

ZedCam ZC-MS-02 Miniature Recorder/Player User Manual

Before operating the unit, please read this manual thoroughly, and retain it for future reference.

Warning

To prevent fire or shock hazard, do not expose the unit to rain or moisture

Attention

Electromagnetic fields at specific frequencies may influence the audio and picture of the recorder.

Be sure to read the following before using the recorder and the mini camera.

1) Trial recording

a. Before you record one-time events, you may want to make a trial recording to make sure the recorder and the camera are working correctly.

2) Do not shake or hit the recorder

a. In addition to malfunctions and inability to record moving images, this may render the SD card unusable. Image breakdown, damage or loss may occur.

3) LCD screen and mini camera

a. Be careful when placing the camera near a window or outdoors. Exposing the LCD screen or the lens to direct sunlight for long periods may cause malfunctions.

4) Back-up recommendation

- a. To avoid the potential risk of data loss, always copy data to a hard disc
- ZC-MS-02 miniature video/audio recording device (V1.0) page 1

The battery

Your DVR operates with a Sony-Ericsson mobile pone battery pack (BST-33 series) or equivalent

Installing the battery pack

Open the cover by slightly pushing and pulling it back

Insert the battery pack with the corner of " facing towards the battery compartment as illustrated. Close the battery cover

Charging the battery pack

Connect the AC power adapter with the USB port on your DVR and the charge lamp lights up when charging begins. When the charge lamp goes off, charging is completed.

Charging time

Battery pack capacity	Full charging time
720 mAh	120 min
960 mAh	180 min

Battery Life

Video recording

Battery pack capacity	Continuous recording time
720 mAh	120 min (fully charged battery)
960 mAh	150 min (fully charged battery)

Video playback

Battery pack capacity	Continuous playing time
720 mAh	120 min (fully charged battery)
960 mAh	150 min (fully charged battery)

Inserting the SD card

Insert a mini SD card as illustrated

Recording time for different SD capacities

SD card capacity	640 x 480	320 x 240	160 x 120
512 MB	Approx 28 min	Approx 102 min	Approx 341 min
1 GB	Approx 55 min	Approx 200 min	Approx 666 min
2 GB	Approx 111 min	Approx 400 min	Approx 1333 min
4 GB	Approx 222 min	Approx 800 min	Approx 2666 min

Never remove the miniSD card or turn off the power whilst the access LED is illuminated

Basic Operation

Recording videos from mini camera

Videos can be recorded in five different formats (refer to Setting up Recording)

Start recording

- 1) Slide [R/P] key towards [R] and connect the mini camera as illustrated
- 2) To record videos, press and hold the power button for 3 seconds to turn on the DVR
- 3) Press [•/▶]] key to start recording, yellow lamp flashes during recording, "•Rec" shows on the right hand corner of the screen
- The mini DVR screen will automatically turn off after 3 min. Press
 [●/▶] or [▶▶] or [■◀◀] key to turn on the screen

Stop recording

5) Press $[\bullet/\bullet]$ key again to stop the recording

Recording videos from TV set

Start recording

Slide [R/P] key towards [R] and connect the mini camera as illustrated

Following the same procedure as recording from mini camera.

Playing back recorded videos

Slide [P/R] key towards [P].

Turn on the DVR

Select the desired video with the $[\blacktriangleright \blacktriangleright]$ or $[\blacksquare \triangleleft \triangleleft]$ key Press $[\bullet/\blacktriangleright]$ key to playback the selected video Press $[\bullet/\blacktriangleright]$ key to stop playing Press $[\lrcorner]$ key to return to the recorded file list

Playback videos on a personal computer

- 1) Turn on your PC/laptop
- 2) Insert a SD card into your DVR, and turn on the power to your DVR
- 3) Connect one end of the USB cable to the USB jack of your DVR and the other to the USB connector on your personal computer.
- 4) Press $[\bullet/\bullet]$ key to select "Mass Storage", if requested
- 5) Open "My Computer" on Windows and double click the newly recognised drive. The video list on the SD card is displayed.
- 6) Select and double-click the desired video from the list

File storage destinations and files

For Windows XP/Vista users (in this example DVR drive is "D:")

Video files recorded with your DVR are listed in the folder "100Movie" in sequential order.

Playing back video on a TV screen

- 1) Connect the AV connecting cable to the AV output jack of your DVR and to the input jack of the TV
- 2) Turn on the TV, then start playback on your DVR
