SAFETY PRECAUTION

CAUTION:

The lightening flash with arrowhead symbol, within To reduce the risk of an equilateral triangle, is intended to alert the user to "dangerous voltage" and to prevent from a risk personnel only. of electric shock.

Warning: electric shock, don't open the cabinet. Refer servicing to qualified

The exclamation point within an equilateral triangle is intended to alert the user to important operating and maintenance (servicing).

WARNING: The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall not be placed on the apparatus.

WARNING: Do not put the candle or lamp stand on the cabinet; otherwise, there is the danger of fire.

WARNING: The unit should be connected to a power supply only of the type descry bed in the operating instructions or as marked on the unit. If you are not sure of the type of power supply (for example: 120 or 230V) to your home, consult your local dealer or local power company.

WARNING: Do not open the cabinet or touch any parts in the inner mechanism. Consult your local dealer for technical service if the opening is required.

WARNING: The mains plug is used as the disconnect device, the disconnect device shall remain readily operable.

WARNING: The battery of remote control should not be exposed excessive heat such as sunshine, fire or the like.

WARNING: Maintenance man must use the appointed screw in the rear plate.

Note: Do not open the cabinet to avoid the unit direct exposure to radiation.

Unit Cleaning: After the unit power is turned off, you can clean the cabinet, panel and remote control with a soft cloth lightly moistened with a mild detergent solution.

Attachments: Never add any attachments and/or equipment without the manufacturer consent; as such additions may result in the risk of fire, electric shock or other personal injury.

Locating: Slots and openings in the cabinet are provided for ventilation to protect it from overheating. Do not block these openings or allow them to be blocked by placing the STB on a bed, sofa or other similar surface, nor should it be placed over a radiator or heat register.

Power-Cord Protection: Place the power-supply cord out of the way, where it will not be walked on. Please take special attentions to cords at plugs, convenience receptacles and the point where they exit from the unit.

Object and Liquid Entry: Never put objects of any kind into this STB through openings, as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill any liquid on the STB.

Note: Moisture may be formed inside the unit in the following conditions:

When the unit is suddenly moved from a cold environment or an air-condition room to a warm place.

Immediately after a heater has been turned on.

In a steamy or very humid room.

If the moisture forms inside the unit, it may not operate properly. To correct this problem, turn on the power and wait about two hours for the moisture to evaporate.

Parts Replacement: When the unit parts need to be replaced, user should make sure the service technician use the replacement parts specified by the manufacturer or having the same characteristics as the original part. Unauthorized replacement may put the unit in the risk of fire, electric shock or other hazards.

Safety Check: After all the maintenances and repairs are done, user is required to request the service technician to conduct the overall safety check to ensure the machine is in the proper condition.

1. Remote Control & Panel Description

1.1 Front Panel Description

- 1. **POWER:** Is used to switch between the working mode and the standby mode.
- **2. Display (4-Digit/7-Segment):** Displays the received channel number while operating and time while in standby mode.
- **3. Remote Sensor:** Detects the infrared signals from the remote control unit.
- **4. VOL+/-:** To change volume to move cursor, change numbers in the menu or to change the choice.
- 5. MENU: To enter into the main menu and exit all menus.
- **6. OK:** To select an item in the menu and confirm it or pop up channel list when no menu.
- CH+/-: To change channels or for navigating and changing values in menus.

1.2 Rear Panel Description

1. **IF IN:** Satellite input.

2. **IF OUT:** Satellite output for cascading to other devices

Note: The operation of another receiver at the same time is only

possible with limited channel selection.

3. **RS-232:** Serial Port allowing software upgrades.

4. **TV SCART:** Output SCART for the connection to a TV set.

5. **DC 0/12V:** DC 0/12V output.

6. **VIDEO:** CVBS video output for TV AV in.

7. **AUDIO:** HiFi outputs for stereo set.

8. **ANT IN:** Antenna input for the terrestrial antenna.

9. **TO TV:** Modulator output for the connection to a TV set.

10. **AC IN:** Mains input cable.

11. **POWER ON/OFF:** Allows to completely switch off the receiver.

1.3 Remote Control Description

2. Basic Operations

2.1 Switch on STB

Switch the [Device's Main Power] switch on.

When the STB is first used it will display "Quick Setup" window. you will set Language, First Audio, Second Audio, LNB Power, Antenna Setup and Multi Search.

