(15) Recording

What you written on the note during your lecture is recorded in movie file format in this mode. By means of this function, you can create lecture contents and make an on-line service.

- ※ Windows Media Encoder provided by Microsoft should be installed to your computer to use recording function of i-Pro
- ※ In order to use recording function, sound device and microphone are required. For screen recording, camera device is required.
- ※ Some camera devices and capture devices may not be compatible.

C. Description of Floating Toolbar

※ Since floating mode is same as bar mode's icon and function, the explanation thereof is omitted here. For more information, please check out "5. Screen Constitution and Main Functions" chapter.

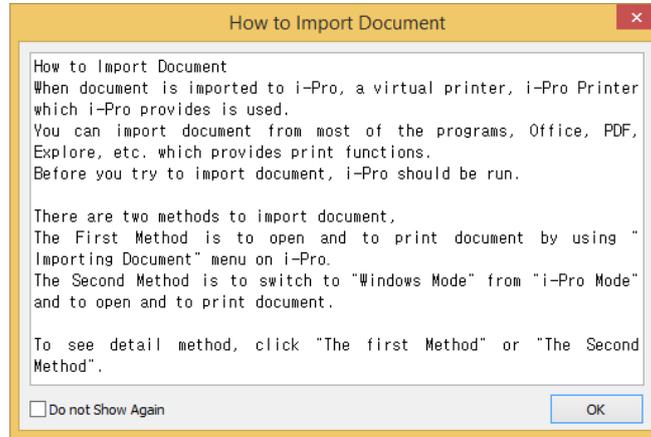

6. Applications

A. Importing documents

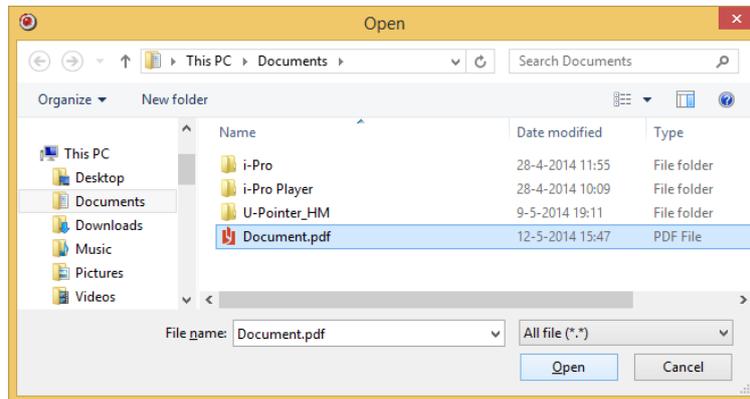

I-Pro provides 4 kinds of backgrounds for your convenience during presentation. In addition to this, your Microsoft Office Documents, PowerPoint, Excel, PDF and etc can be imported for your presentations.

As described in (3) Creating a Note of chapter 5, click "import documents".

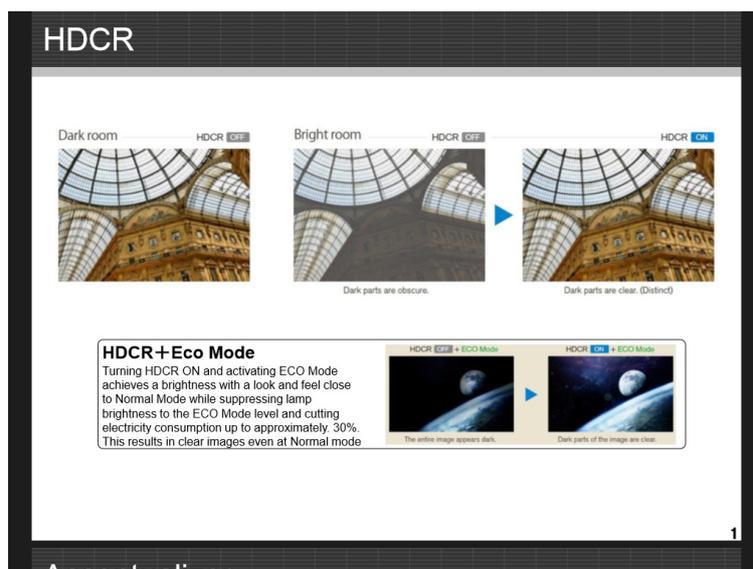

A dialog box will be appeared as follows and the file imported will be opened accordingly.

