## How to clean the aroma diffuser ?

Important: Always turn off the device and unplug the electrical power before cleaning the device. Never use a sharp object to clean it.

- Empty the water tank before wiping it out using a clean and soft damp cloth. You can use a gentle detergent if needed. Always rinse and dry well before using the device again or storing it.

- To clean the ultrasonic oscillator at the bottom of the water tank when needed ( see problems solving), use a cotton bud impregnated with alcohol.
