## Safety Precaution

Thank you for choosing our portable DVD player. Please read the manual carefully prior to use and keep it for future reference.

Warning: To reduce the risk of fire or electric shock, do not expose this device to rain or moisture.

- 1) Please read the instruction manual carefully and follow all the requirements of safe operation.
- 2) Do not use this unit near water. Do not place the unit over any container with liquid inside.
- 3) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 4) Unplug this unit during lightning storms or when unused for long time.
- 5) About Cleaning: Unplug the system, use only a moist cloth to clean. Do not use liquid detergent or aerosol.
- 6) Only use accessories specified by the manufacturer.
- 7) Refer all servicing to qualified service personnel, servicing is required when the unit has been damaged in any way. Such as if the power supply cord or plug is damaged, liquid spilled or objects having fallen into the unit, has been exposed to moisture, or is not operating normally. Don't try to repair the machine by yourself because of the danger of high voltage and electric shock.
- 8) Do not use irregular shaped discs such as heart or star-shaped discs as they may cause the unit to malfunction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Main Features

## Specification

Compatible disc: DVD+R/RW, DVD-R/RW, CD-DA, CD-R/RW, MP3, JPEG, VCD

Signal system: NTSC/PAL

Panel size: 9 inch

Picture resolution: 480x234(RGB)

Frequency response: 20Hz to 20kHz

Video output: 1Vp-p/75 Ohm, unbalanced

Audio output: 1.4Vrms/10kOhm

Audio S/N: Better than 80 dB

Dynamic range: Better than 85 dB

Laser: Semiconductor Laser, Wave Length: 650 nm/795 nm

Power source: DC 9-12V

Power consumption: 10 W

Operating temperature: 0~40°C

Weight: 0.91kg

Dimensions : 242x 172 x 388 mm

Battery Type: Li Polymer

**Note:**

1. The quality and speed for reading JPEG photos depends on the resolution and compression of the photos. Some JPEG photo may not be played due to the disc quality and the formats.
2. Some DVD+R/RW, DVD-R/RW, CD-R/RW discs may not be played due to the quality of burning.

## Rechargeable battery use

The DVD player features Li polymer battery for portable power supply. The battery has no "Memory Effect" and thus can be recharged safely regardless of whether the battery is fully or partially discharged. The battery fully charges within 3 hours, fully recharged the battery can last about 2 hours with earphone.

## Precautions related to Battery Recharge

The power switch must be in the OFF position to charge the battery. The Red light will indicate that the battery is charging. When the DVD player is fully charged the light will turn to yellow.

## Using and Maintaining Rechargeable Battery

1. The normal working temperature is: 0°C ~40°C;
2. Always unplug AC/DC power supply for the unit when not in use;
3. Heat will be created during playback which is normal, avoid playing while unattended.
4. Do not drop or impact the unit. Avoid heat sources and damp areas.

Caution: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

## Troubleshooting

| PROBLEM  | SOLUTION  |
|--|---|
| No sound or distorted sound  | Make sure the DVD player is connected properly.<br>Make sure all cables are securely inserted into the appropriate jacks.   |
| Can't advance through a movie  | You can't advance through the opening credits and warning information that appears at the beginning of movies because the disc is programmed to prohibit that action.   |
| The icon  appears on screen | The feature or action cannot be completed at this time because:<br>1. The disc's software restricts it.<br>2. The disc's software doesn't support the feature (e.g., angles)<br>3. The feature is not available at the moment.<br>4. You've requested a title or chapter number that is out of range. |
| Picture is distorted   | The disc might be damaged. Try another disc;<br>It is normal for some distortion to appear during forward or reverse scan.  |
| No forward or reverse scan   | Some discs have sections that prohibit rapid scanning or chapter skip;<br>If you try to skip through the warning information and credits at the beginning of a movie, you won't be able to. This part of the movie is often programmed to prohibit skipping through it.                               |

Due to continuous improvement, no prior notice will be given regarding changes on above feature and spec.
