READ AND SAVE THESE INSTRUCTIONS

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

WARNING - To reduce the risk of fire or electrical shock, do not use this product with any electronic speed-control device.

Do unplug Zippi before cleaning.

Do clean your Zippi regularly.

Do use common sense when using this and/or any electrical appliance.

Do use caution when positioning this product on an elevated surface, as vibrations or accidental bumping may cause the fan to unexpectedly fall.

Do Not operate this product with tattered or missing blades.

Do Not position too close to drapes as they may be drawn into the blades.

Do Not position too close to other objects or allow the blades to continually come in contact with other objects.

Do Not operate this product in close proximity to long, loose items like tassels or long hair.

Do Not use on wet surfaces.

Do Not use in a bathtub or shower.

Do Not immerse in water nor allow water to drip in the motor housing.

Do Not use gasoline, thinners, solvents, ammonias or other chemicals for cleaning.

Do Not use near furnaces, fireplaces, stoves or other high-temperature heat sources.

Do Not use this product outdoors.

Do Not carry this product by the cord nor use the cord as a handle.

Do Not use this product if it has a damaged cord or plug.

WARNING! This is a fan - not a toy and not intended for children. To reduce the risk of personal injury and electric shock, the Zippi fan should not be used, operated or placed where children can reach it.

Congratulations on purchasing Vornado's innovative Zippi™ fan!

This brand new concept in air movement was developed to give you personal air comfort control. It is ideal for use in bedrooms, dorm rooms, offices, hotel rooms, RVs and more. Its unique 8" diameter soft cloth blades allow for safe unguarded use in many settings. The blades are soft when they come into contact with any objects yet provide ample air movement when put into operation. Zippi is designed to fold to a convenient, compact size when not in use, providing easy storage or travel.

How to use

Your Zippi fan is completely assembled and ready for immediate use. Simply plug in Zippi and enjoy its cooling effect. The Zippi fan gives you control over your personal comfort in many ways. Thanks to Zippi's small size and easy portability, it can be used to provide a cool breeze in almost any space. Since Zippi is designed for personal cooling, the airflow pattern and angled blades are specifically engineered to drive maximum air to the person positioned directly in front of the fan. The adjustable fan head gives you the freedom to customize the direction of the airflow. Simply position the fan head at an angle that provides you with the ideal amount of cooling. Zippi also allows speed control with the control knob at the back of the fan. Speed "I" is the lowest setting, "II" is the highest setting and "O" is the

off position. At either speed, the soft, pleasing sound created by Zippi is the perfect blend of quietness along with the soothing sound of whooshing air.

Position Zippi away from objects that may block airflow from the back or from the front. Keep the blades from coming into contact with any objects as this may reduce the life of the cloth blades and cause excessive wear on the motor. It is intended that the blades will not regularly come into contact with objects, but they are designed to not cause injury if they accidentally do contact objects or individuals.

If using Zippi on an elevated surface, even though the base is coated with a non slip surface, use caution in positioning it to minimize the possibility of it falling from that surface.

Should a blade become loose or tattered, DO NOT operate the fan. Contact Vornado Air Circulation Systems for assistance. If your Zippi operates with excessive vibration, check that all three blades are fully extended when in operation. If vibration continues, contact Vornado for assistance. See below for blade replacement instructions.

It is possible to remove the front hub should something accidentally wrap around the motor shaft. Pull the hub straight off the shaft. To put the hub back on the shaft, push the hub onto the shaft until it is in near proximity to the body, but allows free rotation. Do not use a hammer as this could result in bearing damage.

Blade Replacement
Should your Zippi need blade replacement, contact Vornado Air Circulation Systems, Inc.

Care and Maintenance

The motor is permanently lubricated and requires no oiling. Because your Zippi moves air it will require regular cleaning. Be sure to unplug the unit prior to cleaning. To clean just unplug and wipe off the fan with a soft cloth.

Zippi™ is the latest addition to Vornado's family of innovative air comfort products.

Zippi's function is to provide just the right amount of air directed at you to help maintain your personal comfort. Vornado has additional air circulation products that are ideal to use when an entire room needs continual air circulation and destratification. Vornado's lines of Air Circulators, Heaters, Humidifiers, Air Cleaners and Vintage Fans provide perfect solutions to satisfy any comfort need. All of our high-quality products are available to view and order at www.vornado.com.

Vornado Air Circulation Systems
3-Year Limited Warranty

Vornado Air Circulation Systems, Inc. warrants to the original consumer or purchaser that this Vornado Zippi fan is free from any defects in material or workmanship for the length of term as described above. If any such defect is discovered within the warranty period, Vornado Air Circulation Systems, Inc., at its discretion, will repair or replace the unit.

This limited warranty covers parts failure or manufacturing flaw. It does not apply to defects resulting from abuse of the unit, modification, alteration, repair or service by anyone other than Vornado Air Circulation Systems, Inc., mishandling, improper maintenance, commercial use of the unit, damages which occur in shipment or are attributed to acts of God.

THIS WARRANTY IS THE ONLY ONE WE GIVE ON YOUR VORNADO ZIPPI. IT SETS FORTH ALL OUR RESPONSIBILITIES REGARDING YOUR VORNADO ZIPPI. THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED ABOVE. VORNADO AIR CIRCULATION SYSTEMS, INC. SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, OR ARISING OUT OF ANY BREACH OF THE WARRANTY. ANY IMPLIED WARRANTIES INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE DURATION OF THE EXPRESS WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or a limitation on how long the implied warranties last, so the above exclusion or limitations may not apply to you. This warranty gives you specific legal rights and you may have other rights that vary from state to state.

HOW TO OBTAIN RETURN AUTHORIZATION
For warranty service, call 1-800-234-0604 or e-mail consumerservice@vornado.com to obtain a Return Authorization (RA) form. Please have or include your Zippi fan's model number and serial number, as well as your name, address, city, state, ZIP code and phone number when contacting Vornado for warranty service. To assure proper handling, packages must be

clearly marked with the RA number. Packages not clearly marked with the RA number may be refused at the receiving dock.

For your records: Staple or attach your original sales receipt to this Owner's Guide. Please also write your Zippi's serial and model numbers below.

Serial No. _____
Model No. _____
(located on product specs decal)

Please allow 3-5 weeks for repair and return of your Vornado Zippi.
