

FH-3000 FRAME HEATER

# User's Manual

# Notification

Dear Users,

Thank you for your purchase of FH 3000 Frame Heater. Please take time to read our user's manual carefully before use.

This guarantees you to make full use of this unit and prolongs the operation life of this unit.

## Precautions

If you have detected abnormal heat, smoke, noise or smell, immediately stop using the product.

In the event of an abnormality, turn off the power and disconnect the power plug from the power socket. Continuing to use the product may result in electric shock or fire.

Observe the instructions given below regarding the power cable:

- Be sure to use the supplied or specified power cable.
- Do not modify, forcibly bend, kink or pull the power cable.
- When disconnecting the power cable from the AC outlet, be sure to hold the cable by the plug.  
Pulling the cable may cause wire breakage or short circuit, resulting in fire or electric shock.
- Do not connect or disconnect the plug of the power cable to/from the AC outlet using wet hands.  
Doing so may result in electric shock.
- Do not touch the product with wet hands while the power cable is connected to the AC outlet.  
Doing so may result in electric shock.
- If the product will not be used for a long period, disconnect the power cable from the power source. Leaving the cable connected to the power socket for a prolonged period will consume electricity and may result in heating.

# 1. Function Introduction

The Frame Heater is a hot air blower for the softening of celluloid frames and similar material.

The Frame heater permits a forced air ventilation, changing the desired power with the insertion of one or two resistance.

1. Two temperature settings: 80 ~ 150° C
2. Heat resistant plastic vents and top.
3. Heat resistant plastic heat concentrator included.
4. Incorporates safety thermal cut-out switch.

## 2. Specifications

Size	200*144*213mm
Weight	1.6 Kg
Power	900 W
Voltage	220 ~ 230V 110 ~ 115V
