Epson **S52**
EMP

The multimedia partner that brings the big screen to work and home

The versatile Epson EMP-S52 multimedia projector gives a professional performance at work and at home. Outstanding for business or education presentations, but just as happy bringing big screen entertainment to your living room.

You choose – it's always ready to go
With one of the quickest start-up times on the market, this projector will turn on in just 5 seconds. Afterwards you can turn off, disconnect the power cable and be ready to move straight away.

You choose – it's so adaptable
After a quick, simple set up, you can rely on a perfect, uniform image from a wide range of positions, thanks to a large 30º vertical keystone correction angle. And it's great in smaller rooms too - a 60" image can be created just 1.8m from the screen.

You choose – it's so easy
This projector is designed for simple operation. The convenient, intuitive control panel gives you quick access to a range of information in key areas including power, status, adjustments, controls and a comprehensive help function.

You choose – it's brighter and better
Epson's long life, low wattage 'E-TORL' lamp is smaller and more efficient without compromising brightness and lasts for up to 4000 hours. This projector is quiet too - at just 28dB sound level, your audience will always be concentrating on your presentation.

You choose – it's up to you
With the Epson projectors, you're always in control. Password protection offers security, and a lockable control panel means if you have the remote, you have complete control.

Big screen home entertainment

You choose – it's your lifestyle
Whatever you choose to give the big screen treatment, from photos and movies to sports and video games, the 7 preset colour modes ensure excellent colour every time. And with the black and white enhancer, you'll see every detail even on dark or bright images.

You choose – it's the big screen solution
You can even create a genuine movie experience. Simply change the aspect of the screen from 4:3 format to 16:9 – just like a real cinema!

Entry level value, top level features.

For business presentations

- Compact and light, simple to set up and operate
- Enjoy unbeatable quality with Epson 3LCD technology
- Keep on the move with Quick Start, Instant Off
- AV mute slide for more effective presentations

For home entertainment

- Choose from 7 colour modes to optimise quality
- Add the cinema experience to your home with the 16:9 viewing format
- A true multimedia partner – from computers to gaming and DVD player to digital cameras
- Place the projector off centre with no distortion