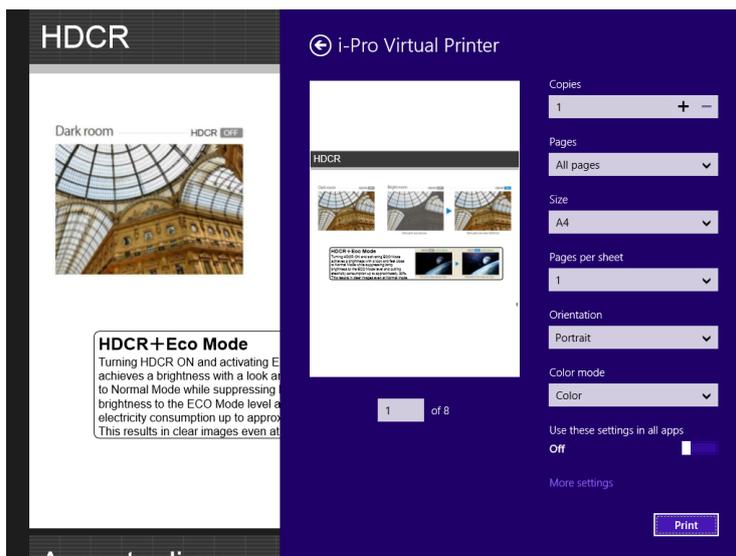

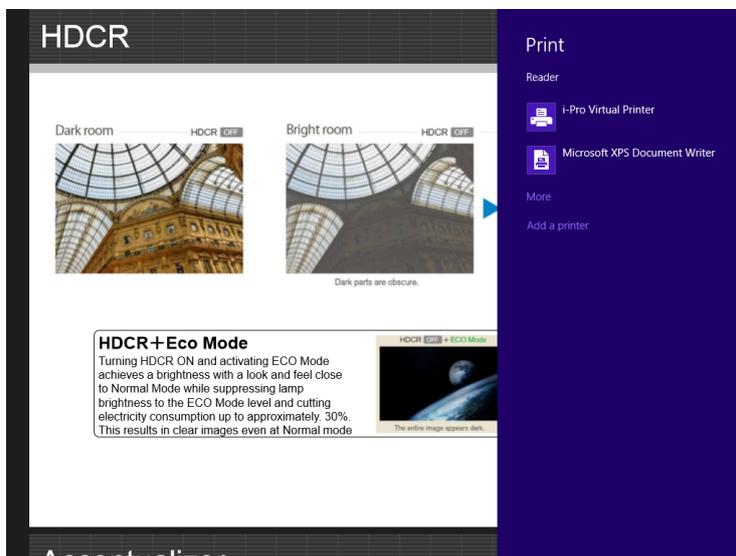

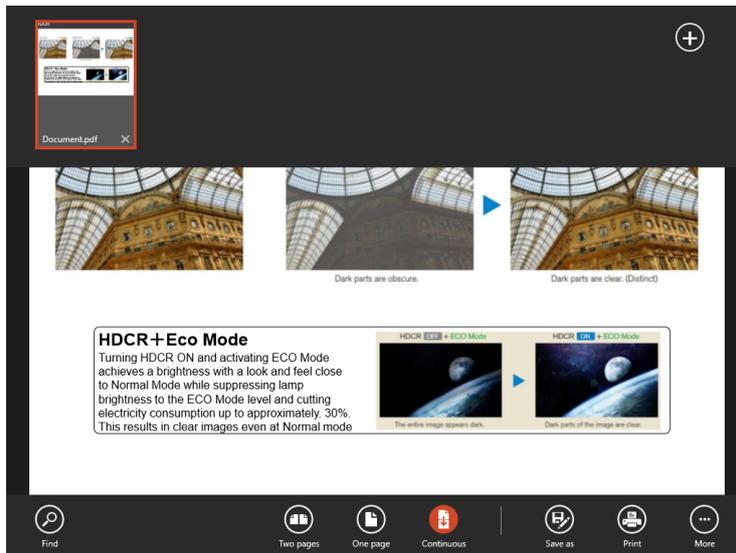

Click "OK".

