Helmet Camera CamOne infinity HD 1080p

The CamOne infinity HD 1080p is one of the most compact action helmet cameras that we use. Small (49x42x34 mm) and weighing just 88 g, this is an innovative high-tech cube. Despite its size, the CamOne has an easy-to-read screen on the back of its robust aluminium body. It is supplied with an extensive range of accessories including essential mounts and a strong waterproof housing, allowing the CamOne to be used whatever the weather, in harsh conditions, and even under water. Its easy-to-use menu system is navigated using control buttons that give a tactile click. The buttons can still be operated inside the waterproof housing. Its large 1.5" (3.81 cm) built-in screen displays the menus clearly. You can also preview your shots and play back your photos and videos on the screen.

What's included:

- CamOne infinity HD with 170° lens
- USB cable - USB AV cable
- Ten-2-Ten adapter
- Rechargeable battery
- Divebox (waterproof housing)
- Long connector bracket
- Short connector bracket
- Saddle and handlebar mount
- M-mount
- Helmet mount
- Universal mount
- Small adhesive pad
- Large adhesive pad
- Replacement screws for the lens
- Instructions
