◆ Installation Diagram

Remarks:

YATOUR Adapter is only fit for vehicles whose Head Unit is with **CD Changer Port**.

◆ Installation Steps

1. Before installation, turn off the electric power, remove the Head Unit from the dashboard, and find CD Changer port at the back of the Head Unit.
2. Properly connect the wire harness between YATOUR and the Head Unit, and connect iPod/iPhone to YATOUR. If there is an existing CD Changer, the male connector will be used, in this case it must be connected to the CD changer. Also connect the black Earth cable(if there is) to the metal body of the Head Unit.
3. Switch on the car electric power and run the Head Unit, check whether YATOUR adapter works normally.
4. After the successful test, reassemble the head unit, and put the wire harness in proper place. Then installation is completed.

Specific Notes:

1. In these Audi vehicles, a solid 3-in-1 factory connector blocks access to the CD changer port.

The factory connector must be removed to gain access to the CD changer port. If that is your case, you need to use YATOUR Audi 20-pin Adapter Cable that accepts the factory connector and plugs into the radio.

2. Audi **NAVI Plus I & II** system is not guaranteed about compatibility.