? Frequently Asked Question

- Q: The power of my STB is on and it is running in TV mode but the TV screen shows nothing:
- A: Make sure the TV set has been set to the correct video input(not the TV channels). For example, if you have connected the unit to the video1 input of the TV set then you need to select the corresponding input of the TV. Mostly it is done with the AV button of the TVs remote control unit.
- Q: My STB is running in TV mode but the TV screen shows nothing except one ball and "No Signal".
- A: That means the channel you selected has no signal. This can be caused by several reasons:
- 1. The channel you selected is not from the satellite to which your dish is pointing. Select another channel.
- 2. The signal of current TV channel is too weak. You can try to change to other channels with a stronger signal. If the problems still exist, please consult your local dealer or installer for technical service.
- 3. You selected the wrong LNB type in the installation menu or your DiSEqC switch configuration is not correct.

2.2 Standby Mode

- 1. Press [Power] button to switch from TV/radio mode to standby mode
- 2. In standby mode press [Power] button again to switch back to TV/radio mode. The last active channel will be showed.
- 3. To switch off the STB complete press the main power button.

2.3 Mute

- 1. Press the [Mute] button to mute the sound. On the screen an icon will be displayed to indicate the muted sound.
- 2. Press the [Mute] button again to restore the sound.

2.4 Audio

- 1. In TV mode, press the [Audio] button to open the Audio Mode window.
- Select the item you want to adjust with [CH▲/▼] and change the value with [VOL◄/►].

2.5 TV/STB

Switch TV output from STB to VCR Scart.

2.6 TV/Radio

In TV mode, press [TV/Radio] to switch to Radio mode. In Radio mode press [TV/Radio] again to switch back to TV mode.

2.7 SLEEP

Press [SLEEP] button in TV mode to set the sleep timer. You will see "SLEEP TIME OFF / SLEEP TIME 10 ~ SLEEP TIME 120".

If you ser a sleep time, the system will change to standby mode after the chosen time period.

2.8 SUB

In "Subtitle Display"menu. Subtitle: Press [VOL◀/▶] to select "standard" or "Off". Press [Vol◀/▶] to select languages. If the current channel has subtitle information, it will be displayed if this function is "On". If this function is "Off" subtitles won't be displayed.

2.9 TXT

- Press [TXT] button in TV mode to open the teletext page. This service is depending on the support of the channel provider.
- If the channel does not support teletext information, it will show "No Teletext Data" on the screen.

2.10 MULTI

In TV mode, press [MULTI] to enter the "MULTI" menu.

- Press [CH▲/▼] to switch multi picture.
- In "MULTI" menu, you can choose channels' preview window(static), starting from the current channel. Only the marked preview program is continuously playing.
- Press [CH▲/▼ / Vol ◄/►] to change the marked channel among the preview programs.

4. With [OK] you return to full screen mode in the marked channel.

2.11 P/N

In TV mode, press [P/N] button to display Mode is used to switch the display mode.

2.12 RECALL

Pressing the [Recall] button allows you to toggle between the actual and the last selected channel.

2.13 Channel Number

In TV mode you can enter the channel number directly with your remote control unit and confirm the number with the OK button to change to the desired channel.

2.14 PGUP / PGDN

In TV mode, press [PGUP / PGDN] to switch directly between satellites.

2.15 SAT

- In TV mode, press [SAT] button to open satellite list and select there, then press [OK] to open "TV Channel List" menu, select channel of the current.
- In TV mode, press [Page Up/Down] to switch directly between satellites.

2.16 FAV +/-

- 1. In full screen, press [FAV +/-] keys can switch the favorite channels in current satellite channels list directly.
- 2. The sequence of the switch favorite channels is following the sequence that in the current satellite channel list, not follow the sequence in the favorite group.

2.17 EPG

The STB supports Electronic Program Guides (EPG) to give you information about the actual programs of certain channels like event name, subtitle, description, start and finish time. This feature is depending on the service of the channel provider.

Press [EPG] to open the EPG window.

- You can move the highlighted channel with [CH▲/▼] and preview the highlighted program in the preview window. with [Vol◄/►] and display the event's detailed description.
- Press the [INFO] button in the EPG menu to display the detailed information of the actual event in the selected channel.
- To close the EPG menu press [Exit / Menu].
- Press the [Red] button in the EPG menu to program a timer with the actual events data.
- 5. Press the [Green / Yellow] to select date.

