## 1 Getting Started

2

## **Battery Charging**

The tablet has a built-in rechargeable Li-polymer battery.

1. To charge connect the AC power adapter to the DC jack on the right side of the tablet.
2. The LED indicator will illuminate to show the battery is charging. The LED indicator will turn “OFF” when it’s fully charged.
3. The tablet can be used even if the battery is being charged.

## **Power ON/OFF**

ON:

1. Press and hold the power button until the tablet turns “ON”.

OFF:

1. Press and hold the power button until device optional
2. Select power off
3. Select OK to power off the tablet

Screen Lock/Unlock:

This feature locks the screen, at the same time turn OFF the screen’s backlight after a few seconds.

Screen locks when:

1. System is idle.
2. Manually activated by pressing the Power button once.

## **How to Use TF card**

1. Insert the TF card into the TF card slot. Gently push TF card into slot until it clicks into place.
2. A prompt will be seen on the screen saying “ Preparing SD card “

## **Removing TF card**

1. Close all applications and documents which have been opened from the TF card.
2. Select “Setting” and find “ Storage” then click “Unmount SD card”.
3. A prompt will be seen on the screen saying “ SD card safe to remove”
4. Gently press the TF card to remove and pull out the TF card.

Note: Insert the TF card in correct position, otherwise it will damage the card and the slot.

### **Software Keyboard**

The tablet has a software keyboard which automatically show up when you tap the place on screen where text or number are to be entered.

### **USB Keyboard**

The unit support external USB keyboard to input text and number. Some buttons on the unit and some function keys on keyboard may not work if an external USB keyboard was connected.

### **Touch Screen**

The touch screen responds to finger touch.

Note: don't place any object on the touch screen for it may damage or crush the screen.

Single Click: single click one icon to choose the icon or option you want.

Long Press: press and hold one icon to choose the icon and you can drag it to the bottom shortcut bar.

Drag: drag on the screen and you can move between magic cube sides or

drag the application icons into the shortcut bar.

### How to connect with computer

Note: first should put the switch to Device status,

Before transporting documents, firstly you must set store mode for your MID.

1. Use USB cable to connect MID with computer. Notice bar will appear notice cue.
2. Press Menu button to pop up Menu option, and click on **Notice**.
3. In the notification panel, click on the **USB connection**, then click Loading **USB Storage Device**.
4. Then the USB connection has been successfully.

## Connection to Internet

## Ethernet:

1. Connect the Ethernet cable to the Ethernet port of the tablet.

2. Select “Settings” and Select “ More...” then Select “Ethernet”

## Wireless:

1. Select “ Settings”
2. Select “Wi-Fi” and slide OFF to ON status.
3. All detected wireless networks in the area will e listed, Click to select desired wireless connection.
4. Enter WEP key or network key if necessary.
5. Once connected to a wireless network, settings will be saved
6. Wireless icon will appear on the taskbar when connected successfully.

Note: when the tablet detects the same wireless network in the future, a pop-up notification with the name of the wireless network will appear. Click “connect” to re-establish the connection or “Forget” to remove the network from the list.

## Connect to 3G Network:

First, you need to buy a 3G wireless card from your 3G service provider. The equipment at present supports: Huawei

EVDO:

EC122

EC169C

WCDMA:

E1750

E1752

K3765

Since our company is continuously committed to improving product quality and the software edition is always updating which will support more models in the future, please refer to the finished products.

You have to buy above mentioned model to get access to 3G network. Insert your SIM card into the 3G card and then insert the 3G card into the USB port. The signal light of the 3G card will be light which means you're ready for 3G network surfing.

Select the checkbox on the back of 3G network and you'll see which means 3G connection is completed.

## Web Browsing

Connect to the internet via Ethernet or wireless and launch the browser.

## Task Bar

The Task Bar will show the following: SD card, Battery, Time, Return/Back, Desktop, Menu and Wireless

SD card

Battery

Time

Return/Back

Desktop

Menu

Wifi network

## **Install and Uninstall**
