⚠️ SAFETY

Read these simple guidelines. Not following them may be dangerous or illegal.

⚠️ DO NOT RISK

Do not switch the telephone on when mobile phone use is prohibited or if it may cause interference or danger.

⚠️ ROAD SAFETY

Do not use the phone while driving a car.

⚠️ RESTRICTED AREAS

Turn off the phone in aeroplane, as it may interfere with other devices on the plane. Your phone can interfere with medical equipment in hospitals and health care facilities. It should apply to all kinds of prohibitions, regulations and warnings provided by medical personnel.

⚠️ SAFETY ON GAS STATION

Switch off your mobile phone while refuelling at a gas station. Do not use it close to chemicals.

⚠️ QUALIFIED SERVICE

Only qualified personnel may install software or repair this product. Repairs by unqualified phone service or by an unauthorized service centre may damage your phone and cause a loss of your warranty.

⚠️ BATTERY AND ACCESORIES

Always try to store the battery in temperatures between 15 and 25 degrees Celsius (59°   and 77° F). Extreme temperatures decrease battery's capacity and vitality.
Avoid contact with liquids and metal objects. Such contact can lead to total or partial damage of the battery.
Do not destroy, damage or dispose battery in a fire - this could be dangerous and cause a fire.
Worn out or damaged battery should be stored in a special container. Do not open the battery.

Use the battery only for its intended purpose.
Overcharging can damage the battery. Therefore, it should not be charged for more than 3 days. Unplug unused charger from the power supply. Use only original myPhone accessories that are available with your phone.
In case of charger`s wire damage - it should not be to fixed. The charger must be replaced.

⚠️ WI-FI (WLAN)
This device uses non-harmonized frequency of wireless communication and is intended for use in all European countries. In the European Union the WLAN can be used indoors without any restriction. In France, the WLAN must not be used outdoors.

⚠️ WATERPROOF
This device is not waterproof. Protect it from moisture.

⚠️ CHILDREN
Your phone is not a toy. Keep your device and its accessories out of reach of children.

⚠️ INTERFERANCE
All wireless devices may cause interference which can affect the quality of work of any other equipment.

Tech specification:

- **4,5" 854 x 480px capacitive touchscreen LCD, 6:9 ratio**
- **1800mAh battery**
- **input and output charger parameters: 100-240V AC, 50/60Hz, 150mA**
  - **output: 5V DC, 1000mA**
- **Power the phone under standard conditions:**
  - **5V DC, 1000mA**
- **Smartphone`s weight (with battery): 130g**

SIM card inserting

myPhone FUN2 is a mobile phone using Dual SIM technology. Dual SIM allows you to use two mobile networks at the same time. To insert the SIM card correctly follow the instructions:

- Turn off the phone, remove the back cover (undermining the slot located in the left corner of the base of the phone with your nail) and pull out the battery.
- Insert the SIM card into the slot following the pictures from above and below the socket.

⚠️ MICRO SIM ADAPTERS

Do not install hollow (with no card) micro-SIM card adapter in your smartphone. This will cause a jam. Attempt to draw jammed adapter back from the slot can cause mechanical damage of the phone. If SIM card adapter deadlocks in the socket, you should contact an authorized myPhone service!

Memory card inserting

Use only memory cards compatible and approved by myPhone. Incompatible memory card may damage itself and the device and remove stored data. Incompatibility of memory card can be caused by incorrect card format (micro SD format is required) or unsupported card size (over 32GB). To insert the memory card

myPhone FUN3 ENG

correctly follow the directions:

- Turn off the phone and take off the back cover (undermining the slot located in the left corner of the base of the phone with your nail).
- The memory card slot is located above the battery on the right. Following the drawing insert the memory card into the slot.

Battery inserting

To insert the battery:
- Turn the phone back cover up.
- Take off the back cover (undermining the slot located in the left corner of the base of the phone with your nail).
- Insert the battery (pay attention to the correct orientation of the battery contacts and phone contacts – these should be adjacent to each other).
- Replace the back cover.

Battery charging
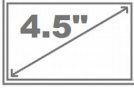

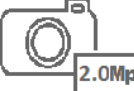

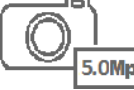

The battery should be charged prior to the first turning on the device. Charge the battery with the kit charger. The device has a battery capacity of 1800mAh. In case of any problems with the battery - the device must be provided to myPhone service center.

Use only chargers and cables approved by myPhone. Using unapproved chargers or cables could cause an explosion or damage the battery in other way.