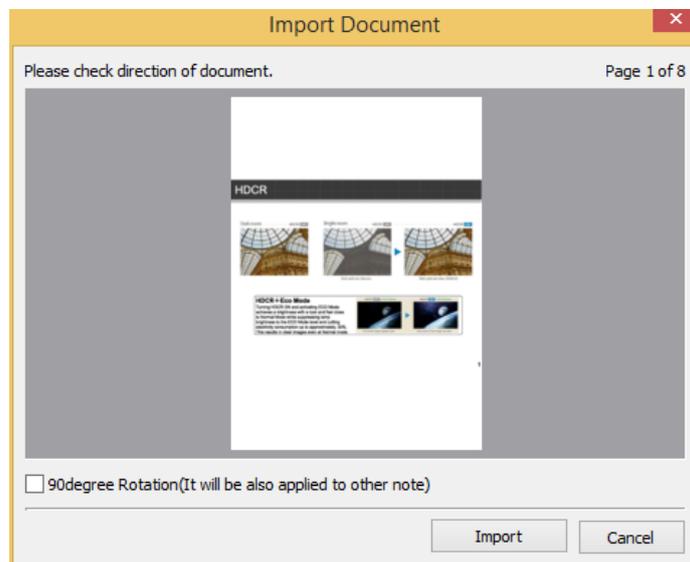

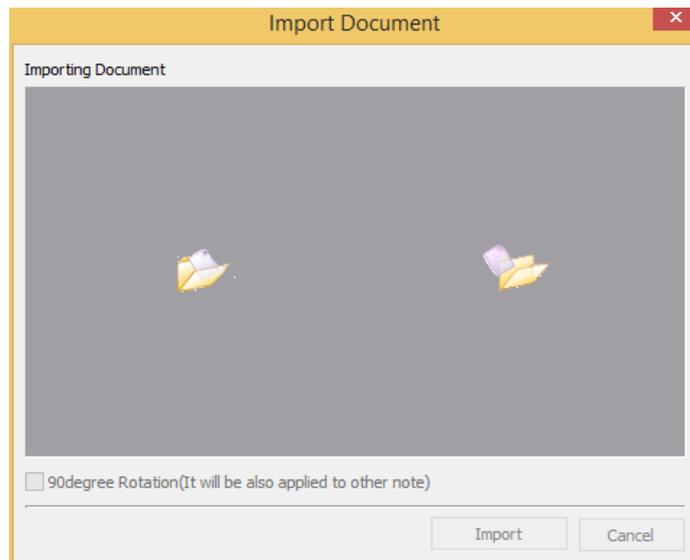

After selecting a document at a dialog box and click "Open", document program will be executed.

When the selected file opened, click "print" in menu as you do print actually.

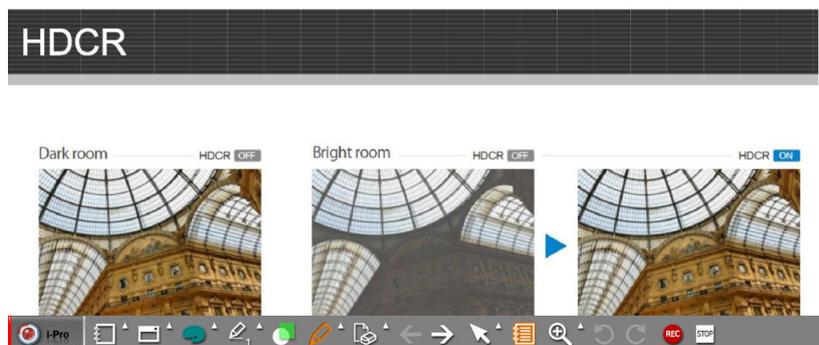

Please select “i-Pro Virtual Printer” at Print and select a page you wish to import.
 If you print whole pages, the pages are imported and if you select only a present page or page number, the selected pages are imported. As clicking print button, importing dialog is executed.

