1. Introduction

The SVT-4 Cloud Server transfers call signals from the SVT-4 Outdoor Stations to a smart phone. This allows a live view of your front door, two-way communication with your guest, and unlocking the door remotely. When the call button of the outdoor station is pressed, the indoor monitor rings and shows a live video, and instantly sends the call signal to any registered smart phone.

2. System Diagram

3. Wiring Diagram

4. Specifications

- Supports Android and IOS systems
- Built-in 32G storage
- Automatically records a 20-second video (stored on cloud server and accessible on any registered smart phone)
- Snap pictures (stored on smart phone)
- Supports multiple users
- Two way communication
- Call duration: 120 seconds
- Answer and unlock the door from a smart phone
- Ethernet RJ45 connection (cable not included)
- Operation Voltage: DC 14.5V
- Working temperature -4°F to 140°F / -20°C to 60°C
- Dimensions: 38(H)x200(W)x152(D)mm

5. Technical parameters

Technical parameters	
Operating Voltage: DC 14.5V	Standby power consumption : 2.8~4.5W
Standby Current: $\leq 230\text{mA}$	
Operating Current: $\leq 250\text{mA}$	

6. Setup

6.1 Android System

6.1.1 Downloading the application

Download the application from GOOGLE PLAY into your smart phone.

Note: GOOGLE ID is required when downloading application from the GOOGLE PLAY.

6.1.2 Installing the application

Select the GOOGLE Store icon (picture 1-1). Search for COMViewer as shown on picture 1-2 and select the install button to download and install the application.

► Monitor via the SVT-4 outdoor station

After connecting with the SVT-4 outdoor station, the camera will be listed in the 'Camera List screen' (Picture 1-10). Select the camera icon and the SVT-4 Cloud Server connects to the SVT-4 outdoor station. When a visitor presses the CALL button of the SVT-4 outdoor station, the user can monitor and talk to the visitor, take a snap shot and unlock the door as shown on picture 1-11.

picture 1-11

picture 1-12

-  **Unlock button:** Select to unlock the door.
-  **Microphone:** Select the mic. icon and hold to talk. Release the mic. icon to send the recording to the SVT-4 outdoor station.
Note: There is no need to select this icon when visitor is talking.
-  **Snap shot:** Select to take a picture of the guest. The picture will be stored in the smart phone memory.
-  **Volume:** Select to adjust the volume.

► Check the video recordings

Select 'EVENT' to review all the video recordings from the SVT-4 outdoor station (Picture 1-12).

NOTE:

The system automatically records a 20-second video once a guest presses the call button. When the memory of the SVT-4 Cloud Server is full, the system will delete the oldest video automatically.

► Application settings

Select 'SETTING'. The setting available are the following: Account Settings, Google Drive Account Setting, Notification Setting, Version Info, Contact Us and Support as shown on picture 1-13.

picture 1-13
