

# SAVERCALL-3000 -- Wireless Security System

can protect your family and property from intruder, fire & emergency

## SAVERCALL-3000 Main Functions

Info-communication Development Authority of Singapore Registration No. LPREQ-S0183-2004

## SAVERCALL-3000 Main Features

- ★ **Simple programming & operation**
  - Very user friendly.
  - LCD display & Voice guided setup and operation.
  - Password protected for all setup programming options.
  - Memory chip stores all programmed data supported by rechargeable back-up battery
- ★ **Auto-Dialer**
  - Automatically calls out and notify up to 5 user specified telephone / mobile numbers upon alarm activation and play pre-recorded voice messages.
  - Eliminate the need of system calling call-center to notify users of alarm activation hence **NO** monthly service charge or fee.
- ★ **Loud Siren (including built-in siren)**
  - Immediately deters intruders.
  - Alerts users, neighbours and others of an alarm activation.
- ★ **Phone-line & Power Supply Disconnection Alarm**
  - Voice and LCD notification when phone-line and/or power supply is disconnected.
- ★ **Remote Operation via Telephone**
  - User can call in from anywhere in the world to program system or to switch system into "**Alarm-Home**", "**Alarm-Away**" or "**Wait**" mode".
  - Monitor situation or speak directly to an intruder or a family member requiring emergency assistance.
- ★ **Caller-ID (CID) Function**
  - Saves up to maximum 20 phone numbers.
  - Supports redial function.
- ★ **Various Additional Functions**
  - Provides function Chime-Bell Alarm, Wake-Up Call and etc.
- ★ **FM Frequency provides wireless coverage of up to 50 m (~150ft)**
  - Covers entire house, apartment, small offices and etc.
  - No cabling work required for all sensors except for external siren.
  - Wire extension port also provide support for wired type of sensors.
