Crib Warnings

WARNIN

Failure to follow these warnings and assembly instructions could result in serious injury or death.

• Read all instructions before assembling crib. KEEP INSTRUCTIONS FOR FUTURE USE. DO NOT use this crib if the instructions can not be strictly followed.

NARNING -

Infants can suffocate on soft bedding. Never add a pillow, comforter or padding.

• To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

Strangulation Hazard:

- Strings can cause strangulation! **DO NOT** place items with a string around a child's neck, such as hood strings or pacifier cords. **DO NOT** suspend strings over a crib or attach strings to toys.
- To help prevent strangulation tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.
- **DO NOT** place crib near window where cords from blinds or drapes may strangle a child.

Fall Hazard:

- When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.
- After raising side, make sure latches are secure.
- DO NOT leave child in crib with side lowered. Be sure side is in raised and locked position whenever child is in crib.
- When child is able to climb out or reaches the height of 35 in. (90 cm), the crib shall no longer be used and can be converted to a transitional bed.
- Ensure the safety of your child by tightly securing and routinely maintaining all bolts and fastener.
- Check this product for damaged hardware, loose joints, missing parts or sharp edges before and after assembly and frequently during use. DO NOT use crib if any parts are missing, damaged or broken. Contact BSF BABY INC. at 1-800-886-9555 orrwite to 80 Richards Street, Brooklyn, NY 11231 for replacement parts and instructional literature, if needed. DO NOT substitute parts.
- DO NOT use a water mattress with this crib.
- If refinishing, use a non-toxic finish specified for children's products.
- Never use plastic shipping bags or other plastic film as mattress covers as they can cause suffocation.
- Infants can suffocate in gaps between crib sides and a mattress that is too small.
- CAUTION: Any mattress used in this crib must be at least 27 1/4 inches (69 cm) by 51 5/8 inches (131 cm) with a thickness not exceeding 6 inches (15 cm).

To disassemble crib for storage, follow steps in reverse.

Store all parts and hardware together in a safe place. Store the instruction manual in the supplied envelope attached to the mattress support assembly for future reference for reassembly.

To clean bed frame and bed rails, use only mild household soap and warm water. Do not use bleach or detergent. Do not use abrasive cleaners which can scratch the finish of the bed. Use clean soft cloths to wash, rinse and dry. With proper care, the quality finish will last a long time. Wood surfaces may be treated with a light application of a good grade non toxic furniture polish.

Notes

WARNING ENTRAPMENT/STRANGULATION HAZARD

- Failure to follow these warnings and assembly instructions could result in serious injury or death.
- . Infants have died in toddler beds from entrapment and strangulation
- The mattress intended for use on the bed shall be a full-size crib mattress having minimum dimensions of 27 1/4 in. (690 mm) in width and 51 5/8 in. (1310 mm) in length and 4 in. (100 mm) in thickness. Not exceeding 6 in. (150 mm) in thickness.
- The minimum age for a child using this transitional bed shall not be less than 15 months and the maximum weight shall not be greater than 50 lbs. (22.7 kg).
- DO NOT use with less than 12 inches of space between the transitional bed and solid objects such as a wall or dresser. Child could slide into smaller spaces and suffocate.
- DO NOT place bed near window where cords from blinds or drapes may strangle a child. Child may fall out of window.
- Strings can cause strangulation! **DO NOT** place items with a string around a child's neck, such as hood strings or pacifier cords. **DO NOT** suspend strings over a crib or attach strings to toys.
- DO NOT use a water mattress.
- DO NOT use casters on transitional bed.
- If guardrails are provided as the mattress containment means, guardrail(s) provided must be used to avoid the formation of a gap between the mattress and the bed that could cause an entrapment. If mattress retention clips are provided they must be used to restrict mattress movement.

Parts Needed:

After unit is assembled, use the following instructions to keep instruction manual for future use.

1. Pick up instruction manual.

2. Fold instruction manual in half.

3. Slide instruction manual into warning envelope attached to mattress base assembly.

4

CC Toddler Rail Bolt (x6)

Attach two (2) Adapter Plates (G) to Full Size Headboard using two (2) Adapter Bolts (dd). Full Size Headboard complete.

Continue to Step 12...

HARDWARE SHOWN AT ACTUAL SIZE

Attach one (1) Left End (A) to one (1) Stationary Side (C) using two (2) Crib Bolts (aa).

Continue to Step 2...

To assemble the Full Size Headboard: remove two (2) Mattress Base Bolts with Locktite Threadlocker Blue and four (4) Bolts from the back of the Crib Assembly as shown.