2.18 FAV

- 1. In TV mode press the [FAV] button to display the Favorite Group window on the screen as the picture beside shows.
- In the Favorite Group window you can select the desired favorite channel with [CH▲/▼] and confirm it with [OK] to switch to it. In bigger groups you can navigate with [PGUP/ PGDN].
- 3. With [VOL ◄/▶]. You can select different Favorite Groups.
- 4. Press [Exit] to close the Favorite Group window.
- ? Frequently Asked Question
- Q: Why the screen displays "No Favorite Channel" after pressing the [Favorite] button?
- A: No channels have been assigned to a Favorite Group yet. You can do this in the channel menu.

2.19 CH ▲/▼

In TV/Radio mode press [CH ▲/▼] to change channel.

2.20 V ◀/▶

In TV/Radio mode, press [Vol ◀/▶] to adjust volume.

2.21 OK

- In TV mode press [OK] button to open the Channel List window.
- 2. Press the [Red] exchange screen.
- Press [Green] button to sort the channels by free and scrambled channels. Free channel are listed first and scrambled channels last
- Press [Yellow] button to open the SAT
 list. After selecting a satellite the channel list will be reduced to the
 channels of this satellite.
- Press [FAV] button to open FAV list.
 After selecting a Favorite Group the channel list will be reduced to the channels of this group.
- Press [Blue] button to open the Find window. You can use this feature to find channel by their names.
- 7. Press [OK] to change and display the marked channel.

2.22 **MENU**

Press [Menu] button to enter or exit the current menu.

2.23 **EXIT**

Press [Exit] button to exit the current menu.

2.24 PAUSE

- 1. In playing mode, press [PAUSE], the picture will be paused, but the sound of the channel will still continues.
- 2. Press [PAUSE] again, the screen's picture will skip over to the current playing picture, and the sound of the channel will corresponding playing.

2.25 ZOOM

The [Zoom] key allows you to magnify a certain area on the images and the current screen will show

- Press [Zoom] key again, the image will enlarge rotate as x1, x2, x4, x6, x8, x12, x16.
- In "x2 ~ x16" image, using [CH▲/▼ / VOL◄/►] keys to move the image center area you want to see.
- 4. In zoom mode, press [Exit] to close "Zoom" window.

EDUARD DRES 200H 22 FIREST MESSNEEF. Since

2.26 EDIT

In TV mode, press [EDIT] button to access directly to the "TV Channel List" menu or to the "Radio Channel List" menu.

2.27 INFO

In TV mode, press [INFO] button can open information screen, in the window shows the parameters of current channel.

Two dynamic bars at the bottom of the window reflect the signal intensity and signal quality of the current channel.

2.28 USB

In TV mode, press [USB] button to access directly to the "Media Management" menu.

2.29 MP3

In TV mode, press [MP3] button to access directly to the "Media List-MP3" menu.

2.30 JPEG

In TV mode, press [JPEG] button to access directly to the "Media List-JPEG" menu.

2.31 PVR LIST

In TV mode, press [PVR LIST] button to access directly to the "Record List" menu.

2.32 PIP (Picture in Picture)

In TV mode, press [PIP] button allows you to watch two channels from the same transponder at the same time.

- Swap: press red [Swap] button to exchange the two watching channels in big picture size and smaller picture size.
- Move: press green [Move] button to move the smaller size picture to the desired position.

- List: press yellow [List] to show all the available channels of smaller picture.
- 4. Size: press blue [size] button to zoom-in or zoom out the smaller picture.

2.33 A-B

In recorded mode, during your watching, press [A-B] button to set up a starting point A, then set another point B by press [A-B] button again after a while, then it will start to playback from A to B and repeat the programs between this two points if no any interruption.

2.34 T.S.

In TV mode, press [T.S.] button you will be asked to "Do you want to time shift?" menu.

2.35 GOTO

When you play the recorded channels, press [Goto] button, the "Jump to" message box will pop up, input the Time and press [OK], then the receiver will back to the input time point and play the program from that point continually. (If the input time is more than the recorded time, the picture will back to last picture, please noted.)

