Do not mix manganese batteries with other kinds of batteries.
- Do not expose the remote sensor to direct sunlight or lighting apparatuses. Doing so may cause a malfunction.
- If you do not intend to use the remote control for an extended period of time, remove the batteries to avoid
 possible damage from battery leakage and corrosion.

Basic Operation

Turn on/off the Power

Press "⁽¹⁾" key to control the power on and off.

Master Volume Control

Press the " vol. " or " Key to adjust the main channel volume.

Side Left Channel Volume Control

Press "OBJUST+" key to adjust side left channel volume.

Side Right Channel Volume Control

Press " key, screen display the SR volume, press "-ADJUST+" key to adjust side right channel volume. **Center Channel Volume Control**

Press " rest " key, screen display the CEN volume, press "-ADJUST+" key to adjust center channel volume. Subwoofer Volume Control

Press ", key, screen display the SW volume, press "-ADJUST+" key to adjust subwoofer channel volume. **Mic1 Volume Control**

Press " key, screen display the Mic1 volume, press "-ADJUST+" key to adjust Mic1 channel volume.

Mic2 Volume Control

Press " Key, screen display the Mic2 volume, press "-ADJUST+" key to adjust Mic2 channel volume.

Mic TreB Control

Press " key, screen display the Mic TreB volume, press "-ADJUST+" key to adjust Mic TreB channel volume. **Mic Bass Control**

Press "Cases" key, screen display the Mic Bass volume, press "-ADJUST+" key to adjust Mic Bass channel volume.

How to Adjust Treble

Press " Rey to adjust the treble output of the main channel.

How to Adjust Bass

Press " " " key to adjust the bass output of the main channel.

How to Play HDMI

Make sure HDMI connection lines are correct, Press the "main "key to play HDMI.

How to Play AUX

Make sure AUX connection lines are correct, Press the "aux" key to play AUX.

How to Play B+T 1.Select B+T Input Mode

Make sure B+T card insert to the B+T socket, Press the "O" key to select B+T input mode.

2.B+T Control

"D": Control the B+T play.

". Control the B+T pause. ". Control the B+T skip.

Delay Control

How to Play Tuner

 \bigcirc 1.Select Program Select Program Use "O" key to select FM/AM band. Press the "O" key to adjust the band of tuner. Press the "O" key for 2

seconds, the FM will search automatically. You can press the "a "key once to stop the function.

2.Listen to the Preset Program

display the radio program's frequency in the memory area.

3.Memory Program

4.Memory Program Press "I to select the radino monoor stereo seace. How to Mute

Press "" key to turn sound off/on. Press again to restore the audio to the original level.

Introduction of DSP Control Key

Press the key "" repeatedly to switch to different operations: Live, Hall or Church. All the above functions can give different sound effects.

Introduction of Source Output Selector Area

Press "" key to receive 5.1 channel(default mode); Press "" key to receive 3.1 channel(SL, SR mute); Press "" key to receive 2.1 channel(SL, SR, CEN mute).

Trouble Shooting

Use this chart to help you solve operational problems. If there are any problems that can not be solved, please contact Service Center.
