CREATING CONTENT OFFERS

If you can create post content in wordpress, you can also create Popup Magic content content easily. Follow these steps..

1. Go to Popup >> Add New

2. Write your offers here

a. Fill with title of the offer

b. Insert short product description here.. Don't insert any contents

except 'text'.. But, you can also add content list

c. Don't forget to set featured image (recommended size: 250 pixels of width).. Look at the previous page to see the preview

d. Insert your ouput link here (affiliate link, amazon, squeeze page, etc)

e. Enter with Button Text

You can add up to unlimited contents. Do the steps above for all of your content.. If you have a problem in using this plugin, contact support at: Support@Mastermarketinglabs.com