2.36

When you play a recorded program, press [■] button will stop the recorded channel playing and back to the Record When Management menu. you are recording a program, press [■] button you will be asked to "Do you want to stop record?" menu.

2.37

In TV mode, press [●] button you will be asked to "Do you want to record?" menu.

2.38 ◀◀/▶▶

When you play a recorded channel, press $[\blacktriangleleft \blacktriangleleft]$ button to back the program fast and Press $[\blacktriangleright \blacktriangleright]$ to fast forward the program.

Selection: 2x, 4x, 8x speed.

2.39 ▶Ⅱ

When you play a current or recorded program, press [►II] will stop the program, press [►II] again will play the program continually, And Timeshift is started by this key.

2.40 ▶ 1 ◀

Press [►I◄] button when you play a marked program, the screen will record to the an mark point.

2.41 |◀◀/▶▶|

Press $[I \blacktriangleleft \blacktriangleleft / \blacktriangleright \blacktriangleright I]$ button when you play a marked program, the screen will jump to the next mark point.

- 1. **Jump Step Value:** "1 Mins / 3 Mins / 5 Mins / 10 Mins / 15 Mins" jump.
- 2. **Jump Step Value:** Record the an mark point.

2.42 LNB Short

When LNB is short, it will notify user on screen "LNB Short!" Please check your cables and connections for shorts. When the short is removed the warning message will disappear.

3. Installation

Press [Menu] in the TV/radio mode to enter the main menu

- Press [CH▲/▼] to select the channel item.
- 2. Press [OK] to enter the selected item.

After selecting the installation menu you can see the window like beside.

In "Installation" menu:

- Press [CH▲/▼] to select menu items among Single Search, Multi Search, TP Scan, Satellite List, TP List, Satellite Guide and Unicable Configuration.
- 2. Press [OK] to enter the selected item.

3.1 Single Search

After selecting "Single Search" you will see a window like beside:

- In the "Satellite" item press [Vol ◄/►]
 to select the satellite which you
 want to scan or press [OK] to open the
 "satellite list" to select directly with
 [CH▲/▼], press [OK] to confirm it.
- LNB Configuration: Press [OK] to enter LNB configuration, you will see a window like beside:

LNB Type: Press [Vol ◀/▶]

to switch among "Standard", "User" and "Universal" mode.

For Example: If you use a Dual LNB, then you should select "User" option in "LNB Type" and set the correct frequency in LNB type.

22K: Use [Vol ◀/▶] to switch "ON" and "Off". The 22KHz signal is used in KU universal LNBs to change between low band and high band.

! Notice: After choosing LNB type "Universal" you cannot modify 22K.

DiSEqC1.0: Use [Vol \blacktriangleleft / \blacktriangleright] to switch the options or press [OK] to open the DiSEqC1.0 option list to select directly with [CH \blacktriangle / \blacktriangledown], press [OK] to confirm it.

DiSEqC1.1: Use [Vol ◄/▶] to switch DiSEqC1.1 option or press [OK] to enter DiSEqC1.1 option to select directly with [CH ▲/▼], press [OK] to confirm it. The options of this item are: Disable / CCard1 M1 Port1 / CCard1 M1 Port2 / CCard1 M1 Port3 / CCard1 M1 Port4 / CCard1 M2 Port1 / CCard1 M2 Port2 / CCard1 M2 Port3 / CCard1 M2 Port4 / CCard1 M3 Port1 / CCard1 M3 Port2 / CCard1 M3 Port3 / CCard1 M3 Port4 / CCard2 Port1 / CCard2 Port2 / CCard2 Port3 / CCard2 Port4 / CCard2 Port5 / CCard2 Port6 / CCard2 Port7 / CCard2 Port8 / CCard2 Port13 / CCard2 Port10 / CCard2 Port11 / CCard2 Port12 / CCard2 Port13 / CCard2 Port14 / CCard2 Port15 / CCard2 Port16.

Positioner: Press [Vol ◀/▶] to select between "Off / DiSEqC1.2 / USALS". **! Notice**: When you select "DiSEqC1.2 or USALS", "DiSEqC1.0" and "DiSEqC1.1" items will be disabled.

Polarity: Press [Vol ◀/▶] to switch between "Auto / H / V ".

Toneburst: Press [Vol ◀/▶] to switch this function "On" or "Off".

