Bluetooth Audio Receiver

DEAR CUSTOMER

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference.

1.0 INTRODUCTION

This is a portable Bluetooth Audio Receiver that simply enables you to wirelessly control and listen to all your favorite music from your device through your home Stereo speaker or Amplifier receiver with one piece of stereo cable, and then pairs your device to the Bluetooth receiver. You'll not only enjoy superior quality music on your stereo speakers or Amplifier Receiver, but also the convenience of a wireless connection. When the battery is run out, you can use one piece of Micro USB to USB cable to connect to power Adapter or computer for recharging. It is ideal for your mobile phones, portable devices, or personal computers.