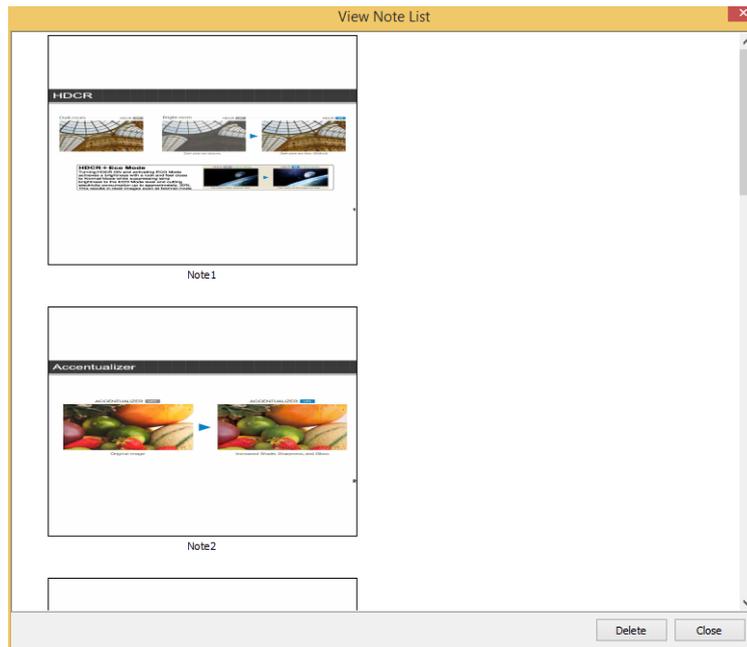

Prior to importing, it will be asked you whether to rotate document or not.
 After selecting a direction of document you wish, please click "Import".

1/8

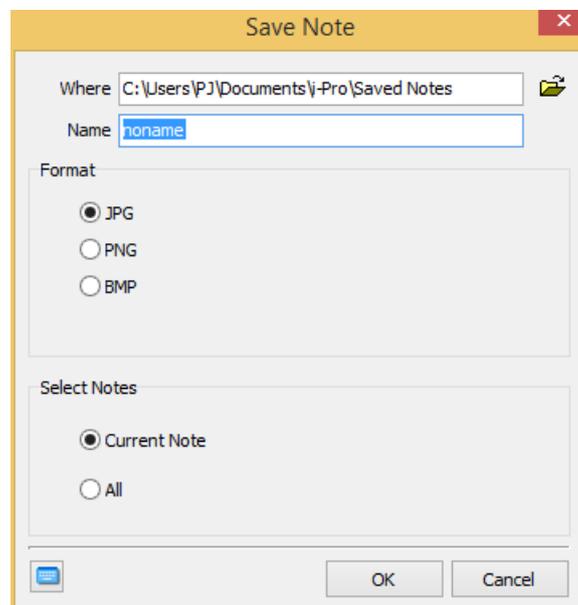

B. Note list and delete

During presentation, a number of notes are created or prepared lecture notes are used. You can check all notes list and remove the note.

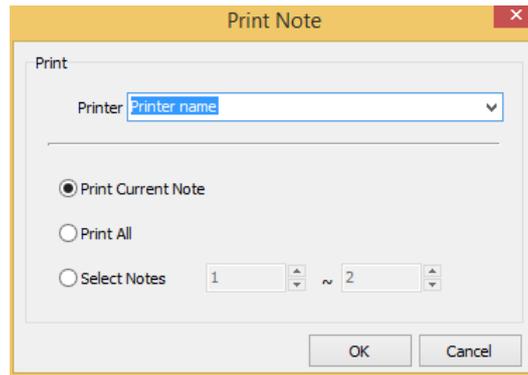

In order to move a selected note in above image, please do a double click to the note by Interactive pen or Mouse. To remove the selected note, please click "Delete" button. For a reference, when you remove the note, user can remove several notes at the same time.

C. Save Note