- 3. DiSEqC1.0 4Port: Use [Vol ◄/▶] to switch the options of DiSEqC1.0. Between Disable / LNB1 / LNB2 / LNB3 / LNB4.
- 4. TP Index: Use [Vol ◀/▶] to select the desired transponder or press [OK] to open the TP list to select directly with [CH▲/▼], press [OK] again to display the TP number where the channel can be found.
- 5. FTA Only: Press [Vol ◄/▶] to select to scan only free channels or even scrambled channels. If you select "Yes" it will scan free channels only.
- 6. Scan Channel: Press [Vol ◄/▶] to select to scan TV + radio channels, or just TV channels or just radio channels.
- Scan Mode: You can select "Auto Scan", "Preset Scan" or "NIT Search" to blind scan preset transponders or network transponders of the selected satellite.
- 8. Search: Press [OK] to start scanning. In the lower part of the window the progress of scanning and the found channels are displayed.

3.2 Multi Search

When you enter the "Multi Search" menu a window like the one beside will open.

In the "Satellite" item press [Vol ◄/►]
to select the satellite which you want
to scan or press [OK] to open the
"satellite list" to select directly with
[CH▲/▼], and press [OK] to
mark/unmark and [MENU] to finish the
selection. You can select several

satellites in this menu. The system will use DiSEqC1.0/1.1, DiSEqC1.2 and USALS functions to search the marked satellites and scan channels.

- On "FTA Only" item, press [Vol ◄/►] to select scanning of all channels or just scanning of free channels. If you select "Yes", it will scan free channels only.
- 3. On "Scan Channel" item, press [Vol ◀/▶] to select the scanning range from TV + radio channels, only TV channels or only radio channels.
- 4. On "Scan Mode" item, you can select "Auto Scan", "Preset Scan" or "NIT Search" to blind scan preset transponders or network transponders of the selected satellite.
- 5. Select "Search" and press [OK] to start scanning. In the lower part of the window the progress of scanning and the found channels are displayed.
- 6. Press [Menu/Exit] to cancel or finish the scanning and saving the found channels.

3.3 TP Scan

When you enter "TP Scan" menu a window like the one beside will be displayed.

In the "Satellite" item press [Vol ◄/►]
to select the satellite which you want
to scan or press [OK] to open the
"satellite list" to select directly with
[CH▲/▼], press [OK] to confirm it.

- 2. TP Index: Use [Vol ◀/▶] to select the desired transponder or press [OK] to open the TP list to select directly with [CH▲/▼], press [OK] again to display the TP number where the channel can be found. Press [Red / Green / Yellow] key on the RCU for the related functions.
 - When you press [Red] it will display "New TP" in "TP Index" item. You have to set the parameters of "TP Frequency", "Symbol Rate" for this new transponder. Therefore use the number buttons of the RCU. The available range are "3000~13450MHz" and "1000~45000KS/s".
 - When you press [Green] a safety question will be displayed for confirmation to delete the current transponder or not. If you select "OK", the current transponder will be deleted and the total number of transponders will be reduced.
 - When you press [Yellow] a safety question will be displayed for confirmation to delete all transponders or not. If you select "OK", the all transponders on current satellite will be deleted.
- 3. For existing transponders you also can use number buttons to modify the parameters of "TP Frequency" and "Symbol Rate" or [Vol ◄/►] to change the value directly. "Polarity" and "FTA only" are used for setting scans conditions. Press [Vol ◄/►] to select a different mode.

On "TP Scan" item, press [OK] will open another window where you can set "Scan Mode", "Program Type" and "NIT Search". Press [Menu/Exit] to return to the previous menu.

Press [Red] button to add a new TP.

Press [Green] button to delete the current TP.

Press [Yellow] button to delete all transponders on current satellite.

 Antenna Setup: Press [OK] to enter LNB configuration, you will see a window like beside:

LNB Type: Press [Vol ◀/▶] to switch among "Standard", "User" and "Universal" mode.

For Example: If you use a Dual LNB, then you should select "User" option in "LNB Type" and set the correct frequency in LNB type.

22K: Use [Vol ◀/▶] to switch "ON" and "Off". The 22KHz signal is used in KU universal LNBs to change between low band and high band.

! Notice: After choosing LNB type "Universal" you cannot modify 22K.

