## Atmospheric commercial water heater

**ADMP / ADM / ADMR - 40/50/60/80/90/115/135**

An extensive range of atmospheric water heaters to suit most larger hot water systems • Efficient, automatic hot surface igniter • Removable control column for convenient servicing • Frost-protection thermostat • Stainless steel burner for natural or LP gas • Two access covers for comprehensive waterside tank maintenance • External control connection • Voltage-free contact for general fault indication • Optional ancillaries: Unvented kits • Destratification pump kit • Powered anode • Flue fan kit • **ADMP** Permanent pilot ignition • Pilot proving kit available • **ADM** Electronic ignition • Control, high limit and energy cut-off thermostats provide triple protection and ensure safe operation • **ADMR** Electronic ignition • Flue damper to minimise standing losses • ThermoControl for easy and flexible control / fault diagnosis • Programmable for legionella purge cycle

A.O. Smith unvented system kits utilise combination valves.

An ADM/ADMP or ADMR water heater should be installed in accordance with local standards and ventilation requirements (category B11BS).

Further installation and connection details can be found in the Installation & Commissioning Manual.
