

Power Monitor

With the Power Monitor, you will know how to save your money

This Power Monitor bases on Z-Wave® wireless technology and it enables you to find out what appliances are actually worth keeping plugging in and can save your energy costs. This Power Monitor can send and receive information to and from the Z-Wave® enable devices wirelessly. You can monitor the values of measurements and setup the functions in your home through PC connectivity with Z-Wave® USB dongle when you are away from home.

Features

- Simply plug in the wall outlet and attach the electronic appliance.
- Low power consumption is less than 0.6W at standby mode.
- Display the values of the measurements on the remote site.
- Fully compatible with Z-Wave® enable network that can communicate with any Z-Wave® certified device.
- Act as a repeater that can re-transmit the Z-Wave® signal to ensure the intended destination is received.

Package Contents

- Power Monitor x1
- User's Manual x1

Specifications

Item	Description
Protocol	Z-Wave®
Module Type	Plug connection
Max loading	1600W
Voltage	AC 120V / 60Hz
LED Indicator	Bicolor LED (Green / Red)
Switch	Inclusion / Exclusion button
Frequency	908.42MHz(US)
Operating Rang	Up to 100 feet (30m)
Operation Altitude	Under 2000m
Data Rate	40kbps
Application	Indoor use
Measuring Category	CAT II (Measurement category II is for measurements performed on circuits directly connected to the low voltage installation.). Pollution Degree: 2
Working Environment	Operating Temperature: 0~45°C Storage Temperature: -10~80°C * Maximum relative humidity 80 % for temperatures up to 31 °C decreasing linearly to 50 % relative humidity at 40 °C
Dimensions (LxWxH)	Approx. 67.9 mm x 89.3 mm x 57 mm
Housing	PC8600
Flame Class	UL 94 V-0
Compliance	FCC

Specifications are subject to change without further notice

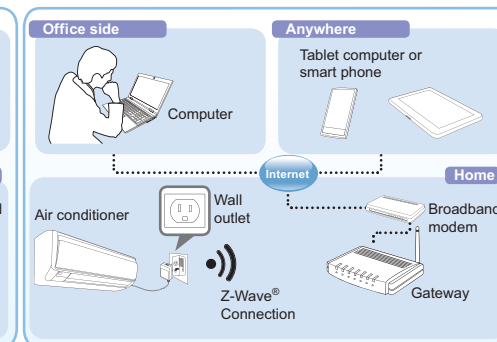

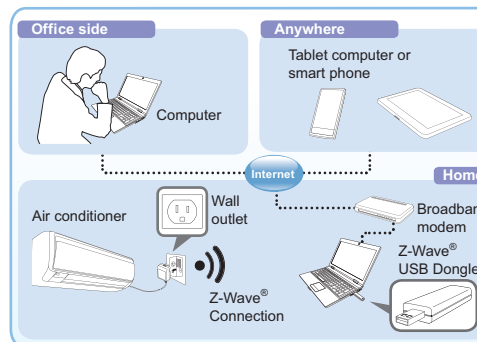

TD1030

Application

Local control

Remote control