DiSEqC1.0: Use [Vol $\blacktriangleleft/\triangleright$] to switch the options or press [OK] to open the DiSEqC1.0 option list to select directly with [CH $\blacktriangle/\blacktriangledown$], press [OK] to confirm it.

DiSEqC1.1: Use [Vol ◀/▶] to switch DiSEqC1.1 option or press [OK] to enter DiSEqC1.1 option to select directly with [CH▲/▼], press [OK] to confirm it. The options of this item are: Disable / CCard1 M1 Port1 / CCard1 M1 Port2 / CCard1 M1 Port3 / CCard1 M1 Port4 / CCard1 M2 Port1 / CCard1 M2 Port2 / CCard1 M2 Port3 / CCard1 M2 Port4 / CCard1 M3 Port1 / CCard1 M3 Port2 / CCard1 M3 Port3 / CCard1 M3 Port4 / CCard2 Port1 / CCard2 Port2 / CCard2 Port3 / CCard2 Port4 / CCard2 Port5 / CCard2 Port6 / CCard2 Port7 / CCard2 Port8 / CCard2 Port10 / CCard2 Port11 / CCard2 Port12 / CCard2 Port13 / CCard2 Port14 / CCard2 Port15 / CCard2 Port16.

Positioner: Press [Vol ◀/▶] to select between "Off / DiSEqC1.2 / USALS". **! Notice**: When you select "DiSEqC1.2 or USALS", "DiSEqC1.0" and "DiSEqC1.1" items will be disabled.

Polarity: Press [Vol ◀/▶] to switch between "Auto / H / V".

Toneburst: Press [Vol ◀/▶] to switch this function "On" or "Off".

5. After you completed your modification, on the "TP Scan" item, press [OK] twice to start scanning.

3.4 Satellite List

When you enter the "Satellite List" menu you can see a window like the one beside:

1. Press [Red] button to enter edit satellite menu. You can edit the satellite's name and its longitude.

Press [Green] button to open the "Add satellite" window.

 After pressing [Yellow] button you will be asked "Are you sure to delete?".
 Select "OK" to delete the marked satellite. Select "Cancel" to cancel the operation.

3.5 TP List

When you open the "TP List" menu you will see a window like the one beside.

 Press [Vol ◄/▶] to change the marked satellite.

2. Press [Red] button to open the "Edit TP" menu. Here you can edit the transponder's data.

 Press [Green] button to open the "Add TP" menu. Here you can add a new TP and setup its parameters.

4. Press [Yellow] button will open a dialog box asking you to confirm the deletion of the current TP. If you select "OK" all the related channels will be deleted. If you select "Cancel" the operation will be cancelled.

8. Technical Specification

VIDEO

Decoding MPEG-2 & MEPG-1 compatible

Bit rate Max 15Mbps
Output PAL/NTSC
Aspect ratio 4:3, 16:9, Auto

Active pixel 720x480 @ 30fps; 720x576 @ 25fps

Output connector RCA, TV SCART

AUDIO

Decoding MPEG-2/MPEG-1 layer I & II
Mode Mono, Dual, Stereo, Joint stereo

Bit rate Max 384Kbps

DEMODULATOR

Demodulation QPSK

Symbol rate SCPC/MCPC
Outer code RS (204, 188, 8)
Inner code ALL DVB rates

Energy dispersion DVB-S recommendation

INPUT SIGNAL

Frequency 950MHz ~ 2150MHz Input level -65dBm ~ -25dBm

Channel bandwidth 36MHz

Input socked F-type connector

LNB CONTROL

Power supply 13/18V (500mA max) with short circuit

protection

Polarized control 13/18V polarization (vertical/horizontal)
DiSEqC control DiSEqC1.0, DiSEqC1.1 and DiSEqC1.2

RF MODULATOR

Input IEC 169-24 Male x 1
Output IEC 169-24 Female x 1

Band UHF

TV Standard PAL BG/I/DK, NTSC M
Output Channel 21~69(PAL), 14~83(NTSC)

MISCELLANEOUS

Supply voltage 100~240VAC~50~60Hz

Power consumption Max. 25 watts
Operation temperature +5° to +40°
Storage temperature -20° to +70°

Dimension (W * D * H) 340 * 260 * 65 mm

Weight 1.87 Kg
