2. Installation.....	3
3. Usage.....	4
3.1 Add Secure Contact	
3.2 Secure Voice call	
3.3 Secure Text	
3.4 Secure File Transfer	

1 Security Warnings

- Only calls/text messages which are communicated with GOLD LOCK are secure, normal calls/text messages on the device are not secure.
- Do not allow access to the secure phone device by other people.
- Do not allow installation of non-trusted software on the secure phone.
- For maximum security - it is recommended to switch off infra red and Bluetooth connections on the secure phone

2 Installation

- Install Gold Lock by downloading the CAB installation file, and activating it on the Windows Mobile device.
- From the phone's Programs menu, click on Gold Lock.
- When Gold Lock is first activated, you will need to input the following details:
 - Login details - the email and password of your Gold Lock account (if you do not yet have those, please sign up at www.gold-lock.com)
 - Select a name for your secure device. This will be used by you and your secure contacts to identify your device.

3 Usage

3.1 Add Secure Contact

- Select Menu => Add Contact
- Insert the device name of your secure contact and confirm.

3.2 Secure Voice call

- At least one secure contact needs to be in your contact list
- To initiate a secure voice call, highlight a secure contact, then press the "Call" button on your touch screen.

3.3 Secure Text

- To send a secure text message, highlight a secure contact, then press the "Text" button on your touch screen.
- Inset text, then press the left "Send" option.

3.4 Secure File Transfer

- To securely send a file, highlight a secure contact, then press the "File" button on your touch screen.
- Select the file you wish to send, secure transfer will then begin.
