ABOUT

Your favorite Sponge is back! Grab your friends for an adventure like no other! Plankton and his new legion of evil robots have destroyed the Krusty Krab and stolen the safe that houses the famous Krabby Patty formula. It's up to you and your friends to locate the hidden Keys before the secret is lost forever!

MAIN MENU

Level Select - Complete levels to unlock all new areas!
Then go back to access previously
completed levels.

Options - Review Controls, adjust your Audio settings,
view Credits and enter Cheat Codes.

CHARACTER BIOS

Sandy

One of SpongeBob's closest friends is Sandy. She's been 'round these parts ever since she moved from Texas!

Super Power:

Melee attacks produce 2x damage

Mr. Krabs

This deep-sea entrepreneur has worshipped the all mighty dollar for as long as he can remember.

Super Power:

Collects twice as many sprockets

SpongeBob

He thinks Jellyfishing and bubble blowing are the Seabees knees.

Super Power:

Invincibility

Patrick

The inner machinations of my mind are an enigma.

Super Power:

Ground Slam increases area of effect

Squidward

He envisions himself a man of the arts, just biding time as a cashier until his big break.

Super Power:

Gizmos deal 2x damage

WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement or convulsion.
- altered vision
- loss of awareness
- seizures

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Avoid large screen televisions. Use the smallest television screen available.
 - Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
 - Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

NOTICE:

Use caution when using the DUALSHOCK®3 wireless controller and the PlayStation®Move motion controller motion sensor function. When using the DUALSHOCK®3 wireless controller or the PlayStation®Move motion controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ SYSTEM FORMAT DISC:

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

3D TV DISCLAIMER:

PS3™ system software v3.30 or higher, HD 3D television with compatible 3D active glasses and highspeed HDMI cable (sold separately) required for 3D features. Visit www.us.playstation.com/support/3D for details.

WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

Some people may experience discomfort (such as eye strain, eye fatigue, or nausea) while watching 3D video images or playing stereoscopic 3D games on 3D televisions. If you experience such discomfort you should immediately discontinue use of your television until the discomfort subsides.

SCE recommends that all viewers take regular breaks while watching 3D video, or playing stereoscopic 3D games. The length and frequency of necessary breaks may vary from person to person – please take breaks that are long enough to allow any feelings of discomfort to subside. If symptoms persist, consult your doctor.

The vision of young children (especially those under six years old) is still under development. SCE recommends that you consult with a doctor (such as a pediatrician or eye doctor) before allowing a young child to watch 3D video images or play stereoscopic 3D games. Adults should supervise young children to ensure they follow the recommendations listed above.

When using any 3D enabled device with your PlayStation®3 system you should read the instruction manual for that device and check www.us.playstation.com/support/3D for updated information.

Consumer Service/ Technical Support Line 1-800-345-7669

Call this number for technical support, installation or general questions regarding PS3™ system and its peripherals. Representatives are available Monday – Saturday 6AM – 8PM and Sunday 7AM – 6:30PM Pacific Standard Time.

TIPS

- When a character's Health Bar is empty, another character can revive them by standing near the downed character.
- You don't have to break open every chest you see immediately, save them. You can always backtrack if you need more Health.
- Fill your Power Meter by collecting the batteries dropped by destroyed robots. Once full, you can activate your Super Power.
- No time to look at your Power Meter... The Characters will tell you when they are ready to use their Super Power, just listen for it.
- Are there a lot of enemies nearby? You can perform a Ground Slam multiple times in a row to keep the mayhem going.
- Boss Battles have you down? If their eye is open, shoot.

ONLINE SETUP INFORMATION

Wired Connection Setup

Plug one end of an Ethernet cord into the back of the PS3™ system, and plug the other end into an open slot on your router or modem.

Enter Setting on the XMB™ and select System Update to update your system with the latest version of its software.

To confirm your Ethernet connection is working properly, select Internet Connection Test from within Network Settings on the XMB™.

Wireless Connection Setup

If you have an available wireless connection, you can connect your PS3™ system to the Internet without an Ethernet cord.

Enter Setting on the XMB™ and select Network Settings. Choose Internet Connection Settings, select Easy for your setting method, and then select Wireless for your connection method. Choose Scan to have your PS3™ system search for, and then display, a list of available wireless networks.

NOTE: If your router supports AirStation One-Touch Secure System LAN setup, select Automatic for your setting method. If you follow the on-screen instructions, the necessary settings will be completed automatically.

Choose your wireless network via its SSID (the network name). Select your preferred network and the type of security it uses.

If your network uses a password, select if it is a WEP or WPA then enter the password. If your network does not have a password, select None for security. Save your settings when you are finished.

To confirm your connection is working properly, select Test the Connection.

NOTE: Depending on the network environment, additional settings for PPPoE, proxy server, or IP address may be required. For details on these settings, refer to information from your Internet service provider or the instructions supplied with the network device.
