Setup your Imperial BAR 1

Analogue connection

1. Connect one 3.5mm end of the include audio to headphone jacket on the Imperial BAR 1
2. Connect the other end to an audio input on your home stereo system (3.5mm or 3.5mm → 3.5mm2 RCA). Consult your stereo user's manual for more information on how to accomplish this.

Digital connection

1. Connect one TOSLINK cable end to optical jacket on the Imperial BAR 1(recommended)
2. Connect the other end to one TOSLINK input of your home stereo system. Consult your stereo user's manual for more information on how to accomplish this.
3. Connect AC power adaptor cable to DC input jacket of , AC end to any AC outlet.
4. The LED light will flash once to show the unit is powered and ready for being paired for your devices.

Pairing your Imperial BAR 1

iPad/iPhone/iPod touch

1. Go to Bluetooth manager of your iPad/iPhone/iPod touch by the following steps

a From your iPad/iPhone/iPod touch home page, tap “setting”

b. Inside Settings tap on “General”

c. Inside General tap on “Bluetooth”

2. Turn On the Bluetooth function

3. Your iPod/iPhone/iPad will auto searching available device. You will see “Music Receiver” then Tap on it.

4. Enter “0000” when the player asks for PIN code (some device need not to input PIN). This will allow the iPad/iPhone/iPod touch to pair with “Music Receiver”

5. Your iPod/iPhone/iPad connected to Now. And You can play music from your iPod/iPhone/iPad.

Android Phone/Tablet (ver 4.0 as Example)

1. Go to Bluetooth manager of your smart phone by the following step

a. From your smart phone home page, tap on “setting”

b. Inside the setting, turn on The Bluetooth

c. Bluetooth is turned on

2. Searched Bluetooth Devices will show up, please tap on “Music Receiver”

3. Enter “0000” when the player asks for PIN code (some device need not to enter the PIN)

4. Once paired, the blue LED light on the Imperial BAR 1 will flash once. The Blue LED will keep lighted when a connection is established And In your Smartphone there is showed “connected to media audio”

Note: Some devices, such as iPhone, will connect immediately after pairing so the LED will ON. Other devices, such as notebook, may ask you if you wish to connect and LED will go off after pairing until a connection is established.

Although the can only play music from one device at a time, it is capable of being paired to up to 8 devices. It means that you have to enter the PIN code once for each device.

You can play the music now. Just play music on your device as you normally would and the sound will come out from your stereo system.

Note: the effective range of is 33 feet(10M).

Reconnecting your device

If you move out of range or turn off the Bluetooth feature on you iPad/iPhone/iPod touch or Smartphone, will disconnected from your device. To reconnect, simply open the Bluetooth manager and tap on the “Music Receiver”, then you do not need to input PIN again, the connection will be done automatically.

Adding a new phone or tablet :

If you want to switch from one device to another, please follow these steps

1. End the existing Bluetooth connection with connected device.
2. The Imperial BAR 1 can now be connected with another device such as iPad/iPod/iPhone or Smartphone or tablet.
3. Follow the section “Pairing the Imperial BAR 1” to connect a new device.

Out of range or lost signal:

When the paired phone or device away from receiver (33 feet) or there is something blocking the Bluetooth signal. The LED light will go off, it means the connection between device and Imperial BAR 1 is lost. To avoid a lost connection:

1. Move the music device back into range (within 33 feet), and make sure there's a clear line of sight and there are no obstructions between Imperial BAR 1 and device.
2. Within 15 seconds, the connection will automatically be reestablished and LED will turn on

3. If the connection is lost for more than 15 seconds, you need to reconnect the device and Imperial BAR 1 again. Please follow the “Reconnect Your Device” section.

Indication of LED

Indication	meaning	Description
